The Issuer and Guarantor may agree with any Dealer that Securities may be issued in a form not contemplated by the relevant Terms and Conditions set out herein, in which event a supplement to this Base Prospectus, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Securities.

Prospective purchasers of Securities should ensure that they understand the nature of the relevant Securities and the extent of their exposure to risks and that they consider the suitability of the relevant Securities as an investment in the light of their own circumstances and financial condition. Securities may involve a high degree of risk, including, in the case of Notes, the principal not being protected or, in the case of Certificates, the risk of their expiring worthless. Potential investors may sustain a total loss of the purchase price of their Securities. See "*Risk Factors*" set out herein.

Each Tranche of Notes in bearer form (**Bearer Notes**) will initially be represented by a temporary Global Note in bearer form (a **temporary Global Note**) which: (i) if the relevant temporary Global Note is intended to be issued in new global note (**NGN**) form, as stated in the applicable Final Terms, will be delivered on or prior to the original issue date of the Tranche to a common safekeeper (the **Common Safekeeper**) for Euroclear (as defined below) and Clearstream, Luxembourg (as defined below) and (ii) if the relevant temporary Global Note is not intended to be issued in NGN form, will be delivered on or prior to the original issue date of the Tranche to a common depository for Euroclear Bank S.A./N.V. (**Euroclear**) and Clearstream Banking, société anonyme (**Clearstream, Luxembourg**) or as otherwise agreed between the Issuer, the Guarantor and the relevant Dealer. Interests in a temporary Global Note will be exchangeable for, as indicated in the relevant Final Terms either interests in a permanent Global Note in bearer form (a **permanent Global Note**) or for definitive Bearer Notes, in any case on or after the date (the **Exchange Date**) which is the first day following the later of (x) 40 days after the later of the commencement of the offering of Notes of the relevant Tranche and the date of issue thereof (or, if later, the first day after the expiration of the "restricted period" within the meaning of the relevant U.S. Treasury regulations) (the **Initial Restricted Period**) and (y) if either the commencement of the offering of Notes of any other Tranche of the same Series or the date of issue thereof falls within the Initial Restricted Period, 40 days after the later of the commencement of the offering of such Tranche and the date of issue thereof, upon certification as to non-U.S. beneficial ownership. No interest will be payable in respect of a temporary Global Note except as described under "Form of the Notes" set out herein. Interests in a permanent Global Note will be exchangeable for definitive Bearer Notes as described in "Form of the Notes" set out herein.

Notes in registered form (**Registered Notes**) will be represented by registered note certificates (**Registered Note Certificates**), one Registered Note Certificate being issued in respect of each holder's entire holding of Registered Notes of one Series. Registered Notes which are held in Euroclear and/or Clearstream, Luxembourg will be represented by a global Registered Note Certificate (a **Global Registered Note Certificate**) registered in the name of a nominee for Euroclear and/or Clearstream, Luxembourg and the Global Registered Note Certificate will be delivered to the appropriate depository. Interests in a Global Registered Note Certificate will be exchangeable for definitive Registered Note Certificates as described under "Form of the Notes" set out herein.

Notwithstanding the foregoing, Notes denominated in Australian dollars and issued in the domestic Australian capital markets (**Australian Domestic Notes**) will be issued in registered uncertificated (or inscribed) form. Australian Domestic Notes may or may not be listed on the stock exchange operated by ASX Limited (ABN 98 008 624 691) (**ASX**) and will be constituted by a Deed Poll to be executed by the Issuer and governed by the laws of New South Wales, Australia (the **Deed Poll**) and will take the form of entries on a register to be maintained by an Australian registrar to be appointed by the Issuer and the Guarantor and specified in the applicable Final Terms (the **Australian Registrar**) all as more fully described in the applicable Final Terms.

None of the Securities, the Deeds of Guarantee and any Entitlements to be delivered in respect of any Physical Delivery Securities has been nor will be registered under the United States Securities Act of 1933, as amended (the Securities Act), or with any securities regulatory authority of any state or other

jurisdiction of the United States and may include Notes in bearer form that are subject to U.S. tax law requirements. Notes may not be offered, sold or, in the case of bearer Notes, delivered within the United States or for the account or benefit of U.S. persons (as defined in Regulation S under the Securities Act), except in certain transactions exempt from the registration requirements of the Securities Act. Certificates may not be offered, sold or delivered within the United States or to U.S. persons. Hedging transactions involving Physical Delivery Securities which are Share Linked Notes or Share Linked Certificates, as the case may be, may not be conducted unless in compliance with the Securities Act. For a description of certain restrictions on offers and sales of Securities, see "*Plan of Distribution for Notes*" or "*Plan of Distribution for Certificates*", as applicable .

The Certificates will be sold exclusively outside the United States to non-U.S. persons and will be represented by a permanent global Certificate (a **Global Certificate**) which will be deposited with a common depository on behalf of Euroclear and Clearstream, Luxembourg. Definitive Certificates will not be issued.

Any person (an **Investor**) intending to acquire or acquiring any Securities from any person (an **Offeror**) should be aware that, in the context of an offer to the public as defined in the Prospectus Directive, the Issuer may be responsible to the Investor for the Base Prospectus only if the Issuer is acting in association with that Offeror to make the offer to the Investor. Each Investor should therefore verify with the Offeror whether or not the Offeror is acting in association with the Issuer. If the Offeror is not acting in association with the Issuer, the Investor should check with the Offeror whether anyone is responsible for the Base Prospectus for the purposes of Article 6 of the Prospectus Directive as implemented by the national legislation of each EEA Member State in the context of the offer to the public, and, if so, who that person is. If the Investor is in any doubt about whether it can rely on the Base Prospectus and/or who is responsible for its contents it should take legal advice.

The distribution of this Base Prospectus and the offering or sale of Securities in certain jurisdictions may be restricted by law. None of the Issuer, the Guarantor and the Dealers represents that this Base Prospectus may be lawfully distributed, or that any Securities may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assumes any responsibility for facilitating any such distribution or offering. Accordingly, no Securities may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any

advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Each potential purchaser of any Securities should determine for itself the relevance of the information contained in this Base Prospectus and its purchase of any Securities should be based upon such investigation as it deems necessary. Each potential purchaser is authorised to use this Base Prospectus solely for the purpose of considering the purchase of Securities described in this Base Prospectus; any other usage of this Base Prospectus is unauthorised. None of the Dealers undertakes to review the financial condition or affairs of the Issuer or the Guarantor during the life of the arrangements contemplated by this Base Prospectus nor to advise any investor or potential investor in any Securities of any information coming to the attention of any of the Dealers.

However, there is no assurance that the Stabilising Manager(s) (or persons acting on behalf of a Stabilising Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Except in the case of automatically exercised cash settled Certificates, there is no obligation upon the Issuer to pay any amount or deliver any asset to any holder of a Certificate unless the relevant holder duly exercises such Certificate or such Certificates are automatically exercised and an Exercise Notice is duly delivered. The Certificates will be exercised or will be exercisable in the manner set forth herein and in the applicable Final Terms.

In any EEA Member State that has implemented the Prospectus Directive, this communication is only addressed to and is only directed at qualified investors in that Member State within the meaning of the Prospectus Directive, except to the extent sub-paragraph (ii) below may apply.

*This Base Prospectus has been prepared on the basis that, except to the extent sub-paragraph (ii) below may apply, any offer of Securities in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a **Relevant Member State**) will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of Securities. Accordingly any person making or intending to make an offer in that Relevant Member State of Securities which are the subject of a placement contemplated in this Base Prospectus as completed by the Final Terms in relation to the offer of those Securities may only do so (i) in circumstances in which no obligation arises for the Issuer, the Guarantor or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State and (in either case) published, all in accordance with the Prospectus Directive, PROVIDED THAT any such prospectus has subsequently been completed by final terms which specify that offers may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State and such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or final terms, as applicable. Except to the extent sub-paragraph (ii) above may apply, none of the Issuer, the Guarantor and any Dealer has authorised, nor does any of them authorise, the making of any offer of Securities in circumstances in which an obligation arises for the Issuer, the Guarantor or any Dealer to publish or supplement a prospectus for such offer.*

Except to the extent sub-paragraph (ii) above may apply, each person in a Relevant Member State other than, in the case of paragraph (a), persons receiving offers contemplated in the Base Prospectus in Luxembourg who receive any communication in respect of, or who acquire any Securities under, the offers contemplated in this Base Prospectus will be deemed to have represented, warranted agreed to and with each Dealer, the Issuer and the Guarantor that:

- (a) it is a qualified investor within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive; and*
- (b) in the case of any Securities acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, (i) the Securities acquired by it in the offer have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than qualified investors, as that term is defined in the Prospectus Directive, or in circumstances in which the prior consent of the Dealers has been given to the offer or resale; or (ii) where Securities have been acquired by it on behalf of persons in any Relevant Member State other than qualified investors, the offer of those Securities to it is not treated under the Prospectus Directive as having been made to such persons.*

For the purposes of this representation, the expression an "offer" in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State.

*In this Base Prospectus, unless otherwise specified or the context otherwise requires, references to **Euro** or **euro** are to the single currency introduced at the third stage of the European Economic and Monetary Union pursuant to the Treaty establishing the European Communities, as amended by the Treaty on European Union (the **Treaty**), references to **U.S. dollars** and **U.S.\$** are to the currency of the United States of America,*

*references to **Yen** are to the currency of Japan, references to **Sterling** and **£** are to the currency of the United Kingdom, and references to **A\$** and **Australian dollars** are to the currency of Australia.*

Risk Factors:

The following paragraphs do not describe all the risks of an investment in any Securities. Prospective purchasers should consult their own financial and legal advisers about risks associated with investment in any Securities and the suitability of investing in any Securities in light of their particular circumstances.

There are certain factors that may affect the Issuer's ability to fulfil its obligations under any Securities and the Guarantor's ability to fulfil its obligations under the Deed of Guarantee in respect thereof, including that such ability is dependent on the earnings of the Guarantor's subsidiaries, that the Guarantor may be required to apply its available funds to support the financial position of its banking subsidiaries, rather than fulfil its obligations under the Securities, that the Guarantor's business may be affected by economic conditions, credit, market and market liquidity risk, by competition, country risk, operational risk, fiscal and monetary policies adopted by relevant regulatory authorities, reputational and legal risks and certain regulatory considerations.

The Issuer will have the option to vary settlement in relation to certain Securities if so indicated in the applicable Final Terms.

An investment in Securities the payments and/or deliveries in respect of which is/are determined by reference to one or more values of currencies, commodities, interest rates, shares or other securities, intangibles, goods, articles, indices or other formulae (the **Underlying Assets**), either directly or inversely, or which may be exercisable for or payable in certain assets may entail significant risks and, in the case of Notes, risks that are not associated with an investment in a debt instrument with a fixed principal amount and which bears interest at either a fixed rate or at a floating rate determined by reference to published interest rate references. The risks of a particular Security will depend on the terms of such Security, but may include, without limitation, the possibility of significant changes in the prices of the relevant Underlying Assets. Such risks generally depend on factors over which neither the Issuer nor the Guarantor has control and which cannot readily be foreseen, such as economic and political events and the supply of and demand for the relevant Underlying Assets. In recent years, currency exchange rates and prices for various Underlying Assets have been highly volatile, and such volatility may be expected in the future. Fluctuations in any such rates or prices that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur during the term of any Security.

In considering whether to purchase any Securities, investors should be aware that the calculation of amounts payable in respect of any Securities may involve reference to an index determined by an affiliate of the Issuer and/or the Guarantor or to prices which are published solely by third parties or entities which are not subject to

regulation under the laws of the United States or the European Economic Area. This risk of loss as a result of the linkage to the relevant Underlying Assets can be substantial.

In relation to Certificates, there may be a time lag between exercise and valuation.

PROSPECTIVE INVESTORS MUST REVIEW THE APPLICABLE FINAL TERMS TO ASCERTAIN WHAT THE RELEVANT UNDERLYING ASSETS ARE AND TO SEE HOW ANY AMOUNTS PAYABLE AND/OR DELIVERABLE ARE DETERMINED AND WHEN ANY SUCH AMOUNTS ARE PAYABLE AND/OR DELIVERABLE, AS THE CASE MAY BE, BEFORE MAKING ANY DECISION TO PURCHASE ANY SECURITIES. NOTES MAY NOT BE PRINCIPAL PROTECTED AND CERTIFICATES MAY EXPIRE WORTHLESS.

Note only provisions

- Size: Up to U.S.\$30,000,000,000 (or its equivalent).
- Type: Notes may (i) bear interest at a fixed rate or a floating rate; (ii) not bear interest; and (iii) bear interest and/or provide that the redemption amount is calculated by reference to one or more Underlying Assets. In addition, Notes which have any combination of the foregoing features may also be issued.
- Interest periods, rates of interest and the terms of and/or amounts payable or deliverable on redemption will be specified in the applicable Final Terms.
- Maturities: Any maturity as specified in the applicable Final Terms.
- Denominations: Such denominations specified in the applicable Final Terms.
- Although there is no minimum denomination for Australian Domestic Notes, the minimum subscription price for Australian Domestic Notes will be A\$500,000 disregarding monies lent by the Issuer or its associates to the purchaser.
- Form: Notes may be issued in bearer form or in registered form.
- Bearer Notes will initially be represented by a temporary Global Note which, as specified in the applicable Final Terms, will either be exchangeable for interests in a permanent Global Note or for definitive Bearer Notes, in each case, on or after the Exchange Date. Registered Notes will initially either be represented by a Global Registered Note Certificate which, in the case of Registered Notes held in Euroclear and/or Clearstream, Luxembourg, will initially be registered in the name of a nominee for Euroclear and Clearstream, Luxembourg, or will be represented by definitive Registered Note Certificates.

Interests in a Global Note held on behalf of one or more clearing systems and interests in a Global Registered Note Certificate registered in the name of a nominee for one or more clearing system(s) will be transferable through the relevant clearing system(s). Global Notes and Global Registered Note Certificates will be exchangeable for definitive Bearer Notes or definitive Registered Note Certificates as described under *"Form of Notes"* below.

Notwithstanding the foregoing, Australian Domestic Notes will take the form of entries on a register to be maintained by an Australian registrar and specified in the applicable Final Terms and will be eligible for lodgement into the Austraclear System operated by Austraclear Limited (ABN 94 002 060 773).

Payments will be made free and clear of withholding taxes of the United States, subject to certain exceptions, all as described in *"Terms and Conditions of the Notes – Taxation"*.

Redemption:

The applicable Final Terms will specify the redemption amount or the basis for its calculation and will indicate whether the Notes can be redeemed prior to their stated maturity (other than Notes redeemable in instalments or following an Event of Default or on an illegality or for taxation reasons or, in the case of Index Linked Redemption Notes, following an Index Adjustment Event or an Additional Disruption Event or, in the case of Inflation Linked Notes, following an Inflation Index Cancellation, the rebasing of an Index or a material modification of an Index or, in the case of Commodity Linked Notes, following a Market Disruption Event or, in the case of Equity Linked Redemption Notes, following certain corporate events as described herein or following an Additional Disruption Event) or that such Notes will be redeemable prior to such stated maturity at the option of the Issuer and/or the Noteholders upon giving notice on a date or dates specified prior to such stated maturity and at a price or prices and on such terms as are indicated in the applicable Final Terms.

If "Mandatory Early Repayment Event" is specified as applicable in the applicable Final Terms, then the applicable Final Terms will specify what constitutes a "Mandatory Early Repayment Event" and, following the occurrence of a Mandatory Early Repayment Event the Notes will be redeemed and the Mandatory Early Repayment Amount will become payable.

The applicable Final Terms may provide that Notes may be redeemed in two or more instalments of such amounts, on such dates and on such other terms as are indicated in such Final Terms.

Certificate only provisions

Type:

Any kind including, but not limited to, Index Linked, Inflation Linked, Commodity Linked or Share Linked.

Form:

Certificates will be sold exclusively outside the United States to persons that are not U.S. persons and will be represented by a permanent Global Certificate in registered form which will be deposited with a common depository on behalf of Euroclear and Clearstream, Luxembourg or as otherwise specified in the applicable Final Terms. Certificates will either be exercisable on any Business Day during a specified period (**American Style**), on a specific date (**European Style**) or on such other date or dates, in each case, as specified in the applicable Final Terms.

Certificates will be exercised automatically but there is no obligation upon the Issuer to pay any amount (in respect of American Style Certificates other than American Style Certificates which are automatically exercised on the relevant Expiration Date) or deliver any asset (in respect of Physical Delivery Certificates) unless the holder duly exercises such Certificate or such Certificate is automatically exercised and an Exercise Notice is duly delivered.

No Exercise Notice will be required to be delivered in respect of Cash Settled European Style Certificates or Cash Settled American Style Certificates automatically exercised on the Expiration Date.

In relation to Certificates listed on the Italian Stock Exchange which are automatically exercised, a Certificateholder may renounce automatic exercise by delivering a duly completed Renouncement Notice to the clearing systems, copied to the Principal Certificate Agent.

If "Mandatory Early Repayment Event" is specified as applicable in the applicable Final Terms, then the applicable Final Terms will specify what constitutes a "Mandatory Early Repayment Event" and, following the occurrence of a "Mandatory Early Repayment Event" the Certificates will become cancellable and the Mandatory Early Repayment Amount will become payable.

Minimum or Maximum Exercise Number:

The number of Certificates exercisable on any Actual Exercise Date or the Exercise Date, as the case may be, must not be less than any Minimum Exercise Number specified in the applicable Final Terms.

In relation to American Style Certificates, if the number of Certificates being exercised on any Actual Exercise Date exceeds the Maximum Exercise Number the number of Certificates Exercised in excess of such Maximum Exercise Number may be deemed by the Issuer to be exercised on the succeeding Business Days until all such Certificates have been attributed with an Actual Exercise Date up to and including the Expiration Date.

Exercise Expenses and Taxation: A Certificateholder shall pay all Exercise Expenses.

Neither the Issuer nor the Guarantor shall be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, exercise or enforcement of any Certificate by any person and all payments and/or deliveries made by the Issuer or the Guarantor shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

Index Linked Securities: To the extent specified in the applicable Final Terms, payments will be calculated by reference to one or more indices and/or formulae as specified in the applicable Final Terms.

Inflation Linked Securities: To the extent specified in the applicable Final Terms, payments will be calculated by reference to one or more inflation indices and/or formulae as specified in the applicable Final Terms.

Commodity Linked Securities: To the extent specified in the applicable Final Terms, payments will be calculated by reference to one and/or more indices and/or commodities and/or formulae as specified in the applicable Final Terms.

Physical Delivery Securities: To the extent specified in the applicable Final Terms, settlement may be by way of physical delivery of certain assets as specified in the applicable Final Terms.

In the case of Physical Delivery, if a Settlement Disruption Event occurs or exists on any due date for delivery of such assets, settlement will be postponed until the next Settlement Business Day

in respect of which there is no Settlement Disruption Event. The Issuer in these circumstances may elect to deliver the relevant Entitlement using such other commercially reasonable manner as it may select or may pay the Disruption Cash Redemption Amount (in respect of Notes) or the Disruption Cash Settlement Price (in respect of Certificates) *in lieu* of delivering the Entitlement.

If, "Failure to Deliver due to Illiquidity" is specified as applying in the applicable Final Terms and, at the relevant time, it is impossible or impracticable, to deliver, when due, some or all of the assets otherwise due to be delivered, where such failure to deliver is due to illiquidity in the market for such assets, the Issuer may pay the Failure to Deliver Redemption Amount (in respect of Notes) or the Failure to Deliver Settlement Price (in respect of Certificates) *in lieu* of delivering some or all of such assets so affected.

In respect of Physical Delivery Notes, the Issuer may, if the Calculation Agent determines that an Underlying Asset comprises shares which are not freely tradeable, elect to substitute a substitute asset for the Underlying Asset or not to deliver or procure the delivery of the relevant Underlying Asset or the relevant substitute asset, but in lieu thereof to make a cash payment to the Noteholders equal to the fair market value of such Underlying Asset or substitute asset not delivered.

Disrupted Days, Market Disruption Events and Adjustments:

In the case of Index Linked Securities, Inflation Linked Securities, Commodity Linked Securities and Share Linked Securities, the applicable Final Terms will specify the applicable Annex to the General Conditions of such Securities which contains provisions relating to events affecting the relevant Underlying Asset(s), modification or cessation of the relevant Underlying Asset(s), settlement disruption and market disruption provisions and provisions relating to subsequent corrections of the level of an Underlying Asset (including, without limitation and where necessary, appropriate definitions of Index Adjustment Event, Market Disruption Event, Adjustment Event, Additional Disruption Event or equivalent provisions) and details of the consequences of such events. Such provisions may permit the Issuer either to require the Calculation Agent to determine what adjustments should be made following the occurrence of the relevant event (which may include deferment of any required valuation or the substitution of another Underlying Asset) or to cancel the Securities and to pay an amount determined as provided in "Illegality" below.

Other Securities:

Terms applicable to any other type of Security will be set out in the applicable Final Terms.

Illegality:

If the Issuer determines that performance of its obligations of an issue of Securities or the Guarantor determines that the performance of its obligations under the relevant Deed of Guarantee in respect of Securities or that any arrangements made to hedge the Issuer's and/or the Guarantor's obligations under the Securities and/or the relevant Deed of Guarantee, as the case may be, has or will become illegal in

whole or in part for any reason the Issuer may terminate the Securities early and, if and to the extent permitted by applicable law, will pay, in respect of each Security, an amount equal to the fair market value of such Security notwithstanding such illegality less (except in the case of Certificates listed on the Italian Stock Exchange) the cost to the Issuer and/or its affiliates of unwinding any underlying related hedging arrangements or such other amount specified in the applicable Final Terms.

- Status of Securities: Securities will constitute unsubordinated and unsecured obligations of the Issuer.
- Guarantee: Securities will be unconditionally and irrevocably guaranteed by the Guarantor pursuant to the Deed of Guarantee and the Deed of Guarantee will constitute direct, unconditional, unsubordinated and unsecured obligations of the Guarantor and rank and will rank *pari passu* (subject to mandatorily preferred debts under applicable laws) with all other outstanding, unsecured and unsubordinated obligations of the Guarantor.
- Events of Default: Notes will contain certain events of default relating to, *inter alia*, non-payment, non-performance and certain insolvency events relating to the Issuer or the Guarantor. Certificates will contain no events of default.
- Substitution: In relation to any Securities, either of the Issuer and the Guarantor may, without consent of the holders, substitute for itself in respect of such Securities or the relevant Guarantee any company which is, on the date of such substitution, in the opinion of the Issuer or the Guarantor, as the case may be, of at least equivalent standing and creditworthiness to it unless otherwise specified in the applicable Final Terms in relation to Certificates listed on the Italian Stock Exchange.
- Governing Law: English law, except that Australian Domestic Notes will be governed by, and construed in accordance with, the laws of New South Wales, Australia.
- Passporting, Listing and Trading: Applications have been made for Securities to be admitted during the period of twelve months after the date hereof to listing on the official list and to trading on the regulated market of the Luxembourg Stock Exchange. Application will be made for (1) for Certificates issued under the Programme to be listed on the Italian Stock Exchange and admitted to trading on the electronic "Securitized Derivatives Market" organised and managed by Borsa Italiana S.p.A. and (2) Notes issued under the Programme to be listed on the primary exchange and to be admitted to the Official List of Securities of the Dubai International Financial Exchange, but there can be no assurance that any such listing will occur on or prior to the date of issue of any Notes or at all.

The Issuer may make applications for a certificate of approval under Article 18 of the Prospectus Directive as implemented in

Luxembourg to be issued by the CSSF to the competent authority in one or more Member States.

Securities may also be issued on the basis that they will not be admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system or to be admitted to listing, trading and/or quotation by such other or further competent authorities, stock exchanges and/or quotation systems as the Issuer decides.

Australian Domestic Notes may be listed and admitted to trading on the ASX.

In relation to any Certificates which are listed on a stock exchange, market or quotation system, the Issuer shall use all reasonable endeavours to maintain such listing PROVIDED THAT if it becomes impracticable, unduly burdensome or unduly onerous to maintain such listing, then the Issuer may apply to de-list such Certificates PROVIDED THAT it shall use all reasonable endeavours to obtain as soon as practicable after such de-listing, an alternative admission to listing, trading and/or quotation by a stock exchange, market or quotation system within or outside the European Union, as it may decide. If such an alternative admission is not available or is, in the Issuer's opinion, impracticable or unduly burdensome, an alternative admission will not be obtained.

RISK FACTORS

EACH OF THE ISSUER AND THE GUARANTOR BELIEVES THAT THE FOLLOWING FACTORS MAY AFFECT ITS ABILITY TO FULFIL ITS OBLIGATIONS UNDER THE NOTES ISSUED UNDER THE PROGRAMME. ALL THESE FACTORS ARE CONTINGENCIES WHICH MAY OR MAY NOT OCCUR AND NEITHER THE ISSUER NOR THE GUARANTOR IS IN A POSITION TO EXPRESS A VIEW ON THE LIKELIHOOD OF ANY SUCH CONTINGENCY OCCURRING. INVESTORS MAY LOSE THEIR ENTIRE INVESTMENT OR PART OF IT AS THE CASE MAY BE. NEITHER THE ISSUER NOR THE GUARANTOR REPRESENT THAT THE LIST BELOW IS COMPREHENSIVE. PROSPECTIVE INVESTORS SHOULD READ THIS BASE PROSPECTUS IN ITS ENTIRETY AND FORM THEIR OWN CONCLUSIONS REGARDING THE ISSUER AND THE GUARANTOR.

The ability of the Issuer and the Guarantor to fulfil their obligations under the Notes is dependent on the earnings of the Guarantor's subsidiaries.

The Guarantor is a holding company that does not engage in any material amount of business activities that generate revenues. The Guarantor services its obligations primarily with dividends and advances from its subsidiaries. Its subsidiaries that operate in the banking, insurance and securities businesses can only pay dividends if they are in compliance with applicable regulatory requirements imposed on them by federal and state regulatory authorities. Its subsidiaries may also be subject to credit agreements that also may restrict their ability to pay dividends. If such subsidiaries did not realize sufficient earnings to satisfy applicable regulatory requirements, or if such requirements were changed to further restrict the ability of such subsidiaries to pay dividends to the Guarantor, the Guarantor's ability to fulfil its obligations under the Securities may be adversely affected.

Under U.S. banking law, the Guarantor may be required to apply its available funds to support the financial position of its banking subsidiaries, rather than to fulfil its obligations under the Notes.

Under longstanding policy of The Board of Governors of the U.S. Federal Reserve System, a bank holding company (such as the Guarantor) is expected to act as a source of financial strength for its subsidiary banks and to commit resources to support such banks. As a result of that policy, the Guarantor may be required to commit resources (in the form of investments or loans) to its subsidiary banks in amounts or at times that could adversely affect its ability to also fulfil its obligations under the Securities.

Economic conditions

The profitability of the Guarantor's businesses may be affected by global and local economic conditions, such as the levels and liquidity of the global financial and other asset markets, the absolute and relative level and volatility of interest rates and equity prices, investor sentiment, inflation, and the availability and cost of credit.

The Guarantor generally maintains large trading portfolios in the fixed income, currency, commodity and equity markets and has significant investment positions, including investments held by its private equity business. In addition, the Guarantor periodically holds portfolios in advance of syndication or distribution activities. The revenues derived from these portfolios are directly affected by economic and market conditions (including without limitation through the valuation of these portfolios). The valuation of a significant portion of the trading portfolios is valued using models whose inputs are not observable in the market and are therefore based on management's best estimate.

The credit quality of the Guarantor's on-balance-sheet assets and off-balance-sheet exposures is also affected by economic conditions, as more loan delinquencies would likely result in a higher level of charge-offs and increased provisions for credit losses, and lower levels of other revenues adversely affecting the Guarantor's

earnings. The Guarantor's consumer businesses are particularly affected by factors such as: prevailing interest rates; the rate of unemployment; the level of consumer confidence; residential real estate values, especially in the U.S.; changes in consumer spending; and the number of personal bankruptcies.

Credit, market and market liquidity risk

As discussed above, the Guarantor's earnings may be impacted through its market risk and credit risk positions and by changes in economic conditions. In addition, the Guarantor's earnings are dependent upon the extent to which management can successfully implement effective risk management processes and manage its positions within the global markets. In particular environments, the Guarantor may not be able to mitigate its risk exposures as effectively as desired, and may have unwanted exposures to certain risk factors.

The Guarantor's earnings are also dependent upon its ability to properly value financial instruments. In certain illiquid markets, processes to ascertain value and estimates of value, both of which require substantial elements of judgment, are required. The Guarantor's earnings are also dependent upon how effectively it assesses the cost of credit and manages its portfolio of risk concentrations. In addition to the direct impact of the successful management of these risk factors, management effectiveness is taken into consideration by the rating agencies, which determine the Guarantor's own credit ratings and thereby affect the Guarantor's cost of funds. Moreover, actions by third parties, such as rating agency downgrades of instruments to which the Guarantor has exposure and independent actions by market participants, can result in reduced liquidity and valuations of those instruments.

Competition

Merger activity in the financial services industry has produced companies that are capable of offering a wide array of financial products and services at competitive prices. Globalization of the capital markets and financial services industries exposes the Guarantor to competition at both the global and local levels. In addition, technological advances and the growth of e-commerce and regulatory developments have made it possible for non-depository institutions to offer products and services that traditionally were banking products. The Guarantor's ability to grow its businesses, and therefore its earnings, is affected by these competitive pressures and is dependent on the Guarantor's ability to attract and retain talented and dedicated employees.

Country risk

The Guarantor's international revenues are subject to risk of loss from unfavourable political and diplomatic developments, currency fluctuations, social instability, and changes in governmental policies, including expropriation, nationalization, international ownership legislation, interest-rate caps and tax policies. In addition, revenues from the trading of international securities and investment in international securities may be subject to negative fluctuations as a result of the above factors. The impact of these fluctuations could be accentuated because certain international trading markets, particularly those in emerging market countries, are typically smaller, less liquid and more volatile than U.S. trading markets.

For geographic distributions of net income, see page 20 of the Guarantor's 2007 Form 10-K. For a discussion of international loans, see Note 17 to the Consolidated Financial Statements on page 145 of the Guarantor's 2007 Form 10-K and "Country and Cross-Border Risk Management Process" on page 65 of the Guarantor's 2007 Form 10-K.

Operational risk

The Guarantor is exposed to many types of operational risk, including the risk of fraud by employees and outsiders, clerical and record-keeping errors, integration of numerous acquired businesses, and computer/telecommunications systems malfunctions. Given the high volume of transactions at the Guarantor, certain errors may be repeated or compounded before they are discovered and rectified. In addition, the

Guarantor's necessary dependence upon automated systems to record and process its transaction volume may further increase the risk that technical system flaws or employee tampering or manipulation of those systems will result in losses that are difficult to detect. The Guarantor may also be subject to disruptions of its operating systems arising from events that are wholly or partially beyond its control (for example, natural disasters, acts of terrorism, epidemics, computer viruses, and electrical/telecommunications outages), which may give rise to losses in service to customers and/or monetary loss to the Guarantor. All of these risks are also applicable where the Guarantor relies on outside vendors to provide services to it and its customers.

Fiscal and monetary policies

The Guarantor's businesses and earnings are affected by the policies adopted by regulatory authorities and bodies of the United States and other governments. For example, in the United States, policies of the Federal Reserve Board directly influence the rate of interest paid by commercial banks on their interest-bearing deposits and also may affect the value of financial instruments held by the Guarantor. In addition, such changes in monetary policy may affect the credit quality of the Guarantor's customers. The actions of the Federal Reserve Board and international central banking authorities directly impact the Guarantor's cost of funds for lending, capital raising and investment activities.

Reputational and legal risk

Various issues may give rise to reputational risk and cause harm to the Guarantor and its business prospects. These issues include appropriately dealing with potential conflicts of interest; legal and regulatory requirements; ethical issues; money laundering laws; privacy laws; information security policies; sales and trading practices; and conduct by companies in which we hold strategic investments or joint venture partners. Failure to address these issues appropriately could also give rise to additional legal risk to the Guarantor, which could increase the number of litigation claims and the amount of damages asserted against the Guarantor, or subject the Guarantor to regulatory enforcement actions, fines and penalties.

Certain regulatory considerations

As a worldwide business, the Guarantor and its subsidiaries are subject to extensive regulation, new legislation and changing accounting standards and interpretations thereof in many jurisdictions. Legislation is introduced, including tax, consumer protection, privacy and other legislation, from time to time in Congress, in the states and in foreign jurisdictions that may change banking and financial services laws and the operating environment of the Guarantor and its subsidiaries in substantial and unpredictable ways. The Guarantor cannot determine whether such legislation will be enacted and the ultimate effect that it would have on the Guarantor's results.

RISKS RELATING TO NOTES

SET OUT BELOW ARE RISK FACTORS THAT THE ISSUER AND THE GUARANTOR BELIEVE REPRESENT THE PRINCIPAL RISKS INVOLVED IN INVESTING IN THE NOTES. INVESTORS MAY LOSE THEIR ENTIRE INVESTMENT OR PART OF IT AS THE CASE MAY BE. NEITHER THE ISSUER NOR THE GUARANTOR REPRESENT THAT THE LIST BELOW IS COMPREHENSIVE. PROSPECTIVE INVESTORS SHOULD READ THIS BASE PROSPECTUS IN ITS ENTIRETY AND FORM THEIR OWN CONCLUSIONS REGARDING INVESTING IN ANY NOTES. FURTHER RISK FACTORS RELATING TO A SPECIFIC ISSUE OF NOTES MAY BE SET OUT IN THE APPLICABLE FINAL TERMS.

Prospective investors in Notes should determine whether an investment in Notes is appropriate in their particular circumstances and should consult with their legal, business and tax advisers to determine the consequences of an investment in Notes and to arrive at their own evaluation of the investment.

An investment in Notes is only suitable for investors who:

- (a) have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in Notes;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of their financial situation;
- (c) are capable of bearing the economic risk of an investment in Notes for an indefinite period of time; and
- (d) recognise that it may not be possible to dispose of Notes for a substantial period of time, if at all.

Prospective investors in Notes should make their own independent decision to invest in Notes and as to whether the investment in Notes is appropriate or proper for them based upon their own judgement and upon advice from such advisers as they may deem necessary. Prospective investors in Notes should not rely on any communication (written or oral) of the Issuer, any Dealer or any of their affiliates or their respective officers or agents as investment advice or as a recommendation to invest in Notes, it being understood that information and explanations related to Notes shall not be considered to be investment advice or a recommendation to invest in Notes. No communication (written or oral) received from the Issuer, any Dealer or any of their affiliates or their respective officers or agents shall be deemed to be an assurance or guarantee as to the expected results of an investment in Notes.

Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common features.

General risks and risks relating to Underlying Asset(s)

Notes linked to Underlying Asset(s) involve a high degree of risk, which may include, among others, interest rate, foreign exchange, time value and political risks. Prospective purchasers of such Notes should recognise that their Notes, other than any Notes having a minimum expiration value, may be worthless on redemption. Purchasers should be prepared to sustain a total loss of the purchase price of their Notes, except, if so indicated in the applicable Final Terms, to the extent of any minimum expiration value attributable to such Notes. This risk reflects the nature of a Note as an asset which, other factors held constant, may tend to decline in value over time and which may become worthless when it expires (except to the extent of any minimum expiration value). See "*Certain Factors Affecting the Value and Trading Price of Notes*" below. Prospective purchasers of such Notes should be experienced with respect to options and option transactions, should understand the risks of transactions involving the relevant Notes and should reach an investment decision only after careful consideration, with their advisers, of the suitability of such Notes in light of their particular financial circumstances, the information set forth herein and the information regarding the relevant Notes and the particular Underlying Asset(s), as specified in the applicable Final Terms.

The risk of the loss of some or all of the purchase price of a Note linked to Underlying Asset(s) upon redemption means that, in order to recover and realise a return upon his or her investment, a purchaser of a Note must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the relevant Underlying Asset(s). Assuming all other factors are held constant, the more a Note is "out-of-the-money" and the shorter its remaining term to maturity, the greater the risk that purchasers of such Notes will lose all or part of their investment. The only means through which a Noteholder can realise value from a Note prior to the maturity date in relation to such Note is to sell it at its then market price in an available secondary market. See "*The secondary market generally*" below.

Fluctuations in the value or the yield (if applicable) or the relevant rates of exchange (if applicable) of the relevant Underlying Asset(s) will affect the value of the relevant Notes. Purchasers of Notes risk losing their entire investment if the value of the relevant Underlying Asset(s) does not move in the anticipated direction.

The Issuer may issue several issues of Notes relating to particular Underlying Asset(s). However, no assurance can be given that the Issuer will issue any Notes other than the Notes to which the applicable Final Terms relate. At any given time, the number of Notes outstanding may be substantial. Notes provide opportunities for investment and pose risks to investors as a result of fluctuations in the value of the Underlying Asset(s). In general, certain of the risks associated with Notes linked to Underlying Asset(s) are similar to those generally applicable to other options or warrants of private corporate issuers. Options or warrants on equities are priced primarily on the basis of the value of underlying securities whilst Commodity Linked Notes and Index Linked Notes are priced primarily on the basis of present and expected values of the commodity (or basket of commodities) or the index (or basket of indices) specified in the applicable Final Terms.

Certain Factors Affecting the Value and Trading Price of Notes linked to Underlying Asset(s)

The aggregate Redemption Amount(s) to be paid (the **Cash Settlement Value**) (in the case of Cash Settled Notes) or the value of the Entitlements to be delivered at any time prior to expiration is typically expected to be less than the trading price of such Notes at that time. The difference between the trading price and the Cash Settlement Value or the Physical Settlement Value, as the case may be, will reflect, among other things, the "time value" of the Notes. The "time value" of the Notes will depend partly upon the length of the period remaining to maturity and expectations concerning the value of the Underlying Asset(s). Notes offer hedging and investment diversification opportunities but also pose some additional risks with regard to interim value. The interim value of Notes varies as the price or level of the Underlying Asset(s) varies, as well as due to a number of other interrelated factors, including those specified herein.

Before selling Notes, Noteholders should carefully consider, among other things, (i) the trading price of the relevant Notes, (ii) the value and volatility of the Underlying Asset(s), (iii) the time remaining to expiration, (iv) in the case of Cash Settled Notes, the probable range of any Redemption Amounts, (v) any change(s) in interim interest rates and dividend yields if applicable, (vi) any change(s) in currency exchange rates, (vii) the depth of the market or liquidity of the Underlying Asset(s) and (viii) any related transaction costs.

Changes in exchange rates and exchange controls could result in a loss of the value of the Notes and payments thereof in relation to the currency of the jurisdiction of an investor

An investment in Notes denominated in a Specified Currency other than the currency of the jurisdiction of a particular investor (the **investor's currency**), entails significant risks that are not associated with a similar investment in a security denominated in the investor's currency. These risks include, but are not limited to:

- the possibility of significant market changes in rates of exchange between the investor's currency and the Specified Currency;
- the possibility of significant changes in rates of exchange between the investor's currency and the Specified Currency resulting from the official redenomination or revaluation of the Specified Currency; and
- the possibility of the imposition or modification of foreign exchange controls by either the jurisdiction of the investor's or foreign governments.

These risks generally depend on factors over which the Responsible Persons have no control and which cannot be readily foreseen, such as:

- economic events;

- political events; and
- the supply of, and demand for, the relevant currencies.

In recent years, rates of exchange between some foreign currencies in which the Notes may be denominated, have been volatile. This volatility may be expected in the future. Fluctuations that have occurred in any particular exchange rate in the past are not necessarily indicative, however, of fluctuation that may occur in the rate during the term of any Note. Depreciation of the Specified Currency of a Note against an investor's currency would result in a decrease in the effective yield of such Note below its coupon rate and could result in a substantial loss to the investor in terms of the investor's currency.

Governments have imposed from time to time, and may in the future impose, exchange controls that could affect exchange rates as well as the availability of a Specified Currency at the time of payment of principal, any premium, or interest on any Note. There can be no assurance that exchange controls will not restrict or prohibit payments of principal, any premium, or interest denominated in any such Specified Currency.

Even if there are no actual exchange controls, it is possible that a Specified Currency would not be available to the Issuer and/or Guarantor when payments on a Note are due because of circumstances beyond the control of the Issuer and/or Guarantor. Each investor should consult their own financial and legal advisors as to the risks of an investment in Notes denominated in a currency other than the investor's currency.

The unavailability of currencies could result in a loss of value of the Notes and payments there under

Except as set forth below, if payment on a Note is required to be made in a Specified Currency and that currency is –

- unavailable due to the imposition of exchange controls or other circumstances beyond the Issuer's and/or the Guarantor's control;
- no longer used by the government of the country issuing the currency; or
- no longer used for the settlement of transactions by public institutions of the international banking community -

then, if the Specified Currency of a Note is officially redenominated, other than as a result of Economic and Monetary Union, such as by an official redenomination of any Specified Currency that is a composite currency, then the payment obligations of the Issuer and/or Guarantor on such Note will be the amount of redenominated currency that represents the amount of the Issuer and/or Guarantor's obligations immediately before the redenomination. The Notes will not provide for any adjustment to any amount payable as a result of:

- any change in the value of the Specified Currency of those Notes relative to any other currency due solely to fluctuations in exchange rates; or
- any redenomination of any component currency of any composite currency, unless that composite currency is itself officially redenominated.

Changes in the value of underlying assets of Index Linked Notes could result in a loss of value of the Notes and payments there under

Investors in Notes relating to indices should be familiar with investments in global capital markets and with indices generally. The level of an index is generally based on the value of the assets comprised in that index although investors should note that the level of an index at any time may not include the reinvestment of the yield on the assets comprised in such index. Investors should understand that global economic, financial and

political developments, among other things, may have a material effect on the value of the assets comprising an index and/or the performance of such index.

An investment in Index Linked Notes may have significant risks that are not associated with a similar investment in a conventional security such as a debt instrument that:

- has a principal amount;
- is denominated in the investor's currency; and
- bears interest at either a fixed or a floating rate based on nationally published interest rate references.

The risks of a particular Index Linked Note will depend on the terms of that Index Linked Note. Such risks may include, but are not limited to, the possibility of significant changes in the prices of:

- the assets underlying the relevant index or indices (**underlying assets**);
- another objective price; and
- economic or other measures making up the relevant index or indices.

Underlying assets could include:

- one or more securities or securities indices;
- one or more specified foreign currency or currency indices;
- a combination thereof;
- intangibles;
- goods;
- articles;
- commodities; and
- any other financial, economic or other measure or instrument.

The risks associated with a particular Index Linked Note will generally depend on factors over which the Issuer and/or the Guarantor have no control and which cannot readily be foreseen. These risks include:

- economic events;
- political events; and
- the supply of, and demand for, the underlying assets.

Investors should note that dividends paid to holders of underlying assets will not be paid to the Issuer or to the holders of Notes. The return on Notes will thus not reflect any dividends which would be paid to investors that have made a direct investment in underlying assets. Consequently, the return on Notes may be less than the return from a direct investment in underlying assets.

Market volatility reflects the degree of instability and expected instability of the performance of an index and the assets comprised in such index. The level of market volatility is largely determined by the prices for financial instruments supposed to protect investors against such market volatility. The prices of these instruments are determined by forces of supply and demand in the options and derivative markets generally. These forces are, themselves, affected by factors such as actual market volatility, expected volatility, economic factors and speculation. In recent years, currency exchange rates and prices for various underlying assets have been highly volatile. Such volatility may be expected in the future. Fluctuations in the rates or prices that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur during the term of any Index Linked Note.

In considering whether to purchase Index Linked Notes, each investor should be aware that the calculation of amounts payable on Index Linked Notes may involve reference to:

- an index determined by an affiliate of the Issuer and/or the Guarantor; or
- prices that are published solely by third parties or entities which are not regulated by the laws of the United States, European Economic Area or the jurisdiction of the particular investor.

The risk of loss as a result of linking principal or interest payments on Index Linked Notes to an index and to the underlying assets can be substantial. Each Investor should consult their own financial and legal advisors as to the risks of an investment in Index Linked Notes.

Certain considerations associated with Notes relating to shares (or baskets of shares)

Investors in Notes relating to shares should be familiar with investments in global capital markets and with shares generally. Before purchasing Notes, investors should carefully consider, among other matters, the value and price volatility of shares by reference to which amounts payable under the relevant Notes are calculated.

In the case of Notes relating to shares, no issuer of such shares will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Notes and none of the Issuer, the Guarantor and any Dealer will make any investigation or enquiry in connection with such offering with respect to the information concerning any such issuer of shares contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available documents described in this paragraph or in any applicable Final Terms) that would affect the trading price of the share will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of shares could affect the trading price of the shares and therefore the trading price of the relevant Notes.

Except as provided in the applicable Final Terms in relation to Physical Delivery Notes, Noteholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant shares to which such Notes relate. The return on such Notes may thus not reflect any dividends or other distributions which would be paid to investors that have made a direct investment in shares. Consequently, the return on Notes linked to shares may be less than the return from a direct investment in the relevant shares.

An investment in Notes relating to shares may have significant risks that are not associated with a similar investment in a debt instrument that:

- has a principal amount;
- is denominated in the investor's currency; and

- bears interest at either a fixed or a floating rate based on nationally published interest rate references.

The risks of a Note relating to shares will depend on the terms of that Note. Such risks may include, but are not limited to, the possibility of significant changes in the price(s) of the underlying share or shares. The value of shares may go down as well as up and the value of any share on any date may not reflect its performance in any prior period. There can be no assurance as to the future value of any share or of the continued existence of any share or share company. In addition, in certain circumstances it may not be possible or practicable for the Calculation Agent to determine the value of the relevant shares – see "*Disrupted Days, Market Disruption Events and Adjustments in relation to Index Linked Notes and Share Linked Notes*" below. Accordingly, before making an investment decision with respect to Notes, prospective investors should carefully consider whether an investment, the return on which will depend on the performance of shares, is suitable for them.

The risks associated with a particular Note relating to shares generally depend on factors over which the Issuer and/or the Guarantor have no control and which cannot readily be foreseen. These risks include:

- economic events;
- political events; and
- the supply of, and demand for, the relevant share or shares.

In recent years, prices for various shares have been highly volatile. Such volatility may be expected in the future. Fluctuations in the rates or prices that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur during the term of any Note relating to shares.

In considering whether to purchase Notes relating to shares, each investor should be aware that the calculation of amounts payable on such notes may involve reference to the performance of one or more shares over a period of time and to shares, the issuer(s) of which are incorporated outside the United States and the European Economic Area.

The risk of loss as a result of linking principal or interest payments on Notes to one or more shares can be substantial. Each investor should consult its own financial and legal advisors as to the risks of an investment in any such Notes.

Disrupted Days, Market Disruption Events, Adjustments and Mandatory Early Repayment in relation to Index Linked Notes and Share Linked Notes

In the case of Notes relating to shares or indices, if the terms and conditions of such Notes include provisions dealing with the postponement of an Averaging Date, Observation Date or a Valuation Date due to the occurrence of a Disrupted Day, such postponement or any alternative provisions for valuation provided in the terms and conditions of such Notes may have an adverse effect on the value of such Notes.

In the case of Notes relating to indices, if an Index Adjustment Event occurs, the Calculation Agent may determine whether such Index Adjustment Event has a material effect on the relevant Notes and, if so, shall calculate the level of the relevant index in accordance with the formula for and method of calculating the relevant Index last in effect prior to the relevant change, failure or cancellation or the Issuer may redeem the Notes as more fully set out in the terms and conditions of the relevant Notes.

In the case of Notes relating to indices, if an Additional Disruption Event occurs, the Issuer may require the Calculation Agent to determine the appropriate adjustment, if any, to be made to the terms of the Notes to account for such Additional Disruption Event or may redeem the Notes as more fully set out in the terms and conditions of the relevant Notes. Any such adjustments may have an adverse effect of the value of such Notes.

In the case of Notes relating to shares, if a De-listing, Merger Event, Nationalisation, Insolvency, Tender Offer and/or Potential Adjustment Event and/or and Additional Disruption Event (if applicable) occur(s), the terms of the Notes will be subject to adjustment (including, but not limited to, a share substitution, if "Share Substitution" is specified as applying in the applicable Final Terms), or the Notes may be redeemed as more fully set out in the terms and conditions of the relevant Notes. Any such adjustments may have an adverse effect of the value of such Notes.

If the Notes are redeemed early as provided in the above paragraphs, the Issuer will pay to each Noteholder in respect of each Note an amount equal to the fair market value of such Note less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, as determined by the Calculation Agent. There is no guarantee that the amount repaid to investors will be equal to or higher than the investor's initial investment in the relevant Notes.

If "Mandatory Early Repayment" is specified as applicable in the Final Terms relating to an issue of Notes, then the applicable Final Terms will specify what constitutes a "Mandatory Early Repayment Event" and, following the occurrence of a Mandatory Early Repayment Event, the Notes will be redeemed and the relevant Mandatory Early Repayment Amount will become payable. In this case, investors are subject to a reinvestment risk, as they may not be able to replace their investment in such Notes with an investment that has a similar profile of chances and risks as the relevant Notes.

If Notes linked to shares are redeemed early in accordance with the above, the amount received by the relevant holders will be limited to the Mandatory Early Repayment Amount irrespective of the price of the relevant shares. Furthermore, investors will not benefit from any movement in the price of relevant shares that may occur during the period between the relevant date of early redemption and the maturity date.

Certain considerations associated with Inflation Linked Notes

Many economic and market factors may influence the value of Inflation Linked Notes including, *inter alia*:

- general economic, financial, political or regulatory conditions;
- fluctuations in the prices of various consumer goods and energy resources; and
- inflation and expectations concerning inflation.

Any such factors may either offset or magnify each other.

In relation to Inflation Linked Notes, if the Calculation Agent determines that the level of a relevant Index has not been published or announced by a specified Valuation Date, then a Substituted Index Level for the relevant Index and the relevant Payment Date will be determined by reference either to the terms of any specified Related Bond or by reference to a formula as set out in the Inflation Linked Conditions or the applicable Final Terms, as the case may be.

In relation to Inflation Linked Notes, if the Calculation Agent determines that the level of an Index is not calculated or announced by an Index Sponsor for two consecutive months and/or an Index Sponsor announces that it will no longer continue to publish or announce an Index and/or an Index Sponsor cancels an Index, the Calculation Agent shall either (i) determine a successor Index by reference to the terms of any specified Related Bond or (ii) designate a "Successor Index" as the replacement index specified by the relevant Index Sponsor or (iii) if no successor Index can be determined by reference to (i) or (ii), the Calculation Agent may determine the relevant Successor Index and determine any relevant adjustments to the terms of the Notes it deems necessary or may redeem the Notes early.

In relation to Inflation Linked Notes, if the Calculation Agent determines that an Index has been or will be rebased at any time, it may make such adjustments to the levels of such Index (following the terms of any

specified Related Bond, where there is a Related Bond) so that such levels reflect the same rate of inflation as before the rebasing and may make such adjustments to the terms of the Notes as it deems necessary or may redeem the Notes early if it determines that the foregoing would not produce a commercially reasonable result.

In relation to Inflation Linked Notes, if on or prior to a specified Valuation Date, an Index Sponsor announces that it will make a material change to an Index, the Calculation Agent shall make appropriate adjustments to the terms of the Notes (consistent with any adjustments made to any Related Bond, where there is a Related Bond) to account for such change or may redeem the Notes early if it determines that the foregoing would not produce a commercially reasonable result.

Certain considerations associated with Commodity Linked Notes

In respect of Commodity Linked Notes, investors should note that the movements in the price of a commodity or basket of commodities may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of a commodity or commodities may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price or prices of the commodities, the greater the effect on yield.

Commodity futures markets are highly volatile. Commodity markets are influenced by, among other things, changing supply and demand relationships, weather, governmental, agricultural, commercial and trade programmes and policies designed to influence commodity prices, world political and economic events, and changes in interest rates. Moreover, investments in futures and options contracts involve additional risks including, without limitation, leverage (margin is usually a percentage of the face value of the contract and exposure can be nearly unlimited). A holder of a futures position may find such position becomes illiquid because certain commodity exchanges limit fluctuations in certain futures contract prices during a single day by regulations referred to as "daily price fluctuation limits" or "daily limits". Under such daily limits, during a single trading day no trades may be executed at prices beyond the daily limits. Once the price of a contract for a particular future has increased or decreased by an amount equal to the daily limit, positions in the future can neither be taken nor liquidated unless traders are willing to effect trades at or within the limit. This could prevent a holder from promptly liquidating unfavourable positions and subject it to substantial losses. Futures contract prices in various commodities occasionally have exceeded the daily limit for several consecutive days with little or no trading. Similar occurrences could prevent the liquidation of unfavourable positions and subject an investor in a Commodity Linked Note linked to such contract prices to substantial losses.

In relation to Commodity Linked Notes, if the Calculation Agent determines that a Market Disruption Event applicable to such Notes has occurred or exists on a day that is a Pricing Date, the Relevant Price for that Pricing Date will be determined in accordance with the first applicable Disruption Fallback that provides the Relevant Price or that provides for the early redemption of the Notes. The Market Disruption Events and Disruption Fallbacks which apply to an issue of Notes will either be set out in the applicable Final Terms or certain Market Disruption Events and Disruption Fallbacks may be deemed to apply to the Notes as set out in the Commodity Linked Conditions including, but not limited to, a delay in valuation or an early redemption of the Notes. Any postponement or alternative provisions for valuation may have an adverse effect on the value of the Notes.

Risk related to the possible rolling mechanism of commodity futures contracts

The yield on Commodity Linked Notes linked to commodity futures contracts or commodity indices may not be perfectly correlated to the trend in the price of the underlying commodities as the use of such future commodity contracts generally involves a rolling mechanism. This means that the commodity futures contracts which expire prior to the relevant payment date under the relevant Notes are replaced with future

commodity contracts that have a later expiry date. Investors may therefore only marginally benefit from any rise/fall in prices on such commodities.

Moreover, investors should consider that the commodity futures contracts could have a trend which differs significantly from that of the commodity spot markets. The trend in the price of a commodity futures contracts compared to the underlying commodity is closely linked to the present and future level of the production of the underlying commodity or to the level of estimated natural reserves, particularly in the case of energy linked products. In addition, the price of the relevant commodity futures contract may not be considered an accurate prediction of a market price, since it also includes the so-called carrying costs (such as, for example, warehouse costs, insurance covering the goods, etc.), which also contribute toward the determination of the price of the commodity futures contracts. These factors which directly influence the commodities prices substantially explain the imperfect correlation between the commodity spot markets and the commodity futures contracts.

Settlement Disruption Event and Failure to Deliver

In the case of Physical Delivery Notes, if a Settlement Disruption Event occurs or exists on any date specified for the delivery of the relevant Entitlement, redemption will be postponed until the next Settlement Business Day in respect of which there is no Settlement Disruption Event. The Issuer in these circumstances may select to deliver the relevant Entitlement using such other commercially reasonable manner as it may select or it may pay the Disruption Cash Redemption Amount *in lieu* of delivering the Entitlement.

If, in relation to Physical Delivery Notes which are Index Linked Notes or Share Linked Notes, "Failure to Deliver" is specified as applying in the applicable Final Terms and it is impossible or impracticable, in the opinion of the Calculation Agent, to deliver, when due, some or all of the Relevant Assets where such failure to deliver is due to illiquidity in the market for such Relevant Assets or Substitute Assets, the Issuer has the right to pay the Failure to Deliver Redemption Amount *in lieu* of delivering some or all of such Relevant Assets which are affected by such illiquidity.

Physical Delivery Notes which are held by the same Noteholder will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Notes. Such aggregate Entitlements will be rounded down to the nearest Tradeable Amount of the Relevant Asset(s), in such manner as the Calculation Agent shall determine and amounts of the Relevant Asset less than the Tradeable Amount shall not be delivered and no cash or other adjustment will be made in respect thereof unless "Cash Adjustment" is specified as applying in the applicable Final Terms, in which case, the Issuer shall pay to the relevant Noteholder a cash amount equal to the value of any such lesser amount.

Certain Considerations Regarding Hedging

Prospective purchasers intending to purchase Notes to hedge against the market risk associated with investing in the particular Underlying Asset(s) should recognise the complexities of utilising Notes in this manner. For example, the value of the relevant Notes may not exactly correlate with the value of the relevant Underlying Asset(s). Due to fluctuating supply and demand for Notes, there is no assurance that their value will correlate with movements of the Underlying Asset(s). For these reasons, among others, it may not be possible to purchase or liquidate securities in a portfolio at the prices used to calculate the value of any relevant index, share or basket.

Variation of Settlement

If the applicable Final Terms in respect of any Notes indicate that the Issuer has an option to vary settlement in respect of such Notes, the Issuer may elect not to pay the relevant Noteholders the relevant Redemption Amount or to deliver or procure delivery of the relevant Entitlement, as the case may be, but, in lieu thereof

to deliver or procure delivery of the relevant Entitlement or make payment of the Redemption Amount on the Maturity Date to the relevant Noteholders, as the case may be.

Issuer's Option to Substitute Assets or to pay the Alternate Cash Redemption Amount

If the Notes are Physical Delivery Notes, the Issuer may, if the Calculation Agent determines that the Relevant Asset or Relevant Assets, as the case may be, comprises shares which are not freely tradeable, elect either (i) to substitute a Substitute Asset or Substitute Assets, as the case may be, for the Relevant Asset or Relevant Assets, or (ii) not to deliver or procure the delivery of the relevant Entitlement or the relevant Substitute Asset or Substitute Assets, as the case may be, to the relevant Noteholders, but in lieu thereof to make payment to the relevant Noteholders on the maturity date of the Alternate Cash Redemption Amount.

Expenses

All Expenses arising from the delivery of the Entitlement in respect of Physical Delivery Notes shall be for the account of the relevant Noteholder.

Expenses in respect of Physical Delivery Notes shall be deducted by the Issuer from any cash amount owing to such Noteholder and paid by the Issuer on behalf of the Noteholder or paid by the Issuer on behalf of such Noteholder by converting such amount of the Entitlement as necessary to pay the Expenses, as specified by the Noteholder in the relevant Asset Transfer Notice. If any Expenses are not so paid, the relevant Noteholder shall be deemed to authorise the Issuer to convert and the Issuer may convert such amount of the Entitlement into cash sufficient to cover the Expenses in respect of the relevant Note from which the Issuer shall deduct such Expenses.

Illegality in relation to Notes

If the Issuer determines that the performance of its obligations under an issue of Notes or the Guarantor determines that the performance of its obligations under the Deed of Guarantee in respect of such Notes or that any arrangements made to hedge the Issuer's and/or the Guarantor's obligations under such Notes and/or the Deed of Guarantee, as the case may be, has become illegal in whole or in part for any reason, the Issuer may redeem the Notes early and, if and to the extent permitted by applicable law, will pay to each Noteholder in respect of each Calculation Amount held by such holder, an amount equal to the fair market value of each such Calculation Amount notwithstanding such illegality less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements.

Modification, waivers and substitution

The Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters which may have a general or specific effect upon their interests. These provisions permit defined majorities to bind all Noteholders, including those Noteholders who did not attend and vote at the relevant meeting, and Noteholders who voted in a manner contrary to the majority.

The Conditions of the Notes also provide that the Issuer and the Guarantor may make, without the consent of the Noteholders, (i) any modification to the Notes, the Receipts, the Coupons, the Talons, the Fiscal Agency Agreement, the Deed Poll, the Deed of Covenant, the Registry Services Agreement and/or the Deed of Guarantee which is not prejudicial to the interests of the Noteholders or (ii) any modification to the Notes, the Receipts, the Coupons, the Talons, the Fiscal Agency Agreement, the Deed Poll, the Deed of Covenant, the Registry Services Agreement and/or the Deed of Guarantee which is of a formal, minor or technical nature or is made to correct a manifest or proven error or to comply with mandatory provisions of the law.

Determinations

The terms of the Notes confer on the Calculation Agent some discretion in making determinations and calculations in relation to, *inter alia*, Underlying Asset(s) and the occurrence of various events. Whilst the Calculation Agent will act in good faith and in its sole and absolute discretion (unless otherwise specified in the applicable Final Terms), there can be no assurance that the exercise of any such discretion will not affect the value of the Notes or the occurrence of an early repayment.

Change of law

The Conditions of the Notes are based on relevant laws in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to such laws or administrative practices after the date of this Base Prospectus.

Notes subject to optional redemption by the Issuer

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Partly-paid Notes

The Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of his investment.

Variable rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features, their market values may be even more volatile than those for securities that do not include those features.

Inverse Floating Rate Notes

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of those Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Fixed Rate Notes

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that converts from a fixed rate to a floating rate or from a floating rate to a fixed rate. Where the Issuer has the right to effect such a conversion, this will affect the secondary market and the market value of the Notes, since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other floating rate Notes issued by the Issuer. If the Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than the prevailing rates on its other fixed rate Notes.

Risks related to the market generally

Impact of implicit fees on the Issue/Offer Price

Investors should note that implicit fees (e.g. placement fees, direction fees, structuring fees) may be a component of the Issue/Offer Price of Notes, but such fees will not be taken into account for the purposes of determining the price of such Notes in the secondary market.

The Issuer will specify in the relevant Final Terms, the type and amount of any implicit fees which are applicable from time to time.

Investors should also take into consideration that if Notes are sold on the secondary market immediately following the offer period relating to such Notes, the implicit fees included in the Issue/Offer Price on initial subscription for such Notes will be deducted from the price at which such Notes may be sold in the secondary market.

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid and an investor may not be able to find a timely and/or suitable counterpart. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market or at prices higher than the relevant investor's initial investment. Therefore, in establishing their investment strategy, investors should ensure that the term of the Notes is in line with their future liquidity requirements. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes. The liquidity of Notes is also influenced by whether or not the relevant Notes are exclusively offered to retail investors without any offer to institutional investors.

The Issuer may, but is not obliged to, list an issue of Notes on a stock exchange. If Notes are not listed or traded on any exchange, pricing information for the relevant Notes may be more difficult to obtain and the liquidity of such Notes may be adversely affected.

If Notes are not listed on a regulated market, they may be traded on trading systems governed by the laws and regulations in force from time to time (e.g. multilateral trading systems or "MTF") or in other trading systems (e.g. bilateral systems, or equivalent trading systems). Trading in such Notes may take place outside the above-mentioned trading systems, with possible risks as to the transparency of the determination of prices. Investors should note that the Issuer does not grant any warranty to Noteholders as to the methodologies used to determine the price of Notes which are traded outside a trading system, however,

where the Issuer or any of its affiliates determines the price of such Notes, it will take into account the market parameters applicable at such time in accordance with applicable provisions of law.

Each of the Issuer, the Guarantor and any Dealer may, but is not obliged to, at any time purchase Notes at any price in the open market or by tender or private treaty. Any Notes so purchased may be held or resold or surrendered for cancellation. Any Dealer may, but is not obliged to, be a market maker for an issue of Notes. Even if a Dealer is a market-maker for an issue of Notes, the secondary market for such Notes may be limited. To the extent that an issue of Notes becomes illiquid, an investor may have to hold the relevant Notes until maturity before it is able to realise value.

Investors should note that a secondary market may be affected by both legal restrictions in certain jurisdictions and by the Issuer, the Guarantor and/or any Dealer purchasing or holding Notes.

If it is possible to sell Notes, they would be sold for the prevailing bid price in the market and may be subject to a transaction fee. The prevailing bid price may be affected by several factors including the performance of the relevant Underlying Asset, prevailing interest rates at the time of sale, the time left before the stated maturity date and the creditworthiness of the Issuer. It is therefore possible that an investor selling Notes in the secondary market may receive a price less than the investor's initial investment in the relevant Notes.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to Notes issued under the Programme. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Recent United States Tax Law Developments

The United States Internal Revenue Service (the **IRS**) and United States Treasury Department recently issued a notice (the **Notice**) that requests public comments on a comprehensive list of tax policy issues raised by certain securities that are not classified as debt for U.S. federal income tax purposes. In particular, the IRS and United States Treasury Department specifically question whether, and to what degree, payments (or deemed accruals) in respect of these securities should be subject to withholding. Accordingly, it is possible that future guidance could be issued as a result of the Notice requiring withholding on payments made to a Non-U.S. Holder on a Note, Receipt, Coupon or Talon.

Potential Conflicts of Interest

Where the Calculation Agent is an affiliate of the Issuer, potential conflicts of interest may exist between the Calculation Agent and Noteholders, including with respect to certain determinations and judgements that the Calculation Agent may make pursuant to the Notes that may influence the amount receivable or specified assets deliverable on redemption of the Notes.

The Issuer, the Guarantor and/or any of their affiliates may from time to time engage in transactions involving Underlying Asset(s) for their proprietary accounts or for other accounts under their management, subject to requirements of the Securities Act. The Issuer, the Guarantor and/or their affiliates may also issue other derivative instruments in respect of any Underlying Asset(s). The Issuer, the Guarantor and/or their affiliates may also act as underwriter in connection with future offerings of shares or other securities related to an issue of Notes or may act as financial adviser to certain companies or companies whose shares are included in a basket of shares or in a commercial banking capacity for such companies. These activities may have a positive or negative effect on the value of the relevant Underlying Asset(s) and consequently upon the value of the Notes.

The Issuer, the Guarantor and any Dealer may at the date hereof or at any time hereafter, be in possession of information in relation to an Underlying Asset that is or may be material in the context of the Notes and may or may not be publicly available to Noteholders. There is no obligation on the Issuer, the Guarantor or any Dealer to disclose to Noteholders any such information.

The Issuer, the Guarantor and/or any of their affiliates may have existing or future business relationships with any Underlying Asset(s) (including, but not limited to, lending, depositary, risk management, advisory and banking relationships), and will pursue actions and take steps that they or it deems necessary or appropriate to protect their and/or its interests arising therefrom without regard to the consequences for a Noteholder.

Where Notes are offered to the public, as the relevant Manager(s)/Dealer and any distributors act pursuant to a mandate granted by the Issuer and they receive fees on the basis of the services performed and the outcome of the placement of such Notes, potential conflicts of interest could arise.

Post Issuance Information

The Issuer will not provide any post issuance information, except if required by any applicable laws and regulations.

RISKS RELATING TO CERTIFICATES

SET OUT BELOW ARE RISK FACTORS THAT THE ISSUER AND THE GUARANTOR BELIEVE REPRESENT THE PRINCIPAL RISKS INVOLVED IN INVESTING IN THE CERTIFICATES. INVESTORS MAY LOSE THEIR ENTIRE INVESTMENT OR PART OF IT AS THE CASE MAY BE. NEITHER THE ISSUER NOR THE GUARANTOR REPRESENT THAT THE LIST BELOW IS COMPREHENSIVE. PROSPECTIVE INVESTORS SHOULD READ THIS BASE PROSPECTUS IN ITS ENTIRETY AND FORM THEIR OWN CONCLUSIONS REGARDING INVESTING IN ANY CERTIFICATES. FURTHER RISK FACTORS RELATING TO A SPECIFIC ISSUE OF CERTIFICATES MAY BE SET OUT IN THE APPLICABLE FINAL TERMS.

Prospective investors in Certificates should determine whether an investment in Certificates is appropriate in their particular circumstances and should consult with their legal, business and tax advisers to determine the consequences of an investment in Certificates and to arrive at their own evaluation of the investment.

An investment in Certificates is only suitable for investors who:

- (a) have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in Certificates;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of their financial situation;

- (c) are capable of bearing the economic risk of an investment in Certificates for an indefinite period of time; and
- (d) recognise that it may not be possible to dispose of Certificates for a substantial period of time, if at all.

Prospective investors in Certificates should make their own independent decision to invest in Certificates and as to whether the investment in Certificates is appropriate or proper for them based upon their own judgement and upon advice from such advisers as they may deem necessary. Prospective investors in Certificates should not rely on any communication (written or oral) of the Issuer, any Dealer or any of their affiliates or their respective officers or agents as investment advice or as a recommendation to invest in Certificates, it being understood that information and explanations related to Certificates shall not be considered to be investment advice or a recommendation to invest in Certificates. No communication (written or oral) received from the Issuer, any Dealer or any of their affiliates or their respective officers or agents shall be deemed to be an assurance or guarantee as to the expected results of an investment in Certificates.

Option Risk

Certificates are derivative financial instruments which may include an option right and which, therefore, have many characteristics in common with options. Transactions in options involve a high level of risk. An investor who intends to trade in options must first of all understand the functioning of the types of contracts which he intends to trade in (for example, call options and put options). An investment in options constitutes a highly volatile investment and there is a high likelihood that the option may have no value whatsoever at expiration. In such case, the investor would lose the entire amount used to purchase the options (known as the "premium").

An investor who is considering the purchase of a call option over an Underlying Asset, the market price of which is much lower than the price at which the exercise of the option would be opportune (known as "deep out of the money"), must consider that the possibility that the exercise of the option will become profitable is remote. Likewise, an investor who is considering the purchase of a put option over an Underlying Asset, the market price of which is much higher than the price at which the exercise of the option would be opportune, must consider that the possibility that the exercise of the option will become profitable is remote.

The Certificates include some options on Underlying Asset(s). The possible amount paid on exercise or any early termination will depend on the value of such options. Prior to the expiration of a Certificate, a variation in the value of the relevant options may involve a reduction in the value of such Certificate.

Risks related to the structure of a particular issue of Certificates

A wide range of Certificates may be issued under the Programme. A number of these Certificates may have features which contain particular risks for potential investors. Set out below is a description of the most common features.

General risks and risks relating to Underlying Asset(s)

The Certificates involve a high degree of risk, which may include, among others, interest rate, foreign exchange, time value and political risks. Prospective purchasers of Certificates should recognise that their Certificates, other than any Certificates having a minimum expiration value, may expire worthless. Purchasers should be prepared to sustain a total loss of the purchase price of their Certificates, except, if so indicated in the applicable Final Terms, to the extent of any minimum expiration value attributable to such Certificates. This risk reflects the nature of a Certificate as an asset which, other factors held constant, tends to decline in value over time and which may become worthless when it expires (except to the extent of any minimum expiration value). See "*Certain Factors Affecting the Value and Trading Price of Certificates*"

below. Prospective purchasers of Certificates should be experienced with respect to options and option transactions, should understand the risks of transactions involving the relevant Certificates and should reach an investment decision only after careful consideration, with their advisers, of the suitability of such Certificates in light of their particular financial circumstances, the information set forth herein and the information regarding the relevant Certificates and the particular Underlying Asset(s), as specified in the applicable Final Terms.

The risk of the loss of some or all of the purchase price of a Certificate upon exercise means that, in order to recover and realise a return upon his or her investment, a purchaser of a Certificate must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the relevant Underlying Asset(s). Assuming all other factors are held constant, the more a Certificate is "out-of-the-money" and the shorter its remaining term to expiration, the greater the risk that purchasers of such Certificates will lose all or part of their investment. With respect to European Style Certificates, the only means through which a Certificateholder can realise value from such a Certificate prior to the Exercise Date in relation to such Certificate is to sell it at its then market price in an available secondary market. See "*The secondary market generally*" below.

Fluctuations in the value or the yield (if applicable) or the relevant rates of exchange (if applicable) of the relevant Underlying Asset(s) will affect the value of the relevant Certificates. Purchasers of Certificates risk losing their entire investment if the value of the relevant Underlying Asset(s) does not move in the anticipated direction.

The Issuer may issue several issues of Certificates relating to particular Underlying Asset(s). However, no assurance can be given that the Issuer will issue any Certificates other than the Certificates to which the applicable Final Terms relate. At any given time, the number of Certificates outstanding may be substantial. Certificates provide opportunities for investment and pose risks to investors as a result of fluctuations in the value of the Underlying Asset(s). In general, certain of the risks associated with Certificates are similar to those generally applicable to other options or warrants of private corporate issuers. Options or warrants on equities are priced primarily on the basis of the value of underlying securities whilst Commodity Linked Certificates and Index Linked Certificates are priced primarily on the basis of present and expected values of the commodity (or basket of commodities) or the index (or basket of indices) specified in the applicable Final Terms.

Certain Factors Affecting the Value and Trading Price of Certificates

The aggregate Cash Settlement Amount(s) to be paid (the **Cash Settlement Value**) (in the case of Cash Settled Certificates) or the value of the Entitlements to be delivered or, if applicable, the aggregate difference in the value of the Entitlements to be delivered and the Exercise Price (either such value, the **Physical Settlement Value**) (in the case of Physical Delivery Certificates) at any time prior to expiration is typically expected to be less than the trading price of such Certificates at that time. The difference between the trading price and the Cash Settlement Value or the Physical Settlement Value, as the case may be, will reflect, among other things, the "time value" of the Certificates. The "time value" of the Certificates will depend partly upon the length of the period remaining to expiration and expectations concerning the value of the Underlying Asset(s). Certificates offer hedging and investment diversification opportunities but also pose some additional risks with regard to interim value. The interim value of Certificates varies as the price or level of the Underlying Asset(s) varies, as well as due to a number of other interrelated factors, including those specified herein.

Before exercising or selling Certificates, Certificateholders should carefully consider, among other things, (i) the trading price of the relevant Certificates, (ii) the value and volatility of the Underlying Asset(s), (iii) the time remaining to expiration, (iv) in the case of Cash Settled Certificates, the probable range of any Cash Settlement Amounts, (v) any change(s) in interim interest rates and dividend yields if applicable, (vi) any

change(s) in currency exchange rates, (vii) the depth of the market or liquidity of the Underlying Asset(s) and (viii) any related transaction costs.

Changes in exchange rates and exchange controls could result in a loss of the value of the Certificates and payments thereof in relation to the currency of the jurisdiction of an investor

An investment in Certificates payable in a Settlement Currency other than the currency of the jurisdiction of a particular investor (the **investor's currency**), entails significant risks that are not associated with a similar investment in a security payable in the investor's currency. These risks include, but are not limited to:

- the possibility of significant market changes in rates of exchange between the investor's currency and the Settlement Currency;
- the possibility of significant changes in rates of exchange between the investor's currency and the Settlement Currency resulting from the official redenomination or revaluation of the Settlement Currency; and
- the possibility of the imposition or modification of foreign exchange controls by either the jurisdiction of the investor's or foreign governments.

These risks generally depend on factors over which the Responsible Persons have no control and which cannot be readily foreseen, such as:

- economic events;
- political events; and
- the supply of, and demand for, the relevant currencies.

In recent years, rates of exchange between some foreign currencies in which the Certificates may be payable, have been volatile. This volatility may be expected in the future. Fluctuations that have occurred in any particular exchange rate in the past are not necessarily indicative, however, of fluctuation that may occur in the rate during the term of any Certificate. Depreciation of the Settlement Currency of a Certificate against an investor's currency would result in a decrease in the effective yield of such Certificate and could result in a substantial loss to the investor in terms of the investor's currency.

Governments have imposed from time to time, and may in the future impose, exchange controls that could affect exchange rates as well as the availability of a Settlement Currency at the time of payment in respect of any Certificate. There can be no assurance that exchange controls will not restrict or prohibit payments under the Certificates in any such Settlement Currency.

Even if there are no actual exchange controls, it is possible that a Settlement Currency would not be available to the Issuer and/or Guarantor when payments in respect of a Certificate are due because of circumstances beyond the control of the Issuer and/or Guarantor. Each investor should consult their own financial and legal advisors as to the risks of an investment in Certificates denominated in a currency other than the investor's currency.

The unavailability of currencies could result in a loss of value of the Certificates and payments thereunder

Except as set forth below, if payment on a Certificate is required to be made in a Settlement Currency and that currency is –

- unavailable due to the imposition of exchange controls or other circumstances beyond the Issuer's and/or the Guarantor's control;
- no longer used by the government of the country issuing the currency; or
- no longer used for the settlement of transactions by public institutions of the international banking community -

then, if the Settlement Currency of a Certificate is officially redenominated, other than as a result of Economic and Monetary Union, such as by an official redenomination of any Settlement Currency that is a composite currency, then the payment obligations of the Issuer and/or Guarantor on such Certificate will be the amount of redenominated currency that represents the amount of the Issuer and/or Guarantor's obligations immediately before the redenomination. The Certificates will not provide for any adjustment to any amount payable as a result of:

- any change in the value of the Settlement Currency of those Certificates relative to any other currency due solely to fluctuations in exchange rates; or
- any redenomination of any component currency of any composite currency, unless that composite currency is itself officially redenominated.

Changes in the value of underlying assets of Index Linked Certificates could result in a loss of value of the Certificates and payments thereunder

Investors in Certificates relating to indices should be familiar with investments in global capital markets and with indices generally. The level of an index is generally based on the value of the assets comprised in that index although investors should note that the level of an index at any time may not include the reinvestment of the yield on the assets comprised in such index. Investors should understand that global economic, financial and political developments, among other things, may have a material effect on the value of the assets comprising an index and/or the performance of such index.

An investment in Index Linked Certificates may have significant risks that are not associated with an investment in a conventional security such as a debt instrument.

The risks of a particular Index Linked Certificate will depend on the terms of that Index Linked Certificate. Such risks may include, but are not limited to, the possibility of significant changes in the prices of:

- the assets underlying the relevant index or indices (**underlying assets**);
- another objective price; and
- economic or other measures making up the relevant index or indices.

Underlying assets could include:

- one or more securities or securities indices;
- one or more specified foreign currency or currency indices;

- a combination thereof;
- intangibles;
- goods;
- articles;
- commodities; and
- any other financial, economic or other measure or instrument.

The risks associated with a particular Index Linked Certificate will generally depend on factors over which the Issuer and/or the Guarantor have no control and which cannot readily be foreseen. These risks include:

- economic events;
- political events; and
- the supply of, and demand for, the underlying assets.

Investors should note that dividends paid to holders of underlying assets will not be paid to the Issuer or to the holders of Certificates. The return on Certificates will thus not reflect any dividends which would be paid to investors that have made a direct investment in underlying assets. Consequently, the return on Certificates may be less than the return from a direct investment in underlying assets.

Market volatility reflects the degree of instability and expected instability of the performance of an index and the assets comprised in such index. The level of market volatility is largely determined by the prices for financial instruments supposed to protect investors against such market volatility. The prices of these instruments are determined by forces of supply and demand in the options and derivative markets generally. These forces are, themselves, affected by factors such as actual market volatility, expected volatility, economic factors and speculation. In recent years, currency exchange rates and prices for various underlying assets have been highly volatile. Such volatility may be expected in the future. Fluctuations in the rates or prices that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur during the term of any Index Linked Certificate.

In considering whether to purchase Index Linked Certificates, each investor should be aware that the calculation of amounts payable on Index Linked Certificates may involve reference to:

- an index determined by an affiliate of the Issuer and/or the Guarantor; or
- prices that are published solely by third parties or entities which are not regulated by the laws of the United States, European Economic Area or the jurisdiction of the particular investor.

The risk of loss as a result of linking payments on Index Linked Certificates to an index and to the underlying assets can be substantial. Each Investor should consult their own financial and legal advisors as to the risks of an investment in Index Linked Certificates.

Certain considerations associated with Share Linked Certificates

Investors in Certificates relating to shares should be familiar with investments in global capital markets and with shares generally. Before purchasing Certificates, investors should carefully consider, among other matters, the value and price volatility of shares by reference to which amounts payable under the relevant Certificates are calculated.

In the case of Share Linked Certificates, no issuer of the share or shares to which such Certificates are linked will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Certificates and none of the Issuer, the Guarantor and any Dealer will make any investigation or enquiry in connection with such offering with respect to the information concerning any such issuer of shares contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available documents described in this paragraph or in any applicable Final Terms) that would affect the trading price of the shares will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of shares could affect the trading price of the shares and therefore the trading price of the relevant Certificates.

Except as provided in the applicable Final Terms in relation to Physical Delivery Certificates, Certificateholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant shares to which such Certificates relate. The return on such Certificates may thus not reflect any dividends or other distributions which would be paid to investors that have made a direct investment in shares. Consequently, the return on Certificates linked to shares may be less than the return from a direct investment in the relevant shares.

An investment in Share Linked Certificates may have significant risks that are not associated with a similar investment in a conventional security such as a debt instrument.

The risks of a Share Linked Certificate will depend on the terms of that Certificate. Such risks may include, but are not limited to, the possibility of significant changes in the price(s) of the underlying share or shares. The value of shares may go down as well as up and the value of any share on any date may not reflect its performance in any prior period. There can be no assurance as to the future value of any share or of the continued existence of any share or share company. In addition, in certain circumstances it may not be possible or practicable for the Calculation Agent to determine the value of the relevant shares – see "*Disrupted Days, Market Disruption Events and Adjustments in relation to Index Linked Certificates and Share Linked Certificates*" below. Accordingly, before making an investment decision with respect to Certificates, prospective investors should carefully consider whether an investment, the return on which will depend on the performance of shares, is suitable for them.

The risks associated with a particular Share Linked Certificate generally depend on factors over which the Issuer and/or the Guarantor have no control and which cannot readily be foreseen. These risks include:

- economic events;
- political events; and
- the supply of, and demand for, the relevant share or shares.

In recent years, prices for various shares have been highly volatile. Such volatility may be expected in the future. Fluctuations in the rates or prices that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur during the term of any Share Linked Certificate.

In considering whether to purchase Share Linked Certificates, each investor should be aware that the calculation of amounts payable on such Certificates may involve reference to the performance of one or more shares over a period of time and to shares, the issuer(s) of which are incorporated outside the United States and the European Economic Area.

The risk of loss as a result of linking payments on Certificates to one or more shares can be substantial. Each investor should consult its own financial and legal advisors as to the risks of an investment in any such Certificates.

Disrupted Days, Market Disruption Events, Adjustments and Mandatory Early Repayment in relation to Index Linked Certificates and Share Linked Certificates

In the case of Certificates relating to shares or indices, if the terms and conditions of such Certificates include provisions dealing with the postponement of an Averaging Date, Observation Date or a Valuation Date due to the occurrence of a Disrupted Day, such postponement or any alternative provisions for valuation provided in the terms and conditions of such Certificates may have an adverse effect on the value of such Certificates.

In the case of Certificates relating to indices, if an Index Adjustment Event occurs, the Calculation Agent may determine whether such Index Adjustment Event has a material effect on the relevant Certificates and, if so, shall either (i) calculate the level of the relevant index in accordance with the formula for and method of calculating the relevant Index last in effect prior to the relevant change, failure or cancellation or (ii) may substitute the Index, or the Issuer may cancel the Certificates as more fully set out in the terms and conditions of the relevant Certificates.

In the case of Certificates relating to indices, if an Additional Disruption Event occurs, the Issuer may require the Calculation Agent to determine the appropriate adjustment, if any, to be made to the terms of the Certificates to account for such Additional Disruption Event or may cancel the Certificates as more fully set out in the terms and conditions of the relevant Certificates. Any such adjustments may have an adverse effect of the value of such Certificates.

In the case of Certificates relating to shares, if a De-listing, Merger Event, Nationalisation, Insolvency, Tender Offer and/or Potential Adjustment Event and/or an Additional Disruption Event (if applicable) occur(s), the terms of the Certificates will be subject to adjustment (including, but not limited to, a share substitution, if "Share Substitution" is specified as applying in the applicable Final Terms), or may be cancelled as more fully set out in the terms and conditions of the relevant Certificates. Any such adjustments may have an adverse effect of the value of such Certificates.

If the Certificates are cancelled as provided in the above paragraphs, the Issuer will pay to each Certificateholder in respect of each Certificate an amount equal to the fair market value of such Certificate less (except in the case of Certificates listed on the Italian Stock Exchange) the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, as determined by the Calculation Agent. There is no guarantee that the amount repaid to investors will be equal to or higher than the investor's initial investment in the relevant Certificates.

If "Mandatory Early Repayment" is specified as applicable in the Final Terms relating to an issue of Certificates, then the applicable Final Terms will specify what constitutes a "Mandatory Early Repayment Event" and, following the occurrence of a Mandatory Early Repayment Event, the Certificates will be cancelled and the relevant Mandatory Early Repayment Amount will become payable. In this case, investors are subject to a reinvestment risk, as they may not be able to replace their investment in such Certificates with an investment that has a similar profile of chances and risks as the relevant Certificates.

If Certificates linked to shares are cancelled early in accordance with the above, the amount received by the relevant holders will be limited to the Mandatory Early Repayment Amount irrespective of the price of the relevant shares. Furthermore, investors will not benefit from any movement in the price of relevant shares that may occur during the period between the relevant date of early termination and the settlement date.

Certain considerations associated with Inflation Linked Certificates

Many economic and market factors may influence the value of Inflation Linked Certificates including, *inter alia*:

- general economic, financial, political or regulatory conditions;
- fluctuations in the prices of various consumer goods and energy resources; and
- inflation and expectations concerning inflation.

Any such factors may either offset or magnify each other.

In relation to Inflation Linked Certificates, if the Calculation Agent determines that the level of a relevant Index has not been published or announced by a specified Valuation Date, then a Substitute Index Level for the relevant Index and the relevant Payment Date will be determined by reference either to the terms of any specified Related Bond or by reference to a formula as set out in the Inflation Linked Conditions or the applicable Final Terms, as the case may be.

In relation to Inflation Linked Certificates, if the Calculation Agent determines that the level of an Index is not calculated or announced by an Index Sponsor for two consecutive months (or such other period specified in the applicable Final Terms) and/or an Index Sponsor announces that it will no longer continue to publish or announce an Index and/or an Index Sponsor cancels an Index, the Calculation Agent shall either (i) determine a successor Index by reference to the terms of any specified Related Bond or (ii) designate a "Successor Index" as the replacement index specified by the relevant Index Sponsor or (iii) if no successor Index can be determined by reference to (i) or (ii), the Calculation Agent may determine the relevant Successor Index and determine any relevant adjustments to the terms of the Certificates it deems necessary or may cancel the Certificates.

In relation to Inflation Linked Certificates, if the Calculation Agent determines that an Index has been or will be rebased at any time, it may make such adjustments to the levels of such Index (following the terms of any specified Related Bond, where there is a Related Bond) so that such levels reflect the same rate of inflation as before the rebasing and may make such adjustments to the terms of the Certificates as it deems necessary to account for such rebasing or may cancel the Certificates if it determines that the foregoing would not produce a commercially reasonable result.

In relation to Inflation Linked Certificates, if on or prior to a specified Valuation Date, an Index Sponsor announces that it will make a material change to an Index, the Calculation Agent shall make appropriate adjustments to the terms of the Certificates (consistent with any adjustments made to any Related Bond, where there is a Related Bond) to account for such change or may cancel the Certificates if it determines that the foregoing would not produce a commercially reasonable result.

Certain considerations associated with Commodity Linked Certificates

In respect of Commodity Linked Certificates, investors should note that the movements in the price of a commodity or basket of commodities may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of a commodity or commodities may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price or prices of commodities, the greater the effect on yield.

Commodity futures markets are highly volatile. Commodity markets are influenced by, among other things, changing supply and demand relationships, weather, governmental, agricultural, commercial and trade programmes and policies designed to influence commodity prices, world political and economic events, and

changes in interest rates. Moreover, investments in futures and options contracts involve additional risks including, without limitation, leverage (margin is usually a percentage of the face value of the contract and exposure can be nearly unlimited). A holder of a futures position may find such position becomes illiquid because certain commodity exchanges limit fluctuations in certain futures contract prices during a single day by regulations referred to as "daily price fluctuation limits" or "daily limits". Under such daily limits, during a single trading day no trades may be executed at prices beyond the daily limits. Once the price of a contract for a particular future has increased or decreased by an amount equal to the daily limit, positions in the future can neither be taken nor liquidated unless traders are willing to effect trades at or within the limit. This could prevent a holder from promptly liquidating unfavourable positions and subject it to substantial losses. Futures contract prices in various commodities occasionally have exceeded the daily limit for several consecutive days with little or no trading. Similar occurrences could prevent the liquidation of unfavourable positions and subject an investor in a Commodity Linked Certificate linked to such contract prices to substantial losses.

The market price of such Commodity Linked Certificates may be volatile and may depend on the time remaining to exercise and the volatility of the price of the commodity or commodities. The price of the commodity or commodities may be affected by economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any such commodities may be traded.

In relation to Commodity Linked Certificates, if the Calculation Agent determines that a Market Disruption Event applicable to such Certificates has occurred or exists on a day that is a Pricing Date, the Relevant Price for that Pricing Date will be determined in accordance with the first applicable Disruption Fallback that provides the Relevant Price or that provides for the cancellation of the Certificates. The Market Disruption Events and Disruption Fallbacks which apply to an issue of Certificates will either be set out in the applicable Final Terms or certain Market Disruption Events and Disruption Fallbacks may be deemed to apply to the Certificates as set out in the Commodity Linked Conditions including, but not limited to, a delay in valuation or a cancellation of the Certificates. Any postponement or alternative provisions for valuation may have an adverse effect on the value of the Certificates.

Risk related to the possible rolling mechanism of commodity futures contracts

The yield on Commodity Linked Certificates linked to commodity futures contracts or commodity indices may not be perfectly correlated to the trend in the price of the underlying commodities as the use of such future commodity contracts generally involves a rolling mechanism. This means that the commodity futures contracts which expire prior to the relevant payment date under the relevant Certificates are replaced with future commodity contracts that have a later expiry date. Investors may therefore only marginally benefit from any rise/fall in prices on such commodities.

Moreover, investors should consider that the commodity futures contracts could have a trend which differs significantly from that of the commodity spot markets. The trend in the price of a commodity futures contracts compared to the underlying commodity is closely linked to the present and future level of the production of the underlying commodity or to the level of estimated natural reserves, particularly in the case of energy linked products. In addition, the price of the relevant commodity futures contract may not be considered an accurate prediction of a market price, since it also includes the so-called carrying costs (such as, for example, warehouse costs, insurance covering the goods, etc.), which also contribute toward the determination of the price of the commodity futures contracts. These factors which directly influence the commodities prices substantially explain the imperfect correlation between the commodity spot markets and the commodity futures contracts.

Settlement Disruption Event and Failure to Deliver

In the case of Physical Delivery Certificates, if a Settlement Disruption Event occurs or exists on any date specified for the delivery of the relevant Entitlement, settlement will be postponed until the next Settlement Business Day in respect of which there is no Settlement Disruption Event. The Issuer in these circumstances may select to deliver the relevant Entitlement using such other commercially reasonable manner as it may select or it may pay the Disruption Cash Settlement Price *in lieu* of delivering the Entitlement.

If, in relation to Physical Delivery Certificates which are Index Linked Certificates or Share Linked Certificates, "Failure to Deliver" is specified as applying in the applicable Final Terms and it is impossible or impracticable, in the opinion of the Calculation Agent, to deliver, when due, some or all of the Relevant Assets where such failure to deliver is due to illiquidity in the market for such Relevant Assets, the Issuer has the right to pay the Failure to Deliver Settlement Price *in lieu* of delivering some or all of such Relevant Assets which are affected by such illiquidity.

Physical Delivery Certificates which are exercised at the same time by the same Certificateholder will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Certificates. Such aggregate Entitlements will be rounded down to the nearest Tradeable Amount of the Relevant Asset(s), in such manner as the Calculation Agent shall determine and amounts of the Relevant Asset less than the Tradeable Amount shall not be delivered and no cash or other adjustment will be made in respect thereof unless "Cash Adjustment" is specified as applying in the applicable Final Terms, in which case, the Issuer shall pay to the relevant Certificateholder a cash amount equal to the value of any such lesser amount.

Limitations on Exercise

Maximum Exercise Number

In relation to American Style Certificates, if a Maximum Exercise Number is specified in the applicable Final Terms, the Issuer will have the option to limit the number of Certificates exercisable on any date (other than on the final exercise date) to the maximum number specified in the applicable Final Terms and, in conjunction with such limitation, to limit the number of Certificates exercisable by any person or group of persons (whether or not acting in concert) on such date. In the event that the total number of Certificates being exercised on any date (other than the final exercise date) exceeds such maximum number and the Issuer elects to limit the number of Certificates exercisable on such date, a Certificateholder may not be able to exercise on such date all Certificates that such Certificateholder desires to exercise. In any such case, the number of Certificates to be exercised on such date will be reduced until the total number of Certificates exercised on such date no longer exceeds such maximum, such Certificates being selected by the Issuer. Unless otherwise specified in the applicable Final Terms, the Certificates tendered for exercise but not exercised on such date may be automatically exercised on the next date on which Certificates may be exercised, subject to the same daily maximum exercise limitation and delayed exercise provisions.

Minimum Exercise Number

If a Minimum Exercise Number is specified in the applicable Final Terms, a Certificateholder must tender, or, in the case of automatic exercise, hold, the specified minimum number of Certificates at any one time in order to exercise on any Exercise Date and, if specified in the applicable Final Terms, if tendering or holding a number at any one time greater than the Minimum Exercise Number, such number must be an integral multiple of the number specified in the applicable Final Terms in order to exercise. Thus, Certificateholders with fewer than the specified minimum number of Certificates or not having the requisite integral multiple will either have to sell their Certificates or purchase additional Certificates, incurring transaction costs in each case, in order to realise their investment. Furthermore, holders of such Certificates incur the risk that there may be differences between the trading price of such Certificates and the Cash Settlement Value (in the

case of Cash Settled Certificates) or the Physical Settlement Value (in the case of Physical Delivery Certificates) of such Certificates.

Certain Considerations Regarding Hedging

Prospective purchasers intending to purchase Certificates to hedge against the market risk associated with investing in the particular Underlying Asset(s) should recognise the complexities of utilising Certificates in this manner. For example, the value of the Certificates may not exactly correlate with the value of the relevant Underlying Asset(s). Due to fluctuating supply and demand for the Certificates, there is no assurance that their value will correlate with movements of the Underlying Asset(s). For these reasons, among others, it may not be possible to purchase or liquidate securities in a portfolio at the prices used to calculate the value of any relevant index, share or basket.

Time Lag after Exercise

Unless otherwise specified in the applicable Final Terms, in the case of any exercise of Cash Settled Certificates, there may be a time lag between the Actual Exercise Date and the time the applicable Cash Settlement Amount relating to such exercise is determined. Any such delay will be specified in the applicable Final Terms or the applicable Conditions. However, a delay in such determination could be significantly longer than anticipated, particularly in the case of either a delay in the exercise of Certificates arising from any daily maximum exercise limitation or the occurrence of a Disrupted Day. Any such delay could decrease the relevant Cash Settlement Amount of the Certificates being exercised from what it might otherwise have been and may result in such Cash Settlement Amount being zero. Certificateholders will not be compensated in respect of any such delay and it will not be possible to withdraw Exercise Notices in respect of Certificates which have been exercised.

In relation to Physical Delivery Certificates, there will be a time lag between the Actual Exercise Date and the time the relevant Entitlement is delivered. Any such delay will be specified in the applicable Final Terms or the Terms and Conditions of the Certificates. However, a delay in delivery could be significantly longer, particularly in the case of either a delay in the exercise of Certificates arising from any daily maximum exercise limitation or upon due determination by the Calculation Agent that a Settlement Disruption Event occurred at any relevant time. The value of the assets comprising the relevant Entitlement could increase or decrease during this period and could result in the value of the relevant Entitlement being less than any applicable Exercise Price (if applicable) or possibly zero. Certificateholders will not be compensated in respect of any such delay and it will not be possible to withdraw Exercise Notices in respect of Certificates which have been exercised.

Variation of Settlement

If the applicable Final Terms in respect of any Certificates indicate that the Issuer has an option to vary settlement in respect of such Certificates, the Issuer may elect (1) not to pay the relevant Certificateholders the relevant Cash Settlement Amount, but to deliver or procure delivery of the relevant Entitlement or (2) not to deliver or procure delivery to the relevant Certificateholders of the relevant Entitlement, but to make payment of the relevant Cash Settlement Amount.

Certificates may, if so specified and provided for in the applicable Final Terms, allow Certificateholders to elect for settlement by way of cash payment or by way of physical delivery or by such other method of settlement as is specified in the applicable Final Terms. The rights of a Certificateholder as described in this paragraph may be subject to the Issuer's right to cash settlement of Certificates, as indicated in the applicable Final Terms.

Exercise Expenses and Taxation

A Certificateholder shall pay all Exercise Expenses relating to Certificates held by such Certificateholder.

Neither the Issuer nor the Guarantor shall be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, exercise or enforcement of any Certificate by any person and all payments and/or deliveries made by the Issuer or the Guarantor shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

Exercise Expenses in respect of Physical Delivery Certificates shall either be paid to the Issuer prior to the delivery of the Entitlement or deducted by the Issuer from any cash amount owing to such Certificateholder and paid by the Issuer on behalf of the Certificateholder or paid by the Issuer on behalf of such Certificateholder by converting such amount of the Entitlement as necessary to pay the Exercise Expenses, as specified by the Certificateholder in the relevant Exercise Notice. If any Exercise Expenses are not so paid, the relevant Certificateholder shall be deemed to authorise the Issuer to convert and the Issuer may convert such amount of the Entitlement into cash sufficient to cover the Exercise Expenses in respect of the relevant Certificate from which the Issuer shall deduct such Exercise Expenses.

Illegality in relation to Certificates

If the Issuer determines that the performance of its obligations under an issue of Certificates or the Guarantor determines that the performance of its obligations under the Deed of Guarantee in respect of such Certificates or that any arrangements made to hedge the Issuer's and/or the Guarantor's obligations under such Certificates has or will become illegal in whole or in part for any reason, the Issuer may cancel the Certificates and, if and to the extent permitted by applicable law, will pay to each Certificateholder in respect of each Certificate held by such holder, an amount equal to the fair market value of each such Certificate notwithstanding such illegality less (except in the case of Certificates listed on the Italian Stock Exchange) the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements.

Modification, waivers and substitution

The Conditions of the Certificates contain provisions for calling meetings of Certificateholders to consider matters which may have a general or specific effect upon their interests. These provisions permit defined majorities to bind all Certificateholders, including those Certificateholders who did not attend and vote at the relevant meeting, and Certificateholders who voted in a manner contrary to the majority.

The Conditions of the Certificates also provide that the Issuer may modify the Terms and Conditions of the Certificates and/or the Certificate Agency Agreement without the consent of the Certificateholders in any manner which the Issuer may deem necessary or desirable PROVIDED THAT such modification is not materially prejudicial to the interests of the Certificateholders or such modification is of a formal, minor or technical nature or to correct a manifest or proven error or to cure, correct or supplement any defective provision or, in respect of Certificates which the Issuer determines to list on a stock exchange, market or quotation system, such modification is made to enable such Certificates to be so listed.

The Deed of Guarantee may be amended without the consent of the Certificateholders to correct a manifest error.

Determinations

The terms of the Certificates confer on the Calculation Agent some discretion in making determinations and calculations in relation to, *inter alia*, Underlying Asset(s) and the occurrence of various events. Whilst the Calculation Agent will act in good faith and in its sole and absolute discretion (unless otherwise specified in

the applicable Final Terms), there can be no assurance that the exercise of any such discretion will not affect the value of the Certificates or the occurrence of an early repayment.

Change of law

The Conditions of the Certificates are based on relevant laws in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to such laws or administrative practices after the date of this Base Prospectus.

Risks related to the market generally

Impact of implicit fees on the Issue/Offer Price

Investors should note that implicit fees (e.g. placement fees, direction fees, structuring fees) may be a component of the Issue/Offer Price of Certificates, but such fees will not be taken into account for the purposes of determining the price of such Certificates in the secondary market.

The Issuer will specify in the relevant Final Terms, the type and amount of any implicit fees which are applicable from time to time.

Investors should also take into consideration that if Certificates are sold on the secondary market immediately following the offer period relating to such Certificates, the implicit fees included in the Issue/Offer Price on initial subscription for such Certificates will be deducted from the price at which such Certificates may be sold in the secondary market.

The secondary market generally

Certificates may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid and an investor may not be able to find a timely and/or suitable counterpart. Therefore, investors may not be able to sell their Certificates easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market or at prices higher than the relevant investor's initial investment. Therefore, in establishing their investment strategy, investors should ensure that the term of the Certificates is in line with their future liquidity requirements. This is particularly the case for Certificates that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Certificates generally would have a more limited secondary market and more price volatility than conventional securities. Illiquidity may have a severely adverse effect on the market value of Certificates. The liquidity of Certificates is also influenced by whether or not the relevant Certificates are exclusively offered to retail investors without any offer to institutional investors.

The Issuer may, but is not obliged to, list an issue of Certificates on a stock exchange. If Certificates are not listed or traded on any exchange, pricing information for the relevant Certificates may be more difficult to obtain and the liquidity of such Certificates may be adversely affected. If the Issuer does list an issue of Certificates, then, the Issuer shall use all reasonable endeavours to maintain such listing, but see "*Listing of Certificates*" below.

If Certificates are not listed on a regulated market, they may be traded on trading systems governed by the laws and regulations in force from time to time (e.g. multilateral trading systems or "MTF") or in other trading systems (e.g. bilateral systems, or equivalent trading systems). Trading in such Certificates may take place outside the above-mentioned trading systems, with possible risks as to the transparency of the determination of prices. Investors should note that the Issuer does not grant any warranty to Certificateholders as to the methodologies used to determine the price of Certificates which are traded outside a trading system, however, where the Issuer or any of its affiliates determines the price of such

Certificates, it will take into account the market parameters applicable at such time in accordance with applicable provisions of law.

Also, to the extent American Style Certificates of a particular issue are exercised, the number of Certificates of such issue outstanding will decrease, resulting in a diminished liquidity for the remaining Certificates of such issue. A decrease in the liquidity of an issue of Certificates may cause, in turn, an increase in the volatility associated with the price of such issue of Certificates.

Each of the Issuer, the Guarantor and any Dealer may, but is not obliged to, at any time purchase Certificates at any price in the open market or by tender or private treaty. Any Certificates so purchased may be held or resold or surrendered for cancellation. Any Dealer may, but is not obliged to, be a market maker for an issue of Certificates. Even if a Dealer is a market-maker for an issue of Certificates, the secondary market for such Certificates may be limited. To the extent that an issue of Certificates becomes illiquid, an investor may have to exercise such Certificates to realise value.

Investors should note that a secondary market may be affected by both legal restrictions in certain jurisdictions and by the Issuer, the Guarantor and/or any Dealer purchasing or holding Certificates.

If it is possible to sell Certificates, they would be sold for the prevailing bid price in the market and may be subject to a transaction fee. The prevailing bid price may be affected by several factors including the performance of the relevant Underlying Asset, prevailing interest rates at the time of sale, the time left before the stated settlement date and the creditworthiness of the Issuer. It is therefore possible that an investor selling Certificates in the secondary market may receive a price less than the investor's initial investment in the relevant Certificates.

Listing of Certificates

In respect of Certificates which are to be listed on a stock exchange, market or quotation system, the Issuer shall use all reasonable endeavours to maintain such listing, PROVIDED THAT if it becomes impracticable or unduly burdensome or unduly onerous to maintain such listing, then the Issuer may apply to de-list such Certificates, Provided Further That it shall use all reasonable endeavours to obtain and maintain as soon as reasonably practicable after such de-listing an alternative admission to listing, trading and/or quotation by a stock exchange, market or quotation system within or outside the European Union, as it may decide.

If such an alternative admission is not available or is, in the opinion of the Issuer, impracticable or unduly burdensome, an alternative admission will not be obtained.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to Certificates issued under the Programme. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Certificates. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Certificates are legal investments for it and (2) other restrictions apply to its purchase of any Certificates.

Recent United States Tax Law Developments

The United States Internal Revenue Service (the **IRS**) and United States Treasury Department recently issued a notice (the **Notice**) that requests public comments on a comprehensive list of tax policy issues raised by certain securities that are not classified as debt for U.S. federal income tax purposes. In particular, the IRS and United States Treasury Department specifically question whether, and to what degree, payments (or deemed accruals) in respect of these securities should be subject to withholding. Accordingly, it is possible that future guidance could be issued as a result of the Notice requiring withholding on payments made to a Non-U.S. Holder on a Certificate.

Potential Conflicts of Interest

Where the Calculation Agent is an affiliate of the Issuer, potential conflicts of interest may exist between the Calculation Agent and Certificateholders, including with respect to certain determinations and judgments that the Calculation Agent may make pursuant to the Certificates that may influence the amount receivable or specified assets deliverable on exercise of the Certificates.

The Issuer, the Guarantor and/or any of their affiliates may from time to time engage in transactions involving Underlying Asset(s) for their proprietary accounts or for other accounts under their management, subject to requirements of the Securities Act. The Issuer, the Guarantor and/or their affiliates may also issue other derivative instruments in respect of any Underlying Asset(s). The Issuer, the Guarantor and/or their affiliates may also act as underwriter in connection with future offerings of shares or other securities related to an issue of Certificates or may act as financial adviser to certain companies or companies whose shares are included in a basket of shares or in a commercial banking capacity for such companies. These activities may have a positive or negative effect on the value of the relevant Underlying Asset(s) and consequently upon the value of the Certificates.

The Issuer, the Guarantor and any Dealer may at the date hereof or at any time hereafter, be in possession of information in relation to an Underlying Asset that is or may be material in the context of the Certificates and may or may not be publicly available to Certificateholders. There is no obligation on the Issuer, the Guarantor or any Dealer to disclose to Certificateholders any such information.

The Issuer, the Guarantor and/or any of their affiliates may have existing or future business relationships with any Underlying Asset(s) (including, but not limited to, lending, depositary, risk management, advisory and banking relationships), and will pursue actions and take steps that they or it deems necessary or appropriate to protect their and/or its interests arising therefrom without regard to the consequences for a Certificateholder.

Where Certificates are offered to the public, as the relevant Dealer(s) and any distributors act pursuant to a mandate granted by the Issuer and they receive fees on the basis of the services performed and the outcome of the placement of such Certificates, potential conflicts of interest could arise.

Post Issuance Information

The Issuer will not provide any post issuance information, except if required by any applicable laws and regulations.

ISSUE OF SECURITIES

Securities will be issued on a continuous basis in series (each a **Series**). The Securities of each Series are intended to be interchangeable with all other Securities of that Series.

The specific terms of each Series of Securities (which will be supplemented, where necessary, with supplemental terms and conditions) will be set forth in a Final Terms to this Base Prospectus (a **Final Terms**), the form of which for Notes is set out under "*Pro Forma Final Terms for Issues of Notes*" below and the form of which for Certificates is set out under "*Pro Forma Final Terms for Issues of Certificates*" below.

The Issuer and the Guarantor will, in the event of any significant new factor, material mistake or inaccuracy relating to information included in this Base Prospectus which is capable of affecting the assessment of any Securities, prepare a supplement to this Base Prospectus or publish a new Base Prospectus for use in connection with any subsequent issue of Securities.

GENERAL DESCRIPTION OF THE PROGRAMME

The applicable terms of any Securities will be agreed between the Issuer and the relevant Dealer(s) prior to the issue of the Securities and will be set out in the Terms and Conditions of the Notes (in the case of an issue of Notes) and the Terms and Conditions of the Certificates (in the case of an issue of Certificates), in each case, endorsed on, or annexed to, the Securities, as supplemented by the applicable Final Terms attached to, or endorsed on, such Securities, as more fully described under "*Pro Forma Final Terms*" below.

This Base Prospectus and any supplement will only be valid for the listing of Notes on the regulated market of the Luxembourg Stock Exchange (within the scope of Directive 2004/39/EC on Markets in Financial Instruments), in an aggregate principal amount which, when added to the aggregate principal amount then outstanding of all Notes previously or simultaneously issued under this Programme, does not exceed U.S.\$30,000,000,000 (or its equivalent in other currencies). For the purpose of calculating the U.S. dollar equivalent of the aggregate principal amount of Notes issued under the Programme from time to time:

- (a) the U.S. dollar equivalent of Notes denominated in another currency shall be determined as of the date of agreement to issue such Notes (the **Agreement Date**) on the basis of the forward rate for the sale of the U.S. dollar against the purchase of such currency in the London foreign exchange market quoted by any leading bank selected by the relevant Issuer on the Agreement Date;
- (b) the U.S. dollar equivalent of Dual Currency Notes, Partly Paid Notes, Index Linked Notes, Inflation Linked Notes, Commodity Linked Notes and Share Linked Notes shall be calculated in the manner specified above by reference to the original principal amount of such Notes; and
- (c) the principal amount of Zero Coupon Notes and other Notes issued at a discount or a premium shall be deemed to be the net proceeds received by the Issuer or the relevant issue of Notes.

TERMS AND CONDITIONS OF THE NOTES

*Except as indicated below, the following is the text of the terms and conditions of the Notes which will include the additional terms and conditions contained in Annex 1 the case of Index Linked Notes, which will include the additional terms and conditions contained in Annex 2 the case of Inflation Linked Notes, which will include the additional terms and conditions contained in Annex 3 the case of Commodity Linked Notes, which will include the additional terms and conditions contained in Annex 4 the case of Share Linked Notes or which will include the additional terms and conditions contained in another appropriate Annex (each an **Annex** and together the **Annexes**) in the case of any Notes linked to any other underlying reference item or asset (the **Conditions**). References herein to a Condition shall be deemed to be a reference to a Condition of the General Conditions, unless otherwise specified.*

These Conditions (the **General Conditions**), as supplemented or varied in accordance with the provisions of the applicable Final Terms, will be attached to the Global Note(s) or Global Certificate(s) initially representing a Series of Notes and any Notes in definitive form issued in exchange for the Global Note(s) or Global Certificate(s) representing such Series and will be scheduled to or endorsed on the definitive Bearer Notes and/or on the Certificates representing such Notes, details of the relevant Series being shown on the relevant Notes or Certificates and in the applicable Final Terms which shall be endorsed on or attached to the relevant Notes or Certificates and shall be deemed part of the Conditions. References in the Conditions to "Notes" are to the Notes of one Series only, not to all Notes which may be issued under the Programme, and references to the "applicable Final Terms" are to the Final Terms relating to the Notes of such Series, and references to the "Conditions" include such Final Terms. In relation to any Series of Notes, in the event of inconsistency between the applicable Final Terms and the Conditions, the applicable Final Terms will prevail.

The Notes (other than Australian Domestic Notes as defined below) are issued pursuant to an amended and restated Fiscal Agency Agreement dated 21 August 2008 (as amended and supplemented from time to time, the **Fiscal Agency Agreement**) between Citigroup Funding Inc. (the **Issuer**), Citigroup Inc. (the **Guarantor**), Citibank, N.A., London office as fiscal agent (in such capacity the **Fiscal Agent**, which expression shall include any successor fiscal agent) and as principal paying agent (the principal paying agent together with any other paying agent from time to time, the **Paying Agents**, which expression shall include any additional or successor paying agents), Citigroup Global Markets Deutschland AG & Co. KGaA as registrar (the **Registrar** which expression shall include any successor registrar) and as a transfer agent (in such capacity, the **Transfer Agent**, which expression shall include any additional or successor transfer agent), KBL European Private Bankers S.A. as a paying agent (in such capacity, the **Paying Agent**) and as a transfer agent (in such capacity, the **Transfer Agent**, and the Fiscal Agent, the Registrar (if applicable), all Paying Agents and all Transfer Agents (if applicable) are together referred to herein as the **Agents**) and Citibank, N.A. as calculation agent if so specified in the applicable Final Terms (the **Calculation Agent** which expression shall include any successor calculation agent or such other entity as may be specified as the Calculation Agent in the applicable Final Terms).

The Notes are issued with the benefit of a Deed of Covenant dated 21 August 2008 (the **Deed of Covenant**) executed by the Issuer in relation to the Notes and are the subject of a Deed of Guarantee (as amended, supplemented or replaced, as the case may be, from time to time the **Deed of Guarantee**), dated 21 August 2008 entered into by the Guarantor. The holders of the Notes, the holders of the interest coupons (the **Coupons**) appertaining to interest bearing definitive Notes in bearer form and, where applicable in the case of such Notes, talons for further Coupons (the **Talons**), and the holders of the instalment receipts (the **Receipts**) appertaining to the payment of principal by instalments are deemed to have notice of all of the provisions of the Fiscal Agency Agreement applicable to them.

Notwithstanding the foregoing, Notes denominated in Australian dollars and issued in the domestic Australian capital markets (**Australian Domestic Notes**) will be issued in registered uncertificated (or

inscribed) form. Australian Domestic Notes will be constituted by a Deed Poll (as defined below) and will take the form of entries on a register to be maintained by an Australian Registrar (as defined below), all as more fully described in the applicable Final Terms.

Copies of the Fiscal Agency Agreement, the Deed of Covenant and the Deed of Guarantee are available for inspection at the specified office of each of the Paying Agents. Copies of the Deed Poll and the Registry Services Agreement (as defined below) will be available for inspection at the specified office of the Australian Registrar following issue of any Australian Domestic Notes. Copies of the applicable Final Terms are obtainable during normal business hours at the specified office of each of the Paying Agents or, in the case of Australian Domestic Notes, the Australian Registrar save that, if the Notes are neither listed on a stock exchange nor admitted to trading on any market, the applicable Final Terms will only be obtainable by a Noteholder holding one or more of the Notes and such Noteholder must produce evidence satisfactory to the Issuer and the relevant Paying Agent as to its holding of such Notes and identity.

As used herein, **Tranche** means Notes which are identical in all respects (including as to listing and admission to trading) and **Series** means a Tranche of Notes together with any further Tranche or Tranches of Notes which are (a) expressed to be consolidated and form a single series and (b) identical in all respects (including as to listing and admission to trading) except for their respective Issue Dates, Interest Commencement Dates and/or Issue Prices.

All capitalised terms which are not defined in the Conditions will have the meanings given to them in the applicable Final Terms.

1. **Form, Denomination and Title**

The Notes are issued in bearer form (**Bearer Notes**) or in registered form (**Registered Notes**) as specified in the applicable Final Terms and in each case in the Specified Denomination(s) specified in the applicable Final Terms or, in the case of Bearer Notes, shown thereon. All Registered Notes shall have the same Specified Denomination as specified in the applicable Final Terms.

Bearer Notes are issued with Coupons (and, where appropriate, a Talon) attached, unless the applicable Final Terms specifies that the Notes do not bear interest in which case references to interest (other than in relation to interest due after the Maturity Date), Coupons and Talons in the Conditions are not applicable. Any Bearer Note issued, the principal amount of which is redeemable in instalments, is issued with one or more Receipts attached.

Any Registered Notes issued are represented by registered certificates (**Certificates**), each Certificate representing a holding of one or more Registered Notes by the same holder (as defined below).

Although there is no minimum denomination for Australian Domestic Notes, the minimum subscription price for Australian Domestic Notes will be A\$500,000 (disregarding monies lent by the Issuer or its associates to the purchaser).

The applicable Final Terms will specify whether settlement shall be by way of cash payment (**Cash Settled Notes**) or by physical delivery (**Physical Delivery Notes**). Any reference in the Conditions to Physical Delivery Notes shall mean Notes in respect of which the Entitlement(s) (being the number of underlying equity, bond, security or such other asset as may be specified in the applicable Final Terms (the **Relevant Asset(s)**)) is/are deliverable and as determined by reference to one or more Relevant Assets, all as set out in the applicable Final Terms.

References in the Conditions, unless the context otherwise requires, to Cash Settled Notes shall be deemed to include references to Physical Delivery Notes which include an option (as set out in the applicable Final Terms) at the Issuer's election to request settlement upon redemption by way of cash

payment pursuant to Condition 6(k) and where settlement upon redemption is to be by way of cash payment. References in the Conditions, unless the context otherwise requires, to Physical Delivery Notes shall be deemed to include references to Cash Settled Notes which include an option (as set out in the applicable Final Terms) at the Issuer's election to request physical delivery of the relevant Entitlement(s) in settlement upon redemption of such Notes pursuant to Condition 6(k) and where settlement upon redemption is to be by way of physical delivery.

Notes may, if specified in the applicable Final Terms, allow Noteholders upon redemption of such Notes to elect for settlement by way of cash payment or by way of physical delivery or by such other method of settlement as is specified in the applicable Final Terms. The Notes where the Noteholder has elected for cash payment will be Cash Settled Notes and the Notes where the Noteholder has elected for physical delivery will be Physical Delivery Notes. The rights of a Noteholder as described in this paragraph may be subject to the Issuer's right to cash settlement upon redemption of Notes as indicated in the applicable Final Terms and will be subject to the Issuer's right to deliver Substitute Assets (as defined in Condition 6(l)) or pay the Alternate Cash Redemption Amount (as defined in Condition 6(l)) in lieu of physical delivery in accordance with the Conditions.

Subject as provided below, title to any Bearer Notes issued and the related Receipts, Coupons and Talons shall pass by delivery and title to any Registered Notes issued shall pass by registration in the register which the Issuer or the Guarantor shall procure to be kept by the Registrar in accordance with the provisions of the Fiscal Agency Agreement. Except as ordered by a court of competent jurisdiction or as required by law, the holder of any Note, Receipt, Coupon or Talon shall be deemed to be and may be treated as the absolute owner of such Note, Receipt, Coupon or Talon, as the case may be, for the purpose of receiving payment thereof or on account thereof and for all other purposes, whether or not such Note, Receipt, Coupon or Talon shall be overdue and notwithstanding any notice of ownership, theft or loss thereof or any writing thereon made by anyone but, in the case of any Global Note or Global Certificate, without prejudice to the provisions set out below.

In the Conditions, **holder** (in relation to a Note, Receipt, Coupon or Talon) means, in the case of Bearer Notes, the bearer of any Bearer Note, Receipt, Coupon or Talon or, in the case of Registered Notes, the person in whose name a Registered Note is registered (as the case may be) PROVIDED THAT, in relation to any Notes represented by a Global Note or Global Certificate, it shall be construed as provided below and **Noteholder** and, in the case of Coupons, **Couponholder**, shall have correlative meanings

For so long as any of the Notes is represented by a Global Note or a Global Certificate held on behalf of Euroclear Bank S.A./N.V. (**Euroclear**) and/or Clearstream Banking, société anonyme (**Clearstream, Luxembourg**), each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular principal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the principal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Guarantor and the Agents as the holder of such principal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such principal amount of such Notes, for which purpose the bearer of the relevant Global Note or the registered holder of the relevant Global Certificate shall be treated by the Issuer, the Guarantor and each Agent as the holder of such principal amount of such Notes in accordance with and subject to the terms of the relevant Global Note or Global Certificate, as the case may be, and the expressions **Noteholder** and **holder of Notes** and related expressions shall be construed accordingly.

Interests in Notes which are represented by a Global Note or a Global Certificate will be transferable only in accordance with the rules and procedures for the time being of Euroclear and Clearstream,

Luxembourg, as the case may be. References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms. In the case of Australian Domestic Notes, the following provisions of this Condition 1 shall apply in lieu of the foregoing provisions of this Condition 1 in the event of any inconsistency. Australian Domestic Notes are debt obligations of the Issuer owing under the Deed Poll specified in the applicable Final Terms executed by the Issuer in favour of the relevant Noteholders (the **Deed Poll**) and take the form of entries in a register (the **Australian Register**) to be maintained by an Australian registrar to be appointed by the Issuer and specified in the applicable Final Terms (the **Australian Registrar**). Although Australian Domestic Notes will not be issued pursuant to the Fiscal Agency Agreement, Australian Domestic Notes may have the benefit of certain provisions of the Fiscal Agency Agreement as specified in the applicable Final Terms.

Australian Domestic Notes will not be serially numbered. Each entry in the Australian Register constitutes a separate and individual acknowledgement to the relevant Noteholder of the indebtedness of the Issuer to the relevant Noteholder. No certificate or other evidence of title will be issued by or on behalf of the Issuer to evidence title to an Australian Domestic Note unless the Issuer determines that certificates should be made available or it is required to do so pursuant to any applicable law or regulation.

No Australian Domestic Note will be registered in the name of more than four persons. Australian Domestic Notes registered in the name of more than one person are held by those persons as joint tenants. Australian Domestic Notes will be registered by name only without reference to any trusteeship. The person registered in the Australian Register as a holder of an Australian Domestic Note will be treated by the Issuer, the Guarantor and the Australian Registrar as the absolute owner of that Australian Domestic Note and none of the Issuer, the Guarantor and the Australian Registrar will, except as ordered by a court of competent jurisdiction or as required by statute, be obliged to take notice of any other claim to an Australian Domestic Note.

2. Exchanges and Transfers of Notes

(a) Exchange of Notes

Bearer Notes of one Specified Denomination may not be exchanged for Bearer Notes of another Specified Denomination. Bearer Notes may not be exchanged for Registered Notes. Registered Notes may not be exchanged for Bearer Notes.

(b) Transfer of Registered Notes

If definitive Registered Notes are issued, one or more of such Registered Notes may be transferred upon the surrender of the Certificate representing such Registered Notes to be transferred, together with the form of transfer endorsed on such Certificate duly completed and executed, at the specified office of the Registrar or any Transfer Agent. In the case of a transfer of part only of a holding of Registered Notes represented by one Certificate, a new Certificate in respect of the balance not transferred will be issued to the transferor. In the case of a transfer of Registered Notes to a person who is already a holder of Registered Notes, a new Certificate representing the enlarged holding shall only be issued against surrender of the Certificate representing the existing holding. Transfers of beneficial interests in a Global Certificate will be effected by Euroclear or Clearstream, Luxembourg, as the case may be, and, in turn, by other participants and, if appropriate, indirect participants in such clearing systems acting on behalf of beneficial transferors and transferees of such interests. A beneficial interest in a Global Certificate will only be exchangeable for a definitive Certificate as described in, and subject to, the provision of such Global Certificate.

(c) *Transfer of Australian Domestic Notes*

Conditions 2(a) and (b) do not apply to Australian Domestic Notes. Australian Domestic Notes may be transferred in whole but not in part. Australian Domestic Notes will be transferred by duly completed and (if applicable) stamped transfer and acceptance forms in the form specified by, and obtainable from, the Australian Registrar or by any other manner approved by the Issuer and the Australian Registrar. Notes entered in the Austraclear System (as defined below) will be transferable only in accordance with the Austraclear Regulations (as defined below).

Unless the Australian Domestic Notes are lodged in the Austraclear System, application for the transfer of Australian Domestic Notes must be made by the lodgement of a transfer and acceptance form with the Australian Registrar. Each transfer and acceptance form must be accompanied by such evidence (if any) as the Australian Registrar may require to prove the title of the transferor or the transferor's right to transfer the Australian Domestic Notes and must be signed by both the transferor and the transferee.

Australian Domestic Notes may only be transferred if (a) the aggregate consideration payable by the transferee at the time of transfer is at least A\$500,000 (or the equivalent in another currency, in either case disregarding moneys lent by the transferor or its associates to the purchaser) or the offer or invitation giving rise to the transfer does not constitute an offer or invitation for which disclosure is required to be made to investors under Part 6D.2 of the Corporations Act 2001 of Australia, (b) the transfer complies with any applicable laws, regulations or directives of the jurisdiction in which the transfer takes place, and (c) in the case of a transfer between persons outside Australia, if a transfer and acceptance form is signed outside Australia. A transfer to an unincorporated association is not permitted.

In this Condition 2(c):

Austraclear means Austraclear Limited (ABN 94 002 060 773).

Austraclear Regulations means the rules and regulations established by Austraclear (as amended or replaced from time to time) to govern the use of the Austraclear System.

Austraclear System means the system operated by Austraclear for holding securities and the electronic recording and settling of transactions in those securities between members of that system.

(d) *Partial Redemption in Respect of Registered Notes*

In the case of a partial redemption of a holding of Registered Notes represented by a single definitive Certificate, a new definitive Certificate shall be issued to the holder to reflect the balance of the holding not redeemed. New Certificates shall only be issued against surrender of the existing Certificates to the Registrar or any Transfer Agent. In the case of a partial redemption of a holding of Registered Notes represented by a Global Certificate, the Global Certificate shall be endorsed to reflect such partial redemption.

(e) *Delivery of New Certificates*

Each new Certificate to be issued pursuant to Condition 2(b) or (d) will, within three business days (being a day, other than a Saturday or Sunday, on which banks are open for business in the place of the specified office of the Registrar or the Transfer Agent to whom such form of transfer shall have been delivered) of receipt of such form of transfer, be available for delivery at the specified office of the Registrar or of the Transfer Agent (as the case may be) to whom such delivery shall have been made or, at the option of the holder making such delivery as aforesaid and as specified in the

relevant form of transfer, be mailed at the risk of the holder entitled to the new Certificate to such address as may be specified in such form of transfer.

(f) *Transfer Free of Charge*

Transfer of Notes and registration will be effected without charge by or on behalf of the Issuer, the Registrar or the Transfer Agents, but will be subject to the payment (or the giving of such indemnity as the Registrar (or the Australian Registrar in the case of Australian Domestic Notes) or the relevant Transfer Agent may require in respect thereof) of any tax or other governmental charges which may be imposed in relation to it.

(g) *Closed Periods*

No holder of a Note may require the transfer of a Registered Note to be registered (i) during the period of 15 days ending on the due date for redemption of that Note, (ii) during the period of 15 days prior to any date on which Notes may be redeemed by the Issuer at its option pursuant to Condition 5(e), (iii) after any such Note has been drawn for redemption in whole or in part or (iv) during the period of seven days ending on (and including) any Record Date (as defined in Condition 6(b)(ii) below).

3. **Status**

(a) *Status of Notes*

The Notes and any Receipts and Coupons relating thereto constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and will at all times rank *pari passu* and rateably among themselves and at least *pari passu* with all other unsecured and unsubordinated outstanding obligations of the Issuer, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

(b) *Status of the Deed of Guarantee in respect of the Notes*

The obligations of the Guarantor in respect of the Notes under the Deed of Guarantee constitute direct, unconditional, unsubordinated and unsecured obligations of the Guarantor and rank and will rank *pari passu* (subject to mandatorily preferred debts under applicable laws) with all other outstanding unsecured and unsubordinated obligations of the Guarantor.

4. **Interest**

(a) *Interest on Fixed Rate Notes*

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Interest Rate(s). Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

If the Notes are in definitive form, except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on (but excluding) such date will amount to the **Interest Amount**. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

Except in the case of Notes in definitive form where an applicable Interest Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Interest Rate to:

- (A) in the case of Fixed Rate Notes which are represented by a Global Note or Global Certificate, the aggregate outstanding principal amount of the Fixed Rate Notes represented by such Global Note or Global Certificate (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (B) in the case of Fixed Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

Day Count Fraction means, in respect of the calculation of an amount of interest in accordance with this Conditions 4(a):

- (a) if **30/360** is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.
- (b) if **Actual/Actual (ICMA)** is specified in the applicable Final Terms:
 - (i) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **Accrual Period**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (I) the number of days in such Determination Period and (II) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (ii) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (A) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (B) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year.

In the Conditions:

Determination Period means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

sub-unit means, with respect to any currency other than Euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to Euro, one cent.

(b) *Interest on Floating Rate Notes*

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (i) the Specified Interest Payment Date(s) in each year specified in the applicable Final Terms; or
- (ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Interest Payment Date, an **Interest Payment Date**) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period.

(i) *Screen Rate Determination*

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Interest Rate is to be determined, the Interest Rate for each Interest Period will, subject as provided below, be either:

- (1) the offered quotation; or
- (2) the arithmetic mean of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Page as at the Specified Time on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided below) of such offered quotations.

If the Page is not available or if, in the case of (1) above, no offered quotation appears or, in the case of (2) above, fewer than three offered quotations appear, in each case as at the Specified Time, the Calculation Agent shall request each of the Reference Banks to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with offered quotations, the Rate of Interest for the Interest Period shall be the arithmetic mean of the offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Interest Rate for the relevant Interest Period shall be the rate per annum which the Calculation Agent determines as being the arithmetic mean of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Relevant Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the London inter-bank market (if the Reference Rate is LIBOR) or the Euro-zone inter-bank market (if the Reference Rate is EURIBOR) plus or minus (as appropriate) the Margin (if any) or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Relevant Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates (rounded as provided below) for deposits in the Relevant Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for the purpose) informs the Calculation Agent it is quoting to leading banks in the London inter-bank market (if the Reference Rate is LIBOR) or the Euro-zone inter-bank market (if the Reference Rate is EURIBOR) plus or minus (as appropriate) the Margin (if any), PROVIDED THAT, if the Interest Rate cannot be determined in accordance with the foregoing provisions of this paragraph, the Interest Rate shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period).

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Final Terms as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Final Terms.

The Calculation Agent shall not be responsible to the Issuer, the Guarantor or to any third party as a result of the Calculation Agent having acted on any quotation given by any Reference Bank.

(ii) *ISDA Determination*

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Interest Rate is to be determined, the Interest Rate for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this subparagraph (ii), **ISDA Rate** for an Interest Period means the rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as calculation agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the ISDA Definitions) and under which:

- (A) the Floating Rate Option is as specified in the applicable Final Terms;
- (B) the Designated Maturity is a period specified in the applicable Final Terms; and

- (C) the relevant Reset Date is either (a) if the applicable Floating Rate Option is based on the London interbank offered rate (LIBOR) or on the Euro-zone interbank offered rate (EURIBOR), the first day of that Interest Period or (b) in any other case, as specified in the applicable Final Terms.

For the purposes of this subparagraph (ii), Floating Rate, calculation agent, Floating Rate Option, Designated Maturity and Reset Date have the meanings given to those terms in the ISDA Definitions.

Unless otherwise stated in the applicable Final Terms the Minimum Interest Rate shall be deemed to be zero.

(iii) *Maximum/Minimum Interest Rates and Rounding*

- (i) If any Maximum or Minimum Interest Rate is specified in the applicable Final Terms, then any Interest Rate shall be subject to such maximum or minimum, as the case may be.
- (ii) For the purposes of any calculations required pursuant to the Conditions (unless otherwise specified), (x) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures will be rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts which fall due and payable will be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of Yen, which shall be rounded down to the nearest Yen. For these purposes **unit** means the lowest amount of such currency which is available as legal tender in the country of such currency.

(iv) *Calculations*

The Calculation Agent will calculate the amount of interest (the **Interest Amount**) payable on the Floating Rate Notes for the relevant Interest Period by applying the Interest Rate to:

- (A) in the case of Floating Rate Notes which are represented by a Global Note or Global Certificate, the aggregate outstanding principal amount of the Notes represented by such Global Note or Global Certificate (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (B) in the case of Floating Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

(v) *Determination and Publication of Interest Rates and Interest Amounts*

As soon as practicable after each Interest Determination Date the Calculation Agent will determine the Interest Rate and calculate the Interest Amounts in respect of each Specified Denomination for the relevant Interest Period. The Interest Amounts and the Interest

Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 9, the accrued interest and the Interest Rate payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Interest Rate or the Interest Amount so calculated need be made.

(vi) *Notification of Interest Rate and Interest Amounts*

The Calculation Agent will cause the Interest Rate and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange on which the relevant Floating Rate Notes are for the time being listed and notice thereof to be published in accordance with Condition 13 as soon as possible after their determination but in no event later than the fourth London Business Day thereafter. For the purposes of this paragraph, the expression **London Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(c) *Business Day Convention*

If any date referred to in the Conditions is specified in the applicable Final Terms to be subject to adjustment in accordance with a Business Day Convention and (x) such day would otherwise fall on a day which is not a Business Day or (y) there is no numerically corresponding day in the calendar months in which such date should occur, then, if the Business Day Convention specified in the applicable Final Terms is (i) the Floating Rate Convention, (1) in the case of (x) above such date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such date shall be brought forward to the immediately preceding Business Day and (B) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment or (2) in the case of (y) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) above shall apply *mutatis mutandis*, (ii) the Following Business Day Convention, such date shall be postponed to the next day which is a Business Day, (iii) the Modified Following Business Day Convention, such date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (iv) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(d) *Certificates to be final*

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition by the Calculation Agent, shall (in the absence of wilful default, bad faith, manifest error or proven error) be binding on the Issuer, the Guarantor, the Fiscal Agent, the Calculation Agent, the other Paying Agents, the Registrar (if applicable), any Transfer Agents and all Noteholders, Receiptholders and Couponholders and (in the absence of wilful default or bad faith) no liability to the Issuer, the Guarantor, the Noteholders, the Receiptholders or the Couponholders shall attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(e) *Interest on Dual Currency Interest Notes*

The rate or amount of interest payable in respect of Dual Currency Interest Notes shall be determined in the manner specified in the applicable Final Terms.

(f) *Interest on Partly Paid Notes*

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up principal amount of such Notes and otherwise as specified in the applicable Final Terms.

(g) *Interest on other Notes*

Interest bearing Notes where the determination of the rate of interest and amount of interest payable is not determined pursuant to the above provisions (including, but not limited to, Index Linked Interest Notes, Inflation Linked Interest Notes, Commodity Linked Interest Notes, Share Linked Interest Notes, Foreign Exchange Linked Interest Notes and Formula Linked Interest Notes), if so specified in the applicable Final Terms, will receive interest or will have any amount(s) of interest determined in the manner set out in the applicable Final Terms.

(h) *Accrual of interest*

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless payment of principal and/or delivery of all assets deliverable is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (i) the date on which all amounts due in respect of such Note have been paid and/or all assets deliverable in respect of such Note have been delivered; and
- (ii) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Fiscal Agent or the Registrar, as the case may be, and/or all assets in respect of such Note have been received by any agent appointed by the Issuer to deliver such assets to Noteholders and notice to that effect has been given to the Noteholders in accordance with Condition 13.

In the Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

5. Redemption and Purchase

(a) Final Redemption

Unless otherwise provided in the applicable Final Terms, or unless previously redeemed or purchased and cancelled as provided below, each principal amount of the Notes equal to the

Calculation Amount will be redeemed at the amount (the **Redemption Amount**) specified in, or determined in the manner specified in, the applicable Final Terms on the Maturity Date.

(b) *Redemption for Taxation Reasons and Redemption for Illegality*

- (i) The Notes may be redeemed at the option of the Issuer or the Guarantor in whole, but not in part, at any time in the case of a Note other than a Floating Rate Note or only on an Interest Payment Date in the case of a Floating Rate Note, on giving not less than 30 or more than 60 days' notice in accordance with Condition 13 (which notice shall be irrevocable), at, in respect of each principal amount of the Notes equal to the Calculation Amount, the Early Redemption Amount together with, if so specified in the applicable Final Terms, accrued interest, if the Issuer or the Guarantor, as the case may be, has or will become obligated to pay additional interest on such Notes pursuant to Condition 7 as a result of any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder) of the United States or any political subdivision or taxing authority thereof or therein, or any change in the application or official interpretation of such laws, regulations or rulings, which change or amendment becomes effective on or after the date on which any person (including any person acting as underwriter, broker or dealer) agrees to purchase the first Tranche of any of such Notes pursuant to the original issuance of such first Tranche, and such obligation cannot be avoided by the Issuer or Guarantor, as the case may be, taking reasonable measures available to it; PROVIDED THAT no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer or Guarantor, as the case may be, would be obligated to pay such additional interest were a payment in respect of the Notes then due. Prior to the publication of any notice of redemption pursuant to this Condition 5(b)(i), the Issuer or the Guarantor, as the case may be, shall deliver to the Fiscal Agent or the Australian Registrar in the case of Australian Domestic Notes (i) a certificate signed by an officer of the Issuer or the Guarantor, as the case may be, stating that the Issuer or the Guarantor, as the case may be, is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer or the Guarantor, as the case may be, so to redeem have occurred and (ii) a legal opinion, from lawyers of recognised standing in the United States, to the effect that the Issuer or the Guarantor, as the case may be, has or will become obligated to pay such additional interest as a result of such change or amendment.
- (ii) If the Issuer or the Guarantor shall determine that any payment made outside the United States by the Issuer or the Guarantor, as the case may be, or any of its Paying Agents in respect of any Bearer Note, Receipt or Coupon, if any (an **Affected Note**) would, under any present or future laws or regulations of the United States, be subject to any certification, documentation, information or other reporting requirement of any kind, the effect of which requirement is the disclosure to the Issuer or the Guarantor, any Paying Agent or any governmental authority of the nationality, residence or identity (as distinguished from, for example, status as a Non-U.S. Holder (as defined below)) of a beneficial owner of such Affected Note that is a Non-U.S. Holder (other than such a requirement (i) that would not be applicable to a payment made by the Issuer or the Guarantor, as the case may be, or any one of its Paying Agents (A) directly to the beneficial owner or (B) to a custodian, nominee or other agent of the beneficial owner, or (ii) that can be satisfied by such custodian, nominee or other agent certifying to the effect that the beneficial owner is a Non-U.S. Holder; PROVIDED THAT, in any case referred to in clause (i)(B) or (ii), payment by the custodian, nominee or agent to the beneficial owner is not otherwise subject to any such requirement), then the Issuer shall elect either (x) to redeem such Affected Notes in whole, but not in part, at, in respect of each principal amount of the Notes equal to the Calculation Amount, the Early Redemption Amount together with, if so specified in the applicable Final Terms, accrued interest or (y) if the conditions of the next succeeding paragraph are satisfied, to pay

the additional interest specified in such paragraph. The Issuer or the Guarantor, as the case may be, shall make such determination as soon as practicable and publish prompt notice thereof (the **Determination Notice**), stating the effective date of such certification, documentation, information or other reporting requirement, whether the Issuer elects to redeem the Affected Notes or to pay the additional interest specified in the next succeeding paragraph and (if applicable) the last date by which the redemption of the Affected Notes must take place (the **Redemption Date**), as provided in the next succeeding sentence. If any Affected Notes are to be redeemed pursuant to this paragraph, the redemption shall take place on such date, not later than one year after the publication of the Determination Notice, as the Issuer or the Guarantor shall specify by notice given to the Fiscal Agent at least 60 days before the Redemption Date PROVIDED THAT if the Notes are Floating Rate Notes such date must be an Interest Payment Date. Notice of such redemption shall be given to the holders of the Affected Notes not more than 60 days or less than 30 days prior to the Redemption Date. Notwithstanding the foregoing, the Issuer shall not so redeem the Affected Notes if the Issuer or the Guarantor, as the case may be, shall subsequently determine, not less than 30 days prior to the Redemption Date, that subsequent payments on the Affected Notes would not be subject to any such certification, documentation, information or other reporting requirement, in which case the Issuer or the Guarantor, as the case may be, shall publish prompt notice of such subsequent determination, and any earlier redemption notice given pursuant to this paragraph shall be revoked and of no further effect. Prior to the publication of any Determination Notice pursuant to this paragraph, the Issuer or the Guarantor, as the case may be, shall deliver to the Fiscal Agent (i) a certificate signed by an officer of the Issuer or the Guarantor, as the case may be, stating that the Issuer or the Guarantor, as the case may be, is entitled to make such determination and setting forth a statement of facts showing that the conditions precedent to the obligation of the Issuer to redeem the Affected Notes or to pay the additional interest specified in the next succeeding paragraph have occurred and (ii) a legal opinion, from lawyers of recognised standing in the United States, to the effect that such conditions have occurred.

If and so long as the certification, documentation, information or other reporting requirement referred to in the preceding paragraph would be fully satisfied by payment of a backup withholding tax or similar charge, the Issuer may elect to pay as additional interest such amounts as may be necessary so that every net payment made outside the United States following the effective date of such requirement by the Issuer or the Guarantor, as the case may be, or any of its Paying Agents in respect of any Affected Note of which the beneficial owner is a Non-U.S. Holder (but without any requirement that the nationality, residence or identity of such beneficial owner be disclosed to the Issuer or the Guarantor, as the case may be, any Paying Agent or any governmental authority), after deduction or withholding for or on account of such backup withholding tax or similar charge (other than a backup withholding tax or similar charge that (i) would not be applicable in the circumstances referred to in the parenthetical clause of the first sentence of the preceding paragraph or (ii) is imposed as a result of presentation of any such Affected Note for payment more than 15 days after the Relevant Date (as defined in Condition 7)), will not be less than the amount provided in any such Affected Note to be then due and payable. If the Issuer or the Guarantor, as the case may be, elects to pay additional interest pursuant to this paragraph, then the Issuer shall have the right to redeem the Affected Notes at any time in the case of a Note other than a Floating Rate Note or only on an Interest Payment Date in the case of a Floating Rate Note in whole, but not in part, at, in respect of each principal amount of the Notes equal to the Calculation Amount, the Early Redemption Amount together with, if so specified in the applicable Final Terms, accrued interest, subject to the provisions of the last three sentences of the immediately preceding paragraph. If the Issuer or the Guarantor, as the case may be, elects to pay additional interest pursuant to this paragraph and the condition specified in the first sentence of this paragraph should no longer be satisfied, then the Issuer

shall redeem the Affected Notes in whole, but not in part, at, in respect of each principal amount of the Notes equal to the Calculation Amount, the Early Redemption Amount together with, if so specified in the applicable Final Terms, accrued interest, subject to the provisions of the last three sentences of the immediately preceding paragraph. Any redemption payments made by the Issuer or the Guarantor, as the case may be, pursuant to the two immediately preceding sentences shall be subject to the continuing obligation of the Issuer or the Guarantor, as the case may be, to pay additional interest pursuant to this paragraph. If the Affected Notes are to be redeemed pursuant to this paragraph, the redemption shall take place on such date (subject as aforesaid), not later than one year after publication of the notice of redemption, as the Issuer shall specify by notice to the Fiscal Agent at least 60 days prior to the Redemption Date.

A **Non-U.S. Holder** is a beneficial owner of a Note that is, for U.S. federal income tax purposes: (i) a foreign corporation; (ii) a non-resident alien individual; (iii) a non-resident alien fiduciary of a foreign estate or trust; or (iv) a foreign partnership one or more members of which is a Non-U.S. Holder.

- (iii) If the Issuer determines that the performance of its obligations under the Notes or the Guarantor determines that the performance of its obligations under the Deed of Guarantee in respect of the Notes or that any arrangements made to hedge the Issuer's and/or the Guarantor's obligations under the Notes and/or the Deed of Guarantee, as the case may be, has or will become unlawful, illegal or otherwise prohibited in whole or in part for any reason, the Issuer may redeem the Notes early by giving notice to Noteholders in accordance with Condition 13.

Should any one or more of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

If the Issuer redeems the Notes early pursuant to this provision, then the Issuer will, if and to the extent permitted by applicable law, pay to each Noteholder in respect of each principal amount of Notes equal to the Calculation Amount held by such holder, an amount equal to the Early Redemption Amount together with, if so specified in the applicable Final Terms, accrued interest. Payment will be made in such manner as shall be notified to the Noteholders in accordance with Condition 13 and upon such payment in respect of such Notes all obligations of the Issuer and the Guarantor in respect thereof shall be discharged.

(c) *Purchases*

The Issuer, the Guarantor or any of their respective subsidiaries or affiliates may at any time purchase Notes (PROVIDED THAT all unmatured Receipts and Coupons and unexchanged Talons appertaining thereto are attached or surrendered therewith) in the open market or otherwise at any price. Any Notes or Coupons so purchased may be held or resold or surrendered for cancellation together with all unmatured Coupons attached thereto or purchased therewith.

(d) *Early Redemption Amount*

For the purpose of Condition 5(b)(i), (ii) and (iii) above and Condition 9, the Early Redemption Amount in respect of each principal amount of the Notes equal to the Calculation Amount will be calculated as follows:

- (i) in the case of Notes (other than Zero Coupon Notes, Index Linked Notes, Inflation Linked Notes, Commodity Linked Notes and Share Linked Notes) at the amount specified in, or determined in the manner specified in, the applicable Final Terms or, if no such amount or

manner is so specified in the applicable Final Terms, at an amount in respect of each Note equal to its principal amount; or

- (ii) in the case of Zero Coupon Notes, at an amount (the **Amortised Face Amount**) calculated in accordance with the following formula:

$$\text{Early Redemption Amount} = \text{RP} \times (1 + \text{AY})^y$$

where:

RP means the Reference Price;

AY means the Amortisation Yield expressed as a decimal; and

^y is a fraction the numerator of which is equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator of which is 360,

or on such other calculation basis as may be specified in the applicable Final Terms;
or

- (iii) in the case of Index Linked Notes, Inflation Linked Notes, Commodity Linked Notes or Share Linked Notes, at an amount equal to either (i) an amount in the Specified Currency determined by the Calculation Agent which represents the fair market value of such Calculation Amount on a day selected by the Issuer (ignoring for the purposes of a redemption pursuant to Condition 5(b)(iii), the relevant unlawfulness, illegality or prohibition) less (except in the case of any early redemption pursuant to Condition 9) the proportionate cost to the Issuer and/or its Affiliates of unwinding any underlying and/or related hedging and funding arrangements in respect of the Notes (including without limitation, any equity options hedging the Issuer's obligations under the Notes) and, for the purposes of determining the fair market value of such Calculation Amount for the purposes of Condition 9, no account shall be taken of the financial condition of the Issuer which shall be presumed to be able to perform fully its obligations in respect of the Notes, or (ii) such other amount determined by reference to the provisions in the applicable Final Terms.

(e) *Redemption at the Option of the Issuer*

If Issuer Call is specified as in the applicable Final Terms, the Issuer may having given:

- (i) in respect of Bearer Notes, not less than 5 nor more than 60 days' notice to the Noteholders in accordance with Condition 13; and
- (ii) in the case of Registered Notes:
 - (A) not less than, 5 nor more than 60 days' notice to the Noteholders in accordance with Condition 13; and
 - (B) not less than 5 days' notice to the Registrar,

(which notices shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Notes then outstanding on any Optional Redemption Date and, in respect of each

principal amount of the Notes equal to the Calculation Amount at the Optional Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any such redemption must be of a principal amount not less than the Minimum Redemption Amount and not more than the Maximum Redemption Amount in each case as may be specified in the applicable Final Terms.

In the case of a redemption of some only of the Notes, the Notes to be redeemed (**Redeemed Notes**) will be selected individually by lot, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of Euroclear and/or Clearstream, Luxembourg, in the case of Redeemed Notes represented by a Global Note or Global Certificate, not more than 30 days prior to the date fixed for redemption (such date of selection being hereinafter called the **Selection Date**). In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 13 not less than five days prior to the date fixed for redemption. No exchange of the relevant Global Note or Global Certificate will be permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption pursuant to this paragraph.

(f) *Redemption at the Option of holders of Notes*

If Investor Put is specified as applicable in the applicable Final Terms, upon the holder of any Note giving to the Issuer in accordance with Condition 13 not less than 45 days' notice the Issuer will, upon the expiry of such notice, redeem, subject to, and in accordance with, the terms specified in the applicable Final Terms, such Note on the Optional Redemption Date and at, in respect of each principal amount of the Notes equal to the Calculation Amount, the Optional Redemption Amount together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date. Registered Notes may be redeemed under this Condition 5(f) in any multiple of their lowest Specified Denomination.

To exercise the right to require redemption of a Note the holder of such Note must, if such Note is in definitive form and held outside Euroclear and Clearstream, Luxembourg, deliver, at the specified office of any Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) at any time during normal business hours of such Paying Agent or, as the case may be, the Registrar falling within the notice period, a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent or, as the case may be, the Registrar (a **Put Notice**) and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition and, in the case of Registered Notes, the principal amount thereof to be redeemed and, if less than the full principal amount of the Registered Notes so surrendered is to be redeemed, an address to which a new Registered Note in respect of the balance of such Registered Notes is to be sent subject to and in accordance with the provisions of Condition 2(f). If the relevant Note is in definitive form, the Put Notice must be accompanied by the Note or evidence satisfactory to the Paying Agent concerned that the Note will, following delivery of the Put Notice, be held to its order or under its control. If the relevant Note is represented by a Global Note or Global Certificate or is in definitive form and held through Euroclear or Clearstream, Luxembourg, to exercise the right to require redemption of such Note the holder of such Note must, within the notice period, give notice to the Fiscal Agent or the Registrar, as the case may be, of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg, (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg or any common depositary or common safekeeper, as the case may be, for them, as applicable, to the Fiscal Agent or the Registrar, as the case may be, by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg, from time to time and, if a Note is represented by a Global Note or Global Certificate,

at the same time present or procure the presentation of the relevant Global Note or Global Certificate to the Fiscal Agent or the Registrar, as the case may be, for notation accordingly.

(g) *Redemption by Instalments*

Unless previously redeemed or purchased and cancelled as provided in this Condition 5, each Note which provides for Instalment Dates and Instalment Amounts will be partially redeemed on each Instalment Date at the Instalment Amount specified in the applicable Final Terms, whereupon the outstanding principal amount of such Note shall be reduced by the Instalment Amount for all purposes.

(h) *Cancellation*

All Notes purchased by or on behalf of the Issuer or Guarantor may be surrendered for cancellation, if the Notes are Bearer Notes, by surrendering each such Note together with all unmatured Receipts and Coupons and all unexchanged Talons to the Fiscal Agent and, if the Notes are Registered Notes, by surrendering the Certificate representing such Notes to the Registrar and, in each case, if so surrendered, will, together with all Notes redeemed by the Issuer, be cancelled forthwith (together with all unmatured Receipts and Coupons and unexchanged Talons attached thereto or surrendered therewith). Any Notes so surrendered for cancellation may not be reissued or resold and the obligations of the Issuer and the Guarantor in respect of any such Notes shall be discharged.

(i) *Late payment on Zero Coupon Notes*

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to this Condition or upon its becoming due and repayable as provided in Condition 9 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in Condition 5(d) above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (ii) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Notes has been received by the Fiscal Agent or the Registrar, as the case may, be and notice to that effect has been given to the Noteholders in accordance with Condition 13.

6. Payments, Talons and Physical Delivery

(a) *Bearer Notes*

Payments of principal and interest in respect of definitive Bearer Notes will, subject as mentioned below, be made against presentation and surrender of the relevant Receipts (in the case of payments of Instalment Amounts other than on the due date for redemption and PROVIDED THAT the Receipt is presented for payment together with its related Note), Notes (in the case of all other payments of principal and, in the case of interest, as specified in Condition 6(g)(iv)) or Coupons (in the case of interest, save as specified in Condition 6(g)(ii)), as the case may be, at the specified office of any Paying Agent outside the United States and its possessions by a cheque payable in the currency in which such payment is due drawn on, or, at the option of the holder, by transfer to an account (which in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non resident account) denominated in that currency with, a bank in the principal financial centre of that currency or, in the case of Euro, by credit or transfer to a Euro account (or any other account to which Euro may be credited or transferred) specified by the payee or, at the option of the payee, by a

Euro cheque PROVIDED THAT, except as provided in Condition 6(d), no payment in respect of Bearer Notes will be made by mail to an address in the United States or its possessions or by wire transfer to an account maintained by the holder in the United States or its possessions.

Payments of principal and interest (if any) in respect of Notes represented by a Global Note will (subject as provided below) be made in the manner specified above in relation to definitive Bearer Notes and otherwise in the manner specified in the relevant Global Note against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States and its possessions. A record of each payment made against presentation or surrender of any Global Note distinguishing between any payment of principal and any payment of interest, will be made on such Global Note by the Paying Agent to which it was presented and such record shall be *prima facie* evidence that the payment in question has been made.

(b) *Registered Notes*

- (i) Payments of principal (which for the purposes of this Condition 6(b) shall include final Instalment Amounts but not other Instalment Amounts) in respect of Registered Notes will be made against presentation and surrender of the relevant Certificates at the specified office of any of the Paying Agents or of the Registrar and in the manner provided in paragraph (ii) below.
- (ii) Payments of interest and payment of all Instalment Amounts other than final Instalment Amounts on Registered Notes will be paid to the person shown on the Register at the close of business on the fifteenth day before the due date for payment thereof (the **Record Date**). Such payments will be made in the currency in which such payments are due by cheque drawn on a bank in the principal financial centre of the country of the currency concerned, or in the case of a payment in Euro, by a Euro cheque and mailed to the holder (or to the first named of joint holders) of such Note at its address appearing in the Register maintained by the Registrar. Upon application by the holder to the specified office of the Registrar before the Record Date, such payment of interest may be made by transfer to an account (which in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account) in the relevant currency designated by the holder with a bank in the principal financial centre of the country of that currency or, if the currency is Euro, into a Euro account (or any other account to which Euro may be credited or transferred) notified to the Registrar by such holder.

(c) *Payments in respect of Australian Domestic Notes*

Conditions 6(a) and 6(b) shall not apply to Australian Domestic Notes. In respect of Australian Domestic Notes, the Australian Registrar will act (through its office in Sydney) as paying agent for Australian Domestic Notes pursuant to the Registry Services Agreement (such Registry Services Agreement as amended or supplemented from time to time, the **Registry Services Agreement**) between the Issuer and the Australian Registrar specified in the applicable Final Terms.

Payments of principal and interest will be made in Sydney in Australian dollars to the persons registered at the close of business in Sydney on the relevant Record Date (as defined below) as the holders of such Notes, subject in all cases to normal banking practice and all applicable laws and regulations. Payment will be made by cheque drawn on an Australian bank dispatched by post on the relevant payment date at the risk of the Noteholder or, at the option of the Noteholder, by the Australian Registrar giving in Sydney irrevocable instructions for the effecting of a transfer of the relevant funds to an Australian dollar account in Australia specified by the Noteholder to the Australian Registrar (or in any other manner which the Australian Registrar and the Noteholder agree).

In the case of payments made by electronic transfer, payments will for all purposes be taken to be made when the Australian Registrar gives irrevocable instructions for the making of the relevant payment by electronic transfer, being instructions which would be reasonably expected to result, in the ordinary course of banking business, in the funds transferred reaching the account of the Noteholder on the same day as the day on which the instructions are given.

If a cheque posted or an electronic transfer for which irrevocable instructions have been given by the Australian Registrar is shown, to the satisfaction of the Australian Registrar, not to have reached the Noteholder and the Australian Registrar is able to recover the relevant funds, the Australian Registrar may make such other arrangements as it thinks fit for the effecting of the payment.

Interest will be calculated in the manner specified in Condition 4 above and will be payable to the persons who are registered as Noteholders at the close of business in Sydney on the relevant Record Date and cheques will be made payable to the Noteholder (or, in the case of joint Noteholders, to the first-named) and sent to their registered address, unless instructions to the contrary are given by the Noteholder (or, in the case of joint Noteholders, by all the Noteholders) in such form as may be prescribed by the Australian Registrar. Payments of principal will be made to, or to the order of, the persons who are registered as Noteholders at the close of business in Sydney on the relevant Record Date, subject, if so directed by the Australian Registrar, to receipt from them of such instructions as the Australian Registrar may require.

In this Condition 6(c), **Record Date** means, in the case of payments of principal or interest, the close of business in Sydney on the date which is the eighth calendar day before the due date of the relevant payment of principal or interest.

(d) *Payments in the United States*

Notwithstanding the foregoing, if any Bearer Notes are denominated in U.S. dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid only if (i) the Issuer and the Guarantor shall have appointed Paying Agents with specified offices outside the United States and its possessions with the reasonable expectation that such Paying Agents would be able to make payment of the amounts on the Notes in the manner provided above when due, (ii) payment in full of such amounts at all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then permitted by United States law, without involving, in the opinion of the Issuer or the Guarantor, any adverse tax consequence to the Issuer or the Guarantor.

(e) *Payments Subject to Law, etc.*

All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives, but without prejudice to the provisions of Condition 7. No commission or expenses shall be charged to the holders of Notes or Couponholders in respect of such payments.

The holder of a Global Note or a Global Certificate shall be the only person entitled to receive payments in respect of Notes represented by such Global Note or Global Certificate and the Issuer, or as the case may be, the Guarantor will be discharged by payment to, or to the order of, the holder of such Global Note or Global Certificate, as the case may be, in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular principal amount of Notes represented by such Global Note or Global Certificate, as the case may be, must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer, or as the case may be, the

Guarantor to, or to the order of, the holder of such Global Note or Global Certificate, as the case may be.

(f) *Appointment of Agents*

As applicable, the Fiscal Agent, each Paying Agent, the Registrar, each Transfer Agent, the Calculation Agent and the Australian Registrar initially appointed by the Issuer and the Guarantor and their respective specified offices are listed below or in the applicable Final Terms. The Fiscal Agent, each Paying Agent, the Registrar, each Transfer Agent, the Calculation Agent and the Australian Registrar act solely as agents or, as the case may be, registrars of the Issuer and the Guarantor and do not assume any obligation or relationship of agency or trust for or with any holder. The Issuer and the Guarantor reserve the right at any time to vary or terminate the appointment of the Fiscal Agent, any other Paying Agent, the Calculation Agent, the Registrar, any Transfer Agent or the Australian Registrar and to appoint additional or other agents (any of which may be the Issuer, an affiliate of the Issuer, the Guarantor or an affiliate of the Guarantor) PROVIDED THAT the Issuer and the Guarantor will at all times maintain (i) a Fiscal Agent, (ii) at any time at which any Registered Note is outstanding, a Registrar or, in the case of Australian Domestic Notes, an Australian Registrar in relation thereto, (iii) at any time at which any Registered Note (other than an Australian Domestic Note) is outstanding, a Transfer Agent in relation thereto, (iv) a Calculation Agent where the Conditions so require one, (v) Paying Agents having a specified office in at least two major European cities (including Luxembourg so long as the Notes are listed on the Luxembourg Stock Exchange and the rules of such exchange so require) and (vi) such other agents as may be required by the rules of any other stock exchange on which the Notes may be listed.

In addition, the Issuer and the Guarantor shall forthwith appoint a Paying Agent in New York in respect of any Bearer Notes denominated in U.S. dollars in the circumstances described in Condition 6(d) above.

Each of the Issuer and the Guarantor also undertakes that it will maintain a Paying Agent in a Member State of the European Union that will not be obliged to withhold or deduct tax pursuant to EC Council Directive 2003/48/EC unless to do so either would be unduly onerous or impracticable or is no longer market practice, in each case in the determination of the Issuer.

Notice of any such change or any change of any specified office of the Fiscal Agent, any other Paying Agent, any Transfer Agent or the Registrar will promptly be given to the Noteholders in accordance with Condition 13.

(g) *Unmatured Coupons and Receipts and unexchanged Talons*

- (i) Unless the applicable Final Terms provides that the related Coupons are to become void upon the due date for redemption of the Notes, Bearer Notes should be surrendered for payment together with all unmaturing Coupons (if any) appertaining thereto, failing which an amount equal to the face value of each missing unmaturing Coupon (or, in the case of payment not being made in full, that proportion of the amount of such missing unmaturing Coupon which the sum of principal so paid bears to the total principal due) will be deducted from the Redemption Amount due for payment. Any amount so deducted will be paid in the manner mentioned above against surrender of such missing Coupon within a period of five years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 8).
- (ii) If the applicable Final Terms so provides, upon the due date for redemption of any Bearer Note, unmaturing Coupons relating to such Note (whether or not attached) shall become void and no payment shall be made in respect of them.

- (iii) Upon the due date for redemption of any Bearer Note, any unexchanged Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.
- (iv) Upon the due date for redemption of any Bearer Note which is redeemable in instalments, all Receipts relating to such Note having an Instalment Date falling on or after such due date (whether or not attached) shall become void and no payment shall be made in respect of them.
- (v) If the applicable Final Terms provides that the related Coupons are to become void upon the due date for redemption of those Notes and any Bearer Note is presented for redemption without all unmatured Coupons and any unexchanged Talon relating to it, redemption shall be made only against the provisions of such indemnity as the Issuer may require.
- (vi) If the due date for redemption of any Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender if appropriate) of the relevant Bearer Note or Certificate representing it, as the case may be. Interest accrued on a Note which only bears interest after its Maturity Date shall be payable on redemption of such Note against presentation of the relevant Note or Certificate representing it, as the case may be.

(h) *Talons*

On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Bearer Note, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons which may have become void pursuant to Condition 8).

(i) *Payment Days*

If any date for payment in respect of any Note, Receipt or Coupon is not a Payment Day, the holder shall not be entitled to payment until the next following Payment Day nor to any interest or other sum in respect of such postponed payment. In this paragraph, **Payment Day** means a day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the relevant place of presentation and in London and such jurisdictions as shall be specified as "Business Day Jurisdictions" in the applicable Final Terms and:

- (i) (in the case of a payment in a currency other than Euro) where payment is to be made by transfer to an account maintained with a bank in the relevant currency, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of such relevant currency; or
- (ii) (in the case of a payment in Euro) a day which is a TARGET Business Day.

(j) *Physical Delivery*

THIS CONDITION 6(j) ONLY APPLIES TO NOTES REPRESENTED BY A GLOBAL NOTE OR GLOBAL CERTIFICATE HELD ON BEHALF OF EUROCLEAR AND CLEARSTREAM, LUXEMBOURG. IF THE NOTES ARE ISSUED IN DEFINITIVE FORM THE ISSUER SHALL

MAKE SUCH CHANGES TO THIS PROVISION AS IT DEEMS APPROPRIATE AND SHALL GIVE NOTICE TO THE HOLDERS IN ACCORDANCE WITH CONDITION 13.

(i) Asset Transfer Notices

In relation to Physical Delivery Notes, in order to obtain delivery of the Entitlement(s) in respect of any Note, the relevant holder must deliver to Clearstream, Luxembourg or Euroclear (each a **Clearing System**), as the case may be, not later than 10.00 a.m. (local time) on the date (the **Cut-off Date**) falling three Business Days prior to the Delivery Date (as defined below), with a copy to the Fiscal Agent, a duly completed asset transfer notice (an **Asset Transfer Notice**) in the form set out in the Fiscal Agency Agreement in accordance with the provisions set out in this Condition.

Copies of the Asset Transfer Notice may be obtained during normal business hours from the specified office of each Paying Agent.

An Asset Transfer Notice may only be delivered in such manner as is acceptable to the relevant Clearing System, which is expected to be by authenticated SWIFT message.

The Asset Transfer Notice shall:

- (A) specify the name, address and contact telephone number of the relevant Noteholder and the person from whom the Issuer may obtain details for the delivery of the Entitlement;
- (B) specify the Series number of the Notes and the principal amount of the Notes which is the subject of such notice;
- (C) specify the number of the Noteholder's securities account at the relevant Clearing System to be debited with such Notes;
- (D) irrevocably instruct the relevant Clearing System to debit the relevant Noteholder's securities account with the relevant Notes on or before the Maturity Date;
- (E) include an undertaking to pay all Expenses and a confirmation that the delivery of the Entitlement is subject, *inter alia*, as provided in Condition 6(j)(iii) and either (I) an authority to the relevant Clearing System to debit a specified account of the Noteholder with the relevant Clearing System in respect thereof and to pay such Expenses or (II) an authority to the Issuer either to deduct from any cash amount owing to the Noteholder an amount sufficient to pay such Expenses and to pay on behalf of the Noteholder such Expenses or to convert such amount of the Entitlement due to be delivered to such Noteholder as is necessary to pay such Expenses and to pay on behalf of the Noteholder such Expenses, as referred to in Condition 6(j)(iii) below, and a confirmation that delivery of any Entitlement is subject as provided below.
- (F) include such details as are required by the applicable Final Terms for delivery of the Entitlement which may include account details and/or the name and address of any person(s) into whose name evidence of the Entitlement is to be registered and/or any bank, broker or agent to whom documents evidencing the Entitlement are to be delivered and specify the name and number of the Noteholder's account with the relevant Clearing System to be credited with any cash payable by the Issuer, either in respect of any cash amount constituting (i) the Entitlement or any Fractional Entitlement (if applicable) or (ii) any dividends relating to the Entitlement or (iii) as

a result of the occurrence of a Settlement Disruption Event and the Issuer electing to pay the Disruption Cash Redemption Amount or (iv) as a result of the occurrence of a Failure to Deliver due to Illiquidity and the Issuer electing to pay the Failure to Deliver Redemption Amount or (v) as a result of the Issuer electing to pay the Alternate Cash Redemption Amount;

- (G) certify that the beneficial owner of each Note is not a U.S. person (as defined in the Asset Transfer Notice), the Note is not being redeemed within the United States or on behalf of a U.S. person and no cash, securities or other property have been or will be delivered within the United States or to, or for the account or benefit of, a U.S. person in connection with any redemption thereof; and
- (H) authorise the production of such certification in any applicable administrative or legal proceedings,

all as provided in the Fiscal Agency Agreement.

As used above, **Expenses** means all costs, taxes, duties and/or expenses, including any applicable depository charges, transaction or exercise charges, stamp duty, stamp duty reserve tax, issue, registration, securities transfer, withholding taxes or tax on income profits or gains and/or other costs, duties or taxes arising from the delivery of the Entitlement(s).

If Condition 6(k) applies, the form of Asset Transfer Notice required to be delivered will be different from that set out above. Copies of such Asset Transfer Notice may be obtained during normal business hours from the specified office of each Paying Agent.

(ii) Verification of the Holder

Upon receipt of an Asset Transfer Notice, the relevant Clearing System shall verify that the person specified therein as the account holder is the holder of the Notes described therein according to its records. Subject thereto, the relevant Clearing System will confirm to the Fiscal Agent the Series number and principal amount of Notes the subject of such notice, the relevant account details and the details for the delivery of the Entitlement(s) in respect of each Note the subject of such notice. Upon receipt of such confirmation, the Fiscal Agent will inform the Issuer thereof. The relevant Clearing System will on or before the Maturity Date debit the securities account of the relevant Noteholder with the relevant Notes.

(iii) Determinations and Delivery

Any determination as to whether an Asset Transfer Notice is duly completed and in proper form shall be made by the relevant Clearing System in consultation with the Fiscal Agent, and shall be conclusive and binding on the Issuer, the Fiscal Agent and the relevant Noteholder. Subject as set out below, any Asset Transfer Notice so determined to be incomplete or not in proper form, or which is not copied to the Fiscal Agent immediately after being delivered or sent to the relevant Clearing System as provided in Conditions 6(j)(i) above, shall be null and void.

If such Asset Transfer Notice is subsequently corrected to the satisfaction of the relevant Clearing System in consultation with the Fiscal Agent, it shall be deemed to be a new Asset Transfer Notice submitted at the time such correcting was delivered to the relevant Clearing System and the Fiscal Agent.

The Issuer shall use reasonable endeavours promptly to notify the Noteholder submitting an Asset Transfer Notice if it has been determined, as provided above, that such Asset Transfer

Notice is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Guarantor, the Agents and the relevant Clearing System shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Noteholder.

No Asset Transfer Notice may be withdrawn after receipt thereof by the relevant Clearing System, as provided above. After delivery of an Asset Transfer Notice, the relevant Noteholder may not transfer the Notes which are the subject of such notice.

Subject as provided herein and subject to the payment of any Expenses, the Entitlement will be delivered at the risk of the relevant Noteholder, in the manner provided below on the Maturity Date (such date, subject to adjustment in accordance with this Condition, the **Delivery Date**), PROVIDED THAT the Asset Transfer Notice is duly delivered to the relevant Clearing System with a copy to the Fiscal Agent, as provided above on or prior to the Cut-Off Date.

If a Noteholder fails to give an Asset Transfer Notice as provided herein with a copy to the Fiscal Agent, on or prior to the Cut-Off Date, then the Entitlement will be delivered as soon as practicable after the Maturity Date (in which case, such date of delivery shall be the Delivery Date) at the risk of such Noteholder in the manner provided below. For the avoidance of doubt, in such circumstances such Noteholder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Delivery Date falling after the Maturity Date and no liability in respect thereof shall attach to the Issuer.

If a Noteholder fails to give an Asset Transfer Notice as provided herein with a copy to the Fiscal Agent, on or prior to the date falling 180 days after the Cut-Off Date, then the Issuer's and the Guarantor's obligations in respect of the Notes held by such Noteholder for which no Asset Transfer Notice has been given shall be discharged and the Issuer and the Guarantor shall have no further liability in respect thereof.

The Issuer or, as the case may be, the Guarantor shall, at the risk of the relevant Noteholder, deliver or procure the delivery of the Entitlement for each Note, pursuant to the details specified in the Asset Transfer Notice or in such commercially reasonable manner as the Calculation Agent shall determine and notify to the person designated by the Noteholder in the relevant Asset Transfer Notice. All Expenses arising from the delivery of the Entitlement in respect of such Notes shall be for the account of the relevant Noteholder and no delivery of the Entitlement shall be made until all Expenses have been paid to the satisfaction of the Issuer or, as the case may be, the Guarantor by the relevant Noteholder. Any such Expenses shall either be:

- (A) paid to the Issuer by such Noteholder prior to the delivery of the Entitlement; or
- (B) be deducted by the Issuer from any cash amount owing to such Noteholder and paid by the Issuer on behalf of the Noteholder or paid by the Issuer on behalf of such Noteholder by converting such amount of the Entitlement as necessary to pay the Expenses,

as specified by the Noteholder in the relevant Asset Transfer Notice.

If any Expenses are not paid by a Noteholder pursuant to the above, the relevant Noteholder shall be deemed to authorise the Issuer to convert and the Issuer may convert such amount of the Entitlement into cash sufficient to cover the Expenses in respect of the relevant Note

from which the Issuer shall deduct such Expenses. The Issuer's obligation in respect of each Note will be satisfied in relation to the Maturity Date by delivery of the remaining Entitlement in respect of such Note.

All deliveries will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of delivery.

(iv) General

Notes held by the same Noteholder will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Notes, PROVIDED THAT, the aggregate Entitlements in respect of the same Noteholder will be rounded down to the nearest whole Tradeable Amount of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. Therefore, fractions or numbers of the Relevant Asset or of each of the Relevant Assets, as the case may be, less than the relevant Tradeable Amount (the **Fractional Entitlement**) will not be delivered and no cash or other adjustment will be made in respect thereof unless "Cash Adjustment" is specified as applicable in the applicable Final Terms. If "Cash Adjustment" is specified as applicable in the applicable Final Terms, the Issuer shall pay to the relevant Noteholder a cash amount in the Specified Currency (to be paid at the same time as delivery of the Entitlement) equal to the value (as determined by the Calculation Agent) of such Fractional Entitlement, calculated as specified in the applicable Final Terms.

Following the Delivery Date in respect of a Note where the Entitlement(s) includes shares, all dividends on the relevant shares to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the relevant shares executed on the Delivery Date and to be delivered in the same manner as such relevant shares. Any such dividends to be paid to a Noteholder will be paid to the account specified by the Noteholder in the relevant Asset Transfer Notice as referred to in Condition 6(j)(i).

If any Entitlement is delivered later than the date on which delivery would otherwise have taken place as provided herein, the Issuer or any person acting on behalf of the Issuer shall continue to be the legal owner of the assets comprising the Entitlement (the **Intervening Period**). None of the Issuer, the Guarantor and any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Noteholder any letter, certificate, notice, circular or any other document or, except as provided herein, any payment whatsoever received by that person in its capacity as the holder of such assets, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such assets or (iii) be under any liability to a Noteholder in respect of any loss or damage which such Noteholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such assets.

None of the Issuer, the Guarantor and the Agents shall under any circumstances be liable for any acts or defaults of Euroclear or Clearstream, Luxembourg in relation to the performance of its duties in relation to the Notes.

(v) Settlement Disruption

If, in the opinion of the Calculation Agent, delivery of the Entitlement using the Delivery Method specified in the applicable Final Terms or such other commercially reasonable manner as the Calculation Agent has determined is not practicable by reason of a Settlement Disruption Event subsisting on the Maturity Date, then the Delivery Date shall be postponed to the first following Settlement Business Day in respect of which there is no such

Settlement Disruption Event, PROVIDED THAT, the Issuer may elect to satisfy its obligations in respect of the relevant Note by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Delivery Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Delivery Date. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect to satisfy its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Disruption Cash Redemption Amount on the fifth Business Day following the date that notice of such election is given to the Noteholders in accordance with Condition 13. Payment of the Disruption Cash Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with Condition 13. The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 13 that a Settlement Disruption Event has occurred. No Noteholder shall be entitled to any payment in respect of the relevant Note in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

For the purposes hereof:

Disruption Cash Redemption Amount, in respect of any relevant Note, shall be the fair market value of such Note on a day selected by the Issuer (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non-affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets), less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer;

Settlement Business Day in respect of each Note, has the meaning specified in the applicable Final Terms relating to such Note; and

Settlement Disruption Event means, in the opinion of the Calculation Agent, an event beyond the control of the Issuer as a result of which the Issuer cannot make delivery of the Relevant Asset(s) using the Delivery Method specified in the applicable Final Terms.

(vi) Failure to Deliver due to Illiquidity

If "Failure to Deliver due to Illiquidity" is specified as applying in the applicable Final Terms and in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets (the **Affected Relevant Assets**) comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a **Failure to Deliver**), then:

(A) subject as provided elsewhere in the Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated Maturity Date in accordance with this Condition 6(j); and

(B) in respect of any Affected Relevant Assets, in lieu of physical settlement notwithstanding any other provision hereof the Issuer may elect to satisfy its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Failure to Deliver Redemption Amount on the fifth Business Day following the

date that notice of such election is given to the Noteholders in accordance with Condition 13. Payment of the Failure to Deliver Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with Condition 13. The Issuer shall give notice as soon as practicable to the Noteholders in accordance with Condition 13 that the provisions of this Condition 6(j)(vi) apply.

For the purposes hereof, **Failure to Deliver Redemption Amount** in respect of any relevant Note shall be the fair market value of the Affected Relevant Assets on a day selected by the Issuer, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion.

(k) *Variation of Settlement*

If the applicable Final Terms indicate that the Issuer has an option to vary settlement in respect of the Notes, the Issuer may, elect not to pay the relevant Noteholders the Redemption Amount or to deliver or procure delivery of the Entitlement to the relevant Noteholders, as the case may be, but, in lieu thereof to deliver or procure delivery of the Entitlement or make payment of the Redemption Amount on the Maturity Date to the relevant Noteholders, as the case may be. Notification of such election will be given to Noteholders in accordance with Condition 13.

(l) *Issuer's Option to Substitute Assets or to pay the Alternate Cash Redemption Amount*

The Issuer may, in respect of Physical Delivery Notes, if the Calculation Agent determines that the Relevant Asset or Relevant Assets, as the case may be, comprises shares which are not freely tradeable, elect either (i) to substitute for the Entitlement (or part thereof), an equivalent value (as determined by the Calculation Agent of such other shares which the Calculation Agent determines are freely tradeable (the **Substitute Asset** or the **Substitute Assets**, as the case may be) or (ii) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or the Substitute Assets, as the case may be, to the relevant Noteholders, but in lieu thereof to make payment to the relevant Noteholder on the Maturity Date of an amount equal to the fair market value of the Entitlement (or part thereof) as determined by the Calculation Agent at such time and by reference to such sources as it considers appropriate (the **Alternate Cash Redemption Amount**). Notification of any such election will be given to Noteholders in accordance with Condition 13.

For purposes hereof, a **freely tradeable** share shall mean (i) with respect to the United States, a share which is registered under the United States Securities Act of 1993, as amended (the **Securities Act**) or not restricted under the Securities Act and which is not purchased from the issuer of such share and not purchased from an affiliate of the issuer of such share or which otherwise meets the requirements of a freely tradeable share for purposes of the Securities Act, in each case, as determined by the Calculation Agent or (ii) with respect to any other jurisdiction, a share not subject to any legal restrictions on transfer in such jurisdiction.

(m) *Rights of Noteholders and Calculations*

None of the Issuer, the Guarantor, the Calculation Agent and the Agents shall have any responsibility for any errors or omissions in the calculation of any Redemption Amount or of any Entitlement.

The purchase of Notes does not confer on any holder of such Notes any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

7. Taxation

The Issuer and the Guarantor will, subject to the exceptions and limitations set forth below, pay as additional interest to the holder of any Note, Receipt or Coupon that is a Non-U.S. Holder such amounts as may be necessary so that every net payment on such Note, Receipt or Coupon, after deduction or withholding for or on account of any present or future tax, assessment or other governmental charge imposed upon or as a result of such payment by the United States (or any political subdivision or taxing authority thereof or therein), will not be less than the amount provided in such Note, Receipt or Coupon to be then due and payable. However, neither the Issuer nor the Guarantor will be required to make any such payment of additional interest for or on account of:

- (a) any tax, assessment or other governmental charge that would not have been imposed but for (i) the existence of any present or former connection between such holder (or between a fiduciary, settlor or beneficiary of, or a person holding a power over, such holder, if such holder is an estate or a trust, or a member or shareholder of such holder, if such holder is a partnership or corporation) and the United States, including, without limitation, such holder (or such fiduciary, settlor, beneficiary, person holding a power, member or shareholder) being or having been a citizen or resident thereof or being or having been engaged in trade or business or present therein or having or having had a permanent establishment therein or (ii) such holder's past or present status as a personal holding company or private foundation or other tax-exempt organisation with respect to the United States or as a corporation that accumulates earnings to avoid United States federal income tax;
- (b) any estate, inheritance, gift, sales, transfer or personal property tax or any similar tax, assessment or other governmental charge;
- (c) any tax, assessment or other governmental charge that would not have been imposed but for the presentation by the holder of a Note, Receipt, Coupon or the Deed of Guarantee for payment more than 15 days after the date on which such payment became due and payable or on which payment thereof was duly provided for, whichever occurs later (the **Relevant Date**);
- (d) any tax, assessment or other governmental charge that is payable otherwise than by deduction or withholding from a payment on a Note, Receipt, Coupon or the Deed of Guarantee;
- (e) any tax, assessment or other governmental charge required to be deducted or withheld by any Paying Agent from a payment on a Note, Receipt, Coupon or the Deed of Guarantee if such payment can be made without such deduction or withholding by any other Paying Agent;
- (f) any tax, assessment or other governmental charge that would not have been imposed but for a failure to comply with applicable certification, documentation, information or other reporting requirement concerning the nationality, residence, identity or connection with the United States of the holder or beneficial owner of a Note, Receipt, Coupon or the Deed of Guarantee if, without regard to any tax treaty, such compliance is required by statute or regulation of the United States as a precondition to relief or exemption from such tax, assessment or other governmental charge;
- (g) any tax, assessment or other governmental charge imposed on a holder that actually or constructively owns 10 per cent. or more of the combined voting power of all classes of stock of the Issuer or, as the case may be, the Guarantor as described in Section 871(h)(3)(B) of the United States Internal Revenue Code of 1986 (the **Code**), that is a bank receiving

interest described in Section 881(c)(3)(A) of the Code, that receives contingent interest described in Section 871(h)(4) of the Code or that is a controlled foreign corporation related to the Issuer or, as the case may be, the Guarantor through stock ownership as described in Section 881(c)(3)(C) of the Code;

- (h) a payment on a Note, Receipt, Coupon or the Deed of Guarantee to a holder that is a fiduciary or partnership or other than the sole beneficial owner of such payment to the extent a beneficiary or settlor with respect to such fiduciary or a member of such partnership or a beneficial owner would not have been entitled to the additional interest had such beneficiary, settlor, member or beneficial owner been the holder of such Note, Receipt, Coupon or the Deed of Guarantee; or
- (i) any tax, assessment or other governmental charge imposed on a payment to an individual and required to be made pursuant to EC Council Directive 2003/48/EC or any other Directive implementing the conclusions of the ECOFIN Council meeting of 26 and 27 November 2000 on the taxation of savings income relating to the proposal for or any law implementing or complying with, or introduced in order to conform to, such Directive.

References in the Conditions to (i) "principal" shall be deemed to include any premium payable in respect of the Notes, any Instalment Amount, Redemption Amount, Amortised Face Amount and all other amounts in the nature of principal payable pursuant to Condition 5 or the provisions of the applicable Final Terms, (ii) "interest" shall be deemed to include all Interest Amounts and all other amounts in the nature of interest payable pursuant to Condition 4 or the provisions of the applicable Final Terms and (iii) in any context, the payment of the principal of (or premium, if any) or interest on any Note or payment with respect to any Receipt or Coupon, such mention shall be deemed to include mention of the payment of additional interest provided for in this Condition 7 to the extent that, in such context, additional interest is, was or would be payable in respect thereof pursuant to the provisions of this Condition 7 and express mention of the payment of additional interest (if applicable) in any provisions hereof shall not be construed as excluding additional interest in those provisions hereof where such express mention is not made.

8. Prescription

Claims against the Issuer for payment in respect of the Notes and any Receipts and Coupons shall be prescribed and become void unless made within ten years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date (as defined in Condition 7) in respect thereof.

9. Events of Default

- (a) **Event of Default** wherever used herein with respect to the Notes means any one of the following events:
 - (i) default in the payment of any interest upon any Note or any payment with respect to the Coupons, if any, when it becomes due and payable, and continuance of such default for a period of 30 days; or
 - (ii) default in the payment of the principal of any Note at its due date or default in the delivery of any Entitlement in respect of any Note at its due date, and continuance of any such default for a period of ten days; or
 - (iii) default in the performance, or breach, of any covenant of the Issuer or the Guarantor in the Conditions or the Fiscal Agency Agreement (other than a covenant a default in whose performance or whose breach is elsewhere in this Condition 9 specifically dealt with) or the

Guarantor under the Deed of Guarantee, and continuance of such default or breach for a period of 60 days after there has been given, by registered or certified mail, to the Issuer or the Guarantor by the holders of at least 25 per cent. in principal amount of the Outstanding Notes, a written notice specifying such default or breach and requiring it to be remedied and stating that such notice is a "Notice of Default" hereunder; or

- (iv) the entry of a decree or order for relief in respect of the Issuer or the Guarantor by a court having jurisdiction in the premises in an involuntary case under the United States Federal bankruptcy laws, as now or hereafter constituted, or any other applicable United States Federal or State bankruptcy, insolvency or other similar law, or appointing a receiver, liquidator, assignee, custodian, trustee, sequestrator (or other similar official) of the Issuer or the Guarantor or of the whole or substantially the whole of their property, or ordering the winding up or liquidation of its affairs, and the continuance of any such decree or order unstayed and in effect for a period of 90 consecutive days; or
 - (v) the commencement by the Issuer or the Guarantor of a voluntary case under the United States Federal bankruptcy laws, as now or hereafter constituted, or any other applicable United States Federal or State bankruptcy, insolvency or other similar law, or the consent by it to the entry of an order for relief in an involuntary case under any such law or to the appointment of a receiver, liquidator, assignee, custodian, trustee, sequestrator (or other similar official) of the Issuer or the Guarantor or of the whole or substantially the whole of their property, or the making by the Issuer or the Guarantor of an assignment for the benefit of its creditors generally, or the admission by the Issuer or the Guarantor in writing of its inability to pay its debts generally as they become due; or
 - (vi) the Deed of Guarantee ceases to be, or is claimed by the Guarantor not to be, in full force and effect. For the avoidance of doubt, for the purposes of this provision, the Deed of Guarantee shall be deemed not to have ceased to be in full force and effect in circumstances where a substitution of the Guarantor is effected in accordance with Condition 15.
- (b) If an Event of Default with respect to the Notes at the time Outstanding occurs and is continuing, then in every such case the holders of not less than 25 per cent. in principal amount of the Outstanding Notes may declare the Notes, by a notice in writing to the Issuer and the Guarantor (and to the Fiscal Agent in the case of Notes other than Australian Domestic Notes), to be immediately due and payable, whereupon each principal amount of the Notes equal to the Calculation Amount shall become due and repayable at the Early Redemption Amount together with, if so specified in the applicable Final Terms, accrued interest. Upon such payment in respect of any Note, all obligations of the Issuer and the Guarantor in respect of such Note shall be discharged.
- (c) **Outstanding** when used with respect to the Notes, means, as of the date of determination, all Notes authenticated and delivered under the Conditions prior to such date, except:
- (i) Notes cancelled by the Fiscal Agent or the Australian Registrar (as appropriate) or delivered to the Fiscal Agent for cancellation;
 - (ii) Notes or portions thereof for whose payment or redemption money in the necessary amount has been deposited with the Fiscal Agent or any Paying Agent or the Australian Registrar in the case of Australian Domestic Notes in accordance with the Fiscal Agency Agreement or the Registry Services Agreement; provided, however, that if such Notes or portions thereof are to be redeemed, notice of such redemption has been duly given pursuant to the Conditions or provision therefor satisfactory to the Fiscal Agent or the Australian Registrar in the case of Australian Domestic Notes has been made; and

- (iii) Notes in exchange for or in lieu of which other Notes have been authenticated and delivered pursuant to the Conditions, other than any such Notes in respect of which there shall have been presented to the Fiscal Agent proof satisfactory to it that such Notes are held by a bona fide purchaser in whose hands such Notes are valid obligations of the Issuer;

provided, however, that in determining whether the holders of the requisite principal amount of Notes Outstanding have performed any act hereunder, Notes owned by the Issuer or the Guarantor or any person directly or indirectly controlling or controlled by or under direct or indirect common control of the Issuer or the Guarantor shall be disregarded and deemed not to be Outstanding. Notes so owned that have been pledged in good faith may be regarded as Outstanding if the pledgee establishes to the satisfaction of the Fiscal Agent or the Australian Registrar (as appropriate) the pledgee's right to act with respect to such Notes and that the pledgee is not the Issuer or the Guarantor or any person directly or indirectly controlling or controlled by or under direct or indirect common control of the Issuer or the Guarantor.

10. Meetings of Noteholders, Modifications and Determinations

(a) Meetings of Noteholders

The Fiscal Agency Agreement or (in the case of Australian Domestic Notes) the Deed Poll contains provisions for convening meetings of holders of Notes to consider any matter affecting their interests, including modification by Extraordinary Resolution (as defined in the Fiscal Agency Agreement or (in the case of Australian Domestic Notes) the Deed Poll) of the Notes (including the Conditions insofar as the same may apply to the Notes) or the Deed of Guarantee as it relates to the Notes. An Extraordinary Resolution duly passed at any such meeting shall be binding on all the holders of the Notes, whether present or not and on all relevant Couponholders, except that any Extraordinary Resolution proposed, *inter alia*, (i) to amend the dates of maturity or redemption of the Notes, any Instalment Date or any date for payment of interest thereon, (ii) to reduce or cancel the principal amount of the Notes, the Early Redemption Amount, the Redemption Amount or any Instalment Amount, (iii) to reduce the rate or rates of interest in respect of the Notes or to vary the method or basis of calculating the rate or rates or amount of interest, (iv) if a Minimum Interest Rate and/or a Maximum Interest Rate is specified in the applicable Final Terms, to reduce any such Minimum and/or Maximum Interest Rate, (v) to change any method of calculating the Early Redemption Amount or the Redemption Amount, (vi) to change the currency or currencies of payment of the Notes, (vii) to modify the provisions concerning the quorum required at any meeting of holders of Notes or the majority required to pass the Extraordinary Resolution or (viii) to take any steps which as specified in the applicable Final Terms may only be taken following approval by an Extraordinary Resolution to which the special quorum provisions apply, will only be binding if passed at a meeting of the holders of Notes (or at any adjournment thereof) at which a special quorum (provided for in the Fiscal Agency Agreement or (in the case of Australian Domestic Notes) the Deed Poll) is present.

(b) Modifications

The Issuer and the Guarantor may make, without the consent of the Noteholders or Couponholders:

- (i) any modification (except as mentioned above) to, as applicable, the Notes, the Receipts, the Coupons, the Talons, the Fiscal Agency Agreement, the Deed Poll, the Deed of Covenant, the Registry Services Agreement and/or the Deed of Guarantee which is not prejudicial to the interests of the Noteholders; or
- (ii) any modification to the Notes, the Receipts, the Coupons, the Talons, the Fiscal Agency Agreement, the Deed Poll, the Deed of Covenant, the Registry Services Agreement and/or

the Deed of Guarantee which is of a formal, minor or technical nature or is made to correct a manifest error or proven error or to comply with mandatory provisions of the law.

Any such modification shall be binding on the Noteholders and the Couponholders and any such modification shall be notified to the Noteholders in accordance with Condition 13 as soon as practicable thereafter.

(c) *Determinations*

Whenever any matter falls to be determined, considered, elected, selected or otherwise decided upon by the Issuer, the Calculation Agent or any other person (including where a matter is to be decided by reference to the Issuer or the Calculation Agent's or such other person's opinion), unless otherwise stated in the applicable Final Terms, that matter shall be determined, considered or otherwise decided upon by the Issuer, the Calculation Agent or such other person, as the case may be, in good faith and in its sole and absolute discretion.

11. Replacement of Notes, Certificates, Receipts, Coupons and Talons

Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the date of first publication as provided above.

Couponholders shall be deemed for all purposes to have notice of the contents of any notice to the holders of Bearer Notes in accordance with this Condition.

- (e) For so long as any Notes are listed on a stock exchange, such stock exchange shall be notified of any such consolidation, merger or substitution and the requirements of such stock exchange in respect of such consolidation, merger or substitution shall be complied with (including any requirement to publish a supplement).

If Redenomination is specified in the applicable Final Terms as being applicable, the Issuer may, without the consent of the Noteholders or Couponholders, on giving at least 30 days' prior notice to the Noteholders, the Fiscal Agent and the Paying Agents, designate a Redenomination Date, being a date (which in the case of interest bearing Notes shall be a date for payment of interest under the Notes) falling on or after the date on which the country of the Relevant Currency adopts the Euro as its lawful currency in accordance with the Treaty.

With effect from the Redenomination Date, notwithstanding the other provisions of the Conditions:

- (i) each Specified Denomination and, in the case of fixed rate Notes, each amount specified on the Coupons will be deemed to be denominated in such amount of Euro as is equivalent to its denomination or the amount of interest so specified in the Relevant Currency at the Established Rate, rounded down to the nearest Euro 0.01;
- (ii) after the Redenomination Date, all payments in respect of the Notes and the Coupons, other than payments of interest in respect of periods commencing before the Redenomination Date, will be made solely in Euro as though references in the Notes to the Relevant Currency were to Euro. Payments will be made in Euro by credit or transfer to a Euro account (or any other account to which Euro may be credited or transferred) specified by the payee, or at the option of the payee, by a Euro cheque;
- (iii) if the Notes are fixed rate Notes and interest for any period ending on or after the Redenomination Date is required to be calculated for a period of less than one year, it will be calculated on the basis described as "Actual/Actual (ISDA)" in Condition 4(i);
- (iv) if the Notes are Floating Rate Notes, the applicable Final Terms will specify any relevant changes to the provisions relating to interest; and
- (v) such other changes shall be made to the Conditions as the Issuer may decide, with the agreement of Fiscal Agent, and as may be specified in the notice, to conform them to conventions then applicable to Notes denominated in Euro including but not limited to where the Notes are in global form. Any such other changes will not take effect until after they have been notified to the Noteholders in accordance with Condition 13.

As used in the Conditions:

Established Rate means the rate for conversion of the Relevant Currency (including compliance with rules relating to roundings in accordance with applicable European Community regulations) into Euro established by the Council of the European Union pursuant to Article 1091 (4) of the Treaty.

Redenomination Date means (in the case of interest bearing Notes) any date for payment of interest under the Notes or (in the case of non-interest bearing Notes) any date, in each case specified by the Issuer in the notice given to the Noteholders pursuant to Condition 13 and which falls on or after such date as when the country of the Relevant Currency participates in the third stage of European economic and monetary union pursuant to the Treaty.

Relevant Currency means the currency specified in the applicable Final Terms or, if none is specified, the Specified Currency.

Treaty means the Treaty establishing the European Community as amended by the Treaty on European Union.

None of the Issuer, the Guarantor, the Registrar, the Fiscal Agent and any other Paying Agent will be liable to any Noteholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euro or any currency conversion or rounding effected in connection therewith.

Determinations by the Issuer or the Fiscal Agent pursuant to this Condition 16 will, in the absence of manifest error, be conclusive and binding on the Issuer, the Guarantor, the Fiscal Agent, the Paying Agents, the Registrar and the Noteholders.

17. Governing Law and Jurisdiction

(a) Governing Law

The Notes, the Receipts, the Coupons and the Talons and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law; except that Australian Domestic Notes, the Deed Poll and the Registry Services Agreement are governed by, and shall be construed in accordance with, the laws in force in New South Wales, Australia.

(b) Jurisdiction

Except in the case of Australian Domestic Notes, the Courts of England are to have jurisdiction to settle any disputes which may arise out of or in connection with any Notes, Receipts, Coupons or Talons (including a dispute relating to any non-contractual obligations arising out of or in connection with them) and accordingly any legal action or proceedings arising out of or in connection with any Notes, Receipts, Coupons or Talons (including any legal action or proceedings relating to any non-contractual obligations arising out of or in connection with them) (**Proceedings**) may be brought in such courts. Except in relation to Australian Domestic Notes, the Issuer irrevocably submits to the jurisdiction of the courts of England and waives any objection to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. These submissions are made for the benefit of each of the holders of the Notes, Receipts, Coupons and Talons and shall not affect the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

In the case of Australian Domestic Notes, the Issuer irrevocably agrees for the benefit of Noteholders that the courts of New South Wales, Australia and courts of appeal from them are to have non-exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Australian Domestic Notes, the Deed Poll or the Registry Services Agreement and that accordingly any suit, action or proceedings arising out of or in connection with the Australian

Domestic Notes, the Deed Poll or the Registry Services Agreement (together referred to as **Australian Proceedings**) may be brought in such courts.

The Issuer has irrevocably waived any objection which it may have now or hereafter to the laying of the venue of any Australian Proceedings in any such court and any claim that any such Australian Proceedings have been brought in an inconvenient forum and has further irrevocably agreed that a judgment in any such Australian Proceedings brought in the courts of New South Wales and courts of appeal from them shall be conclusive and binding upon it and may be enforced in the courts of any other jurisdiction.

(c) *Service of Process*

The Issuer irrevocably appoints Citigroup Global Markets Limited, Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB to receive, for it and on its behalf, service of process in any Proceedings in England. Such service shall be deemed completed on delivery to such process agent (whether or not, it is forwarded to and received by the Issuer). If for any reason such process agent ceases to be able to act as such or no longer has an address in London, the Issuer irrevocably agrees to appoint a substitute process agent and shall immediately notify holders of Notes of such appointment in accordance with Condition 13. Nothing shall affect the right to serve process in any manner permitted by law.

For so long as any Australian Domestic Notes are outstanding, the Issuer has appointed the person specified in the applicable Final Terms as its agent for the time being to accept service of process on its behalf in New South Wales in respect of any legal action or proceedings as may be brought in the courts of New South Wales, Australia or the federal courts of Australia. In the event of such person ceasing to act, the Issuer will appoint another agent.

18. Rights of Third Parties

The Notes confer no right under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of the Notes, but this does not affect any right or remedy of a third party which exists or is available apart from that Act

ANNEX 1
ADDITIONAL TERMS AND CONDITIONS FOR INDEX LINKED NOTES

*The terms and conditions applicable to Notes linked to an index/indices shall comprise the General Conditions and the additional terms and conditions set out below (the **Index Linked Conditions**), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Index Linked Conditions, the Index Linked Conditions set out below shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Index Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

1. Market Disruption

Market Disruption Event means:

- (a) in respect of a Composite Index and a Component Security included in such Index:
 - (i) the occurrence or existence, in respect of any Component Security, of:
 - (1) a Trading Disruption in respect of such Component Security at any time during the one hour period that (x) for the purposes of the occurrence of a Mandatory Early Repayment Event, ends at the relevant Mandatory Early Repayment Valuation Time or, if the Mandatory Early Repayment Valuation Time is specified to be "at any time" in the applicable Final Terms, the time at which the level of the Index is being determined (the **Determination Time**), or (y) in all other circumstances, that ends at the relevant Valuation Time in respect of the Exchange in respect of such Component Security;
 - (2) an Exchange Disruption in respect of such Component Security at any time during the one hour period that (x) for the purposes of the occurrence of a Mandatory Early Repayment Event, ends at the relevant Mandatory Early Repayment Valuation Time or, if the Mandatory Early Repayment Valuation Time is specified to be "at any time" in the applicable Final Terms, the Determination Time or (y) in all other circumstances that ends at the relevant Valuation Time in respect of the Exchange in respect of such Component Security; or
 - (3) an Early Closure in respect of such Component Security,which, in any such case, the Calculation Agent determines is material; and
- either:
 - (A) the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists expressed as a percentage of the level of the Index comprises 20 per cent. or more of the level of such Index; or
 - (B) where the applicable Final Terms specify that the X Percentage applies, the sum of (I) the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists, expressed as a percentage of the level of the Index, and (II) the X Percentage, comprises 20 per cent. or more of the level of the Index: or

- (ii) the occurrence or existence, in respect of futures or options contracts relating to such Index, of: (a) a Trading Disruption; (b) an Exchange Disruption, at any time during the one hour period that (x) for the purposes of the occurrence of a Mandatory Early Repayment Event, ends at the relevant Mandatory Early Repayment Valuation Time or, if the Mandatory Early Repayment Valuation Time is specified to be "at any time" in the applicable Final Terms, the Determination Time, or (y) in all other circumstances, ends at the Valuation Time in respect of any Related Exchange; or (c) an Early Closure, in each case, in respect of such futures or options contracts and which the Calculation Agent determines is material

For the purposes of determining whether a Market Disruption Event exists in respect of a Component Security at any time, if an event giving rise to a Market Disruption Event occurs in respect of such Component Security at that time, then the relevant percentage contribution of that Component Security to the level of such Index shall be based on a comparison of (x) the portion of the level of that Index attributable to that Component Security to (y) the overall level of that Index, in each case, using the official opening weightings as published by the relevant Index Sponsor as part of the market "opening data"; and

- (b) in the case of an Index other than a Composite Index, the occurrence or existence of (i) a Trading Disruption, (ii) an Exchange Disruption, at any time during the one hour period that (x) for the purposes of the occurrence of a Mandatory Early Repayment Event, ends at the relevant Mandatory Early Repayment Valuation Time or, if the Mandatory Early Repayment Valuation Time is specified to be "at any time" in the applicable Final Terms, the Determination Time, (y) in all other circumstances, ends at the relevant Valuation Time, or (iii) an Early Closure which, in each case, the Calculation Agent determines is material

For the purposes of determining whether a Market Disruption Event exists in relation to such Index at any time, if an event giving rise to a Market Disruption Event occurs in respect of a security included in such Index at that time, then the relevant percentage contribution of that security to the level of such Index shall be based on a comparison of (x) the portion of the level of that Index attributable to that security and (y) the overall level of that Index, in each case, immediately before the occurrence of such Market Disruption Event.

If the Calculation Agent determines that it is not material that any day in respect of which the Calculation Agent is required to determine the level of an Index (a **Relevant Day**) is:

- (i) not a Scheduled Trading Day in respect of an Index because one or more Related Exchanges relating to such Index is/are not scheduled to be open; or
- (ii) a Disrupted Day for an Index solely because any Related Exchange relating to such Index fails to open,

the Calculation Agent shall have the discretion to determine such day to be the Relevant Day (notwithstanding the fact that such day is not a Scheduled Trading Day in respect of an Index because one or more Related Exchanges is/are not scheduled to be open or is a Disrupted Day solely because any Related Exchange fails to open).

In determining what is "material", the Calculation Agent shall have regard to such circumstances as it deems appropriate, which may include (but are not limited to) the Issuer's hedging arrangements in respect of the Notes.

The Issuer shall give notice as soon as practicable to the Noteholders in accordance with Condition 13 of the General Conditions of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day would have been a Relevant Day.

2. Adjustments to an Index

(a) Successor Index Sponsor Calculates and Reports an Index

If a relevant Index is (i) not calculated and announced by or on behalf of the relevant Index Sponsor but is calculated and announced by or on behalf of a successor to the relevant Index Sponsor (the **Successor Index Sponsor**) acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the **Successor Index**) will be deemed to be the relevant Index.

(b) Modification and Cessation of Calculation of an Index

If (i) on or prior to any Relevant Day, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating an Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation, contracts or commodities and other routine events) (an **Index Modification**), or permanently cancels a relevant Index and no Successor Index exists (an **Index Cancellation**), or (ii) on any Relevant Day, the relevant Index Sponsor or any person or entity on its behalf fails to calculate and announce an Index (an **Index Disruption** and, together with an Index Modification and an Index Cancellation, each an **Index Adjustment Event**), then the Issuer may take the action described in (i) or (ii) below:

- (i) require the Calculation Agent to determine if such Index Adjustment Event has a material effect on the Notes and, if so, to either (A) in relation to any Relevant Day, calculate the relevant level for such Index for such day using, *in lieu* of a published level for that Index, the level for that Index as at the relevant time on that Relevant Day, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities/commodities that comprised that Index immediately prior to that Index Adjustment Event or (B) substitute the relevant Index with a replacement index using, in the determination of the Calculation Agent, the same or a substantially similar method of calculation as used in the calculation of such Index (the **Substitute Index**) and the Calculation Agent shall determine the adjustments, if any, to be made to these Conditions and/or the applicable Final Terms to account for such substitution; or
- (ii) on giving notice to Noteholders in accordance with Condition 13 of the General Conditions, the Issuer shall redeem all but not some only of the Notes, each Calculation Amount being redeemed by payment of an amount (which, for the avoidance of doubt, shall include amounts in respect of accrued interest (if applicable)) equal to the fair market value of such Calculation Amount, on a day selected by the Issuer, taking into account the Index Adjustment Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent. Payments will be made in such manner and subject to such conditions as shall be notified to the Noteholders in accordance with Condition 13 of the General Conditions and upon such payment

in respect of such Calculation Amount, the Issuer's obligations in respect thereof shall be discharged.

(c) Notice

The Calculation Agent shall, as soon as practicable, notify the Fiscal Agent of any determination made by it pursuant to Condition 2(b) of the Index Linked Conditions above and the action proposed to be taken in relation thereto and the Fiscal Agent shall make available for inspection by Noteholders copies of any such determinations.

3. Correction of Index levels

With the exception of any corrections published after the day which is two Business Days prior to the due date for any payment (a **Payment Due Date**) of any such amounts payable under the Notes (if any), if the level of the Index published on any Relevant Day and used or to be used by the Calculation Agent to determine any such amounts payable under the Notes is subsequently corrected and the correction published by the relevant Index Sponsor within 30 days of the original publication, the level to be used shall be the level of the Index as so corrected. Corrections published after the day which is two Business Days prior to the relevant Payment Due Date will be disregarded by the Calculation Agent for the purposes of determining any such amounts payable under the Notes.

4. Additional Disruption Events

(a) If an Additional Disruption Event occurs, the Issuer may take the action described in (i) or (ii) below:

(i) require the Calculation Agent to determine the appropriate adjustment(s), if any, to be made to the terms of these Conditions and/or the applicable Final Terms as the Calculation Agent determines necessary or appropriate to account for the Additional Disruption Event and determine the effective date(s) of the adjustment(s); or

(ii) on giving notice to Noteholders in accordance with Condition 13 of the General Conditions, the Issuer shall redeem all but not some only of the Notes, each Calculation Amount being redeemed by payment of an amount (which, for the avoidance of doubt, shall include amounts in respect of accrued interest (if applicable)) equal to the fair market value of such Calculation Amount, on a day selected by the Issuer, taking into account the Additional Disruption Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent. Payments will be made in such manner and subject to such conditions as shall be notified to the holders in accordance with Condition 13 of the General Conditions and upon such payment in respect of such Calculation Amount, the Issuer's obligations in respect thereof shall be discharged.

(b) Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the holders in accordance with Condition 13 of the General Conditions stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

5. Mandatory Early Repayment Event

If "Mandatory Early Repayment Event" is specified as applicable in the applicable Final Terms, then unless previously redeemed or purchased and cancelled, if on any Mandatory Early Repayment

Valuation Date a Mandatory Early Repayment Event occurs, then the Issuer will redeem all, but not some only, of the Notes on the Mandatory Early Repayment Date immediately following such Mandatory Early Repayment Valuation Date, each Calculation Amount being redeemed by payment of an amount equal to the relevant Mandatory Early Repayment Amount. Payment will be made in such manner and subject to such conditions as shall be notified to the holders in accordance with Condition 13 of the General Conditions and, upon such payment in respect of such Calculation Amount, the Issuer's obligations in respect thereof shall be discharged.

Mandatory Early Repayment Amount means, in respect of each Calculation Amount and a Mandatory Early Repayment Event, the amount specified for such Mandatory Early Repayment Event in the applicable Final Terms.

Mandatory Early Repayment Date means, in respect of a Mandatory Early Repayment Event, the date specified for such Mandatory Early Repayment Event in the applicable Final Terms.

Mandatory Early Repayment Event means (unless otherwise specified in the applicable Final Terms) (A) in case of a single Index, that the level of the Index determined by the Calculation Agent as of the Mandatory Early Repayment Valuation Time on any Mandatory Early Repayment Valuation Date is, and (B) in the case of a Basket of Indices, the amount for the Basket of Indices determined by the Calculation Agent equal to the sum of the value for each Index equal to the product of (i) the level of such Index as determined by the Calculation Agent as of the Mandatory Early Repayment Valuation Time on any Mandatory Early Repayment Valuation Date and (ii) the relevant Weighting is, as specified in the applicable Final Terms, (i) "greater than", (ii) "greater than or equal to", (iii) "less than" or (iv) "less than or equal to" the Mandatory Early Repayment Level.

Mandatory Early Repayment Level means (unless otherwise specified in the applicable Final Terms) (A) in respect of a single Index, the level specified for such Index and (B) in respect of a Basket of Indices, the level specified for the Basket of Indices, in the applicable Final Terms.

Mandatory Early Repayment Valuation Date means each date specified as such in the applicable Final Terms or, if any such date is not a Scheduled Trading Day for all the Indices, the immediately succeeding Scheduled Trading Day for all the Indices unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day for any of the Indices. If any such day is a Disrupted Day for any of the Indices, then either (i) the provisions specified in the applicable Final Terms shall apply or (ii) if so specified in the applicable Final Terms the provisions relating to "Omission", "Postponement" or "Modified Postponement", as the case may be, contained in the definition of "Averaging Date" shall apply *mutatis mutandis* as if (a) references in such provisions to "Averaging Date" were to "Mandatory Early Repayment Valuation Date", (b) references to "Settlement Price" in the definition of "Valuation Date" were references to the level of the relevant Index in respect of such Mandatory Early Repayment Valuation Date, (c) references to "Valuation Time" in the definitions of "Averaging Date" and "Valuation Date" were references to "Mandatory Early Repayment Valuation Time" and (d) references to "Maturity Date" in the definitions of "Averaging Date" and "Valuation Date" were references to "Mandatory Early Repayment Date".

Mandatory Early Repayment Valuation Time means, in respect of an Index, the time(s) on any Mandatory Early Repayment Valuation Date specified as such in the applicable Final Terms or, if not specified in the applicable Final Terms, the Valuation Time.

6. Adjustment and Disruption Definitions

Change in Law means that, on or after the Trade Date (as specified in the applicable Final Terms) (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines that (X) it has become illegal to hold, acquire or dispose of any relevant Hedging Positions or (Y) the Issuer will incur a materially increased cost in performing its obligations in relation to the Notes (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer and/or any of its Affiliates).

Hedging Disruption means that the Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Notes, or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

Hedging Positions means any one or more of (i) positions or contracts in securities, options, futures, derivatives or foreign exchange, (ii) stock loan transactions or (iii) other instruments or arrangements (howsoever described) entered into by the Issuer and/or any of its Affiliates in order to hedge, individually or on a portfolio basis, the Notes.

Hedging Shares means the number of securities/commodities comprised in an Index that the Issuer deems necessary to hedge the equity or other price risk of entering into and performing its obligations with respect to the Notes.

Increased Cost of Hedging means that the Issuer and/or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Notes, or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s), PROVIDED THAT any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates shall not be deemed an Increased Cost of Hedging.

Increased Cost of Stock Borrow means that the Issuer and/or any of its Affiliates would incur a rate to borrow any security/commodity comprised in an Index that is greater than the Initial Stock Loan Rate.

Initial Stock Loan Rate means, in respect of a security/commodity comprised in an Index, the initial stock loan rate specified in relation to such security/commodity in the applicable Final Terms or, if no such rate is so specified, the rate which the Issuer and/or any of its Affiliates would have incurred to borrow such security/commodity, as the case may be, as of the Trade Date, as determined by the Issuer.

Loss of Stock Borrow means that the Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to borrow (or maintain a borrowing of) any securities/commodities comprised in an Index in an amount equal to the Hedging Shares at a rate equal to or less than the Maximum Stock Loan Rate.

Maximum Stock Loan Rate means, in respect of a security/commodity comprised in an Index, the Maximum Stock Loan Rate specified for such security/commodity in the applicable Final Terms or, if no such rate is so specified, the lowest rate at which the Issuer and/or any of its Affiliates, after

using commercially reasonable efforts, would have incurred to borrow (and maintain a borrowing of) such security/commodity, as the case may be, in an amount equal to the Hedging Shares, as of the Trade Date, as determined by the Issuer.

If any such day is a Disrupted Day for any of the Indices, then:

- (a) if **Omission** is specified as applying in the applicable Final Terms, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant Settlement Price PROVIDED THAT if, through the operation of this provision no Averaging Date would occur, then the provisions of the definition of "Valuation Date" will apply for purposes of determining the relevant level on the final Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day; or
- (b) if **Postponement** is specified as applying in the applicable Final Terms, then the provisions of the definition of "Valuation Date" will apply for the purposes of determining the relevant level on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or
- (c) if **Modified Postponement** is specified as applying in the applicable Final Terms then:
 - (i) where the Notes are Index Linked Notes relating to a single Index, that Averaging Date shall be the earliest of:
 - (A) the first succeeding Valid Date (as defined below);
 - (B) the Scheduled Trading Day falling the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of a Disrupted Day would have been that Averaging Date (a **Scheduled Averaging Date**); and
 - (C) the second Business Day prior to the Maturity Date or the Interest Payment Date immediately succeeding the relevant Scheduled Averaging Date, as the case may be, or, if such day is not a Scheduled Trading Day, the immediately preceding Scheduled Trading Day.

If the relevant Averaging Date falls within (B) or (C) above and the relevant Scheduled Trading Day is a Disrupted Day, then (X) that Scheduled Trading Day shall be deemed to be that Averaging Date (notwithstanding the fact that such day is a Disrupted Day and irrespective of whether that Scheduled Trading Day is already an Averaging Date), and (Y) the Calculation Agent shall determine the relevant level for that Averaging Date in accordance with sub-paragraph (b)(iii) of the definition of "Valuation Date" below.

- (ii) where the Notes are Index Linked Notes relating to a Basket of Indices,
- (A) where "Move in Block" is specified as applying in the applicable Final Terms, that Averaging Date for all the Indices shall be the earliest of:
- (1) the first succeeding Valid Date for all the Indices;
 - (2) the Scheduled Trading Day for all the Indices falling the Specified Maximum Days of Disruption immediately following that Scheduled Averaging Date; and
 - (3) the second Business Day prior to the Maturity Date or the Interest Payment Date immediately succeeding the relevant Scheduled Averaging Date or, if such day is not a Scheduled Trading Day for all the Indices, the immediately preceding Scheduled Trading Day for all the Indices.

If the relevant Averaging Date falls within (2) or (3) above, such Scheduled Trading Day shall be such Averaging Date (irrespective of whether that Scheduled Trading Day is already an Averaging Date) and if the relevant Scheduled Trading Day is a Disrupted Day for an Index (the **Affected Index**), (x) that Scheduled Trading Day shall be deemed to be that Averaging Date for that Affected Index (notwithstanding the fact that such day is a Disrupted Day) and (y) the Calculation Agent shall determine the relevant level for such Affected Index for that Averaging Date in accordance with sub-paragraph (b)(iii) of the definition of "Valuation Date" below;

- (B) where "Value What You Can" is specified as applying in the applicable Final Terms, that Averaging Date for each Index in respect of which no Disrupted Day has occurred shall be the Scheduled Averaging Date and that Averaging Date for each Index in respect of which a Disrupted Day has occurred (each an **Affected Index**) shall be the earliest of:
- (1) the first succeeding Valid Date for the Affected Index;
 - (2) the Scheduled Trading Day for the Affected Index falling the Specified Maximum Days of Disruption immediately following that Scheduled Averaging Date; and
 - (3) the second Business Day prior to the Maturity Date or, if such day is not a Scheduled Trading Day for the Affected Index, the immediately preceding Scheduled Trading Day for the Affected Index.

If the relevant Averaging Date for an Affected Index falls within or **DRYH** and the relevant Scheduled Trading Day is a Disrupted Day for that Affected Index, (x) that Scheduled Trading Day shall be deemed to be that Averaging Date for the Affected Index (notwithstanding the fact that such day is a Disrupted Day for the Affected Index and irrespective of whether that Scheduled Trading Day is already an Averaging Date) and (y) the Calculation Agent shall determine the relevant level for that Averaging Date in accordance with sub-paragraph (b)(iii) of the definition of "Valuation Date" below.

Exchange Disruption means:

- (a) in relation to a Composite Index, any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for, (A) any Component Security on the Exchange in respect of such Component Security; or (B) futures or options contracts relating to such Index on any relevant Related Exchange; and
- (b) in relation to an Index which is not a Composite Index, any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (A) to effect transactions in, or obtain market values for, on any relevant Exchange(s), securities/commodities that comprise 20 per cent. or more of the level of the relevant Index, or (B) to effect transactions in, or obtain market values for, futures or options contracts relating to the relevant Index on any relevant Related Exchange.

Observation Date means each date specified as an Observation Date in the applicable Final Terms, or if any such date is not a Scheduled Trading Day for all the Indices, the immediately following Scheduled Trading Day for all the Indices unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day for any of the Indices. If any such day is a Disrupted Day for any of the Indices, then either (i) the provisions specified in the applicable Final Terms shall apply or (ii) if so specified in the applicable Final Terms the provisions relating to "Omission", "Postponement" or "Modified Postponement", as the case may be, contained in the definition of "Averaging Date" shall apply *mutatis mutandis* as if (a) references in such provisions to "Averaging Date" were to "Observation Date" and (b) references to "Settlement Price" in the definition of "Valuation Date" were references to the level of the relevant Index in respect of the relevant Observation Date.

Observation Period means the period specified as the Observation Period in the applicable Final Terms.

Related Exchange means, in relation to an Index, each exchange or quotation system on which option contracts or futures contracts relating to such Index are traded, or each exchange or quotation system specified as such for such Index in the applicable Final Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to such Index has temporarily relocated (PROVIDED THAT the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Index on such temporary substitute exchange or quotation system as on the original Related Exchange), PROVIDED THAT where **All Exchanges** is specified as the Related Exchange for such Index in the applicable Final Terms, "Related Exchange" shall mean each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to such Index.

Scheduled Closing Time means, in respect of an Index and an Exchange or Related Exchange and a Scheduled Trading Day for such Index, the scheduled weekday closing time of such Exchange or Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.

Scheduled Trading Day means:

For the purposes of determining the X Percentage, the relevant percentage contribution of each Component Security unavailable for trading shall be based on a comparison of (a) the portion of the level of that Index to that Component Security relative to (b) the overall level of that Index, in each case using the official opening weightings as published by the relevant Index Sponsor as part of the market "opening data"; and

- (b) in relation to an Index which is not a Composite Index, any day on which each Exchange and each Related Exchange for such Index are scheduled to be open for trading for their respective regular trading sessions.

Scheduled Valuation Date means any original date that, but for the occurrence of an event causing a Disrupted Day, would have been a Valuation Date.

(A) if Averaging is not specified as applying in the applicable Final Terms, a Valuation Date or (B) if Averaging is specified as applying in the applicable Final Terms, an Averaging Date, multiplied by the relevant Weighting (the **Basket Settlement Price**) or (ii) in relation to an Index and the relevant Valuation Date or an Averaging Date, as the case may be, an amount (which, if an Index Currency is specified in the applicable Final Terms, shall be deemed to be a monetary amount in the Index Currency) equal to the official closing level for such Index as determined by the Calculation Agent (or, if so specified in the applicable Final Terms, the level of such Index determined by the Calculation Agent as set out in the applicable Final Terms at the Valuation Time) on (A) if Averaging is not specified as applying in the applicable Final Terms, such Valuation Date or (B) if Averaging is specified as applying in the applicable Final Terms, such Averaging Date (the **Per Index Settlement Price**), as specified in the applicable Final Terms; and

- (b) in the case of Index Linked Notes relating to a single Index, an amount (which, if an Index Currency is specified in the applicable Final Terms, shall be deemed to be a monetary amount in the Index Currency) equal to the official closing level of the Index, as determined by the Calculation Agent (or, if so specified in the applicable Final Terms, the level of the Index determined by the Calculation Agent as set out in the applicable Final Terms at the Valuation Time) on (A) if Averaging is not specified as applying in the applicable Final Terms, a Valuation Date or (B) if Averaging is specified as applying in the applicable Final Terms, an Averaging Date.

- (b) in the case of an Index which is not a Composite Index, any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise either (a) relating to securities/commodities that comprise 20 per cent. or more of the level of such Index on any relevant Exchange(s) or (b) in futures or options contracts relating to such Index on any relevant Related Exchange.

Valuation Date means the Coupon Valuation Date and/or the Redemption Valuation Date, as the case may be, specified as such in the applicable Final Terms or, if any such day is not a Scheduled Trading Day for all the Indices, the immediately succeeding Scheduled Trading Day for all the Indices unless, in the opinion of the Calculation Agent, such day is a Disrupted Day for any of the Indices.

If any such day is a Disrupted Day for any of the Indices, then:

- (a) where the Notes are Index Linked Notes relating to a single Index, that Valuation Date shall be the earliest of:
- (i) the first succeeding Scheduled Trading Day that is not a Disrupted Day;

- (ii) the Scheduled Trading Day falling the Specified Maximum Days of Disruption immediately following that Scheduled Valuation Date; and
- (iii) the second Business Day prior to the Maturity Date or the Interest Payment Date immediately succeeding the relevant Scheduled Valuation Date, as the case may be, or, if such day is not a Scheduled Trading Day, the immediately preceding Scheduled Trading Day.

If that Valuation Date falls within (ii) or (iii) above and the relevant Scheduled Trading Day is a Disrupted Day, (A) that Scheduled Trading Day shall be deemed to be that Valuation Date (notwithstanding the fact that such day is a Disrupted Day) and (B) the Calculation Agent shall determine the relevant Settlement Price for such Valuation Date in the manner set out in the applicable Final Terms or, if not set out or if not practicable, determine the relevant Settlement Price for such Valuation Date by determining the level of the Index as of the Valuation Time on that Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that Scheduled Trading Day of each security/commodity) comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security/commodity) on that Scheduled Trading Day, its good faith estimate of the value for the relevant security/commodity) as of the Valuation Time on that Scheduled Trading Day); or

- (b) where the Notes are Index Linked Notes relating to a Basket of Indices,
 - (i) where "Move in Block" is specified as applying in the applicable Final Terms, that Valuation Date for all the Indices shall be the earliest of:
 - (A) the first succeeding Scheduled Trading Day for all the Indices that is not a Disrupted Day for any of the Indices;
 - (B) the Scheduled Trading Day for all the Indices falling the Specified Maximum Days of Disruption immediately following that Scheduled Valuation Date; and
 - (C) the second Business Day prior to the Maturity Date or the Interest Payment Date immediately succeeding the relevant Scheduled Valuation Date, as the case may be, or, if such day is not a Scheduled Trading Day for all the Indices, the immediately preceding Scheduled Trading Day for all the Indices.

If the relevant Valuation Date falls within (B) or (C) above, such Scheduled Trading Day shall be that Valuation Date and, if the relevant Scheduled Trading Day is a Disrupted Day for an Index (the **Affected Index**), (x) that Scheduled Trading Day shall be deemed that Valuation Date for that Affected Index (notwithstanding the fact that such day is a Disrupted Day) and (y) the Calculation Agent shall determine the level of the Affected Index as set out in paragraph (iii) below.

- (ii) where "Value What You Can" is specified as applying in the applicable Final Terms, that Valuation Date for each Index in respect of which no Disrupted Day has occurred shall be that Scheduled Valuation Date and that Valuation Date for each Index in respect of which a Disrupted Day has occurred (each an **Affected Index**) shall be the earliest of:

- (A) the first succeeding Scheduled Trading Day for the Affected Index that is not a Disrupted Day for the Affected Index;
- (B) the Scheduled Trading Day for the Affected Index falling the Specified Maximum Days of Disruption immediately following that Scheduled Valuation Date; and
- (C) the second Business Day prior to the Maturity Date or the Interest Payment Date immediately succeeding the relevant Scheduled Valuation Date, as the case may be, or, if such day is not a Scheduled Trading Day for the Affected Index, the immediately preceding Scheduled Trading Day for the Affected Index.

If the relevant Valuation Date for an Affected Index falls within (B) or (C) above and the relevant Scheduled Trading Day is a Disrupted Day for the Affected Index, (i) that Scheduled Trading Day shall be deemed to be that Valuation Date for the Affected Index (notwithstanding the fact that such day is a Disrupted Day for the Affected Index) and (ii) the Calculation Agent shall determine the level of the Affected Index as set out in paragraph (iii) below.

- (iii) the Calculation Agent shall determine the relevant level for the purposes of paragraphs (i) and (ii) above using, in relation to the Affected Index, the level of that Index determined in the manner set out in the applicable Final Terms or, if not set out or if not practicable, using the level of that Index as of the Valuation Time on that Scheduled Trading Day determined in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day relating to the Affected Index using the Exchange traded or quoted price as of the Valuation Time on that Scheduled Trading Day of each security/commodity comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security/commodity) on that Scheduled Trading Day, its good faith estimate of the value for the relevant security/commodity) as of the Valuation Time on that Scheduled Trading Day) and otherwise in accordance with the above provisions.

Valuation Time means the Relevant Time specified in the applicable Final Terms or, if no such time is so specified:

- (a) in relation to a Composite Index, (i) for the purposes of determining whether a Market Disruption Event in respect of such Index has occurred: (A) in respect of any Component Security, the Scheduled Closing Time on the Exchange in respect of such Component Security, and (B) in respect of any options contracts or future contracts on the Index, the close of trading on the relevant Related Exchange; and (ii) in all other circumstances, the time at which the official closing level of such Index is calculated and published by the relevant Index Sponsor; and
- (b) in relation to an Index which is not a Composite Index, the Scheduled Closing Time on the Exchange for such Index on the relevant Scheduled Trading Day. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.

Weighting means, in respect of the Notes linked to a Basket of Indices and in respect of an Index, the weighting for such Index specified in the applicable Final Terms.

ANNEX 2
ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED NOTES

*The terms and conditions applicable to Inflation Linked Notes shall comprise the General Conditions and the additional terms and conditions set out below (the **Inflation Linked Conditions**), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Inflation Linked Conditions set out below, the Inflation Linked Conditions set out below shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Inflation Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

1. Delay in Publication

(a) If the Calculation Agent determines, in respect of an Index and a Payment Date, that the level of such Index for a Reference Month (an **Underlying Level**) has not been published or announced by the Valuation Date for such Payment Date, the Calculation Agent shall determine the level of such Index for such Reference Month (the **Substitute Index Level**) in place of such Underlying Level by using the following methodology:

- (i) if applicable, the Calculation Agent will take the same action to determine the Substitute Index Level for the Affected Payment Date as that taken by the calculation agent pursuant to the terms and conditions of any relevant Related Bond; or
- (ii) if the Calculation Agent is not able to determine a Substitute Index Level under Condition 1(a)(i) of the Inflation Linked Conditions above, the Calculation Agent shall determine the Substitute Index Level by reference to the following formula:

$$\text{(Substitute Index Level = Base Level x (Latest Level/Reference Level)); or}$$

- (iii) otherwise in accordance with any formula or provisions specified in the applicable Final Terms.

where:

Base Level means, in respect of an Index, the level of such Index (excluding any "flash" estimates) published or announced by the relevant Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined.

Latest Level means, in respect of an Index, the latest level of such Index (excluding any "flash" estimates) published or announced by the relevant Index Sponsor prior to the month in respect of which the Substitute Index Level is being determined.

Reference Level means, in respect of an Index, the level of such Index (excluding any "flash" estimates) published or announced by the relevant Index Sponsor in respect of the month that is 12 calendar months prior to the month in respect of the Latest Level.

The Issuer shall promptly give notice to the Noteholders in accordance with Condition 13 of the General Conditions of any Substitute Index Level.

(b) If an Underlying Level in respect of a Payment Date is published or announced at any time after the Valuation Date for such Payment Date, such Underlying Level will not be used in any calculations. The Substitute Index Level determined pursuant to Condition 1(a) of the Inflation Linked Conditions above will be the definitive level for that Reference Month.

2. Cessation of Publication

If the Calculation Agent determines that the level of an Index has not been published or announced for two consecutive months or such other period as is specified in the applicable Final Terms (the **Period of Cessation of Publication**) and/or the relevant Index Sponsor announces that it will no longer continue to publish or announce such Index and/or the relevant Index Sponsor cancels the relevant Index then the Calculation Agent shall determine a successor index (a **Successor Index**) (in lieu of any previously applicable Index) for the purposes of the Notes by using the following methodology:

- (i) if a successor index has been designated by the calculation agent pursuant to the terms and conditions of any relevant Related Bond, such successor index shall be designated the "Successor Index" for the purposes of all Payment Dates on and after the Affected Payment Date in relation to the Notes, notwithstanding that any other Successor Index may previously have been determined pursuant to Conditions 2(ii), or 2(iii) of the Inflation Linked Conditions below;
- (ii) if a Successor Index is not determined pursuant to Condition 2(i) of the Inflation Linked Conditions above and a notice has been given or an announcement has been made by the relevant Index Sponsor specifying that such Index will be superseded by a replacement index specified by the relevant Index Sponsor and the Calculation Agent determines that such replacement Index is calculated and announced using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Index, such replacement index shall be the "Successor Index" for the purposes of the Notes from the date that such Successor Index comes into effect;
- (iii) if a Successor Index is not determined pursuant to Condition 2(i) or 2(ii) of the Inflation Linked Conditions above prior to the Valuation Date in respect of each succeeding Affected Payment Date, the Calculation Agent will determine an appropriate alternative index for such Affected Payment Date and such index will be deemed to be the "Successor Index"; or
- (iv) if the Calculation Agent determines that there is no appropriate alternative index, there will be deemed to be no Successor Index (an **Inflation Index Cancellation**) and, on giving notice to Noteholders in accordance with Condition 13 of the General Conditions, the Issuer shall redeem all but not some only of the Notes, each Calculation Amount being redeemed by payment of an amount (which, for the avoidance of doubt, shall include amounts in respect of accrued interest (if applicable)) equal to the fair market value of such Calculation Amount, on a day selected by the Issuer, taking into account the Inflation Index Cancellation, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent. Payments will be made in such manner and subject to such conditions as shall be notified to the Noteholders in accordance with Condition 13 of the General Conditions and upon such payment in respect of such Calculation Amount, the Issuer's obligations in respect thereof shall be discharged.

If a Successor Index is determined in accordance with the above, the Calculation Agent may make appropriate adjustment(s) to the terms of these Conditions and/or the applicable Final Terms as the Calculation Agent determines necessary, or appropriate to account for such replacement and determine the effective date(s) of the adjustment(s) to the Notes.

Notice of the determination of a Successor Index and the date from which such index becomes the Successor Index and any relevant adjustment(s) to the terms of these Conditions and/or the

applicable Final Terms or any Inflation Index Cancellation will be given to Noteholders by the Issuer in accordance with Condition 13 of the General Conditions.

3. **Revised Index Levels and Manifest Error in Publication**

- (a) In relation to an Index, either (i) the first publication and announcement of a level of such Index for a Reference Month shall final and conclusive and later revisions to the level for such Reference Month will not be used in any calculations (**No Revision**) or (ii) the first publication or announcement of a level of such Index, or, if revised, any subsequent revisions of such level for a Reference Month shall be final and conclusive, PROVIDED THAT such revisions are published or announced up to and including the relevant Revision Cut-off Date (**Revision**), as specified in the applicable Final Terms PROVIDED THAT if neither "No Revision" nor "Revision" is specified in the applicable Final Terms, "No Revision" shall be deemed to apply for such Index.
- (b) If, in respect of a Payment Date and an Underlying Level in respect of such Payment Date, the Calculation Agent determines that the relevant Index Sponsor has corrected such Underlying Level to correct a manifest error, prior to the earlier of thirty days of publication of such Underlying Level and the Manifest Error Cut-off Date for such Payment Date the Calculation Agent may use such corrected Underlying Level to calculate any payments under the Notes in respect of such Payment Date. Corrections published after the Manifest Error Cut-off Date in respect of such Payment Date will be disregarded by the Calculation Agent for the purposes of determining any payments under the Notes.

4. **Rebasing**

If the Calculation Agent determines that an Index has been or will be rebased at any time, such Index as so rebased (the **Rebased Index**) will be used for purposes of determining any Underlying Level in respect of such Index from the date of such rebasing; provided, however, that the Calculation Agent shall make (A) such adjustments as are made by the calculation agent pursuant to the terms and conditions of any relevant Related Bond to the levels of such Rebased Index so that such Rebased Index levels reflect the same rate of inflation as the Index before it was rebased and/or (B) if there is no Related Bond, the Calculation Agent shall make such adjustments to the levels of such Rebased Index so that such Rebased Index levels reflect the same rate of inflation as the relevant Index before it was rebased and, in each case, the Issuer may make appropriate adjustment(s) to the terms of these Conditions and/or the applicable Final Terms as the Calculation Agent determines necessary or appropriate to account for such rebasing and determine the effective date of the adjustment(s) to the Notes. If the Calculation Agent determines that neither (A) nor (B) above would produce a commercially reasonable result, on giving notice to the Noteholders in accordance with Condition 13 of the General Conditions, the Issuer shall redeem all but not some only of the Notes, each Calculation Amount being redeemed by payment of an amount equal to the fair market value of such Calculation Amount, on a day selected by the Issuer, taking into account the rebasing, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent. Payments will be made in such manner and subject to such conditions as shall be notified to the Noteholders in accordance with Condition 13 of the General Conditions and upon such payment in respect of such Calculation Amount, the Issuer's obligations in respect thereof shall be discharged.

Notice of any adjustment, early redemption or determination pursuant to this Condition shall be given to Noteholders in accordance with Condition 13 of the General Conditions.

5. **Material Modification Prior to Payment Date**

If, on or prior to the Valuation Date in respect of any Payment Date, an Index Sponsor announces that it will make a material change to an Index, the Calculation Agent shall (A) make appropriate adjustment(s) to the terms of these Conditions and/or the applicable Final Terms, consistent with any adjustments made to any relevant Related Bond as the Calculation Agent determines necessary or appropriate to account for such change to such Index and determine the effective date(s) of the adjustment(s) to the Notes, or (B) if there is no Related Bond make only those adjustments to the terms of the Notes as the Calculation Agent determines necessary for the modified Index to continue as the Index. If the Calculation Agent determines that neither (A) nor (B) above would produce a commercially reasonable result, on giving notice to the Noteholders in accordance with Condition 13 of the General Conditions, the Issuer shall redeem all but not some only of the Notes, each Calculation Amount being redeemed by payment of an amount equal to the fair market value of such Calculation Amount, on a day selected by the Issuer, taking into account the change to the Index, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent. Payments will be made in such manner and subject to such conditions as shall be notified to the Noteholders in accordance with Condition 13 of the General Conditions and upon such payment in respect of such Note, the Issuer's obligations in respect thereof shall be discharged.

Notice of any adjustment, early redemption or determination pursuant to this Condition shall be given to Noteholders in accordance with Condition 13 of the General Conditions.

6. **Mandatory Early Repayment Event**

If "Mandatory Early Repayment Event" is specified as applicable in the applicable Final Terms, then unless previously redeemed or purchased and cancelled, if a Mandatory Early Repayment Event occurs, then the Issuer will redeem all, but not some only, of the Notes on the relevant Mandatory Early Repayment Date, each Calculation Amount being redeemed by payment of an amount equal to the Mandatory Early Repayment Amount. Payment will be made in such manner and subject to such conditions as shall be notified to the Noteholders in

accordance with Condition 13 of the General Conditions and, upon such payment in respect of such Calculation Amount, the Issuer's obligations in respect thereof shall be discharged.

Fallback Bond means, in respect of an Index, a bond selected by the Calculation Agent. The Calculation Agent may determine such bond by reference to the following criteria: a bond which is issued by the government of the country to whose level of inflation the relevant Index relates and which pays a coupon or redemption amount which is calculated by reference to such Index, with a maturity date which falls on (a) the same day as the End Date as specified in the applicable Final Terms, (b) the next longest maturity after the End Date if there is no such bond maturing on the End Date, or (c) the next shortest maturity before the End Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the relevant Index relates to the level of inflation across the European Monetary Union, the Calculation Agent may select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent may select the Fallback Bond from those inflation linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond may be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems, the Calculation Agent may select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

Related Bond means, in respect of an Index, the bond specified as such in the applicable Final Terms or, if no bond is so specified, the Fallback Bond. If the relevant Related Bond specified in the applicable Final Terms is "Fallback Bond", then, for any Related Bond determination, the Calculation Agent shall use the Fallback Bond. If "Related Bond: Not Applicable" is specified in the applicable Final Terms and "Fallback Bond: Not Applicable" is specified in the applicable Final Terms there will be no Related Bond. If a bond is selected as the Related Bond in the applicable Final Terms and that bond redeems or matures before the End Date, unless "Fallback Bond: Not Applicable" is specified in the applicable Final Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination.

1. Market Disruption

(a) Definition

Market Disruption Event means an event that, if applicable to the Notes, would give rise, in accordance with an applicable Disruption Fallback, to an alternative basis for determining the Relevant Price in respect of a specified Commodity Reference Price or the cancellation of the Notes were the event to occur or exist on a day that is a Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the relevant Price Source).

Each of "Price Source Disruption", "Trading Disruption", "Disappearance of Commodity Reference Price", "Material Change in Formula", "Material Change in Content" and "Tax Disruption" as specified in the applicable Final Terms or as deemed to be specified pursuant to Condition 1(b) of the Commodity Linked Conditions below shall be a Market Disruption Event.

(b) Deemed Market Disruption Events

If no Market Disruption Events are specified in the applicable Final Terms, the following Market Disruption Events will be deemed to have been specified:

- (i) in respect of a Commodity other than a Commodity which is specified in the applicable Final Terms to be a Bullion Commodity (A) "Price Source Disruption", (B) "Trading Disruption", (C) "Disappearance of Commodity Reference Price", (D) "Material Change in Formula" and (E) "Material Change in Content"; and
- (ii) in respect of a Commodity which is specified in the applicable Final Terms to be a Bullion Commodity, (A) "Price Source Disruption", (B) "Trading Disruption" and (C) "Disappearance of Commodity Reference Price".

The Calculation Agent shall, as soon as practicable, notify the Issuer and the Fiscal Agent if it has determined that a Market Disruption Event has occurred and the Fiscal Agent shall make available for inspection by holders copies of any such determinations.

2. **Disruption Fallbacks**

(a) Definition

Disruption Fallback means the source or method that, if applicable to the Notes, may give rise to an alternative basis for determining the Relevant Price in respect of a specified Commodity Reference Price or the cancellation of the Notes when a Market Disruption Event occurs or exists on a day that is a Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the relevant Price Source).

Each of "Fallback Reference Dealers", "Fallback Reference Price", "Cancellation", "Postponement", "Calculation Agent Determination" and "Delayed Publication and Announcement" or such other events as specified in the applicable Final Terms or as deemed to be specified pursuant to Condition 2(b) of the Commodity Linked Conditions below, shall be a Disruption Fallback.

(b) Deemed Disruption Fallbacks

If no Disruption Fallbacks are specified in the applicable Final Terms, the following Disruption Fallbacks will be deemed to have been specified (in the following order): (A) "Fallback Reference Price" (if an alternate Commodity Reference Price is specified in the applicable Final Terms), (B) "Delayed Publication and Announcement" and "Postponement" (each to operate concurrently with the other and each subject to two Commodity Business Days as the applicable Maximum Days of Disruption PROVIDED THAT the price determined by "Postponement" shall be the Relevant Price only if "Delayed Publication and Announcement" does not yield a Relevant Price within the Maximum Days of Disruption), (C) "Calculation Agent Determination" and (D) "Cancellation".

(c) Cancellation

If a Market Disruption Event occurs or exists on a day that would otherwise be a Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the relevant Price Source) and none of the applicable Disruption Fallbacks provides the parties with a Relevant Price, on giving notice to Noteholders in accordance with Condition 13 of the General Conditions, the Issuer will redeem all but not some only of the Notes, each Calculation Amount being redeemed by payment of an amount equal to the fair market value of such Calculation Amount, on a day selected by the Issuer, taking into account the lack of the Relevant Price, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent. Payment will be made in such manner and subject to such conditions as shall be notified to the Noteholders in accordance with Condition 13 of the General Conditions and upon such payment in respect of such Note, the Issuer's obligations in respect thereof shall be discharged.

3. **Correction of Published Prices**

With the exception of any corrections published after the day which is two Business Days prior to the due date for any payment (a **Payment Due Date**) of any amounts payable under the Notes (if any), if the price published or announced on a given day and used or to be used by the Calculation Agent to determine any such amounts payable under the Notes is subsequently corrected and the correction is published or announced by the person responsible for that publication or announcement within 30 days of the original publication or announcement, the price to be used shall be such price as so corrected. Corrections published after the day which is two Business Days prior to the relevant Payment Due Date will be disregarded by the Calculation Agent for the purposes of determining any such amounts payable under the Notes.

4. **Mandatory Early Repayment Event**

If "Mandatory Early Repayment Event" is specified as applicable in the applicable Final Terms, then unless previously redeemed or purchased and cancelled, if a Mandatory Early Repayment Event occurs, then the Issuer will redeem all, but not some only, of the Notes on the relevant Mandatory Early Repayment Date, each Calculation Amount being redeemed by payment of an amount equal to the Mandatory Early Repayment Amount.  - (i) where the Commodity Reference Price for such Commodity is a price announced or published by an Exchange, any day that is (or, but for the occurrence of a Market Disruption Event, would have been) a day on which that Exchange is open for trading during its regular trading session, notwithstanding that Exchange closing prior to its scheduled closing time; and
 - (ii) where the Commodity Reference Price for such Commodity is not a price announced or published by an Exchange, a day in respect of which the relevant Price Source published (or, but for the occurrence of a Market Disruption Event, would have published) a price; and
- (b) in respect of a Commodity which is specified in the applicable Final Terms to be a Bullion Commodity, a day on which commercial banks are open for business (including dealings in foreign exchange and foreign currency deposits) in London and New York City or as otherwise specified in the applicable Final Terms.

Commodity Business Day Convention means the convention for adjusting any relevant date if it would otherwise fall on a day that is not a Commodity Business Day. The following terms, when used in conjunction with the term "Commodity Business Day Convention" and a date, will mean that an adjustment will be made if that date would otherwise fall on a day that is not a Commodity Business Day so that:

- (a) if "Following" is specified, that date will be the first following day that is a Commodity Business Day;

If exactly three quotations are provided as requested, the price for that Pricing Date will be the Specified Price provided by the relevant Reference Dealer that remains after disregarding the Specified Prices having the highest and lowest values. For this purpose, if more than one quotation has the same highest or lowest value, then the Specified Price of one of such quotations shall be disregarded. If fewer than three quotations are provided, it will be deemed that the price for the Pricing Date cannot be determined.

Commodity Reference Price means, in respect of any Commodity and for the purposes of determining a Relevant Price, the relevant commodity reference price for such Commodity specified in the applicable Final Terms.

Common Pricing means, with respect to Notes linked to two or more Commodities and Commodity Reference Prices:

- (ii) if "Common Pricing" is specified as "Not Applicable" in the applicable Final Terms, then if the Calculation Agent determines that a Market Disruption Event has occurred or exists on a Pricing Date in respect of any Commodity (each an **Affected Commodity**), the Relevant Price of each Commodity which is not affected by the occurrence of a Market Disruption Event shall be determined on the relevant scheduled Pricing Date and the Relevant Price for each Affected Commodity shall be determined in accordance with the first applicable Disruption Fallback that provides a Relevant Price.

Delayed Publication and Announcement means that the Relevant Price for a Pricing Date will be determined based on the Specified Price in respect of the original day scheduled as such Pricing Date that is published or announced by the relevant Price Source retrospectively on the first succeeding Commodity Business Day on which the Market Disruption Event ceases to exist, unless that Market Disruption Event continues to exist (measured from and including the original day that would otherwise have been the Pricing Date) or the Relevant Price continues to be unavailable for consecutive Commodity Business Days equal in number to the Specified Maximum Days of Disruption. In that case, the next Disruption Fallback specified in the applicable Final Terms will apply.

Material Change in Content means the occurrence since the Trade Date of a material change in the content, composition or constitution of the relevant Commodity or the relevant Futures Contract.

Nearby Month when preceded by a numerical adjective, means, in respect of a Delivery Date and a Pricing Date, the month of expiration of the Futures Contract identified by that numerical adjective, so that, for example, (A) "First Nearby Month" means the month of expiration of the first Futures Contract to expire following that Pricing Date and (B) "Second Nearby Month" means the month of expiration of the second Futures Contract to expire following that Pricing Date etc.

Postponement means, in respect of a Pricing Date, that such Pricing Date will be deemed, for purposes of the application of this Disruption Fallback only, to be the first succeeding Commodity Business Day on which the Market Disruption Event ceases to exist, unless that Market Disruption Event continues to exist (measured from and including the original day that would otherwise have been such Pricing Date) for consecutive Commodity Business Days equal in number to the Specified Maximum Days of Disruption. In that case, the next Disruption Fallback specified in the applicable Final Terms will apply.

Specified Maximum Days of Disruption means the number of Commodity Business Days specified in the applicable Final Terms or, if no such number is so specified, five Commodity Business Days.

Specified Price means, in respect of a Commodity Reference Price, the price (which must be a price reported in or by, or capable of being determined from information reported in or by, the relevant Price Source) specified in the applicable Final Terms (and, if applicable, as of the time so specified).

Tax Disruption means the imposition of, change in or removal of an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, the relevant Commodity (other than a tax on, or measured by reference to overall gross or net income) by any government or taxation authority after the Trade Date, if the direct effect of such imposition, change or removal is to raise or lower the Relevant Price on the day that would otherwise be a Pricing Date from what it would have been without that imposition, change or removal.

Trade Date means the date specified as such in the applicable Final Terms.

Trading Disruption means the material suspension of, or the material limitation imposed on, trading in the relevant Futures Contract or the relevant Commodity on the relevant Exchange or in any additional futures contract, options contract or commodity on any Exchange as specified in the applicable Final Terms. For these purposes:

- (a) a suspension of the trading in the relevant Futures Contract or the relevant Commodity on any Commodity Business Day shall be deemed to be material only if:
 - (i) all trading in the relevant Futures Contract or the relevant Commodity is suspended for the entire Pricing Date; or
 - (ii) all trading in the relevant Futures Contract or the relevant Commodity is suspended subsequent to the opening of trading on the Pricing Date, trading does not recommence prior to the regularly scheduled close of trading in such Futures Contract or Commodity on such Pricing Date and such suspension is announced less than one hour preceding its commencement; and
- (b) a limitation of trading in the relevant Futures Contract or the relevant Commodity on any Commodity Business Day shall be deemed to be material only if the relevant Exchange establishes limits on the range within which the price of the relevant Futures Contract or the relevant Commodity may fluctuate and the closing or settlement price of the relevant Futures Contract or the relevant Commodity on such day is at the upper or lower limit of that range.

Unit means, in respect of a Commodity, the unit of measure of such Commodity, as specified in the relevant Commodity Reference Price or the applicable Final Terms, as the case may be.

ANNEX 4
ADDITIONAL TERMS AND CONDITIONS FOR SHARE LINKED NOTES

*The terms and conditions applicable to Notes linked to a share or shares shall comprise the General Conditions and the additional terms and conditions set out below (the **Share Linked Conditions**), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Share Linked Conditions, the Share Linked Conditions set out below shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Share Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

1. Market Disruption

Market Disruption Event means, in respect of a Share:

- (a) the occurrence or existence at any time during the one hour period that ends (x) in relation to an Observation Date, at the Observation Time or, if the Observation Time is specified to be "at any time" in the applicable Final Terms, at the time at which the price of the Share is being determined (the **Determination Time**), (y) for the purposes of the occurrence of a Mandatory Early Repayment Event, ends at the relevant Mandatory Early Repayment Valuation Time or, if the Mandatory Early Repayment Valuation Time is specified to be "at any time" in the applicable Final Terms, the Determination Time, or (z) in all other circumstances, at the Valuation Time for such Share:
 - (i) of any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or any Related Exchange or otherwise:
 - (A) relating to the Share on the relevant Exchange; or
 - (B) in futures or options contracts relating to the Share on any relevant Related Exchange; or
 - (ii) of any event (other than as described in (b) below) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (A) to effect transactions, in or obtain market values for, the Share on the relevant Exchange or (B) to effect transactions in, or obtain market values for, futures or options contracts on or relating to the Share on any relevant Related Exchange; or
- (b) the closure on any Exchange Business Day of the relevant Exchange or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or such Related Exchange(s), as the case may be, at least one hour prior to the earlier of (A) the actual closing time for the regular trading session on such Exchange(s) or such Related Exchange(s) on such Exchange Business Day and (B) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the Valuation Time, the Observation Time, the Determination Time or the Mandatory Early Repayment Valuation Time, as the case may be, on such Exchange Business Day,

which, in any such case, the Calculation Agent determines is material.

If the Calculation Agent determines that it is not material that any day in respect of which the Calculation Agent is required to determine the price of a Share (a **Relevant Day**) is:

- (i) not a Scheduled Trading Day for a Share because one or more Related Exchanges relating to such Share is/are not scheduled to be open; or
- (ii) a Disrupted Day for a Share solely because any Related Exchange relating to such Share fails to open,

the Calculation Agent shall have the discretion to determine such day to be the Relevant Day (notwithstanding the fact that such day is not a Scheduled Trading Day in respect of a Share because one or more Related Exchanges is/are not scheduled to be open or is a Disrupted Day solely because any Related Exchange fails to open).

In determining what is "material", the Calculation Agent shall have regard to such circumstances as it deems appropriate, which may include (but are not limited to) the Issuer's hedging arrangements in respect of the Notes.

The Issuer shall give notice as soon as practicable to Noteholders in accordance with Condition 13 of the General Conditions of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been a Relevant Day.

2. **Adjustment Events and Additional Disruption Events**

If an Adjustment Event or an Additional Disruption Event occurs, the Issuer may take the action described in (i) or (ii) below :

- (i) require the Calculation Agent to (i) make such adjustment(s), if any, to the terms of the Conditions and/or the applicable Final Terms as the Calculation Agent determines necessary or appropriate to account for the Adjustment Event or the Additional Disruption Event, as the case may be, and such adjustment may include, if "Share Substitution" is specified as applying in the applicable Final Terms, the substitution of the Share the subject of the Adjustment Event (the **Substituted Share**) by a share (the **New Share**) selected by the Calculation Agent from the Reference Index, and (ii) determine the effective date(s) of the adjustment(s) to the Notes. If "Share Substitution" is specified as applying in the applicable Final Terms, and the Calculation Agent selects a New Share in substitution for the Substituted Share, the Issuer shall make such other adjustments to the terms of the Notes as it deems appropriate. The Calculation Agent may (but need not) determine necessary or appropriate adjustment(s) by reference to the adjustment(s) in respect of such Adjustment Event or Additional Disruption Event, as the case may be, made by any Related Exchange to options contracts or futures contracts on the relevant Share traded on such Related Exchange. The Calculation Agent shall make all adjustments arising from an Adjustment Event or Additional Disruption Event, as the case may be, in such a way as to ensure that the direct economic link between the value of the Shares and the value of the Notes is preserved; or
- (ii) on giving notice to Noteholders in accordance with Condition 13 of the General Conditions, the Issuer shall redeem all but not some only of the Notes each Calculation Amount being redeemed by payment of an amount (which for the avoidance of doubt, shall include amounts in respect of accrued interest (if applicable)) equal to the fair market value of such Calculation Amount on a day selected by the Issuer, taking into account the Adjustment Event or the Additional Disruption Event, as the case may be, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as

determined by the Calculation Agent. Corrections published after the day which is two Business Days prior to the relevant Payment Date will be disregarded by the Calculation Agent for the purposes of determining any such amounts payable under the Notes.

- (a) if **Omission** is specified as applying in the applicable Final Terms, then such date will be deemed not to be an Averaging Date for purposes of determining the relevant Settlement Price PROVIDED THAT if, through the operation of this provision, no Averaging Date would occur, then the provisions of the definition of "Valuation Date" will apply for purposes of determining the relevant price on the final Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day; or
- (b) if **Postponement** is specified as applying in the applicable Final Terms, then the provisions of the definition of "Valuation Date" will apply for purposes of determining the relevant price on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day, irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or
- (c) if **Modified Postponement** is specified as applying in the applicable Final Terms:
 - (i) where the Notes are Shares Linked Notes relating to a single Share, that Averaging Date shall be the earliest of:
 - (A) the first succeeding Valid Date (as defined below);

 - (C) the second Business Day prior to the Maturity Date, or the Interest Payment Date immediately succeeding the relevant Scheduled Averaging Date (as defined below) or, if such day is not a Scheduled Trading Day, the immediately preceding Scheduled Trading Day.

If the relevant Averaging Date falls within (B) or (C) above and the relevant Scheduled Trading Day is a Disrupted Day, then (X) that Scheduled Trading Day shall be deemed to be that Averaging Date (notwithstanding the fact that such day is a Disrupted Day and irrespective of whether that Scheduled Trading Day is already an Averaging Date), and (Y) the Calculation Agent shall determine the relevant price for that Averaging Date in accordance with sub-paragraph (b)(iii) of the definition of **Valuation Date** below;

- (ii) where the Notes are Share Linked Notes relating to a basket of Shares,
 - (A) where "Move in Block" is specified as applying in the applicable Final Terms, that Averaging Date for all the Shares shall be the earliest of:
 - (1) the first succeeding Valid Date for all the Shares;

- (1) the first succeeding Valid Date for the Affected Share;
 - (2) the Scheduled Trading Day for the Affected Share falling the Specified Maximum Days of Disruption immediately following that Scheduled Averaging Date; and
 - (3) the second Business Day prior to the Maturity Date, or the Interest Payment Date immediately succeeding the relevant Scheduled Averaging Date or, if such day is not a Scheduled Trading Day for the Affected Share, the immediately preceding Scheduled Trading Day for the Affected Share.

If the relevant Averaging Date for an Affected Share falls within (2) or (3) above and the relevant Scheduled Trading Day is a Disrupted Day for the Affected Share, (x) that Scheduled Trading Day shall be deemed that Averaging Date for the Affected Share (notwithstanding the fact that such day is a Disrupted Day for the Affected Share and irrespective of whether that Scheduled Trading Day is already an Averaging Date) and (y) the Calculation Agent shall determine the relevant price for that Averaging Date in accordance with sub-paragraph (b)(iii) of the definition of **Valuation Date** below.

 - (B) the Scheduled Trading Day for all the Shares falling the Specified Maximum Days of Disruption immediately following that Scheduled Valuation Date; and
 - (C) the second Business Day prior to the Maturity Date or the Interest Payment Date immediately succeeding the relevant Scheduled Valuation Date, as the case may be, or, if such day is not a Scheduled Trading Day for all the Shares, the immediately preceding Scheduled Trading Day for all the Shares;

If the relevant Valuation Date falls within (B) or (C) above, such Scheduled Trading Day shall be that Valuation Date and, if the relevant Scheduled Trading Day is a Disrupted Day for a Share (the **Affected Share**), (x) that Scheduled Trading Day shall be deemed that Valuation Date for that Affected Share (notwithstanding the fact that such day is a Disrupted Day) and (y) the Calculation Agent shall determine the price of the Affected Share as set out in sub-paragraph (iii) below.

- (ii) where "Value What You Can" is specified as applying in the applicable Final Terms, that Valuation Date for each Share in respect of which no Disrupted Day has occurred shall be that Scheduled Valuation Date and that Valuation Date for each Share in respect of which a Disrupted Day has occurred (each an **Affected Share**) shall be the earliest of:
- (A) the first succeeding Scheduled Trading Day for the Affected Share that is not a Disrupted Day for the Affected Share;
 - (B) the Scheduled Trading Day for the Affected Share falling the Specified Maximum Days of Disruption immediately following that Scheduled Valuation Date; and

If the relevant Valuation Date for an Affected Share falls within (B) or (C) above and the relevant Scheduled Trading Day is a Disrupted Day for the Affected Share, (i) that Scheduled Trading Day shall be deemed to be that Valuation Date for the Affected Share (notwithstanding the fact that such day is a Disrupted Day for the

Affected Share) and (ii) the Calculation Agent shall determine the price of the Affected Share as set out in sub-paragraph (iii) below;

- (iii) the Calculation Agent shall determine the relevant price for the purposes of sub-paragraphs (i) and (ii) above using, in relation to the Affected Share, a price determined in the manner set out in the applicable Final Terms or, if not set out or if not practicable, using its good faith estimate of the price for the Affected Share as of the Valuation Time on that Scheduled Trading Day, and otherwise in accordance with the above provisions.

Valuation Time means, in relation to a Share, the Relevant Time specified in the applicable Final Terms for such Share or, if no such Relevant Time is specified, the Scheduled Closing Time on the Exchange for such Share on the relevant Scheduled Trading Day. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.

Weighting means, in respect of Notes linked to a Basket of Shares and in respect of a Share, the weighting for such Share specified in the applicable Final Terms.

FORM OF THE NOTES

The Notes of each Series will be in either bearer form, with or without Coupons attached, or registered form, without Coupons attached.

Initial Issue of Notes

Each Tranche of Bearer Notes will initially be issued in the form of a temporary Global Note which will (i) if the temporary Global Note is stated in the applicable Final Terms to be issued in NGN form because it is intended to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations, be delivered on or prior to the original issue date of the Tranche to a Common Safekeeper for Euroclear and Clearstream, Luxembourg; and (ii) if the temporary Global Note is stated in the applicable Final Terms to be issued in CGN form because it is not intended to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations, be delivered on or prior to the original issue date of the Tranche to a common depository for Euroclear and Clearstream, Luxembourg or as otherwise agreed between the Issuer, the Guarantor and the relevant Dealer. Delivering a Global Note to a common safekeeper does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue, or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

Whilst any Note is represented by a temporary Global Note, payments of principal and interest (if any) due prior to the Exchange Date will be made (against presentation of the temporary Global Note if the temporary Global Note is issued in CGN form) outside the United States and its possessions only to the extent that certification of non-U.S. beneficial ownership (in the form required by it) has been received by Euroclear and/or Clearstream, Luxembourg.

Notes issued in registered form will be represented by Registered Note Certificates, one Registered Note Certificate being issued in respect of each holder's entire holding of Registered Notes of one Series. Registered Notes which are held in Euroclear and/or Clearstream, Luxembourg will be represented by a Global Registered Note Certificate registered in the name of a nominee for Euroclear and/or Clearstream, Luxembourg and the relative Global Registered Note Certificate will be delivered to the appropriate depository.

Notwithstanding the foregoing, Australian Domestic Notes will take the form of entries in a register maintained by the Australian Registrar.

The Issuer will apply to Austraclear Limited (**Austraclear**) for approval for each Series of Australian Domestic Notes to be traded on the settlement system operated by Austraclear (**Austraclear System**). Such approval by Austraclear is not a recommendation or endorsement by Austraclear of the Australian Domestic Notes.

If accepted for admission to the respective system, interests in Australian Domestic Notes may be held through Euroclear or Clearstream, Luxembourg. In these circumstances, entitlements in respect of holdings of interests in the Australian Domestic Notes in Euroclear would be held in the Austraclear System by a nominee of Euroclear (currently Westpac Custodian Nominees Limited ABN 18 002 861 565) while entitlements in respect of holdings of interest in the Australian Domestic Notes in Clearstream Luxembourg would be held in the Austraclear System by a nominee of Clearstream, Luxembourg (currently ANZ Nominees Limited ABN 96 005 357 568).

The rights of a holder of interests in Australian Domestic Notes held through Euroclear or Clearstream, Luxembourg are subject to the respective rules and regulations for accountholders of Euroclear and Clearstream, Luxembourg, the terms and conditions of agreements between Euroclear and Clearstream, Luxembourg and their respective nominee and the rules and regulations of the Austraclear System.

In addition, any transfer of interests in Australian Domestic Notes, which is held through Euroclear or Clearstream, Luxembourg will, to the extent such transfer will be recorded on the Austraclear System, be subject to the Corporations Act 2001 of Australia and the requirements set out in Condition 2(c) of the Notes.

Relationship of Accountholders with Clearing Systems

For so long as any of the Notes is represented by a Global Note or a Global Certificate held on behalf of Euroclear and/or Clearstream Banking, each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular principal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the principal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Guarantor and the Agents as the holder of such principal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such principal amount of such Notes, for which purpose the bearer of the relevant Global Note or the registered holder of the relevant Global Certificate shall be treated by the Issuer, the Guarantor and each Agent as the holder of such principal amount of such Notes in accordance with and subject to the terms of the relevant Global Note or Global Certificate, as the case may be, and the expressions **Noteholder** and **holder of Notes** and related expressions shall be construed accordingly. Notes which are represented by a Global Note or a Global Certificate will be transferable only in accordance with the rules and procedures for the time being of Euroclear and Clearstream, Luxembourg, as the case may be. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular principal amount of Notes represented by such Global Note or Global Certificate, as the case must be, must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment made by the Issuer or the Guarantor to the holder of such Global Note or Global Certificate, as the case may be, and the obligations of the Issuer in respect thereof will be discharged by payment to the holder of such Global Note or Global Certificate, as the case may be, in respect of each amount so paid.

Exchanges

1. Exchange of Global Notes

Each temporary Global Note will be exchangeable in whole or in part (free of charge) for, as indicated in the applicable Final Terms, either interests in a permanent Global Note or, definitive Bearer Notes (with, if applicable, Receipts, Coupons and/or Talons attached) on or after the Exchange Date upon certification as to non-U.S. beneficial ownership in the form required by it.

A permanent Global Note may be exchanged in whole but not in part (free of charge) for definitive Bearer Notes (with, if applicable, Receipts, Coupons and/or Talons attached) upon not less than 60 days' written notice being given to the Fiscal Agent by either (i) the Issuer at any time or (ii) Euroclear and/or Clearstream, Luxembourg acting on the instructions of any holder of an interest in the permanent Global Note.

Any exchange of a Global Note for definitive Bearer Notes will be made upon presentation of the Global Note at the specified office of the Fiscal Agent by the bearer of the Global Note on any day (other than a Saturday or Sunday) on which banks are open for general business in London.

2. Exchange of Global Registered Note Certificates

A Global Registered Note Certificate may be exchanged in whole but not in part (free of charge) for definitive Registered Note Certificates only upon the occurrence of an Exchange Event.

An **Exchange Event** means:

- (a) if the Global Registered Note Certificate is registered in the name of a nominee for Euroclear and/or Clearstream, Luxembourg, the Issuer has been notified that Euroclear and/or Clearstream, Luxembourg, as the case may be, has/have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system is available; or
- (b) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Global Registered Note Certificate in definitive form.

The Issuer will promptly give notice to Noteholders upon the occurrence of an Exchange Event. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg, as the case may be, acting on the instructions of any holder of an interest in the Global Registered Note Certificate may give notice to the Registrar requesting exchange and, in the event of the occurrence of an Exchange Event as described in (2) above, the Issuer may also give notice to the Registrar requesting exchange. Any exchange shall occur no later than 10 days after the date of receipt of the relevant notice by the Registrar.

Any exchanges of a Global Registered Note Certificate will be made upon presentation of the Global Registered Note Certificate at the specified office of the Registrar by the holder of it on any day (other than a Saturday or Sunday) on which banks are open for general business in the specified office of the Registrar.

Payments and deliveries in respect of a temporary Global Note

In relation to a temporary Global Note, prior to the Exchange Date in respect thereof, all payments (if any) on the temporary Global Note will only be made to the bearer thereof and delivery of any assets will only be made in accordance with the Conditions to the extent that there is presented to the Fiscal Agent by Clearstream, Luxembourg or Euroclear a certificate to the effect that it has received from or in respect of a person entitled to a particular principal amount of the Notes (as shown by its records) a certificate of non-US beneficial ownership in the form required by it. The bearer of a temporary Global Note will not be entitled to receive any payment of interest due on or after the Exchange Date unless upon due certification exchange of the temporary Global Note is improperly withheld or refused.

Deed of Covenant

Where any Note is represented by a Global Note or a Global Certificate and the Global Note or the Global Certificate (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Notes or the Maturity Date has occurred and, in either case redemption has not occurred in accordance with the provisions of the Global Note or the Global Certificate, then the Global Note or Global Certificate will become void and the holders of interests in such Global Note or such Global Certificate credited to their accounts with Euroclear and/or Clearstream, Luxembourg, as the case may be, will become entitled to proceed directly against the Issuer on the basis of statements of account provided by Euroclear and Clearstream, Luxembourg on and subject to the terms of the Deed of Covenant executed by the Issuer.

Clearing Systems

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearance system specified in the applicable Final Terms.

The Certificateholders (as defined in Condition 1(b)) are entitled to the benefit of and are deemed to have notice of and are bound by all the provisions of the Certificate Agency Agreement (insofar as they relate to the Certificates) and the applicable Final Terms, which are binding on them.

(iii) Settlement Disruption

If, following the exercise of Physical Delivery Certificates, in the opinion of the Calculation Agent, delivery of the relevant Entitlement using the method of delivery specified in the applicable Final Terms is not practicable by reason of a Settlement Disruption Event (as defined below) subsisting on any Settlement Date, then such Settlement Date for such Certificates shall be postponed to the first following Settlement Business Day in respect of which no Settlement Disruption Event is subsisting, PROVIDED THAT the Issuer may elect to satisfy its obligations in respect of the relevant Certificate by delivering the relevant Entitlement using such other commercially reasonable manner

as it may select, and in such event, the relevant Settlement Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the relevant Settlement Date for the Relevant Assets not affected by the Settlement Disruption Event will be that originally designated Settlement Date. In the event that a Settlement Disruption Event will result in the delivery on the relevant Settlement Date of some but not all of the Relevant Assets comprising the Entitlement, the Calculation Agent shall, if applicable, determine the appropriate *pro rata* portion of the Exercise Price to be paid by the relevant Certificateholder in respect of that partial settlement.

For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then *in lieu* of physical settlement and notwithstanding any other provision hereof, the Issuer may elect to satisfy its obligations in respect of the relevant Certificate by payment to the relevant Certificateholder of the Disruption Cash Settlement Price (as defined below) not later than the fifth Business Day following the date that notice of such election is given to the Certificateholders in accordance with Condition 10. Payment of the Disruption Cash Settlement Price will be made in such manner and on such conditions as shall be notified to the Certificateholders in accordance with Condition 10. The Calculation Agent shall give notice as soon as practicable to the Certificateholders in accordance with Condition 10 that a Settlement Disruption Event has occurred.

If the Entitlement is delivered later than the date on which delivery would otherwise have taken place as provided above, until delivery of the Entitlement is made to the Certificateholder, the Issuer or any person on behalf thereof shall continue to be the legal owner of the assets comprising the Entitlement. None of the Issuer, any Affiliate of the Issuer and any other person shall (i) be under any obligation to deliver or procure delivery to such Certificateholder or any subsequent transferee any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in its capacity as the holder of such assets, (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such assets until the date of delivery or (iii) be under any liability to such Certificateholder or any subsequent transferee in respect of any loss or damage which such Certificateholder or subsequent transferee may sustain or suffer as a result, whether directly or indirectly, of that person being the legal owner of such assets until the date of delivery.

No Certificateholder shall be entitled to any payment in respect of the relevant Certificate, in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

For the purposes hereof:

Disruption Cash Settlement Price in respect of any relevant Certificate, shall be the fair market value of such Certificate on a day selected by the Issuer (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non-affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets), less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, but taking into account if already paid and if applicable, the Exercise Price (or where, as provided above, some Relevant Assets have been delivered, and a *pro rata* portion thereof has been paid, such *pro rata* portion), all as determined by the Issuer;

Settlement Business Day in respect of any relevant Certificate, has the meaning specified in the applicable Final Terms relating to such Certificate; and

Settlement Disruption Event means, in the opinion of the Calculation Agent, an event beyond the control of the Issuer as a result of which the Issuer cannot make delivery of the Relevant Asset(s) using the method specified in the applicable Final Terms.

- (iv) Any Exercise Expenses in respect of Physical Delivery Certificates shall be borne by the relevant Certificateholder and shall either be:
- (A) paid to the Issuer by such Certificateholder prior to the delivery of the Entitlement (and, for the avoidance of doubt, the Issuer shall not be required to deliver any Entitlement to such Certificateholder until it has received such payment); or
 - (B) be deducted by the Issuer from any cash amount owing to such Certificateholder and paid by the Issuer on behalf of the Certificateholder or paid by the Issuer on behalf of such Certificateholder by converting such amount of the Entitlement as necessary to pay the Exercise Expenses,

as specified by the Certificateholder in the relevant Exercise Notice.

If any Exercise Expenses are not paid by a Certificateholder pursuant to the above, the relevant Certificateholder shall be deemed to authorise the Issuer to convert and the Issuer may convert such amount of the Entitlement into cash sufficient to cover the Exercise Expenses in respect of the relevant Certificate from which the Issuer shall deduct such Exercise Expenses. The Issuer's obligation in respect of each Certificate will be satisfied in relation to the Settlement Date by delivery of the remaining Entitlement in respect of such Certificate.

- (d) *Failure to Deliver due to Illiquidity*

If "Failure to Deliver due to Illiquidity" is specified as applying in the applicable Final Terms and, following the exercise of the relevant Certificates, it is impossible or impracticable, in the opinion of the Calculation Agent, to deliver, when due, some or all of the Relevant Assets (the **Affected Relevant Assets**) comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a **Failure to Deliver**), then:

- (A) subject as provided elsewhere in these Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated Settlement Date in accordance with Condition 4(b)(ii) and, if applicable, the Calculation Agent shall determine the appropriate *pro rata* portion of the Exercise Price to be paid by the relevant Certificateholder in respect of that partial settlement; and
- (B) in respect of any Affected Relevant Assets, *in lieu* of physical settlement and notwithstanding any other provision hereof, the Issuer may elect to satisfy its obligations in respect of the relevant Certificate by payment to the relevant Certificateholder of the Failure to Deliver Settlement Price (as defined below) on the fifth Business Day following the date that notice of such election is given to the Certificateholders in accordance with Condition 10. Payment of the Failure to Deliver Settlement Price will be made in such manner and on such conditions as shall be notified to the Certificateholders in accordance with Condition 10. The Calculation Agent shall give notice as soon as practicable to the Certificateholders in accordance with Condition 10 that the provisions of this Condition apply. If the Issuer does not so elect, the provisions of Condition 4(c)(iii) shall apply.

For the purposes hereof:

Failure to Deliver Settlement Price in respect of any relevant Certificate, shall be the fair market value of the Affected Relevant Assets on a day selected by the Issuer, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements but taking into account if already paid and if applicable, the Exercise Price(s) in respect of the Affected Relevant Assets, all as determined by the Issuer.

(e) *Variation of Settlement*

If the applicable Final Terms specify that the Issuer has an option to vary settlement in respect of the Certificates, following any valid exercise of Certificates in accordance with these Conditions, the Issuer may, in respect of each such Certificate, elect not to pay the relevant Certificateholders the Cash Settlement Amount or not to deliver or procure delivery of the Entitlement to the relevant Certificateholders, as the case may be, but, *in lieu* thereof, to deliver or procure delivery of the relevant Entitlement or make payment of the relevant Cash Settlement Amount on the relevant Settlement Date to the relevant Certificateholders, as the case may be. Notification of any such election will be given to Certificateholders in accordance with Condition 10.

(f) *General*

The expressions **exercise**, **due exercise** and related expressions shall be construed to apply to any Certificates which are automatically exercised in accordance with the above provisions.

None of the Issuer, the Calculation Agent and the Certificate Agents shall have any responsibility for any errors or omissions in the calculation of any Cash Settlement Amount or of any Entitlement.

The purchase of Certificates does not confer on any Certificateholder any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

All references in this Condition to **Luxembourg time** or **Brussels time** shall, where Certificates are cleared through an additional or alternative clearing system, be deemed to refer as appropriate to the time in the city where the relevant clearing system is located.

Subject thereto, Clearstream, Luxembourg or Euroclear, as the case may be, will confirm to the Principal Certificate Agent the Series number and the number of Certificates being exercised and the account details, if applicable, for the payment of the Cash Settlement Amount or, as the case may be, the details for the delivery of the Entitlement in respect of each Certificate, being exercised. Upon receipt of such confirmation, the Principal Certificate Agent will inform the Issuer thereof. The Issuer shall use reasonable endeavours promptly to notify the Certificateholder submitting an Exercise Notice if it has been determined as provided above that such Exercise Notice is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Guarantor, the Certificate Agents, Clearstream, Luxembourg and Euroclear shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Certificateholder.

(d) *Delivery of an Exercise Notice*

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Certificateholder to exercise the Certificates specified. After the delivery of such Exercise Notice, such exercising Certificateholder may not transfer such Certificates.

(e) *Settlement*

In order to receive the relevant Entitlement, if the Certificates are Physical Delivery Certificates, in respect of a Certificate, the relevant Certificateholder must deliver or send by tested telex (confirmed in writing) a duly completed Exercise Notice to Clearstream, Luxembourg or Euroclear, as the case may be, with a copy to the Principal Certificate Agent on any Business Day until not later than 10.00 a.m., Brussels or Luxembourg time (as appropriate), on the day (the **Cut-off Date**) falling 180 days after (i) the Expiration Date, in the case of American Style Certificates, or (ii) the Actual Exercise Date, in the case of European Style Certificates. The Business Day during the period from the Expiration Date or the Actual Exercise Date, as the case may be, until the Cut-off Date on which an Exercise Notice is delivered to Euroclear or Clearstream, Luxembourg, as the case may be, and a copy thereof delivered to the Principal Certificate Agent is referred to in this Condition as the **Exercise Notice Delivery Date**, PROVIDED THAT, if the Exercise Notice is received by Clearstream, Luxembourg or Euroclear, as the case may be, or if the copy thereof is received by the Principal Certificate Agent, in each case, after 10:00 a.m., Luxembourg or Brussels time (as appropriate), on any Business Day or on a day which is not a Business Day, such Exercise Notice shall be deemed to have been delivered on the next Business Day, which Business Day shall be deemed to be the Exercise Notice Delivery Date.

Subject to the relevant Certificateholder performing its obligations in respect of the relevant Certificate in accordance with these Conditions, the relevant Settlement Date for such Certificates shall be, subject to Condition 4(c)(iii), the fifth Settlement Business Day following the Exercise Notice Delivery Date. In the event that a Certificateholder does not so deliver an Exercise Notice in accordance with this Condition prior to 10.00 a.m., Luxembourg or Brussels time (as appropriate), on the Cut-off Date, the Issuer's obligations in respect of such Certificates shall be discharged and no further liability in respect thereof shall attach to the Issuer.

- (i) The number of Certificates exercisable by any Certificateholder on any Actual Exercise Date, or, the number of Certificates held by any Certificateholder on any Actual Exercise Date, in each case as determined by the Issuer, must not be less than the Minimum Exercise Number specified in the applicable Final Terms and, if specified in the applicable Final Terms, if a number greater than the Minimum Exercise Number, must be an integral multiple of the number specified in the applicable Final Terms. Any Exercise Notice which purports to exercise Certificates in breach of this Condition shall, unless the Issuer otherwise decides be void and of no effect.
- (ii) If the Issuer determines that the number of Certificates being exercised on any Actual Exercise Date by any Certificateholder or a group of Certificateholders (whether or not acting in concert) exceeds the Maximum Exercise Number (if any) specified in the applicable Final Terms (a number equal to the Maximum Exercise Number being the **Quota**), the Issuer may deem the Actual Exercise Date for the first Quota of such Certificates, selected by the Issuer, to be such day and the Actual Exercise Date for each additional Quota of such Certificates (and any remaining number thereof) to be each of the succeeding Business Days until all such Certificates have been attributed with an Actual Exercise Date, provided, however, that the deemed Actual Exercise Date for any such Certificates which would thereby fall after the Expiration Date shall fall on the Expiration Date. In any case where more than the Quota of Certificates are exercised on the same day by Certificateholder(s), the order of settlement in respect of such Certificates shall be at the discretion of the Issuer.

(b) European Style Certificates

Any Exercise Notice which purports to exercise Certificates in breach of this provision shall, unless the Issuer otherwise decides, be void and of no effect.

7. Illegality in relation to the Certificates

If the Issuer determines that the performance of its obligations under the Certificates or the Guarantor determines that the performance of its obligations under the Deed of Guarantee in respect of the Certificates or that any arrangements made to hedge the Issuer's and/or the Guarantor's obligations under the Certificates and/or the Deed of Guarantee, as the case may be, has or will become unlawful, illegal or otherwise prohibited in whole or in part for any reason, the Issuer may cancel the Certificates by giving notice to Certificateholders in accordance with Condition 10.

Should any one or more of the provisions contained in these Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

If the Issuer cancels the Certificates, then the Issuer will, if and to the extent permitted by applicable law, pay to each Certificateholder in respect of each Certificate, held by such holder, an amount

equal to the fair market value of a Certificate, notwithstanding such illegality, on a day selected by the Issuer, less (except in the case of Certificates listed on the Italian Stock Exchange) the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent. Payment will be made in such manner and on such conditions as shall be notified to the Certificateholders in accordance with Condition 10 and upon such payment in respect of such Certificate, the Issuer's obligations in respect thereof shall be discharged.

Notice of any termination of appointment and of any changes in the specified office of any Certificate Agent will be given to Certificateholders in accordance with Condition 10. In acting under the Certificate Agency Agreement, each Certificate Agent acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Certificateholders and any determinations and calculations made in respect of the Certificates by any Certificate Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer and the Certificateholders.

(b) *Calculation Agent*

In relation to each issue of Certificates, the Calculation Agent (whether it be the Issuer or another entity) acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Certificateholders. All discretions exercised and calculations and determinations made in respect of the Certificates by the Calculation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer and the Certificateholders. decided upon by the Issuer, the Calculation Agent or such other person, as the case may be, in good faith and in its sole and absolute discretion.

In relation to Certificates listed on the Italian Stock Exchange, any adjustments to the terms of these Conditions and/or the applicable Final Terms made by the Calculation Agent pursuant to the Conditions to account for any extraordinary or other event in respect of the asset(s) to which such Certificate relate shall be based on generally accepted methods and shall neutralise the distortionary effects of the relevant adjustment or other event as far as possible. The Calculation Agent shall notify Borsa Italiana S.p.A. of any such adjustment to these Conditions and/or the applicable Final Terms for dissemination to the market appropriately in advance of the date on which the adjustment(s) will take effect.

(d) *Modifications*

The Issuer may modify these Conditions and/or the Certificate Agency Agreement without the consent of the Certificateholders in any manner which the Issuer may deem necessary or desirable PROVIDED THAT either:

- (i) such modification is not materially prejudicial to the interests of the Certificateholders (without considering the individual circumstances of any holders of Certificates or the tax or other consequences of such adjustment in any particular jurisdiction); or
- (ii) such modification is of a formal, minor or technical nature or to correct a manifest or proven error or to cure, correct or supplement any defective provision contained herein and/or therein; or
- (iii) in respect of Certificates which the Issuer determines (whether before or after issue) to list on a stock exchange, market or quotation system, such modification is made to enable such Certificates to be listed on such stock exchange, market or quotation system.

The Deed of Guarantee may be amended without the consent of the Certificateholders to correct a manifest error.

Notice of any such modification will be given to the Certificateholders in accordance with Condition 10 but failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

(e) *Meetings*

These Conditions may be amended, modified, or varied in relation to any Series of Certificates by the terms of the Final Terms in relation to such Series.

12. Further Issues

The Issuer may from time to time, without the consent of Certificateholders, create and issue further Certificates which (i) are expressed to be consolidated and form a single Series with the outstanding Certificates and (ii) are identical in all respects with such Certificates (including as to listing) except for their respective issue dates and/or issue prices.

13. Substitution of the Issuer and/or the Guarantor

- (a) The Issuer, or any previous substituted company may, at any time, without the consent of the Certificateholders, substitute for itself as principal obligor under the Certificates any company which is, on the date of such substitution and in the opinion of the Issuer, of at least the equivalent standing and creditworthiness to the Issuer (the **Substitute**) subject to:

For the avoidance of doubt, for so long as any Certificates are listed on the Italian Stock Exchange and the rules of the Italian Stock Exchange prohibit the substitution of the Guarantor by a substitute, the Guarantor shall not be entitled to substitute for itself any Substitute pursuant to Condition 13(b) below in conjunction with any substitution of the Issuer pursuant to the above.

For so long as any Certificates are listed on the Italian Stock Exchange and the rules of the Italian Stock Exchange prohibit the substitution of the Guarantor by a substitute, the Guarantor shall not be entitled to substitute for itself any Substitute.

14. Adjustments for European Monetary Union

The Issuer may, without the consent of the Certificateholders, on giving notice to the Certificateholders in accordance with Condition 10:

- (i) elect that, with effect from the Adjustment Date specified in the notice, certain terms of the Certificates shall be redenominated in euro;

The election will have effect as follows:

- (A) where the Settlement Currency of the Certificates is the National Currency Unit of a country which is participating in the third stage of European Economic and Monetary Union, such Settlement Currency shall be deemed to be an amount of euro converted from the original Settlement Currency into euro at the Established Rate, subject to such provisions (if any) as to rounding as the Issuer may decide, after consultation with the Calculation Agent, and as may be specified in the notice, and after the Adjustment Date, all payments in respect of the Certificates will be made solely in euro as though references in the Certificates to the Settlement Currency were to euro;
 - (B) where the Exchange Rate and/or any other terms of these Conditions are expressed in or, in the case of the Exchange Rate, contemplate the exchange from or into, the currency (the **Original Currency**) of a country which is participating in the third stage of European Economic and Monetary Union, such Exchange Rate and/or any other terms of these Conditions shall be deemed to be expressed in or, in the case of the Exchange Rate, converted from or, as the case may be, into euro at the Established Rate; and
 - (C) such other changes shall be made to these Conditions as the Issuer may decide, after consultation with the Calculation Agent, to conform them to conventions then applicable to instruments expressed in euro; and/or
- (ii) require that the Calculation Agent make such adjustments to the Multiplier and/or the Settlement Price and/or the Exercise Price (if applicable) and/or any other terms of these Conditions and/or the applicable Final Terms as the Calculation Agent may determine to be appropriate to account for the effect of the third stage of European Economic and Monetary Union on the Multiplier and/or the Settlement Price and/or the Exercise Price (if applicable) and/or such other terms of these Conditions and/or the applicable Final Terms.

Notwithstanding the foregoing, none of the Issuer, the Calculation Agent and the Certificate Agents shall be liable to any Certificateholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the transfer of euro or any currency conversion or rounding effected in connection therewith;

In this Condition, the following expressions have the following meanings:

Adjustment Date means a date specified by the Issuer in the notice given to the Certificateholders pursuant to this Condition which falls on or after the date on which the country of the Original Currency first participates in the third stage of European Economic and Monetary Union pursuant to the Treaty;

Established Rate means the rate for the conversion of the Original Currency (including compliance with rules relating to rounding in accordance with applicable European Community regulations) into euro established by the Council of the European Union pursuant to Article 123 of the Treaty;

euro means the currency introduced at the start of the third stage of European Economic and Monetary Union pursuant to the Treaty;

National Currency Unit means the unit of the currency of a country, as such unit is defined on the day before the date on which the country of the Original Currency first participates in the third stage of European Economic and Monetary Union; and

Treaty means the treaty establishing the European Community, as amended.

15. Listing of Certificates

In respect of Certificates which are to be listed on a stock exchange, market or quotation system, the Issuer shall use all reasonable endeavours to have such Certificates approved for listing on the relevant stock exchange, market or quotation system and to maintain such listing so long as any of such Certificates are outstanding, PROVIDED THAT:

- (i) if it is impracticable or unduly burdensome (and it shall be deemed to be unduly burdensome if the Guarantor wishes to substitute for itself a Substitute as provided in Condition 13(b) and is prevented from doing so by the rules of the relevant stock exchange, market or quotation system), in the opinion of the Issuer acting in good faith, to maintain such listing, or
- (ii) if the maintenance of the listing of the Certificates has, in the opinion of the Issuer, become unduly onerous for any reason whatsoever, including, but not limited to, (i) the need for the Issuer to meet the requirements of (x) Directive 2003/71/EC of the European Parliament and of the Council on the prospectus to be published when securities are offered to the public or admitted to trading or (y) of Directive 2004/109/EC of the European Parliament and of the Council on the harmonisation of transparency requirements with regard to information about issuers whose securities are admitted to trading on a regulated market (which test, for the avoidance of doubt but without limitation, would be satisfied if the Issuer would be required to publish financial information according to accounting principles or standards that are materially different from United States generally accepted accounting principles) or (ii) the need for the Issuer to comply with any continuing obligation of the relevant stock exchange, market or quotation system,

then the Issuer may apply to the relevant stock exchange, market or quotation system to de-list such Certificates from such stock exchange, market or quotation system in accordance with the rules of the relevant stock exchange, market or quotation system PROVIDED THAT it shall use all

reasonable endeavours to obtain and maintain as soon as reasonably practicable after such de-listing an alternative admission to listing, trading and/or quotation of the relevant Certificates by an appropriate stock exchange, market or quotation system within or outside the European Union, as it may decide.

If, in the opinion of the Issuer, such admission to listing, trading and/or quotation on an appropriate stock exchange, market or quotation system is not available or if obtaining or maintaining such admission would be, in the opinion of the Issuer, impracticable or unduly burdensome, the Issuer shall not be required to obtain such admission and shall have no further obligation to obtain or maintain any listing, trading and/or quotation for the relevant Certificates.

Appropriate stock exchange means a stock exchange, market or quotation system on which, in the opinion of the Issuer, it is customary in the sphere of international finance to list securities such as the relevant Certificates.

16. Governing Law and Jurisdiction

(a) *Governing Law*

The Certificates and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law.

(b) *Jurisdiction*

The Courts of England are to have jurisdiction to settle any disputes which may arise out of or in connection with any Certificates (including a dispute relating to any non-contractual obligations arising out of or in connection with them) and accordingly any legal action or proceedings arising out of or in connection with any Certificates (including any legal action or proceedings relating to any non-contractual obligations arising out of or in connection with them) (**Proceedings**) may be brought in such courts. The Issuer irrevocably submits to the jurisdiction of the courts of England and waives any objection to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. These submissions are made for the benefit of each Certificateholder and shall not affect the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

(c) *Service of Process*

The Issuer irrevocably appoints Citigroup Global Markets Limited, Citigroup Centre, Canada Square, Canary Wharf, London E14 5CB to receive, for it and on its behalf, service of process in any Proceedings in England. Such service shall be deemed completed on delivery to such process agent (whether or not, it is forwarded to and received by the Issuer). If for any reason such process agent ceases to be able to act as such or no longer has an address in London, the Issuer irrevocably agrees to appoint a substitute process agent and shall immediately notify the Certificateholders of such appointment in accordance with Condition 10. Nothing shall affect the right to serve process in any manner permitted by law.

17. Rights of Third Parties

The Certificates confer no right under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of the Certificates, but this does not affect any right or remedy of a third party which exists or is available apart from that Act.

ANNEX 1
ADDITIONAL TERMS AND CONDITIONS FOR INDEX LINKED CERTIFICATES

*The terms and conditions applicable to Certificates linked to an index/indices shall comprise the General Conditions and the additional terms and conditions set out below (the **Index Linked Conditions**), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Index Linked Conditions, the Index Linked Conditions set out below shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Index Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

1. Market Disruption

Market Disruption Event means:

- (a) in respect of a Composite Index and a Component Security included in such Index:
 - (i) the occurrence or existence, in respect of any Component Security, of:
 - (A) a Trading Disruption in respect of such Component Security at any time during the one hour period that (x) for the purposes of the occurrence of a Mandatory Early Repayment Event, ends at the relevant Mandatory Early Repayment Valuation Time or, if the Mandatory Early Repayment Valuation Time is specified to be "at any time" in the applicable Final Terms, the time at which the level of the Index is being determined (the **Determination Time**), or (y) in all other circumstances, ends at the relevant Valuation Time in respect of the Exchange in respect of such Component Security;
 - (B) an Exchange Disruption in respect of such Component Security at any time during the one hour period that (x) for the purposes of the occurrence of a Mandatory Early Repayment Event, ends at the relevant Mandatory Early Repayment Valuation Time or, if the Mandatory Early Repayment Valuation Time is specified to be "at any time" in the applicable Final Terms, the Determination Time or (y) in all other circumstances, ends at the relevant Valuation Time in respect of the Exchange in respect of such Component Security; or
 - (C) an Early Closure in respect of such Component Security,
- which, in any such case, the Calculation Agent determines is material; and
- either:
- (1) the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists expressed as a percentage of the level of the Index comprises 20 per cent. or more of the level of such Index; or
 - (2) where the applicable Final Terms specify that the X Percentage applies, the sum of (I) the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists, expressed as a percentage of the level of the Index, and (II) the X Percentage, comprises 20 per cent. or more of the level of the Index: or

- (ii) the occurrence or existence, in respect of futures or options contracts relating to such Index, of: (a) a Trading Disruption; (b) an Exchange Disruption, at any time during the one hour period that (x) for the purposes of the occurrence of a Mandatory Early Repayment Event, ends at the relevant Mandatory Early Repayment Valuation Time or, if the Mandatory Early Repayment Valuation Time is specified to be "at any time" in the applicable Final Terms, the Determination Time, or (y) in all other circumstances, ends at the Valuation Time in respect of any Related Exchange; or (c) an Early Closure, in each case, in respect of such futures or options contracts and which the Calculation Agent determines is material

For the purposes of determining whether a Market Disruption Event exists in respect of a Component Security at any time, if an event giving rise to a Market Disruption Event occurs in respect of such Component Security at that time, then the relevant percentage contribution of that Component Security to the level of such Index shall be based on a comparison of (x) the portion of the level of that Index attributable to that Component Security to (y) the overall level of that Index, in each case, using the official opening weightings as published by the relevant Index Sponsor as part of the market "opening data"; and

- (b) in the case of an Index other than a Composite Index, the occurrence or existence of (i) a Trading Disruption, (ii) an Exchange Disruption, at any time during the one hour period that (x) for the purposes of the occurrence of a Mandatory Early Repayment Event, ends at the relevant Mandatory Early Repayment Valuation Time or, if the Mandatory Early Repayment Valuation Time is specified to be "at any time" in the applicable Final Terms, the Determination Time, or (y) in all other circumstances ends at the relevant Valuation Time, or (iii) an Early Closure which, in each case, the Calculation Agent determines is material.

For the purposes of determining whether a Market Disruption Event exists in relation to such Index at any time, if an event giving rise to a Market Disruption Event occurs in respect of a security included in such Index at that time, then the relevant percentage contribution of that security to the level of such Index shall be based on a comparison of (x) the portion of the level of that Index attributable to that security and (y) the overall level of that Index, in each case, immediately before the occurrence of such Market Disruption Event.

If the Calculation Agent determines that it is not material that any day in respect of which the Calculation Agent is required to determine the level of an Index (a **Relevant Day**) is:

- (i) not a Scheduled Trading Day in respect of an Index because one or more Related Exchanges relating to such Index is/are not scheduled to be open; or
- (ii) a Disrupted Day for an Index solely because any Related Exchange relating to such Index fails to open,

the Calculation Agent shall have the discretion to determine such day to be the Relevant Day (notwithstanding the fact that such day is not a Scheduled Trading Day in respect of an Index because one or more Related Exchanges is/are not scheduled to be open or is a Disrupted Day solely because any Related Exchange fails to open).

In determining what is "material", the Calculation Agent shall have regard to such circumstances as it deems appropriate, which may include (but are not limited to) the Issuer's hedging arrangements in respect of the Certificates.

The Issuer shall give notice as soon as practicable to the Certificateholders in accordance with Condition 10 of the General Conditions of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day would have been a Relevant Day.

2. Adjustments to an Index

(a) Successor Index Sponsor Calculates and Reports an Index

If a relevant Index is (i) not calculated and announced by or on behalf of the relevant Index Sponsor but is calculated and announced by or on behalf of a successor to the relevant Index Sponsor (the **Successor Index Sponsor**) acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the **Successor Index**) will be deemed to be the relevant Index.

(b) Modification and Cessation of Calculation of an Index

If (i) on or prior to any Relevant Day, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating an Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation, contracts or commodities and other routine events) (an **Index Modification**), or permanently cancels a relevant Index and no Successor Index exists (an **Index Cancellation**), or (ii) on any Relevant Day, the relevant Index Sponsor or any person or entity on its behalf fails to calculate and announce an Index (an **Index Disruption** and, together with an Index Modification and an Index Cancellation, each an **Index Adjustment Event**), then the Issuer may take the action described in (i) or (ii) below:

- (i) require the Calculation Agent to determine if such Index Adjustment Event has a material effect on the Certificates and, if so, to either (A) in relation to any Relevant Day, calculate the relevant level for such Index for such day using, *in lieu* of a published level for that Index, the level for that Index as at the relevant time on that Relevant Day, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities/commodities that comprised that Index immediately prior to that Index Adjustment Event or (B) substitute the relevant Index with a replacement index using, in the determination of the Calculation Agent, the same or a substantially similar method of calculation as used in the calculation of such Index (the **Substitute Index**) and the Calculation Agent shall determine the adjustments, if any, to be made to these Conditions and/or the applicable Final Terms to account for such substitution; or
- (ii) cancel the Certificates by giving notice to the Certificateholders in accordance with Condition 10 of the General Conditions. If the Certificates are so cancelled, the Issuer will pay to each Certificateholder in respect of each Certificate held by such holder an amount equal to the fair market value of a Certificate, on a day selected by the Issuer, taking into account the Index Adjustment Event, less (except in the case of Certificates listed on the Italian Stock Exchange) the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent. Payments will be made in such manner and subject to such conditions as shall be notified to the Certificateholders in accordance

with Condition 10 of the General Conditions and upon such payment in respect of such Certificate, the Issuer's obligations in respect thereof shall be discharged.

(c) Notice

The Calculation Agent shall, as soon as practicable, notify the Principal Certificate Agent of any determination made by it pursuant to Conditions 2(b) of the Index Linked Conditions above and the action proposed to be taken in relation thereto and the Principal Certificate Agent shall make available for inspection by Certificateholders copies of any such determinations.

3. Correction of Index levels

With the exception of any corrections published after the day which is two Business Days prior to the due date for any payment (a **Payment Date**) of any amounts payable under the Certificates (if any), if the level of the Index published on any Relevant Day and used or to be used by the Calculation Agent to determine any such amounts payable under the Certificates, is subsequently corrected and the correction published by the relevant Index Sponsor within 30 days of the original publication, the level to be used shall be the level of the Index as so corrected. Corrections published after the day which is two Business Days prior to the relevant Payment Date will be disregarded by the Calculation Agent for the purposes of determining any such amounts payable under the Certificates.

4. Additional Disruption Events

(a) If an Additional Disruption Event occurs, the Issuer may take the action described in (i) or (ii) below :

(i) require the Calculation Agent to determine the appropriate adjustment(s), if any, to be made to the terms of these Conditions and/or the applicable Final Terms as the Calculation Agent determines necessary or appropriate to account for the Additional Disruption Event and determine the effective date(s) of the adjustment(s); or

(ii) cancel the Certificates by giving notice to the Certificateholders in accordance with Condition 10 of the General Conditions. If the Certificates are so cancelled, the Issuer will pay to each Certificateholder in respect of each Certificate held by such holder an amount equal to the fair market value of such Certificate, on a day selected by the Issuer, taking into account the Additional Disruption Event, less (except in the case of Certificates listed on the Italian Stock Exchange) the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent. Payment will be made in such manner and subject to such conditions as shall be notified to the Certificateholders in accordance with Condition 10 of the General Conditions and upon such payment in respect of such Certificate, the Issuer's obligations in respect thereof shall be discharged.

(b) Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the holders in accordance with Condition 10 of the General Conditions stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

5. Mandatory Early Repayment Event

If "Mandatory Early Repayment Event" is specified as applicable in the applicable Final Terms, then unless previously exercised or cancelled, if on any Mandatory Early Repayment Valuation Date a

Mandatory Early Repayment Event occurs, then the Certificates will be automatically cancelled in whole, but not in part, on the Mandatory Early Repayment Date immediately following such Mandatory Early Repayment Valuation Date and the Issuer will pay to each Certificateholder in respect of each Certificate held by such holder an amount equal to the relevant Mandatory Early Repayment Amount. Payments will be made in such manner and subject to such conditions as shall be notified to the Certificateholders in accordance with Condition 10 of the General Conditions and upon such payment in respect of such Certificate, the Issuer's obligations in respect thereof shall be discharged.

Mandatory Early Repayment Amount means, in respect of a Certificate and a Mandatory Early Repayment Event, the amount specified for such Mandatory Early Repayment Event in the applicable Final Terms.

Mandatory Early Repayment Date means, in respect of a Mandatory Early Repayment Event, the date specified for such Mandatory Early Repayment Event in the applicable Final Terms.

Mandatory Early Repayment Event means (unless otherwise specified in the applicable Final Terms) (A) in case of a single Index, that the level of the Index determined by the Calculation Agent as of the Mandatory Early Repayment Valuation Time on any Mandatory Early Repayment Valuation Date is, and (B) in the case of a Basket of Indices, the amount for the Basket of Indices determined by the Calculation Agent equal to the sum of the value for each Index equal to the product of (i) the level of such Index as determined by the Calculation Agent as of the Mandatory Early Repayment Valuation Time on any Mandatory Early Repayment Valuation Date and (ii) the relevant Weighting is, as specified in the applicable Final Terms, (i) "greater than", (ii) "greater than or equal to", (iii) "less than" or (iv) "less than or equal to" the Mandatory Early Repayment Level.

Mandatory Early Repayment Level means (unless otherwise specified in the applicable Final Terms) (A) in respect of a single Index, the level specified for such Index and (B) in respect of a Basket of Indices, the level specified for the Basket of Indices, in the applicable Final Terms.

Mandatory Early Repayment Valuation Date means each date specified as such in the applicable Final Terms or, if any such date is not a Scheduled Trading Day for all the Indices, the immediately succeeding Scheduled Trading Day for all the Indices unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day for any of the Indices. If any such day is a Disrupted Day for any of the Indices, then either (i) the provisions specified in the applicable Final Terms shall apply or (ii) if so specified in the applicable Final Terms the provisions relating to "Omission", "Postponement" or "Modified Postponement", as the case may be, contained in the definition of "Averaging Date" shall apply *mutatis mutandis* as if (a) references in such provisions to "Averaging Date" were to "Mandatory Early Repayment Valuation Date", (b) references to "Settlement Price" in the definition of "Valuation Date" were references to the level of the relevant Index in respect of such Mandatory Early Repayment Valuation Date, (c) references to "Valuation Time" in the definitions of "Averaging Date" and "Valuation Date" were references to "Mandatory Early Repayment Valuation Time" and (d) references to "Settlement Date" in the definitions of "Averaging Date" and "Valuation Date" were references to "Mandatory Early Repayment Date".

Mandatory Early Repayment Valuation Time means, in respect of an Index, the time(s) on any Mandatory Early Repayment Valuation Date specified as such in the applicable Final Terms or, if not specified in the applicable Final Terms, the Valuation Time.

6. Adjustment and Disruption Definitions

Additional Disruption Event means any of Change in Law, Hedging Disruption, Increased Cost of Hedging, Increased Cost of Stock Borrow and/or Loss of Stock Borrow, in each case, if specified in the applicable Final Terms.

Change in Law means that, on or after the Trade Date (as specified in the applicable Final Terms) (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines that (X) it has become illegal to hold, acquire or dispose of any relevant Hedging Positions or (Y) the Issuer will incur a materially increased cost in performing its obligations in relation to the Certificates (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer and/or any of its Affiliates).

Hedging Disruption means that the Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Certificates, or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

Hedging Positions means any one or more of (i) positions or contracts in securities, options, futures, derivatives or foreign exchange, (ii) stock loan transactions or (iii) other instruments or arrangements (howsoever described) entered into by the Issuer and/or any of its Affiliates in order to hedge, individually or on a portfolio basis, the Certificates.

Hedging Shares means the number of securities/commodities comprised in an Index that the Issuer deems necessary to hedge the equity or other price risk of entering into and performing its obligations with respect to the Certificates.

Increased Cost of Hedging means that the Issuer and/or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Certificates, or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s), PROVIDED THAT any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates shall not be deemed an Increased Cost of Hedging.

Increased Cost of Stock Borrow means that the Issuer and/or any of its Affiliates would incur a rate to borrow any security/commodity comprised in an Index that is greater than the Initial Stock Loan Rate.

Initial Stock Loan Rate means, in respect of a security/commodity comprised in an Index, the initial stock loan rate specified in relation to such security/commodity in the applicable Final Terms or, if no such rate is so specified, the rate which the Issuer and/or any of its Affiliates would have incurred to borrow such security/commodity, as the case may be, as of the Trade Date, as determined by the Issuer.

Loss of Stock Borrow means that the Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to borrow (or maintain a borrowing of) any securities/commodities

comprised in an Index in an amount equal to the Hedging Shares at a rate equal to or less than the Maximum Stock Loan Rate.

Maximum Stock Loan Rate means, in respect of a security/commodity comprised in an Index, the Maximum Stock Loan Rate specified for such security/commodity in the applicable Final Terms or, if no such rate is so specified, the lowest rate at which the Issuer and/or any of its Affiliates, after using commercially reasonable efforts, would have incurred to borrow (and maintain a borrowing of) such security/commodity, as the case may be, in an amount equal to the Hedging Shares, as of the Trade Date, as determined by the Issuer.

7. General Definitions

Averaging Date means each date specified as an Averaging Date in the applicable Final Terms or, if any such day is not a Scheduled Trading Day for all the Indices, the immediately succeeding Scheduled Trading Day for all the Indices unless, in the opinion of the Calculation Agent any such day is a Disrupted Day for any of the Indices. If any such day is a Disrupted Day for any of the Indices, then:

- (a) if **Omission** is specified as applying in the applicable Final Terms, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant Settlement Price PROVIDED THAT if, through the operation of this provision no Averaging Date would occur, then the provisions of the definition of "Valuation Date" will apply for purposes of determining the relevant level on the final Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day; or
- (b) if **Postponement** is specified as applying in the applicable Final Terms, then the provisions of the definition of "Valuation Date" will apply for the purposes of determining the relevant level on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or
- (c) if **Modified Postponement** is specified as applying in the applicable Final Terms then:
 - (i) where the Certificates are Index Linked Certificates relating to a single Index, that Averaging Date shall be the earliest of:
 - (A) the first succeeding Valid Date (as defined below);
 - (B) the Scheduled Trading Day falling the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of a Disrupted Day would have been that Averaging Date (a **Scheduled Averaging Date**); and
 - (C) the second Business Day prior to the Settlement Date or, if such day is not a Scheduled Trading Day, the immediately preceding Scheduled Trading Day.

If the relevant Averaging Date falls within (B) or (C) above and the relevant Scheduled Trading Day is a Disrupted Day, then (X) that Scheduled Trading Day shall be deemed to be that Averaging Date (notwithstanding the fact that such day is a Disrupted Day and irrespective of whether that Scheduled Trading Day is already an Averaging Date), and (Y) the Calculation Agent shall determine the relevant level for that Averaging Date in accordance with sub-paragraph (b)(iii) of the definition of "Valuation Date" below.

- (ii) where the Certificates are Index Linked Certificates relating to a Basket of Indices,
- (A) where "Move in Block" is specified as applying in the applicable Final Terms, that Averaging Date for all the Indices shall be the earliest of:
- (1) the first succeeding Valid Date for all the Indices;
 - (2) the Scheduled Trading Day for all the Indices falling the Specified Maximum Days of Disruption immediately following that Scheduled Averaging Date; and
 - (3) the second Business Day prior to the Settlement Date or, if such day is not a Scheduled Trading Day for all the Indices, the immediately preceding Scheduled Trading Day for all the Indices.

If the relevant Averaging Date falls within (2) or (3) above, such Scheduled Trading Day shall be such Averaging Date (irrespective of whether that Scheduled Trading Day is already an Averaging Date) and if the relevant Scheduled Trading Day is a Disrupted Day for an Index (the **Affected Index**), (x) that Scheduled Trading Day shall be deemed to be that Averaging Date for that Affected Index (notwithstanding the fact that such day is a Disrupted Day) and (y) the Calculation Agent shall determine the relevant level for such Affected Index for that Averaging Date in accordance with sub-paragraph (b)(iii) of the definition of **Valuation Date** below;

- (B) where "Value What You Can" is specified as applying in the applicable Final Terms, that Averaging Date for each Index in respect of which no Disrupted Day has occurred shall be the Scheduled Averaging Date and that Averaging Date for each Index in respect of which a Disrupted Day has occurred (each an **Affected Index**) shall be the earliest of:
- (1) the first succeeding Valid Date for the Affected Index;
 - (2) the Scheduled Trading Day for the Affected Index falling the Specified Maximum Days of Disruption immediately following that Scheduled Averaging Date; and
 - (3) the second Business Day prior to the Settlement Date or, if such day is not a Scheduled Trading Day for the Affected Index, the immediately preceding Scheduled Trading Day for the Affected Index.

If the relevant Averaging Date for an Affected Index falls within (2) or (3) above and the relevant Scheduled Trading Day is a Disrupted Day for that Affected Index, (x) that Scheduled Trading Day shall be deemed to be that Averaging Date for the Affected Index (notwithstanding the fact that such day is a Disrupted Day for the Affected Index and irrespective of whether that Scheduled Trading Day is already an Averaging Date) and (y) the Calculation Agent shall determine the relevant level for that Averaging Date in accordance with sub-paragraph (b)(iii) of the definition of "Valuation Date" below.

For the purposes of these Index Linked Conditions **Valid Date** means, in respect of an Index, a Scheduled Trading Day for such Index that is not a Disrupted Day for such Index and on which another Averaging Date for such Index does not or is not deemed to occur.

Component Security means, in respect of a Composite Index, each component security of such Index.

Composite Index means any Index specified as such in the applicable Final Terms, or if not specified, any Index the Calculation Agent determines as such.

Disrupted Day means:

- (a) in relation to a Composite Index, any Scheduled Trading Day for such Index on which: (i) the relevant Index Sponsor fails to publish the level of such Index; (ii) any Related Exchange for such Index fails to open for trading during its regular trading session; or (iii) a Market Disruption Event in respect of such Index has occurred; and
- (b) in relation to an Index which is not a Composite Index, any Scheduled Trading Day for such Index on which a relevant Exchange or any Related Exchange for such Index fails to open for trading during its regular trading session or on which a Market Disruption Event in respect of such Index has occurred.

Early Closure means:

- (a) in relation to a Composite Index, the closure on any Exchange Business Day for such Index of the Exchange in respect of any Component Security or any Related Exchange for such Index prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of: (i) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day; and (ii) the submission deadline for orders to be entered into the relevant Exchange or Related Exchange system for execution at the relevant Determination Time, Mandatory Early Repayment Valuation Time or Valuation Time, as the case may be, on such Exchange Business Day; and
- (b) in relation to an Index which is not a Composite Index, the closure on any Exchange Business Day for such Index of any relevant Exchange(s) relating to securities/commodities that comprise 20 per cent. or more of the level of such Index or any Related Exchange(s) for such Index prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or Related Exchange(s) at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange(s) or Related Exchange(s) on such Exchange Business Day and (ii) the submission deadline for orders to be entered into the relevant Exchange or Related Exchange system for execution at the relevant Determination Time, Mandatory Early Repayment Valuation Time or Valuation Time, as the case may be, on such Exchange Business Day.

Exchange means:

- (b) in relation to an Index which is not a Composite Index, any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (A) to effect transactions in, or obtain market values for, on any relevant Exchange(s), securities/commodities that comprise 20 per cent. or more of the level of the relevant Index, or (B) to effect transactions in, or obtain market values for, futures or options contracts relating to the relevant Index on any relevant Related Exchange.

Observation Date means each date specified as an Observation Date in the applicable Final Terms, or if any such date is not a Scheduled Trading Day for all the Indices, the immediately following Scheduled Trading Day for all the Indices unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day for any of the Indices. If any such day is a Disrupted Day for any of the Indices, then either (i) the provisions specified in the applicable Final Terms shall apply or (ii) if so specified in the applicable Final Terms the provisions relating to "Omission", "Postponement" or "Modified Postponement", as the case may be, contained in the definition of "Averaging Date" shall apply mutatis mutandis as if (a) references in such provisions to "Averaging Date" were to "Observation Date" and (b) references to "Settlement Price" in the definition of "Valuation Date" were references to the level of the relevant Index in respect of the relevant Observation Date.

Observation Period means the period specified as the Observation Period in the applicable Final Terms.

Related Exchange means, in relation to an Index, each exchange or quotation system on which option contracts or futures contracts relating to such Index are traded, or each exchange or quotation system specified as such for such Index in the applicable Final Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to such Index has temporarily relocated (PROVIDED THAT the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Index on such temporary substitute exchange or quotation system as on the original Related Exchange), PROVIDED THAT where **All Exchanges** is specified as the Related Exchange for such Index in the applicable Final Terms, "Related Exchange" shall mean each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to such Index.

Scheduled Closing Time means, in respect of an Index and an Exchange or Related Exchange and a Scheduled Trading Day for such Index, the scheduled weekday closing time of such Exchange or Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.

Scheduled Trading Day means:

- (a) in relation to a Composite Index, any day on which (i) the relevant Index Sponsor is scheduled to publish the level of such Index; (ii) each Related Exchange for such Index is scheduled to be open for trading for its regular trading session and (iii) where the applicable Final Terms specify that the X Percentage applies in relation to such Index, no more than 20 per cent. of the Component Securities that comprise the level of such Index are scheduled to be unavailable for trading on the relevant Exchange(s) by virtue of such day not being a day upon which any such relevant Exchange is scheduled to be open for trading for its regular trading sessions (such unavailable percentage being the **X Percentage**).

For the purposes of determining the X Percentage, the relevant percentage contribution of each Component Security unavailable for trading shall be based on a comparison of (a) the portion of the level of that Index to that Component Security relative to (b) the overall level of that Index, in each case using the official opening weightings as published by the relevant Index Sponsor as part of the market "opening data"; and

- (b) in relation to an Index which is not a Composite Index, any day on which each Exchange and each Related Exchange for such Index are scheduled to be open for trading for their respective regular trading sessions.

- (a) in the case of Index Linked Certificates relating to a Basket of Indices, either (i) an amount (which, if an Index Currency is specified in the applicable Final Terms, shall be deemed to be a monetary amount in the Index Currency) equal to the sum of the values calculated for each Index as the official closing level for each Index, as determined by the Calculation Agent (or, if so specified in the applicable Final Terms, the level of each Index determined by the Calculation Agent as set out in the applicable Final Terms at the Valuation Time) on

(A) if Averaging is not specified as applying in the applicable Final Terms, the Valuation Date or (B) if Averaging is specified as applying in the applicable Final Terms, an Averaging Date, multiplied by the relevant Weighting (the **Basket Settlement Price**) or (ii) and in relation to an Index and the Valuation Date or an Averaging Date, as the case may be, an amount (which, if an Index Currency is specified in the applicable Final Terms, shall be deemed to be a monetary amount in the Index Currency) equal to the official closing level for such Index as determined by the Calculation Agent (or, if so specified in the applicable Final Terms, the level of such Index determined by the Calculation Agent as set out in the applicable Final Terms at the Valuation Time) on (A) if Averaging is not specified as applying in the applicable Final Terms, the Valuation Date or (B) if Averaging is specified as applying in the applicable Final Terms, such Averaging Date (the **Per Index Settlement Price**), as specified in the applicable Final Terms; and

- (b) in the case of Index Linked Certificates relating to a single Index, an amount (which, if an Index Currency is specified in the applicable Final Terms, shall be deemed to be a monetary amount in the Index Currency) equal to the official closing level of the Index, as determined by the Calculation Agent (or, if so specified in the applicable Final Terms, the level of the Index determined by the Calculation Agent as set out in the applicable Final Terms at the Valuation Time) on (A) if Averaging is not specified as applying in the applicable Final Terms, the Valuation Date or (B) if Averaging is specified as applying in the applicable Final Terms, an Averaging Date.

- (b) in the case of an Index which is not a Composite Index, any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise either (a) relating to securities/commodities that comprise 20 per cent. or more of the level of such Index on any relevant Exchange(s) or (b) in futures or options contracts relating to such Index on any relevant Related Exchange.

Valuation Date means the date, specified in the applicable Final Terms or, if such day is not a Scheduled Trading Day for all the Indices, the immediately succeeding Scheduled Trading Day for all the Indices unless, in the opinion of the Calculation Agent, such day is a Disrupted Day for any of the Indices.

If such day is a Disrupted Day for any of the Indices, then:

- (a) where the Certificates are Index Linked Certificates relating to a single Index, the Valuation Date shall be the earliest of:
- (i) the first succeeding Scheduled Trading Day that is not a Disrupted Day;

- (ii) the Scheduled Trading Day falling the Specified Maximum Days of Disruption immediately following the Scheduled Valuation Date; and
- (iii) the second Business Day prior to the Settlement Date or, if such day is not a Scheduled Trading Day, the immediately preceding Scheduled Trading Day.

If the Valuation Date falls within (ii) or (iii) above and the relevant Scheduled Trading Day is a Disrupted Day, (A) that Scheduled Trading Day shall be deemed to be the Valuation Date (notwithstanding the fact that such day is a Disrupted Day) and (B) the Calculation Agent shall determine the Settlement Price in the manner set out in the applicable Final Terms or, if not set out or if not practicable, determine the Settlement Price by determining the level of the Index as of the Valuation Time on that Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that Scheduled Trading Day of each security/commodity) comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security/commodity) on that Scheduled Trading Day, its good faith estimate of the value for the relevant security/commodity) as of the Valuation Time on that Scheduled Trading Day); or

- (b) where the Certificates are Index Linked Certificates relating to a Basket of Indices,
 - (i) where "Move in Block" is specified as applying in the applicable Final Terms, the Valuation Date for all the Indices shall be the earliest of:
 - (A) the first succeeding Scheduled Trading Day for all the Indices that is not a Disrupted Day for any of the Indices;
 - (B) the Scheduled Trading Day for all the Indices falling the Specified Maximum Days of Disruption immediately following the Scheduled Valuation Date; and
 - (C) the second Business Day prior to the Settlement Date or, if such day is not a Scheduled Trading Day for all the Indices, the immediately preceding Scheduled Trading Day for all the Indices.

If the Valuation Date falls within (B) or (C) above, such Scheduled Trading Day shall be the Valuation Date and if the relevant Scheduled Trading Day is a Disrupted Day for an Index (the **Affected Index**), (x) that Scheduled Trading Day shall be deemed the Valuation Date for that Affected Index (notwithstanding the fact that such day is a Disrupted Day) and (y) the Calculation Agent shall determine the level of the Affected Index as set out in sub-paragraph (iii) below.

- (ii) where "Value What You Can" is specified as applying in the applicable Final Terms, the Valuation Date for each Index in respect of which no Disrupted Day has occurred shall be the Scheduled Valuation Date and the Valuation Date for each Index in respect of which a Disrupted Day has occurred (each an **Affected Index**) shall be the earliest of:
 - (A) the first succeeding Scheduled Trading Day for the Affected Index that is not a Disrupted Day for the Affected Index;

- (B) the Scheduled Trading Day for the Affected Index falling the Specified Maximum Days of Disruption immediately following the Scheduled Valuation Date; and
- (C) the second Business Day prior to the Settlement Date or, if such day is not a Scheduled Trading Day for the Affected Index, the immediately preceding Scheduled Trading Day for the Affected Index.

If the Valuation Date for an Affected Index falls within (B) or (C) above and the relevant Scheduled Trading Day is a Disrupted Day for the Affected Index, (i) that Scheduled Trading Day shall be deemed to be the Valuation Date for the Affected Index (notwithstanding the fact that such day is a Disrupted Day for the Affected Index) and (ii) the Calculation Agent shall determine the level of the Affected Index as set out in sub-paragraph (iii) below.

- (iii) the Calculation Agent shall determine the relevant level for the purposes of sub-paragraphs (i) and (ii) above using, in relation to the Affected Index, the level of that Index determined in the manner set out in the applicable Final Terms or, if not set out or if not practicable, using the level of that Index as of the Valuation Time on that Scheduled Trading Day determined in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day relating to the Affected Index using the Exchange traded or quoted price as of the Valuation Time on that Scheduled Trading Day of each security/commodity comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security/commodity) on that Scheduled Trading Day, its good faith estimate of the value for the relevant security/commodity) as of the Valuation Time on that Scheduled Trading Day) and otherwise in accordance with the above provisions.

Valuation Time means the Relevant Time specified in the applicable Final Terms or, if no such time is so specified:

- (a) in relation to a Composite Index, (i) for the purposes of determining whether a Market Disruption Event in respect of such Index has occurred: (A) in respect of any Component Security, the Scheduled Closing Time on the Exchange in respect of such Component Security, and (B) in respect of any options contracts or future contracts on the Index, the close of trading on the relevant Related Exchange; and (ii) in all other circumstances, the time at which the official closing level of such Index is calculated and published by the relevant Index Sponsor; and
- (b) in relation to an Index which is not a Composite Index, the Scheduled Closing Time on the Exchange for such Index on the relevant Scheduled Trading Day. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.

Weighting means, in respect of the Certificates linked to a Basket of Indices and in respect of an Index, the weighting for such Index specified in the applicable Final Terms.

ANNEX 2
ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED CERTIFICATES

*The terms and conditions applicable to Inflation Linked Certificates shall comprise the General Conditions and the additional terms and conditions set out below (the **Inflation Linked Conditions**), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Inflation Linked Conditions set out below, the Inflation Linked Conditions set out below shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Inflation Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

1. Delay in Publication

(a) If the Calculation Agent determines, in respect of an Index and a Payment Date, that the level of such Index for a Reference Month (an **Underlying Level**) has not been published or announced by the Valuation Date for such Payment Date, the Calculation Agent shall determine the level of such Index for such Reference Month (the **Substitute Index Level**) in place of such Underlying Level by using the following methodology:

- (i) if applicable, the Calculation Agent will take the same action to determine the Substitute Index Level for the Affected Payment Date as that taken by the calculation agent pursuant to the terms and conditions of any relevant Related Bond; or
- (ii) if the Calculation Agent is not able to determine a Substitute Index Level under Condition 1(a)(i) of the Inflation Linked Conditions above, the Calculation Agent shall determine the Substitute Index Level by reference to the following formula:

$$\text{(Substitute Index Level = Base Level x (Latest Level/Reference Level)); or}$$

- (iii) otherwise in accordance with any formula or provisions specified in the applicable Final Terms.

where:

Base Level means, in respect of an Index, the level of such Index (excluding any "flash" estimates) published or announced by the relevant Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined.

Latest Level means, in respect of an Index, the latest level of such Index (excluding any "flash" estimates) published or announced by the relevant Index Sponsor prior to the month in respect of which the Substitute Index Level is being determined.

Reference Level means, in respect of an Index, the level of such Index (excluding any "flash" estimates) published or announced by the relevant Index Sponsor in respect of the month that is 12 calendar months prior to the month in respect of the Latest Level.

The Issuer shall promptly give notice to the Certificateholders in accordance with Condition 10 of the General Conditions of any Substitute Index Level.

(b) If an Underlying Level in respect of a Payment Date is published or announced at any time after the Valuation Date for such Payment Date, such Underlying Level will not be used in any calculations. The Substitute Index Level determined pursuant to Condition 1(a) of the Inflation Linked Conditions above will be the definitive level for that Reference Month.

2. Cessation of Publication

If the Calculation Agent determines that the level of an Index has not been published or announced for two consecutive months or such other period as is specified in the applicable Final Terms (the Terms (the **Period of Cessation of Publication**) and/or the relevant Index Sponsor announces that it will no longer continue to publish or announce such Index and/or the relevant Index Sponsor cancels the relevant Index then the Calculation Agent shall determine a successor index (a **Successor Index**) (in lieu of any previously applicable Index) for the purposes of the Certificates by using the following methodology:

- (i) if a successor index has been designated by the calculation agent pursuant to the terms and conditions of any relevant Related Bond, such successor index shall be designated the "Successor Index" for the purposes of all Payment Dates on and after the Affected Payment Date in relation to the Certificates, notwithstanding that any other Successor Index may previously have been determined pursuant to Conditions 2(ii) or 2(iii) of the Inflation Linked Conditions below;
- (ii) if a Successor Index is not determined pursuant to Condition 2(i) of the Inflation Linked Conditions above and a notice has been given or an announcement has been made by the relevant Index Sponsor specifying that such Index will be superseded by a replacement index specified by the relevant Index Sponsor and the Calculation Agent determines that such replacement Index is calculated and announced using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Index, such replacement index shall be the "Successor Index" for the purposes of the Certificates from the date that such Successor Index comes into effect;
- (iii) if a Successor Index is not determined pursuant to Condition 2(i) or 2(ii) of the Inflation Linked Conditions above prior to the Valuation Date in respect of each succeeding Affected Payment Date, the Calculation Agent will determine an appropriate alternative index for such Affected Payment Date and such index will be deemed to be the "Successor Index"; or
- (iv) if the Calculation Agent determines that there is no appropriate alternative index, there will be deemed to be no Successor Index (an **Inflation Index Cancellation**) and the Issuer shall cancel each Certificate on the date notified by the Issuer to Certificateholders in accordance with Condition 10 of the General Conditions at its fair market value, on a day selected by the Issuer, taking into account the Inflation Index Cancellation, less (except in the case of Certificates listed on the Italian Stock Exchange) the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent. Payments will be made in such manner and subject to such conditions as shall be notified to the Certificateholders in accordance with Condition 10 of the General Conditions and upon such payment in respect of such Certificate, the Issuer's obligations in respect thereof shall be discharged.

If a Successor Index is determined in accordance with the above, the Calculation Agent may make appropriate adjustment(s) to the terms of these Conditions and/or the applicable Final Terms as the Calculation Agent determines necessary, or appropriate to account for such replacement and determine the effective date(s) of the adjustment(s) to the Certificates.

Notice of the determination of a Successor Index and the date from which such index becomes the Successor Index and any relevant adjustment(s) to the terms of these Conditions and/or the applicable Final Terms or an Inflation Index Cancellation will be given to the Certificateholders by the Issuer in accordance with Condition 10 of the General Conditions.

3. **Revised Index Levels and Manifest Error in Publication**

- (a) In relation to an Index, either (i) the first publication and announcement of a level of such Index for a Reference Month shall be final and conclusive and later revisions to the level for such Reference Month will not be used in any calculations (**No Revision**) or (ii) the first publication or announcement of a level of such Index, or, if revised, any subsequent revisions of such level for a Reference Month shall be final and conclusive, PROVIDED THAT such revisions are published or announced up to and including the relevant Revision Cut-off Date (**Revision**), as specified in the applicable Final Terms PROVIDED THAT if neither "No Revision" nor "Revision" is so specified, "No Revision" shall be deemed to apply.
- (b) If, in respect of a Payment Date and an Underlying Level in respect of such Payment Date, the Calculation Agent determines that the relevant Index Sponsor has corrected such Underlying Level to correct a manifest error prior to the earlier of thirty days of publication of such Underlying Level and the Manifest Error Cut-off Date for such Payment Date the Calculation Agent may use such corrected Underlying Level to calculate any payments under the Certificates in respect of such Payment Date. Corrections published after the Manifest Error Cut-off Date in respect of such Payment Date will be disregarded by the Calculation Agent for the purposes of determining any payments under the Certificates.

4. **Rebasing**

If the Calculation Agent determines that an Index has been or will be rebased at any time, such Index as so rebased (the **Rebased Index**) will be used for purposes of determining any Underlying Level in respect of such Index from the date of such rebasing; provided, however, that the Calculation Agent shall make (A) such adjustments as are made by the calculation agent pursuant to the terms and conditions of any relevant Related Bond to the levels of such Rebased Index so that such Rebased Index levels reflect the same rate of inflation as the Index before it was rebased and/or (B) if there is no Related Bond, the Calculation Agent shall make such adjustments to the levels of such Rebased Index so that such Rebased Index levels reflect the same rate of inflation as the relevant Index before it was rebased and, in each case, the Issuer may make appropriate adjustment(s) to the terms of these Conditions and/or the applicable Final Terms as the Calculation Agent determines necessary or appropriate to account for such rebasing and determine the effective date(s) of the adjustment(s) to the Certificates. If the Calculation Agent determines that neither (A) nor (B) above would produce a commercially reasonable result, the Issuer may cancel each Certificate on a date notified by the Issuer to the Certificateholders in accordance with Condition 10 of the General Conditions. If the Certificates are so cancelled, the Issuer will pay to each Certificateholder in respect of each Certificate held by such holder an amount equal to the fair market value of a Certificate, on a day selected by the Issuer, taking into account the rebasing, less (except in the case of Certificates listed on the Italian Stock Exchange) the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent. Payments will be made in such manner and subject to such conditions as shall be notified to the Certificateholders in accordance with Condition 10 of the General Conditions and upon such payment in respect of such Certificate, the Issuer's obligations in respect thereof shall be discharged.

Notice of any adjustment, cancellation or determination pursuant to this Condition shall be given to Certificateholders in accordance with Condition 10 of the General Conditions.

5. **Material Modification Prior to Payment Date**

If, on or prior to the Valuation Date in respect of any Payment Date, an Index Sponsor announces that it will make a material change to an Index, the Calculation Agent shall (A) make appropriate adjustment(s) to the terms of these Conditions and/or the applicable Final Terms, consistent with any

adjustments made to any relevant Related Bond as the Calculation Agent determines necessary or appropriate to account for such change to such Index and determine the effective date(s) of the adjustment(s) to the Certificates, or (B) if there is no Related Bond, make only those adjustments to the terms of the Certificates as the Calculation Agent determines necessary for the modified Index to continue as the Index. If the Calculation Agent determines that neither (A) nor (B) above would produce a commercially reasonable result, the Issuer may cancel each Certificate on a date notified by the Issuer to the Certificateholders in accordance with Condition 10 of the General Conditions. If the Certificates are so cancelled, the Issuer will pay to each Certificateholder in respect of each Certificate held by such holder an amount equal to the fair market value of a Certificate, on a day selected by the Issuer, taking into account the change to the Index, less (except in the case of Certificates listed on the Italian Stock Exchange) the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent. Payments will be made in such manner and subject to such conditions as shall be notified to the Certificateholders in accordance with Condition 10 of the General Conditions and upon such payment in respect of such Certificate, the Issuer's obligations in respect thereof shall be discharged.

Notice of any adjustment, cancellation or determination pursuant to this Condition shall be given to Certificateholders in accordance with Condition 10 of the General Conditions.

6. Mandatory Early Repayment Event

If "Mandatory Early Repayment Event" is specified as applicable in the applicable Final Terms, then unless previously exercised or cancelled, if a Mandatory Early Repayment Event occurs, the Certificates will be automatically cancelled in whole, but not in part, on the relevant Mandatory Early Repayment Date and the Issuer will pay to each Certificateholder in respect of each Certificate held by such holder an amount equal to the relevant Mandatory Early Repayment Amount. Payment will be made in such manner and on such conditions as shall be notified to the Certificateholders in accordance with Condition 10 of the General Conditions and upon such payment in respect of such Certificate, the Issuer's obligations in respect thereof shall be discharged.

Mandatory Early Repayment Amount means, in respect of a Certificate and a Mandatory Early Repayment Event, the amount specified for such Mandatory Early Repayment Event in the applicable Final Terms.

7. Change in Law

Unless previously exercised or cancelled, if a Change in Law occurs, the Issuer may cancel each Certificate on a date notified by the Issuer to the Certificateholders in accordance with Condition 10 of the General Conditions. If the Certificates are so cancelled, the Issuer will pay to each Certificateholder in respect of each Certificate held by such holder an amount equal to the fair market value of a Certificate, on a day selected by the Issuer, taking into account the Change in Law, less (except in the case of Certificates listed on the Italian Stock Exchange) the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent. Payment will be made in such manner and subject to such conditions as shall be notified to the Certificateholders in accordance with Condition 10 of the General Conditions and, upon such payment in respect of such Certificate, the Issuer's obligations in respect thereof shall be discharged.

Change in Law means that, on or after the Trade Date (as specified in the applicable Final Terms) (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines (X) that it has become illegal to hold, acquire or dispose of any relevant Hedging Positions or (Y) the Issuer will incur a materially increased cost in performing its obligations in relation to the Certificates (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer and/or any of its Affiliates).

Hedging Positions means any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, options, futures, derivatives or foreign exchange, (ii) stock loan transactions or (iii) other instruments or arrangements (howsoever described) by a party in order to hedge, individually or on a portfolio basis, the Certificates.

8. Definitions

Affected Payment Date means each Payment Date in respect of which an Index has not been published or announced.

Fallback Bond means, in respect of an Index, a bond selected by the Calculation Agent. The Calculation Agent may determine such bond by reference to the following criteria: a bond which is and issued by the government of the country to whose level of inflation the relevant Index relates and which pays a coupon or redemption amount which is calculated by reference to such Index, with a maturity date which falls on (a) the same day as the End Date as specified in the applicable Final Terms, (b) the next longest maturity after the End Date if there is no such bond maturing on the End Date, or (c) the next shortest maturity before the End Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the relevant Index relates to the level of inflation across the European Monetary Union, the Calculation Agent may select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent may select the Fallback Bond from those inflation linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond may be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems, the Calculation Agent may select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

Related Bond means, in respect of an Index, the bond specified as such in the applicable Final Terms or, if no bond is so specified, the Fallback Bond. If the relevant Related Bond specified in the applicable Final Terms is "Fallback Bond", then, for any Related Bond determination, the Calculation Agent shall use the Fallback Bond. If "Related Bond: Not Applicable" is specified in the applicable Final Terms and "Fallback Bond: Not Applicable" is specified in the applicable Final Terms there will be no Related Bond. If a bond is selected as the Related Bond in the applicable Final Terms and that bond redeems or matures before the End Date, unless "Fallback Bond: Not Applicable" is specified in the applicable Final Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination.

1. Market Disruption

(a) Definition

Market Disruption Event means an event that, if applicable to the Certificates, would give rise, in accordance with an applicable Disruption Fallback, to an alternative basis for determining the Relevant Price in respect of a specified Commodity Reference Price or the cancellation of the Certificates were the event to occur or exist on a day that is a Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the relevant Price Source).

Each of "Price Source Disruption", "Trading Disruption", "Disappearance of Commodity Reference Price", "Material Change in Formula", "Material Change in Content" and "Tax Disruption" as specified in the applicable Final Terms or as deemed to be specified pursuant to Condition 1(b) of the Commodity Linked Conditions below shall be a Market Disruption Event.

(b) Deemed Market Disruption Events

If no Market Disruption Events are specified in the applicable Final Terms, the following Market Disruption Events will be deemed to have been specified:

(i) in respect of a Commodity other than a Commodity which is specified in the applicable Final Terms to be a Bullion Commodity: (A) "Price Source Disruption", (B) "Trading Disruption", (C) "Disappearance of Commodity Reference Price", (D) "Material Change in Formula" and (E) "Material Change in Content"; and

(ii) in respect of a Commodity which is specified in the applicable Final Terms to be a Bullion Commodity, (A) "Price Source Disruption", (B) "Trading Disruption" and (C) "Disappearance of Commodity Reference Price".

(c) If the Calculation Agent determines that a Market Disruption Event applicable to the Certificates has occurred or exists on a day that is a Pricing Date, the Relevant Price for that Pricing Date will be determined in accordance with the first applicable Disruption Fallback (applied in accordance with its terms) that provides the Relevant Price or, if there is no such Relevant Price, the first applicable Disruption Fallback that provides for the cancellation of the Certificates.

The Calculation Agent shall, as soon as practicable, notify the Issuer and the Principal Certificate Agent if it has determined that a Market Disruption Event has occurred and the Principal Certificate Agent shall make available for inspection by holders copies of any such determinations.

2. **Disruption Fallbacks**

(a) Definition

Disruption Fallback means the source or method that, if applicable to the Certificates, may give rise to an alternative basis for determining the Relevant Price in respect of a specified Commodity Reference Price or the cancellation of the Certificates when a Market Disruption Event occurs or exists on a day that is a Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the relevant Price Source).

Each of "Fallback Reference Dealers", "Fallback Reference Price", "Cancellation", "Postponement", "Calculation Agent Determination" and "Delayed Publication and Announcement" or such other events as specified in the applicable Final Terms or as deemed to be specified pursuant to Condition 2(b) of the Commodity Linked Conditions below shall be a Disruption Fallback.

(b) Deemed Disruption Fallbacks

If no Disruption Fallbacks are specified in the applicable Final Terms, the following Disruption Fallbacks will be deemed to have been specified (in the following order): (A) "Fallback Reference Price" (if an alternate Commodity Reference Price is specified in the applicable Final Terms), (B) "Delayed Publication or Announcement" and "Postponement" (each to operate concurrently with the other and each subject to two Commodity Business Days as the applicable Maximum Days of Disruption PROVIDED THAT the price determined by "Postponement" shall be the Relevant Price only if "Delayed Publication or Announcement" does not yield a Relevant Price within the Maximum Days of Disruption), (C) "Calculation Agent Determination" and (D) "Cancellation".

(c) Cancellation

If a Market Disruption Event occurs or exists on a day that would otherwise be a Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the relevant Price Source) and none of the applicable Disruption Fallbacks provides the parties with a Relevant Price, the Issuer will cancel the Certificates by giving notice to the Certificateholders in accordance with Condition 10 of the General Conditions. If the Certificates are so cancelled, the Issuer will pay to each Certificateholder in respect of each Certificate held by such holder an amount equal to the fair market value of a Certificate, on a day selected by the Issuer, taking into account the lack of the Relevant Price, less (except in the case of Certificates listed on the Italian Stock Exchange) the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent. Payment will be made in such manner and subject to such conditions as shall be notified to the Certificateholders in accordance with Condition 10 of the General Conditions and upon such payment in respect of such Certificate, the Issuer's obligations in respect thereof shall be discharged.

3. **Correction of Published Prices**

With the exception of any corrections published after the day which is two Business Days prior to the due date for any payment (a **Payment Due Date**) of any amounts payable under the Certificates (if any), if the price published or announced on a given day and used or to be used by the Calculation Agent to determine any such amounts payable under the Certificates is subsequently corrected and the correction is published or announced by the person responsible for that publication or announcement within 30 days of the original publication or announcement, the price to be used shall be such price as so corrected. Corrections published after the day which is two Business Days prior to the relevant Payment Due Date will be disregarded by the Calculation Agent for the purposes of determining any such amounts payable under the Certificates.

4. **Mandatory Early Repayment Event**

If "Mandatory Early Repayment Event" is specified as applicable in the applicable Final Terms, then unless previously exercised or cancelled, if a Mandatory Early Repayment Event occurs, the Certificates will be automatically cancelled in whole, but not in part, on the relevant Mandatory Early Repayment Date and the Issuer will pay to each Certificateholder in respect of each Certificate held by such holder an amount equal to the relevant Mandatory Early Repayment Amount. Payment will be made in such manner and on such conditions as shall be notified to the Certificateholders in accordance with Condition 10 of the General Conditions and upon such payment in respect of such Certificate, the Issuer's obligations in respect thereof shall be discharged.

Mandatory Early Repayment Amount means, in respect of a Certificate and a Mandatory Early Repayment Event, the amount specified for such Mandatory Early Repayment Event in the applicable Final Terms.

Commodity means the commodity (or commodities) specified in applicable Final Terms.

Commodity Business Day means:

- (a) in respect of a Commodity (other than a Commodity which is specified in the applicable Final Terms to be a Bullion Commodity):
 - (i) where the Commodity Reference Price for such Commodity is a price announced or published by an Exchange, any day that is (or, but for the occurrence of a Market Disruption Event, would have been) a day on which that Exchange is open for trading during its regular trading session, notwithstanding that Exchange closing prior to its scheduled closing time; and
 - (ii) where the Commodity Reference Price for such Commodity is not a price announced or published by an Exchange, a day in respect of which the relevant Price Source published (or, but for the occurrence of a Market Disruption Event, would have published) a price; and
- (b) in respect of a Commodity which is specified in the applicable Final Terms to be a Bullion Commodity, a day on which commercial banks are open for business (including dealings in foreign exchange and foreign currency deposits) in London and New York City or as otherwise specified in the applicable Final Terms.

Commodity Business Day Convention means the convention for adjusting any relevant date if it would otherwise fall on a day that is not a Commodity Business Day. The following terms, when used in conjunction with the term "Commodity Business Day Convention" and a date, will mean that an adjustment will be made if that date would otherwise fall on a day that is not a Commodity Business Day so that:

- (a) if "Following" is specified, that date will be the first following day that is a Commodity Business Day;
- (b) if "Modified Following" or "Modified" is specified, that date will be the first following day that is a Commodity Business Day, unless that day falls in the next calendar month, in which case, that date will be the first preceding day that is a Commodity Business Day;
- (c) if "Nearest" is specified, that date will be the first preceding day that is a Commodity Business Day if the relevant date otherwise falls on a day other than a Sunday or a Monday and will be the first following day that is a Commodity Business Day if the relevant date otherwise falls on a Sunday or a Monday; and

If four quotations are provided as requested, the price for that Pricing Date will be the arithmetic mean of the Specified Prices for such Commodity provided by each Reference Dealer, without regard to the Specified Prices having the highest and lowest values. If exactly three quotations are provided as requested, the price for that Pricing Date will be the Specified Price provided by the relevant Reference Dealer that remains after disregarding the Specified Prices having the highest and lowest values. For this purpose, if more than one quotation has the same highest or lowest value, then the Specified Price of one of such quotations shall be disregarded. If fewer than three quotations are provided, it will be deemed that the price for the Pricing Date cannot be determined.

Commodity Reference Price means, in respect of any Commodity and for the purposes of determining a Relevant Price, the relevant commodity reference price for such Commodity specified in the applicable Final Terms.

Common Pricing means, with respect to Certificates linked to two or more Commodities and Commodity Reference Prices:

- (i) if "Common Pricing" is specified as "Applicable" in the applicable Final Terms, then no date will be a Pricing Date unless such date is a day on which all referenced Commodity Reference Prices (for which such date would otherwise be a Pricing Date) are scheduled to be published or announced, as determined on the Trade Date of the Certificates as of the Issue Date;

- (ii) if "Common Pricing" is specified as "Not Applicable" in the applicable Final Terms, then if the Calculation Agent determines that a Market Disruption Event has occurred or exists on a Pricing Date in respect of any Commodity (each an **Affected Commodity**), the Relevant Price of each Commodity which is not affected by the occurrence of a Market Disruption Event shall be determined on the relevant scheduled Pricing Date and the Relevant Price for each Affected Commodity shall be determined in accordance with the first applicable Disruption Fallback that provides a Relevant Price.

Delayed Publication or Announcement means that the Relevant Price for a Pricing Date will be determined based on the Specified Price in respect of the original day scheduled as such Pricing Date that is published or announced by the relevant Price Source retrospectively on the first succeeding Commodity Business Day on which the Market Disruption Event ceases to exist, unless that Market Disruption Event continues to exist (measured from and including the original day that would otherwise have been the Pricing Date) or the Relevant Price continues to be unavailable for consecutive Commodity Business Days equal in number to the Specified Maximum Days of Disruption. In that case, the next Disruption Fallback specified in the applicable Final Terms will apply.

Delivery Date means, in respect of a Commodity Reference Price, the relevant date or month for delivery of the underlying Commodity (which must be a date or month reported or capable of being determined from information reported in or by the relevant Price Source) as follows:

- (a) if a date is, or a month and year are, specified in the applicable Final Terms, that date or that month and year;
- (b) if a Nearby Month is specified in the applicable Final Terms, the month of expiration of the relevant Futures Contract; and
- (c) if a method is specified in the applicable Final Terms for the purpose of determining the Delivery Date, the date or the month and year determined pursuant to that method.

Disappearance of Commodity Reference Price means (A) the permanent discontinuation of trading, in the relevant Futures Contract on the relevant Exchange or (B) the disappearance of, or of trading in, the relevant Commodity or (C) the disappearance or permanent discontinuance or unavailability of a Commodity Reference Price, notwithstanding the availability of the related Price Source or the status of trading in the relevant Futures Contract or the relevant Commodity.

Futures Contract means, in respect of a Commodity Reference Price, the contract for future delivery of a contract size in respect of the relevant Delivery Date relating to the Commodity referred to in that Commodity Reference Price.

Material Change in Formula means the occurrence since the Trade Date of a material change in the formula for or the method of calculating the relevant Commodity Reference Price.

Material Change in Content means the occurrence since the Trade Date of a material change in the content, composition or constitution of the relevant Commodity or the relevant Futures Contract.

Nearby Month when preceded by a numerical adjective, means, in respect of a Delivery Date and a Pricing Date, the month of expiration of the Futures Contract identified by that numerical adjective, so that, for example, (A) "First Nearby Month" means the month of expiration of the first Futures Contract to expire following that Pricing Date and (B) "Second Nearby Month" means the month of expiration of the second Futures Contract to expire following that Pricing Date etc.

Postponement means, in respect of a Pricing Date, that such Pricing Date will be deemed, for purposes of the application of this Disruption Fallback only, to be the first succeeding Commodity Business Day on which the Market Disruption Event ceases to exist, unless that Market Disruption Event continues to exist (measured from and including the original day that would otherwise have been such Pricing Date) for consecutive Commodity Business Days equal in number to the Specified Maximum Days of Disruption. In that case, the next Disruption Fallback specified in the applicable Final Terms will apply.

Pricing Date means each date specified as such in the applicable Final Terms (or determined pursuant to a method specified for such purpose), such date(s) being subject to the provisions of the Commodity Business Day Convention specified in the applicable Final Terms.

Price Source means the publication (or such other origin of reference, including an Exchange) containing (or reporting) the Specified Price (or prices from which the Specified Price is calculated) specified in the applicable Final Terms or any successor.

Price Source Disruption means (A) the failure of the Price Source to announce or publish the Specified Price (or the information necessary for determining the Specified Price) for the relevant Commodity Reference Price, (B) the temporary or permanent discontinuance or unavailability of the Price Source or (C) if a Commodity Reference Price is "Commodity-Reference Dealers", the failure to obtain at least three quotations as requested from the relevant Reference Dealers.

Reference Dealers means the four dealers specified in the applicable Final Terms or, if four dealers are not so specified, four leading dealers in the relevant market selected by the Calculation Agent.

Relevant Price means, in respect of a Commodity and a Pricing Date, the price, expressed as a price per Unit, determined with respect to that day for the relevant Commodity Reference Price.

Specified Maximum Days of Disruption means the number of Commodity Business Days specified in the applicable Final Terms or, if no such number is so specified, five Commodity Business Days.

Specified Price means, in respect of a Commodity Reference Price, the price (which must be a price reported in or by, or capable of being determined from information reported in or by, the relevant Price Source) specified in the applicable Final Terms (and, if applicable, as of the time so specified).

Tax Disruption means the imposition of, change in or removal of an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, the relevant Commodity (other than a tax on, or measured by reference to overall gross or net income) by any government or taxation authority after the Trade Date, if the direct effect of such imposition, change or removal is to raise or lower the Relevant Price on the day that would otherwise be a Pricing Date from what it would have been without that imposition, change or removal.

Trade Date means the date specified as such in the applicable Final Terms.

Trading Disruption means the material suspension of, or the material limitation imposed on, trading in the relevant Futures Contract or the relevant Commodity on the relevant Exchange or in any additional futures contract, options contract or commodity on any Exchange as specified in the applicable Final Terms. For these purposes:

- (a) a suspension of the trading in the relevant Futures Contract or the relevant Commodity on any Commodity Business Day shall be deemed to be material only if:
 - (i) all trading in the relevant Futures Contract or the relevant Commodity is suspended for the entire Pricing Date; or
 - (ii) all trading in the relevant Futures Contract or the relevant Commodity is suspended subsequent to the opening of trading on the Pricing Date, trading does not recommence prior to the regularly scheduled close of trading in such Futures Contract or Commodity on such Pricing Date and such suspension is announced less than one hour preceding its commencement; and
- (b) a limitation of trading in the relevant Futures Contract or the relevant Commodity on any Commodity Business Day shall be deemed to be material only if the relevant Exchange establishes limits on the range within which the price of the relevant Futures Contract or the relevant Commodity may fluctuate and the closing or settlement price of the relevant Futures Contract or the relevant Commodity on such day is at the upper or lower limit of that range.

Unit means, in respect of a Commodity, the unit of measure of such Commodity, as specified in the relevant Commodity Reference Price or the applicable Final Terms, as the case may be.

ANNEX 4
ADDITIONAL TERMS AND CONDITIONS FOR SHARE LINKED CERTIFICATES

*The terms and conditions applicable to Certificates linked to a share or shares shall comprise the General Conditions and the additional terms and conditions set out below (the **Share Linked Conditions**), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Share Linked Conditions, the Share Linked Conditions set out below shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Share Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

1. Market Disruption

Market Disruption Event means, in respect of a Share:

- (a) the occurrence or existence at any time during the one hour period that ends (x) in relation to an Observation Date, at the Observation Time or, if the Observation Time is specified to be "at any time" in the applicable Final Terms, at the time at which the price of the Share is being determined (the **Determination Time**), (y) for the purposes of the occurrence of a Mandatory Early Repayment Event, ends at the relevant Mandatory Early Repayment Valuation Time or, if the Mandatory Early Repayment Valuation Time is specified to be "at any time" in the applicable Final Terms, the Determination Time, or (z) in all other circumstances, at the Valuation Time for such Share:
 - (i) of any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or any Related Exchange or otherwise:
 - (A) relating to the Share on the relevant Exchange; or
 - (B) in futures or options contracts relating to the Share on any relevant Related Exchange; or
 - (ii) of any event (other than as described in (b) below) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (A) to effect transactions, in or obtain market values for, the Share on the relevant Exchange or (B) to effect transactions in, or obtain market values for, futures or options contracts on or relating to the Share on any relevant Related Exchange; or
- (b) the closure on any Exchange Business Day of the relevant Exchange or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or such Related Exchange(s), as the case may be, at least one hour prior to the earlier of (A) the actual closing time for the regular trading session on such Exchange(s) or such Related Exchange(s) on such Exchange Business Day and (B) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the Valuation Time, the Observation Time, the Determination Time or the Mandatory Early Repayment Valuation Time, as the case may be, on such Exchange Business Day,

which in any such case the Calculation Agent determines is material.

If the Calculation Agent determines that it is not material that any day in respect of which the Calculation Agent is required to determine the price of a Share (a **Relevant Day**) is:

- (i) not a Scheduled Trading Day for a Share because one or more Related Exchanges relating to such Share is/are not scheduled to be open; or
- (ii) a Disrupted Day for a Share solely because any Related Exchange relating to such Share fails to open,

the Calculation Agent shall have the discretion to determine such day to be the Relevant Day (notwithstanding the fact that such day is not a Scheduled Trading Day in respect of a Share because one or more Related Exchanges is/are not scheduled to be open or is a Disrupted Day solely because any Related Exchange fails to open).

In determining what is "material", the Calculation Agent shall have regard to such circumstances as it deems appropriate, which may include (but are not limited to) the Issuer's hedging arrangements in respect of the Certificates.

The Issuer shall give notice as soon as practicable to Certificateholders in accordance with Condition 10 of the General Conditions of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been a Relevant Day.

2. **Adjustment Events and Additional Disruption Events**

If an Adjustment Event or an Additional Disruption Event occurs, the Issuer may take the action described in (i) or (ii) below :

- (i) require the Calculation Agent to (i) make such adjustment(s), if any, to the terms of these Conditions and/or the applicable Final Terms as the Calculation Agent determines necessary or appropriate to account for the Adjustment Event or the Additional Disruption Event, as the case may be, and such adjustment may include, if "Share Substitution" is specified as applying in the applicable Final Terms, the substitution of the Share the subject of the Adjustment Event (the **Substituted Share**) by a share (the **New Share**) selected by the Calculation Agent from the Reference Index, and (ii) determine the effective date(s) of the adjustment(s) to the Certificates. If "Share Substitution" is specified as applying in the applicable Final Terms, and the Calculation Agent selects a New Share in substitution for the Substituted Share, the Issuer shall make such other adjustments to the terms of the Certificates as it deems appropriate. The Calculation Agent may (but need not) determine necessary or appropriate adjustment(s) by reference to the adjustment(s) in respect of such Adjustment Event or Additional Disruption Event, as the case may be, made by any Related Exchange to options contracts or futures contracts on the relevant Share traded on such Related Exchange. The Calculation Agent shall make all adjustments arising from an Adjustment Event or Additional Disruption Event, as the case may be, in such a way as to ensure that the direct economic link between the value of the Shares and the value of the Certificates is preserved; or
- (ii) cancel the Certificates by giving notice to Certificateholders in accordance with Condition 10 of the General Conditions. If the Certificates are so cancelled, the Issuer will pay to each Certificateholder in respect of each Certificate held by such holder an amount equal to the fair market value of such Certificate, on a day selected by the Issuer, taking into account the Adjustment Event or the Additional Disruption Event, as the case may be, less (except in the case of Certificates listed on the Italian Stock Exchange) the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as

determined by the Calculation Agent. Payments will be made in such manner and subject to such conditions as shall be notified to the Certificateholders in accordance with Condition 10 of the General Conditions and upon such payment in respect of such Certificate, the Issuer's obligations in respect thereof shall be discharged.

Upon the occurrence of an Adjustment Event or an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Certificateholders in accordance with Condition 10 of the General Conditions stating the occurrence of the Adjustment Event or the Additional Disruption Event, as the case may be, giving details thereof and the action proposed to be taken in relation thereto.

3. Correction of Share prices

With the exception of any corrections published after the day which is two Business Days prior to the due date for any payment (a **Payment Date**) of any amounts payable under the Certificates (if any), if the price of a Share published on any Relevant Day and used or to be used by the Calculation Agent to determine any such amounts payable under the Certificates, is subsequently corrected and the correction published within 30 days of the original publication, the level to be used shall be the price of the Share as so corrected. Corrections published after the day which is two Business Days prior to the relevant Payment Date will be disregarded by the Calculation Agent for the purposes of determining any such amounts payable under the Certificates.

4. Mandatory Early Repayment Event

If "Mandatory Early Repayment Event" is specified as applicable in the applicable Final Terms then, unless previously exercised or cancelled, if on any Mandatory Early Repayment Valuation Date, a Mandatory Early Repayment Event occurs, the Certificates will be automatically cancelled in whole, but not in part, on the Mandatory Early Repayment Date immediately following such Mandatory Early Repayment Valuation Date and the Issuer will pay to each Certificateholder in respect of each Certificate held by such holder an amount equal to the relevant Mandatory Early Repayment Amount. Payment will be made in such manner and subject to such conditions as shall be notified to the Certificateholders in accordance with Condition 10 of the General Conditions and upon such payment in respect of such Certificate, the Issuer's obligations in respect thereof shall be discharged.

Mandatory Early Repayment Date means, in respect of a Mandatory Early Repayment Event, the date specified for such Mandatory Early Repayment Event in the applicable Final Terms.

Mandatory Early Repayment Event means (unless otherwise specified in the applicable Final Terms) (A) in case of a single Share, that the price quoted on the relevant Exchange for such Share as of the Mandatory Early Repayment Valuation Time on any Mandatory Early Repayment Valuation Date is, and (B) in the case of a Basket of Shares, the amount for the Basket of Shares determined by the Calculation Agent equal to the sum of the value for each Share equal to the product of (i) the price of such Share quoted on the relevant Exchange for such Share as of the Mandatory Early Repayment Valuation Time on any Mandatory Early Repayment Valuation Date and (ii) the relevant Weighting is, as specified in the applicable Final Terms, (i) "greater than", (ii) "greater than or equal to", (iii) "less than" or (iv) "less than or equal to" the Mandatory Early Repayment Level

PROVIDED THAT if, in the opinion of the Calculation Agent, any such price cannot be so determined and the relevant Mandatory Early Repayment Valuation Date is not a relevant Disrupted Day, such price shall be an amount determined by the Calculation Agent to be equal to the arithmetic mean of the fair market buying price for such Share at the Mandatory Early Repayment Valuation Time on such Mandatory Early Repayment Valuation Date and the fair market selling price for such Share at the Mandatory Early Repayment Valuation Time on such Mandatory Early Repayment Valuation Date based, at the Calculation Agent's discretion, either on the arithmetic mean of the foregoing prices or middle market quotations provided to it by two or more financial institutions (as selected by the Calculation Agent) engaged in the trading of such Share or on such other factors as the Calculation Agent shall decide.

Mandatory Early Repayment Level means (unless otherwise specified in the applicable Final Terms) (A) in respect of a single Share, amount specified for such Share or (B) in respect of a Basket of Shares, the amount specified for the Basket of Shares, in the applicable Final Terms.

Mandatory Early Repayment Valuation Date means each date specified as such in the applicable Final Terms or, if any such date is not a Scheduled Trading Day for all the Shares, the immediately succeeding Scheduled Trading Day for all the Shares unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day for any of the Shares. If any such day is a Disrupted Day for any of the Shares, then either (i) the provisions specified in the applicable Final Terms shall apply or (ii) if so specified in the applicable Final Terms, the provisions relating to "Omission", "Postponement" or "Modified Postponement", as the case may be, contained in the definition of "Averaging Date" shall apply *mutatis mutandis* as if (a) references in such provisions to "Averaging Date" were to "Mandatory Early Repayment Valuation Date", (b) and references to "Settlement Price" in the definition of "Valuation Date" were references to the price of such Share in respect of that Mandatory Early Repayment Valuation Date, (c) references to Valuation Time in the definitions of "Averaging Date" and "Valuation Date" were references to "Mandatory Early Repayment Valuation Time" and (d) references to "Settlement Date" in the definitions of "Averaging Date" and "Valuation Date" were references to "Mandatory Early Repayment Date".

Mandatory Early Repayment Valuation Time means, in respect of a Share, the time(s) on any Mandatory Early Repayment Valuation Date specified as such in the applicable Final Terms or, if not specified in the applicable Final Terms, the Valuation Time.

6. General Definitions

Averaging Date means each date specified as an Averaging Date in the applicable Final Terms or, if any such date is not a Scheduled Trading Day for all the Shares, the immediately succeeding Scheduled Trading Day for all the Shares unless, in the opinion of the Calculation Agent any such

day is a Disrupted Day for any of the Shares. If any such day is such a Disrupted Day for any of the Shares then:

- (a) if **Omission** is specified as applying in the applicable Final Terms, then such date will be deemed not to be an Averaging Date for purposes of determining the relevant Settlement Price PROVIDED THAT if, through the operation of this provision, no Averaging Date would occur, then the provisions of the definition of "Valuation Date" will apply for purposes of determining the relevant price on the final Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day; or
- (b) if **Postponement** is specified as applying in the applicable Final Terms, then the provisions of the definition of "Valuation Date" will apply for purposes of determining the relevant price on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day, irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or
- (c) if **Modified Postponement** is specified as applying in the applicable Final Terms:
 - (i) where the Certificates are Shares Linked Certificates relating to a single Share, that Averaging Date shall be the earliest of:
 - (A) the first succeeding Valid Date (as defined below);
 - (B) the Scheduled Trading Day falling the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of a Disrupted Day would have been that Averaging Date (a **Scheduled Averaging Date**); and
 - (C) the second Business Day prior to the Settlement Date or, if such day is not a Scheduled Trading Day, the immediately preceding Scheduled Trading Day.

If the relevant Averaging Date falls within (B) or (C) above and the relevant Scheduled Trading Day is a Disrupted Day, then (X) that Scheduled Trading Day shall be deemed to be that Averaging Date (notwithstanding the fact that such day is a Disrupted Day and irrespective of whether that Scheduled Trading Day is already an Averaging Date), and (Y) the Calculation Agent shall determine the relevant price for that Averaging Date in accordance with sub-paragraph (b)(iii) of the definition of "Valuation Date" below;

- (ii) where the Certificates are Share Linked Certificates relating to a basket of Shares,
 - (A) where "Move in Block" is specified as applying in the applicable Final Terms, that Averaging Date for all the Shares shall be the earliest of:
 - (1) the first succeeding Valid Date for all the Shares;
 - (2) the Scheduled Trading Day for all the Shares falling the Specified Maximum Days of Disruption immediately following that Scheduled Averaging Date; and
 - (3) the second Business Day prior to the Settlement Date, or, if such day is not a Scheduled Trading Day for all the Shares, the immediately preceding Scheduled Trading Day for all the Shares.

If the relevant Averaging Date falls within (2) or (3) above, such Scheduled Trading Day shall be such Averaging Date (irrespective of whether that Scheduled Trading Day is already an Averaging Date) and if the relevant Scheduled Trading Day is a Disrupted Day for a Share (the **Affected Share**), (x) that Scheduled Trading Day shall be deemed to be that Averaging Date for that Affected Share (notwithstanding the fact that such day is a Disrupted Day) and (y) the Calculation Agent shall determine the relevant level for such Affected Share for that Averaging Date in accordance with sub-paragraph (b)(iii) of the definition of "Valuation Date" below;

- (B) where "Value What You Can" is specified as applying in the applicable Final Terms, that Averaging Date for each Share in respect of which no Disrupted Day has occurred shall be the Scheduled Averaging Date and that Averaging Date for each Share in respect of which a Disrupted Day has occurred (each an **Affected Share**) shall be the earliest of:
- (1) the first succeeding Valid Date for the Affected Share;
 - (2) the Scheduled Trading Day for the Affected Share falling the Specified Maximum Days of Disruption immediately following that Scheduled Averaging Date; and
 - (3) the second Business Day prior to the Settlement Date or, if such day is not a Scheduled Trading Day for the Affected Share, the immediately preceding Scheduled Trading Day for the Affected Share.

If the relevant Averaging Date for an Affected Share falls within(2) or (3) above and the relevant Scheduled Trading Day is a Disrupted Day for the Affected Share, (x) that Scheduled Trading Day shall be deemed that Averaging Date for the Affected Share (notwithstanding the fact that such day is a Disrupted Day for the Affected Share and irrespective of whether that Scheduled Trading Day is already an Averaging Date) and (y) the Calculation Agent shall determine the relevant price for that Averaging Date in accordance with sub-paragraph (b)(iii) of the definition of "Valuation Date" below.

If any such day is a Disrupted Day for any of the Shares, then either (i) the provisions specified in the applicable Final Terms shall apply or (ii) if so specified in the applicable Final Terms, the provisions relating to "Omission", "Postponement" or "Modified Postponement", as the case may be, contained in the definition of "Averaging Date" shall apply *mutatis mutandis* as if (a) references in such provisions to "Averaging Date" were to "Observation Date", (b) references to "Settlement Price" in the definition of "Valuation Date" were references to the price of the relevant Shares in respect of the relevant Observation Date and (c) references to Valuation Time in the definitions of "Averaging Date" and "Valuation Date" were references to "Observation Time".

Observation Period means the period specified as the Observation Period in the applicable Final Terms.

Observation Time means the time(s) on any Observation Date specified as such in the applicable Final Terms or, if not specified in the applicable Final Terms, the Valuation Time.

Scheduled Closing Time means, in relation to a Share and an Exchange or Related Exchange and a Scheduled Trading Day for such Share, the scheduled weekday closing time of such Exchange or Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.

- (a) in the case of Share Linked Certificates relating to a Basket of Shares, either (i) an amount equal to the sum of the values calculated for each Share as the official closing price (or the price at the Valuation Time on the Valuation Date or an Averaging Date, as the case may be,

if so specified in the applicable Final Terms) quoted on the relevant Exchange for such Share on (A) if Averaging is not specified as applying in the applicable Final Terms, the Valuation Date or (B) if Averaging is specified as applying in the applicable Final Terms, an Averaging Date (or if, in the opinion of the Calculation Agent, any such official closing price (or the price at the Valuation Time on the Valuation Date or such Averaging Date, as the case may be, if so specified in the applicable Final Terms) cannot be so determined and the Valuation Date or such Averaging Date, as the case may be, is not a relevant Disrupted Day, an amount determined by the Calculation Agent to be equal to the arithmetic mean of the closing fair market buying price (or the fair market buying price at the Valuation Time on the Valuation Date or such Averaging Date, as the case may be, if so specified in the applicable Final Terms) and the closing fair market selling price (or the fair market selling price at the Valuation Time on the Valuation Date or such Averaging Date, as the case may be, if so specified in the applicable Final Terms) for the relevant Share whose official closing price (or the price at the Valuation Time on the Valuation Date or such Averaging Date, as the case may be, if so specified in the applicable Final Terms) cannot be determined based, at the Calculation Agent's discretion, either on the arithmetic mean of the foregoing prices or middle market quotations provided to it by two or more financial institutions (as selected by the Calculation Agent) engaged in the trading of the relevant Share or on such other factors as the Calculation Agent shall decide), multiplied by the relevant Weighting, each such value to be converted, if so specified in the applicable Final Terms, into the Settlement Currency at the Exchange Rate and the sum of such converted amounts to be the Settlement Price, all as determined by or on behalf of the Calculation Agent (the **Basket Settlement Price**) or (ii) and in relation to a Share and the Valuation Date or an Averaging Date, as the case may be, an amount equal to the official closing price (or the price at the Valuation Time on the Valuation Date or such Averaging Date, as the case may be, if so specified in the applicable Final Terms) quoted on the relevant Exchange for such Share on (X) if Averaging is not specified as applying in the applicable Final Terms, the Valuation Date or (Y) if Averaging is specified as applying in the applicable Final Terms, such Averaging Date (or if, in the opinion of the Calculation Agent, any such closing price (or the price at the Valuation Time on the Valuation Date or such Averaging Date, as the case may be, if so specified in the applicable Final Terms) cannot be so determined and the Valuation Date or Averaging Date, as the case may be, is not a relevant Disrupted Day, an amount determined by the Calculation Agent to be equal to the arithmetic mean of the closing fair market buying price (or the fair market buying price at the Valuation Time on the Valuation Date or such Averaging Date, as the case may be, if so specified in the applicable Final Terms) and the closing fair market selling price (or the fair market selling price at the Valuation Time on the Valuation Date or such Averaging Date, as the case may be, if so specified in the applicable Final Terms) for such Share based, at the Calculation Agent's discretion, either on the arithmetic mean of the foregoing prices or middle market quotations provided to it by two or more financial institutions (as selected by the Calculation Agent) engaged in the trading of such Share or on such other factors as the Calculation Agent shall decide), such value to be converted, if so specified in the applicable Final Terms, into the Specified Currency at the Exchange Rate and such converted amount to be the Settlement Price for such Share, all as determined by or on behalf of the Calculation Agent (the **Per Share Settlement Price**), as specified in the applicable Final Terms; and

- (b) in the case of Share Linked Certificates relating to a single Share, an amount equal to the official closing price (or the price at the Valuation Time on the Valuation Date or an Averaging Date, as the case may be, if so specified in the applicable Final Terms) quoted on the relevant Exchange for such Share on (A) if Averaging is not specified as applying in the applicable Final Terms, the Valuation Date or (B) if Averaging is specified as applying in the applicable Final Terms, an Averaging Date (or if, in the opinion of the Calculation Agent, no such official closing price (or the price at the Valuation Time on the Valuation

Date or such Averaging Date, as the case may be, if so specified in the applicable Final Terms) can be so determined and the Valuation Date or Averaging Date, as the case may be, is not a Disrupted Day, an amount determined by the Calculation Agent to be equal to the arithmetic mean of the closing fair market buying price (or the fair market buying price at the Valuation Time on the Valuation Date or such Averaging Date, as the case may be, if so specified in the applicable Final Terms) and the closing fair market selling price (or the fair market selling price at the Valuation Time on the Valuation Date or such Averaging Date, as the case may be, if so specified in the applicable Final Terms) for the Share based, at the Calculation Agent's discretion, either on the arithmetic mean of the foregoing prices or middle market quotations provided to it by two or more financial institutions (as selected by the Calculation Agent) engaged in the trading of the Share or on such other factors as the Calculation Agent shall decide), such amount to be converted, if so specified in the applicable Final Terms, into the Settlement Currency at the Exchange Rate and such converted amount to be the Settlement Price, all as determined by or on behalf of the Calculation Agent.

If such day is such a Disrupted Day for any of the Shares, then:

- (a) where the Certificates are Share Linked Certificates relating to a single Share, the Valuation Date shall be the earliest of:
 - (i) the first succeeding Scheduled Trading Day that is not a Disrupted Day;
 - (ii) the Scheduled Trading Day falling the Specified Maximum Days of Disruption immediately following the Scheduled Valuation Date; and
 - (iii) the second Business Day prior to the Settlement Date or, if such day is not a Scheduled Trading Day, the immediately preceding Scheduled Trading Day.

If the relevant Valuation Date falls within (ii) or (iii) above and the relevant Scheduled Trading Day is a Disrupted Day, (A) that Scheduled Trading Day shall be deemed to be the Valuation Date (notwithstanding the fact that such day is a Disrupted Day) and (B) the Calculation Agent shall determine the Settlement Price in the manner set out in the applicable Final Terms or, if not set out or if not practicable, determine the Settlement Price in accordance with its good faith estimate of the Settlement Price as of the Valuation Time on that Scheduled Trading Day; or

- (b) where the Certificates are Share Linked Certificates relating to a Basket of Shares,
- (i) where "Move in Block" is specified as applying in the applicable Final Terms, the Valuation Date for all the Shares shall be the earliest of:

 - (B) the Scheduled Trading Day for the Affected Share falling the Specified Maximum Days of Disruption immediately following the Scheduled Valuation Date; and
 - (C) the second Business Day prior to the Settlement Date or, if such day is not a Scheduled Trading Day for the Affected Share, the immediately preceding Scheduled Trading Day for the Affected Share.

If the relevant Valuation Date for an Affected Share falls within (B) or (C) above and the relevant Scheduled Trading Day is a Disrupted Day for the Affected Share, (i) that Scheduled Trading Day shall be deemed to be the Valuation Date for the Affected Share (notwithstanding the fact that such day is a Disrupted Day for the Affected Share) and (ii) the Calculation Agent shall determine the price of the Affected Share as set out in sub-paragraph (iii) below.

- (iii) the Calculation Agent shall determine the relevant price for the purposes of sub-paragraphs (i) and (ii) above using, in relation to the Affected Share, a price determined in the manner set out in the applicable Final Terms or, if not set out or if not practicable, using its good faith estimate of the price for the Affected Share as of the Valuation Time on that Scheduled Trading Day, and otherwise in accordance with the above provisions.

Citi's purpose is to "engage in any lawful act or activity for which a corporation may be organized under the General Corporation Law of Delaware", as stated in Article THIRD of Citi's Restated Certificate of Incorporation. The Guarantor's subsidiaries may be party to credit agreements that also may restrict their ability to pay dividends. The Guarantor currently believes that none of these regulatory or contractual restrictions on the ability of its subsidiaries to pay dividends will affect the Guarantor's ability to service its own debt. The Guarantor must also maintain the required capital levels of a bank holding company before it may pay dividends on its stock. Each of the Guarantor's major operating subsidiaries finances its operations on a stand-alone basis consistent with its capitalisation and ratings.

Under the regulations of The Board of Governors of the Federal Reserve System, a bank holding company is expected to act as a source of financial strength for its subsidiary banks. As a result of this regulatory policy, the Federal Reserve might require the Guarantor to commit resources to its subsidiary banks when doing so is not otherwise in the interests of the Guarantor or its shareholders or creditors.

The principal offices for the Guarantor are located at 399 Park Avenue, New York, NY 10043, and its telephone number is (212) 559-1000. PLAN OF DISTRIBUTION FOR NOTES

Subject to the terms and conditions contained in an Amended and Restated Dealership Agreement dated 21 August 2008 (the **Dealership Agreement**) between the Issuer, the Guarantor and the Arranger, the Notes will be offered on a continuous basis by the Issuer to the Dealers (as defined in the Dealership Agreement). However, the Issuer reserves the right to sell Notes directly on its own behalf to other entities and to offer Notes in specified jurisdictions directly to the public through distributors, in accordance with all applicable rules and regulations. Notes may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the Issuer or the relevant Dealer. The Notes may also be sold by the Issuer through the Dealers, acting as agent of the Issuer. The Dealership Agreement also provides for Notes to be issued in syndicated Tranches which are jointly and severally underwritten by two or more Dealers.

The Issuer has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. The Dealership Agreement may be terminated in relation to all the Dealers or any of them by the Issuer or, in relation to itself and the Issuer only, by any Dealer, at any time on giving not less than ten business days' notice.

United States of America

The Notes, the Deed of Guarantee and any Entitlements to be delivered in respect of any Physical Delivery Notes have not been and will not be registered under the Securities Act. The Issuer has not registered as an investment company pursuant to the United States Investment Company Act of 1940, as amended. No issue of Notes may be offered or sold within the United States or to, or for the account or benefit of, U.S. persons, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Hedging transactions involving Physical Delivery Notes which are Share Linked Notes may not be conducted unless in compliance with the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Each Dealer has represented and agreed that, except as permitted by the Dealership Agreement, it, its affiliates (if any) or any person acting on its or their behalf have not offered and sold or, in the case of Notes in bearer form, delivered the Notes of any Tranche, and will not offer and sell the Notes of any Tranche (i) as part of their distribution at any time and (ii) (A) otherwise until 40 days after the later of the commencement of the offering of such Tranche as determined and certified by the Dealers (or such longer distribution compliance period as may be specified in the applicable Final Terms) and the date of issue thereof or (B) in the event of a distribution of a Tranche that is fungible therewith, from the earlier of the commencement of the offering of such fungible Tranche and the date of issue thereof until 40 days after the later of the commencement of the offering of such fungible Tranche and the date of issue thereof (or such longer distribution compliance period as may be specified in the applicable Final Terms), within the United States or to, or for the account or benefit of, U.S. persons, and at or prior to confirmation of sale of Notes, it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Notes from it during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

In addition, until 40 days after the commencement of the offering, an offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder.

Each issuance of Notes shall be subject to such additional U.S. selling restrictions as the Dealer(s) may agree with the Issuer as a term of the issuance and purchase or, as the case may be, subscription of such Notes. Each Dealer agrees that it shall offer, sell and deliver such Notes only in compliance with such additional U.S. selling restrictions.

Any person exercising such Certificate will be required to represent that it is not a U.S. person and is not acting on behalf of a U.S. person. Terms used in this paragraph have the meaning given to them by Regulation S under the Securities Act.

Public Offer Selling Restriction under the Prospectus Directive

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a **Relevant Member State**), CGML and any other entity or entities nominated by the Issuer for any offer of the Notes will be required to represent and agree that, with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the **Relevant**

Implementation Date) it has not made and will not make an offer of Certificates which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Certificates to the public in that Relevant Member State:

- (a) if the final terms in relation to the Certificates specify that an offer of those Certificates may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a **Non-exempt Offer**), following the date of publication of a prospectus in relation to such Certificates which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, PROVIDED THAT any such prospectus has subsequently been completed by the final terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable;
- (b) at any time to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities;
- (c) at any time to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €43,000,000; and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts;
- (d) at any time to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of CGML or any other entity or entities nominated by the Issuer for any such offer; or
- (e) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

PROVIDED THAT no such offer of Certificates referred to in (b) to (e) above shall require the Issuer or CGML or any other entity or entities nominated by the Issuer for any such offer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "offer of Certificates to the public" in relation to any Certificates in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Certificates to be offered so as to enable an investor to decide to purchase or subscribe the Certificates, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression "**Prospectus Directive**" means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

United Kingdom of Great Britain & Northern Ireland (the United Kingdom)

All applicable provisions of the Financial Services and Markets Act 2000 (the **FSMA**) must be complied with in respect to anything done in relation to any Certificates in, from or otherwise involving the United Kingdom.

In respect of Certificates which constitute debentures and which are exercisable at any time prior to one year from their date of issue, such Certificates (a) will only be offered or sold to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses and (b) will not be offered or sold to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or who it is reasonable to expect will acquire,

hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of such Certificates would otherwise constitute a contravention of Section 19 of the FSMA by the Issuer.

An invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) may only be communicated or caused to be communicated in connection with the issue or sale of any Certificates in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer.

To the extent that any offering of Certificates has not been registered pursuant to Italian securities legislation, no Certificates may be offered, sold or delivered, nor may copies of the Base Prospectus or of any other document relating to Certificates be distributed in the Republic of Italy, except:

- (a) to professional investors (*operatori qualificati*) (**Professional Investors**), as defined in Article 100 of Legislative Decree No. 58 of 24 February 1998, as amended (the **Financial Services Act**) and the relevant implementing CONSOB regulations, as amended from time to time, and in Article 2 of Directive No. 2003/71/EC of 4 November 2003; or
- (b) in other circumstances which are exempted from the rules on solicitation of investments pursuant to Article 100 of the Financial Services Act and Article 33, first paragraph, of CONSOB Regulation No. 11971 of 14 May, 1999, as amended (Regulation No. 11971).

Any offer, sale or delivery of Certificates or distribution of copies of the Base Prospectus or any other document relating to Certificates in the Republic of Italy under (a) or (b) above must be:

- (a) made by an investment firm, bank or financial intermediary permitted to conduct such activities in the Republic of Italy in accordance with the Financial Services Act, CONSOB Regulation No. 16190 of 29 October 2007 (as amended from time to time) and Legislative Decree No. 385 of 1 September, 1993, as amended (the **Banking Act**);
- (b) in compliance with Article 129 of the Banking Act and the implementing guidelines of the Bank of Italy, as amended from time to time, pursuant to which the Bank of Italy may request information on the issue or the offer of Certificates in the Republic of Italy; and
- (c) in compliance with any other applicable laws and regulations or requirement imposed by CONSOB or other Italian authority.

Please note that in accordance with Article 100-bis of the Financial Services Act, where no exemption from the rules on solicitation of investments applies under (a) or (b) above, the subsequent distribution of Certificates in the secondary market in Italy must be made in compliance with the public offer and the prospectus requirement rules provided under the Financial Services Act and Regulation No. 11971. Failure to comply with such rules may result in the sale of such Certificates being declared null and void and any intermediary transferring Certificates may be liable for any damages suffered by the investors.

General

These selling restrictions may be modified following a change in a relevant law, regulation or directive. Any such modification will be set out in the Final Terms issued in respect of the issue of Certificates to which it relates or in a supplement to this Base Prospectus.

CGML or any other entity or entities nominated by the Issuer for any offer will be required to agree that it will comply with all relevant laws, regulations and directives in each jurisdiction in which it purchases, offers, sells or delivers Certificates or has in its possession or distributes the Base Prospectus, any other offering material or any Final Terms and neither the Issuer nor the Guarantor shall have responsibility therefor.

TRANSACTIONS INVOLVING NOTES MAY HAVE TAX CONSEQUENCES FOR POTENTIAL PURCHASERS WHICH MAY DEPEND, AMONGST OTHER THINGS, UPON THE STATUS OF THE POTENTIAL PURCHASER AND LAWS RELATING TO TRANSFER AND REGISTRATION TAXES. POTENTIAL PURCHASERS WHO ARE IN ANY DOUBT ABOUT THE TAX POSITION OF ANY ASPECT OF TRANSACTIONS INVOLVING NOTES SHOULD CONSULT THEIR OWN TAX ADVISERS.

UNITED STATES TAX CONSIDERATIONS

Any U.S. federal tax discussion in this Base Prospectus was not written and is not intended to be used and cannot be used by any taxpayer for purposes of avoiding United States federal income tax penalties that may be imposed on the taxpayer. Any such tax discussion was written to support the promotion or marketing of the Notes to be issued pursuant to this Base Prospectus. Each taxpayer should seek advice based on the taxpayer's particular circumstances from an independent tax advisor.

General

The following is a general summary of certain anticipated principal U.S. federal tax consequences that may be relevant with respect to the acquisition, ownership and disposition of Notes. This summary addresses only the U.S. federal tax considerations of holders that acquire Notes at their original issuance and that are Non-U.S. Holders (as defined below). This discussion is a summary for general information only and does not purport to address all U.S. federal tax matters that may be relevant to the purchase, ownership, and disposition of any Notes to a particular Noteholder.

This summary is based on the U.S. Internal Revenue Code of 1986, as amended (the **Code**), U.S. Treasury Regulations and judicial and administrative interpretations thereof, in each case as in effect and available on the date hereof. All of the foregoing are subject to change, which change could apply retroactively and could affect the tax consequences described below. Further, this summary does not describe any tax consequences arising out of the tax laws of any state, local or foreign jurisdiction.

Prospective purchasers of the Notes are urged to consult their own tax advisers concerning the U.S. federal, state, local and foreign tax consequences of owning Notes in light of their own particular circumstances.

For the purposes of this summary, a **Non-U.S. Holder** is a beneficial owner of a Note that is, for U.S. federal income tax purposes: (i) a foreign corporation; (ii) a non-resident alien individual; (iii) a non-resident alien fiduciary of a foreign estate or trust; or (iv) a foreign partnership one or more members of which is a Non-U.S. Holder.

Taxation of Non-U.S. Holders of the Notes

Under current United States federal income tax law, payment on a Note, Receipt, Coupon or Talon by the Issuer or any Paying Agent to a Non-U.S. Holder should not be subject to withholding of United States federal income tax, provided that, with respect to payments of interest, (1) the beneficial owner does not actually or constructively own 10 per cent. or more of the total combined voting power of all classes of stock of the Issuer entitled to vote, (2) the beneficial owner is not (i) a controlled foreign corporation for U.S. federal income tax purposes that is related to the Issuer through stock ownership or (ii) a bank extending

credit pursuant to a loan agreement entered into in the ordinary course of its trade or business, (3) such interest payments are not effectively connected with the conduct of a trade or business of the beneficial owner within the United States (or, if an applicable treaty so requires, are not attributable to a permanent establishment in the United States maintained by such Non-U.S. Holder), (4) such interest is not contingent on the Issuer's profits, revenues or changes in the value of its property and is not otherwise excluded from the definition of "portfolio interest" by Section 871(h)(4) of the Code, and (5) in the case of a Registered Note, the beneficial owner provides a statement signed under penalties of perjury that certifies that it is a Non-U.S. Holder in compliance with applicable requirements (or satisfies certain documentary evidence requirements for establishing that it is a Non-U.S. Holder). Further, a Note, Receipt, Coupon or Talon should not be subject to United States federal estate tax as a result of the death of a holder who is not a citizen or resident of the United States at the time of death, provided that (i) such holder did not at the time of death actually or constructively own 10 per cent. or more of the combined voting power of all classes of stock of the Issuer and (ii) at the time of such holder's death, payments of interest on such Note, Receipt, Coupon or Talon would not have been effectively connected with the conduct by such holder of a trade or business in the United States.

Additionally, a holder of a Note, Receipt, Coupon or Talon that is a Non-U.S. Holder should not be subject to United States federal tax on gain realised on the sale, exchange or redemption of such Note, Receipt, Coupon or Talon unless (1) the gain is effectively connected with the conduct of a trade or business of the beneficial owner within the United States (or, if an applicable treaty so requires, is not attributable to a permanent establishment in the United States maintained by such Non-U.S. Holder), or (2) such beneficial owner is an individual who is present in the United States for 183 days or more during the taxable year and certain other requirements are met.

Information Reporting and Backup Withholding

United States information reporting requirements and backup withholding tax should not apply to any payment on a Bearer Note, Receipt, Coupon or Talon made outside the United States by the Issuer or any Paying Agent to a holder that is a Non-U.S. Holder. Payments on a Registered Note owned by a Non-U.S. Holder should not be subject to such requirements or tax if the beneficial owner satisfies the requirements described under "Taxation of Non-U.S. Holders of the Notes" above. Information reporting requirements and backup withholding tax should not apply to any payment on a Bearer Note, Receipt, Coupon or Talon outside the United States by a foreign office of a foreign custodian, foreign nominee or other foreign agent of the beneficial owner of such Bearer Note, Receipt, Coupon or Talon, provided that such custodian, nominee or other agent (i) derives less than 50 per cent. of its gross income for certain periods from the conduct of a trade or business in the United States, (ii) is not a controlled foreign corporation for United States federal income tax purposes and (iii) is not a foreign partnership that, at any time during its taxable year, is more than 50 per cent. (by income or capital interest) owned by United States persons or is engaged in the conduct of a U.S. trade or business. Payment in respect of a Bearer Note, Receipt, Coupon or Talon outside the United States to the beneficial owner thereof by a foreign office of any other custodian, nominee or agent should not be subject to backup withholding tax, but may be subject to information reporting requirements unless such custodian, nominee or agent has documentary evidence in its records that the beneficial owner is a Non-U.S. Holder or the beneficial owner otherwise establishes an exemption. Payment in respect of a Registered Note or a Bearer Note, Receipt, Coupon or Talon by the United States office of a custodian, nominee or other agent of the beneficial owner of such Note, Receipt, Coupon or Talon may be subject to information reporting requirements and backup withholding tax unless the beneficial owner certifies its non-U.S. status under penalties of perjury or otherwise establishes an exemption.

Information reporting requirements and backup withholding tax should not apply to any payment of the proceeds of the sale of a Registered Note or a Bearer Note, Receipt, Coupon or Talon effected outside the United States by a foreign office of a foreign "broker" (as defined in applicable Treasury Regulations), provided that such broker (i) derives less than 50 per cent. of its gross income for certain periods from the conduct of a trade or business in the United States, (ii) is not a controlled foreign corporation for United

States federal income tax purposes and (iii) is not a foreign partnership that, at any time during its taxable year, is more than 50 per cent. (by income or capital interest) owned by United States persons or is engaged in the conduct of a U.S. trade or business. Payment of the proceeds of the sale of a Registered Note or a Bearer Note, Receipt, Coupon or Talon effected outside the United States by a foreign office of any other broker should not be subject to backup withholding tax, but may be subject to information reporting requirements unless such broker has documentary evidence in its records that the beneficial owner is a Non-U.S. Holder and certain other conditions are met, or the beneficial owner otherwise establishes an exemption. Payment of the proceeds of a sale of a Registered Note or a Bearer Note, Receipt, Coupon or Talon by the United States office of a broker may be subject to information reporting requirements and backup withholding tax unless the beneficial owner certifies its non-U.S. status under penalties of perjury or otherwise establishes an exemption.

Recent United States Tax Law Developments

The United States Internal Revenue Service (the **IRS**) and United States Treasury Department recently issued a notice (the **Notice**) that requests public comments on a comprehensive list of tax policy issues raised by certain securities that are not classified as debt for United States federal income tax purposes. In particular, the IRS and United States Treasury Department specifically question whether, and to what degree, payments (or deemed accruals) in respect of these securities should be subject to withholding. Accordingly, it is possible that future guidance could be issued as a result of the Notice requiring withholding on payments made to a Non-U.S. Holder on a Note, Receipt, Coupon or Talon.

THE U.S. FEDERAL TAX DISCUSSION SET FORTH ABOVE IS INCLUDED FOR GENERAL INFORMATION ONLY AND MAY NOT BE APPLICABLE DEPENDING UPON AN OWNER'S PARTICULAR SITUATION. HOLDERS SHOULD CONSULT THEIR OWN TAX ADVISORS WITH RESPECT TO THE TAX CONSEQUENCES TO THEM OF THE OWNERSHIP AND DISPOSITION OF THE NOTES, INCLUDING THE TAX CONSEQUENCES UNDER STATE, LOCAL, FOREIGN AND OTHER TAX LAWS AND THE POSSIBLE EFFECTS OF CHANGES IN FEDERAL OR OTHER TAX LAWS.

UNITED KINGDOM TAXATION

The following applies only to persons who are the beneficial owners of Notes and is a summary of the Issuer's understanding of current law and practice in the United Kingdom relating to certain aspects of United Kingdom taxation. Some aspects do not apply to certain classes of person (such as dealers) to whom special rules may apply. The United Kingdom tax treatment of prospective Noteholders depends on their individual circumstances and may be subject to change in the future. Prospective Noteholders who are in any doubt as to their tax position or who may be subject to tax in a jurisdiction other than the United Kingdom should seek their own professional advice.

Interest on Notes

Payments of interest on the Notes may be made without withholding on account of United Kingdom income tax.

However, Noteholders may wish to note that, in certain circumstances, HM Revenue and Customs (**HMRC**) has power to obtain information (including the name and address of the beneficial owner of the interest) from any person in the United Kingdom who either pays or credits interest to or receives interest for the benefit of a Noteholder, or who either pays amounts payable on the redemption of Notes to or receives such amounts for the benefit of another person, although HMRC published practice indicates that HMRC will not exercise the power referred to above to require this information in respect of such amounts payable on redemption of Notes where such amounts are paid on or before 5 April 2009. Information so obtained may, in certain

circumstances, be exchanged by HMRC with the tax authorities of the jurisdiction in which the Noteholder is resident for tax purposes.

LUXEMBOURG TAXATION

The following summary is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Taxation of the holders of Notes

Withholding Tax

(i) Non-resident holders of Notes

Under Luxembourg general tax laws currently in force and subject to the laws of 21 June 2005 (the **Laws**) mentioned below, there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Notes held by non-resident holders of Notes.

Under the Laws implementing the Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the **Territories**), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity, as defined by the Laws, which are resident of, or established in, an EU Member State (other than Luxembourg) or one of the Territories will be subject to a withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her/its country of residence or establishment, or, in the case of an individual beneficial owner, has provided a tax certificate issued by the fiscal authorities of his/her country of residence in the required format to the relevant paying agent. Where withholding tax is applied, it has been levied at a rate of 15 per cent. during the first three-year period starting 1 July 2005, it is currently levied at a rate of 20 per cent. and at a rate of 35 per cent. as of 1 July 2011. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under Notes coming within the scope of the Laws would at present be subject to withholding tax of 20 per cent.

(ii) Resident holders of Notes

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005 (the **Law**) mentioned below, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Notes held by Luxembourg resident holders of Notes.

Under the Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the benefit of an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 10 per cent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent.

Payments of interest under Notes coming within the scope of the Law would be subject to withholding tax of 10 per cent.

AUSTRALIAN TAXATION

The following is a summary of the Australian withholding taxation treatment at the date of this Base Prospectus of payments on Notes to be issued by the Issuer and certain other matters. The summary does not deal with other Australian tax aspects of acquiring, holding or disposing of the Notes. It is a general guide and should be treated with appropriate caution. Prospective holders of Notes who are in any doubt as to their tax position should consult their professional advisers on the tax implications of an investment in the Notes for their particular circumstances.

Interest withholding tax

So long as the Issuer continues to be a non-resident of Australia and the Notes (including, without limitation, Australian Domestic Notes) issued by it are not attributable to a permanent establishment of the Issuer in Australia, payments of principal and interest made under Notes issued by it should not be subject to Australian interest withholding tax.

So long as the Guarantor continues to be a non-resident of Australia and the Deed of Guarantee is not attributable to a permanent establishment of the Guarantor in Australia, any payment by the Guarantor under the Deed of Guarantee should not be subject to Australian interest withholding tax.

Other tax matters

Under Australian laws as presently in effect:

- (a) *death duties* - no Notes will be subject to death, estate or succession duties imposed by Australia, or by any political subdivision or authority therein having power to tax, if held at the time of death; and
- (b) *stamp duty and other taxes* - no ad valorem stamp, issue, registration or similar taxes are payable in Australia on the issue or transfer of any Notes; and
- (c) *other withholding taxes on payments in respect of Notes* - so long as the Issuer continues to be a non-resident of Australia and does not carry on business at or through a permanent establishment in Australia, the tax file number requirements of Part VA of the Australian Income Tax Assessment Act 1936 and section 12-140 of Schedule 1 to the Taxation Administration Act 1953 of Australia (**Taxation Administration Act**) should not apply in connection with Notes issued by the Issuer; and
- (d) *supply withholding tax* - payments in respect of the Notes can be made free and clear of the "supply withholding tax" imposed under section 12-190 of Schedule 1 to the Taxation Administration Act; and
- (e) *goods and services tax (GST)* - neither the issue nor receipt of the Notes will give rise to a liability for GST in Australia on the basis that the supply of Notes will comprise either an input taxed financial supply or (in the case of an offshore subscriber) a GST-free supply. Furthermore, neither the payment of principal or interest by the Issuer, nor the disposal of the Notes, would give rise to any GST liability in Australia.

Taxation of Financial Arrangements

On 20 September 2007, the Tax Laws Amendment (Taxation of Financial Arrangements) Bill 2007 (**TOFA Bill**) was introduced into Parliament. As a result of the Australian Federal election being called, Parliament was prorogued and the Parliament dissolved on 15 October 2007. All bills before Parliament at that time (including TOFA Bill) lapsed. The TOFA Bill will need to be monitored, as it is expected that the TOFA Bill will be revived. Accordingly, the comments below are general observations only and would be relevant if the TOFA Bill were re-introduced to Parliament and passed in its previous form.

The TOFA Bill contained new rules which, if enacted in their previous form, would represent a new code for the taxation of receipts and payments in relation to financial arrangements. The proposed new rules contemplated a number of different methods for bringing to account gains and losses in relation to "financial arrangements" (including fair value, accruals, retranslation, realisation, hedging and financial records).

The TOFA Bill indicated that the proposed new rules were to apply as from the commencement of the first tax year beginning on or after 1 July 2009 (although taxpayers were able to make an election to apply the proposed new rules for the tax year commencing on or after 1 July 2008 if they wished to do so). Further, the proposed new rules were not to apply to "financial arrangements" which were current as at the commencement date. In relation to current "financial arrangements" at that time, taxpayers could elect to apply the proposed new rules, but certain tax adjustments were required if such an election were made.

The TOFA Bill did not contain any indication as to how (if at all) the proposed rules were to relate to the imposition of Australian interest withholding tax. However there was nothing which suggested that the new rules would apply in a manner which would impose interest or other withholding taxes on payments in respect of the Notes issued by the Issuer.

BELGIAN TAXATION

Set out below is a summary of certain Belgian tax consequences of acquiring, holding and selling Notes. This summary is not intended to be an exhaustive description of all relevant Belgian tax considerations and investors should consult their own tax advisors regarding such considerations in relation to their own particular circumstances. The description of certain taxes in the Kingdom of Belgium (**Belgium**) set out below is for general information only and does not purport to be comprehensive.

This summary is based on current legislation, published case law and other published guidelines and regulations as in force at the date of this document and remains subject to any future amendments, which may or may not have retroactive effect.

Belgian income tax

For Belgian tax purposes, interest income includes any interest paid on Notes as well as the difference between the redemption amount of the relevant Note and its original issue amount.

– Belgian resident individuals

For individuals subject to Belgian personal income tax, and who are not holding Notes as a professional investment, all interest payments (as defined in the Belgian Income Tax Code) will be subject to the tax regime described below.

If interest is paid through a Belgian intermediary, such intermediary must (subject to certain exceptions) levy Belgian withholding tax. The current applicable withholding tax rate is 15 per cent. This withholding tax will be the final tax for the individual. The interest income does not have to be declared in the recipient's annual income tax return.

If no Belgian intermediary is involved in the interest payment, the investor must declare this interest as income in his or her personal income tax return. Such income will, in principle, be taxed separately, currently at a rate of 15 per cent. (plus the applicable local surcharge).

Any capital gain upon a sale of Notes to a party other than the Issuer, provided it is not allocated to the professional activity of the individual, is in principle tax exempt (unless the tax authorities can prove that the capital gain does not result from the normal management of the individual's private estate, in which case the capital gains will be taxed at a flat rate of 33 per cent. to be increased with local surcharges). The part of the

sale price attributable to the *pro rata* interest component (if any) is taxable as interest income. Capital losses on Notes are not usually deductible.

– Belgian companies

Interest paid through an intermediary established in Belgium to a Belgian company subject to corporate income tax will generally be subject to Belgian withholding tax. However, an exemption may apply PROVIDED THAT certain formalities are complied with. The current applicable withholding tax rate is 15 per cent. For Belgian companies, the withholding tax is not the final tax, they need to declare the interest income in their annual income tax return, where it is taxed at the normal corporate income tax rate of 33.99 per cent. Belgian companies are, in principle, entitled to set off Belgian withholding tax against their corporate income tax liability provided certain conditions are fulfilled. However, the Belgian withholding tax may only be credited to the extent the Belgian resident company has kept the full legal ownership of the relevant Notes during the period to which the interest payments relate. Any excess withholding tax is refundable.

In specific cases and subject to conditions, an exemption from withholding tax may be available. This should be further analysed with tax consultants.

For any Belgian company subject to Belgian corporate income tax, all interest and any gain on a sale of Notes will form part of that company's taxable basis. Losses on Notes are, in principle, tax deductible.

– Other Belgian legal entities subject to the legal entities income tax

For other Belgian legal entities subject to the legal entities income tax, all interest payments (as defined by the Belgian Income Tax Code) will (subject to certain exceptions) be subject to withholding tax, currently at a rate of 15 per cent.

If interest is paid through a Belgian intermediary, such intermediary must levy withholding tax, currently at the rate of 15 per cent. This withholding tax is a final tax. If no Belgian intermediary is involved, the withholding tax must be declared and paid by the legal entity itself.

Any capital gain on a sale of Notes will, in principle, be tax exempt, except for that part of the sale price attributable to the *pro rata* interest component. Such interest is subject to withholding tax, currently at the rate of 15 per cent. This withholding tax must be paid by the legal entity itself, unless it can demonstrate that the withholding tax will be paid at maturity.

Capital losses on Notes are (subject to certain exceptions) not tax deductible.

Tax on stock exchange transactions

The acquisition of Notes upon their issuance is not subject to the tax on stock exchange transactions.

The sale and acquisition of Notes on the secondary market is subject to a tax on stock exchange transactions if executed in Belgium through a professional intermediary. The tax is generally due at a rate of 0.07 per cent. on each sale and acquisition separately, with a maximum of EUR500.00 per taxable transaction. Exemptions may apply for certain categories of institutional investors and non-residents.

CZECH TAXATION

General

The information set out below is only a summarized description of certain material Czech tax consequences of the purchase, holding and disposition of Notes and it does not purport to be a complete analysis of all Czech tax considerations that may be relevant to a decision to purchase, hold or dispose of Notes. This

summary does not take into account or discuss the tax laws of any country other than the Czech Republic nor does it take into account specific double taxation treaties. Moreover, neither the individual circumstances, financial situation nor investment objectives of any prospective investor in Notes are taken into account for the purposes of this summary. Unless provided otherwise, the information set out below describes only certain material Czech tax consequences for beneficial holders of Notes who are residents for tax purposes in the Czech Republic and do not have any permanent establishment outside the Czech Republic with which the Notes are effectively connected (**Czech Holders**). Please note that this summary does not address tax considerations applicable to investors that may be subject to special tax or accounting rules.

This summary is based on the tax laws of the Czech Republic as in effect on the date of this Base Prospectus and their prevailing interpretations available on or before such date. All of the foregoing is subject to change, which could apply retroactively and could affect the continued validity of this summary.

As it is a general summary only, the holders of Notes should consult their own tax advisors as to the consequences under the tax laws of the country of which they are residents for tax purposes and the tax laws of the Czech Republic concerning the purchase, holding and disposition of Notes and receiving payments of interest, principal and/or other payments under Notes, including, in particular, the application to their concrete situation of the tax considerations discussed below as well as the application of the state, local, foreign or other tax laws.

Income tax

Under Czech tax law, non-Czech sourced interest on Notes received by the Czech Holders who are individuals will generally be subject to personal income tax at a flat rate of 15 per cent. (12.5 per cent. effective from 2009). In the case of the Czech Holders who are persons other than individuals non-Czech sourced interest income will generally be subject to corporate income tax at a rate of 21 per cent. (20 per cent. and 19 per cent. effective from 2009 and 2010 respectively).

Czech Holders who are subject to Czech accounting standards for entrepreneurs (e.g. most companies other than financial institutions and certain individuals engaged in active business) or to Czech accounting standards for financial institutions will be required to recognize interest income on an accrual basis for accounting and tax purposes.

Unless exempt from tax, any gains derived by the Czech Holders upon a sale of Notes will generally be taxable at the same rates as stated above. The tax deductibility of losses incurred upon the sale of Notes will depend on the particular circumstances of the Czech Holders.

However, gains derived by the Czech Holders who are individuals from the sale of Notes will be exempt from Czech personal income tax PROVIDED THAT (i) the holding period of the relevant Notes upon their sale exceeds six months; (ii) the total participation (both direct and indirect) held by the Czech Holders in the registered capital and voting rights of the Issuer has not exceed 5 per cent. in the period of 24 months preceding the sale; and (iii) the relevant Notes have not formed part of the business property of the Czech Holders.

Value-Added Tax

There is no Czech value added tax payable in respect of payments in consideration for the issue of Notes, or in respect of the payment of interest or principal under Notes, or in respect of the transfer of Notes.

Other Taxes or Duties

No registration tax, capital tax, custom duty, transfer tax, stamp duty or any other similar tax or duty is payable in the Czech Republic by a Czech Holder in respect of or in connection with the purchase, holding or disposition of Notes.

Securing tax

In general, pursuant to the Czech tax law, Czech Holders are required, under their own responsibility, to withhold and to remit to Czech tax authorities a 1 per cent. securing tax from the purchase price when purchasing investment instruments, such as Notes, from a seller who is resident for tax purposes outside the European Union or the European Economic Area. Nevertheless, this obligation can be eliminated under the double taxation treaty concluded between the Czech Republic and the country in which the person selling Notes is tax resident.

DUTCH TAXATION

General

The following summary describes the principal Netherlands tax consequences of the acquisition, holding, settlement, redemption and disposal of Notes, but does not purport to be a comprehensive description of all Netherlands tax considerations thereof. This summary is intended as general information only for holders of Notes who are residents or deemed residents of the Netherlands for Netherlands tax purposes. Each prospective investor should consult a professional tax adviser with respect to the tax consequences of an investment in Notes.

This summary is based on the tax legislation, published case law, treaties, regulations and published policy, in force as of the date of this Prospectus, though it does not take into account any developments or amendments thereof after that date whether or not such developments or amendments have retroactive effect.

This summary does not address the Netherlands tax consequences for:

- (i) holders of Notes holding a substantial interest (*aanmerkelijk belang*) in the Issuer. Generally speaking, a holder of Notes holds a substantial interest in the Issuer, if such holder of Notes, alone or, where such holder is an individual, together with his or her partner (statutory defined term) or certain other related persons, directly or indirectly, holds (i) an interest of 5 per cent. or more of the total issued capital of the Issuer or of 5 per cent. or more of the issued capital of a certain class of shares of the Issuer, (ii) rights to acquire, directly or indirectly, such interest or (iii) certain profit sharing rights in the Issuer;
- (ii) investment institutions (*fiscale beleggingsinstellingen*) and exempt investment institution (*vrijgestelde fiscale beleggingsinstellingen*); and
- (iii) pension funds or other entities that are exempt from Netherlands corporate income tax.

For the purpose of the Netherlands tax consequences described herein, it is assumed that the Issuer is neither a resident nor deemed to be a resident of the Netherlands for Netherlands tax purposes.

Netherlands Withholding tax

All payments made by the Issuer under Notes may be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein.

Netherlands Corporate and individual income tax

If a holder is resident or deemed to be resident of the Netherlands for Netherlands tax purposes and is fully subject to Netherlands corporate income tax or is only subject to Netherlands corporate income tax in respect of its enterprise to which Notes are attributable, income derived from Notes and gains realised upon the

redemption, settlement or disposal of Notes are generally taxable in the Netherlands (up to a maximum rate of 25.5 per cent.).

If an individual holder is resident or deemed to be resident of the Netherlands for Netherlands tax purposes (including the individual holder who has opted to be taxed as a resident of the Netherlands), income derived from Notes and gains realised upon the redemption, settlement or disposal of Notes are taxable at the progressive rates of the Netherlands income tax act 2001 (up to a maximum rate of 52 per cent.), if:

- (i) the holder has an enterprise or an interest in an enterprise, to which enterprise Notes are attributable; or
- (ii) such income or gains qualify as income from miscellaneous activities (*resultaat uit overige werkzaamheden*), which include the performance of activities with respect to Notes that exceed regular, active portfolio management (*normaal, actief vermogensbeheer*).

If neither condition (i) nor condition (ii) applies to the holder of the relevant Notes, taxable income with regard to Notes must be determined on the basis of a deemed return on income from savings and investments (*sparen en beleggen*), rather than on the basis of income actually received or gains actually realised. At present, this deemed return on income from savings and investments has been fixed at a rate of 4 per cent. of the average of the individual's yield basis (*rendementsgrondslag*) at the beginning of the calendar year and the individual's yield basis at the end of the calendar year, insofar as the average exceeds a certain threshold. The average of the individual's yield basis is determined as the fair market value of certain qualifying assets held by the holder of Notes less the fair market value of certain qualifying liabilities on 1 January and 31 December, divided by two. The fair market value of Notes will be included as an asset in the individual's yield basis. The deemed return on income from savings and investments of 4 per cent. will be taxed at a rate of 30 per cent.

Netherlands Gift and Inheritance taxes

Generally, gift and inheritance taxes will be due in the Netherlands in respect of the acquisition of Notes by way of a gift by, or on the death of, a holder that is a resident or deemed to be a resident of the Netherlands for the purposes of Netherlands gift and inheritance tax at the time of the gift or his or her death.

A holder of the Netherlands nationality is deemed to be a resident of the Netherlands for the purposes of the Netherlands gift and inheritance tax, if he or she has been resident in the Netherlands during the ten years preceding the gift or his or her death. A holder of any other nationality is deemed to be a resident of the Netherlands for the purposes of the Netherlands gift tax if he or she has been resident in the Netherlands at any time during the twelve months preceding the time of the gift. The same twelve-month rule may apply to entities that have transferred their seat of residence out of the Netherlands.

Netherlands Value added tax

In general, no value added tax will arise in respect of payments in consideration for the issue of Notes or in respect of the cash payment made under Notes, or in respect of a transfer of Notes.

Other Netherlands taxes and duties

No registration tax, customs duty, transfer tax, stamp duty or any other similar documentary tax or duty, will be payable in the Netherlands by a holder in respect of or in connection with the subscription, issue, placement, allotment, delivery or transfer of Notes.

GERMAN TAXATION

The following is a general discussion of certain German tax consequences of the acquisition and ownership of Notes. It does not purport to be a comprehensive description of all tax considerations, which may be relevant to a decision to purchase Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the laws of Germany currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

Prospective purchasers of Notes are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposition of Notes, including the effect of any state or local taxes, under the tax laws of Germany and each country of which they are residents.

Tax treatment until 31 December 2008

Tax Residents

Interest/Capital gains

Payments of interest on Notes, including interest having accrued up to the disposition of a Note and credited separately (**Accrued Interest**), if any, to persons who are tax residents of Germany (i.e., persons whose residence, habitual abode, statutory seat, or place of effective management and control is located in Germany) are subject to German personal or corporate income tax (plus solidarity surcharge (*Solidarit tszuschlag*) at a rate of 5.5 per cent. thereon). Such interest may also be subject to trade tax if Notes form part of the property of a German trade or business. Accrued Interest paid upon the acquisition of a Note may give rise to negative income if such Note is held as a non-business asset.

Upon the disposition, assignment or redemption of a Note a holder holding such Note as a non-business asset will have to include in his taxable income further amounts if such Note can be classified as a financial innovation (*Finanzinnovation*) under German tax law (e.g. Zero Coupon Notes, Floating Rate Notes, discounted Notes, provided the discount exceeds certain thresholds). In this case, generally the difference between the proceeds from the disposition, assignment or redemption and the issue or purchase price is deemed to constitute interest income subject to income tax (plus the solidarity surcharge) in the year of the disposition, assignment or maturity of such Note (*Differenzmethode*). If the fiscal authorities, based on the information provided by the relevant Noteholder, can determine that such difference exceeds the difference between the redemption amount and the issue price of such Note to the extent attributable to the period over which the relevant Noteholder has held such Instrument, PROVIDED THAT such Note is based on an identifiable yield to maturity (pro-rated yield, *Emissionsrendite*), they will have to calculate the tax base according to the pro rated yield method.

Where a Note forms part of the property of a German trade or business, each year the part of the difference between the issue price of such Note and its redemption amount attributable to such year as well as interest accrued must be taken into account as interest income and may also be subject to trade tax.

Capital gains from the disposition of Notes, other than income described in the second paragraph above, are only taxable to a German tax-resident individual if such Notes are disposed of within one year after their acquisition (so-called private disposals within the meaning of Sec. 23 German Income Tax Act, *Einkommensteuergesetz*) or form part of the property of a German trade or business, in which case the capital gains may also be subject to trade tax. Capital gains derived by German-resident corporate Noteholders will be subject to corporate income tax (plus solidarity surcharge at a rate of 5.5 per cent. thereon) and trade tax.

Application of the tax provisions of the German Investment Tax Act

The application of the German Investment Tax Act (*Investmentsteuergesetz*) requires the holding of an interest in an investment fund (*Investmentanteile*). According to a tax decree of the German tax administration dated 2 June 2005 (BMF, IV C 1 – S 1980 - 1 - 87/05) concerning the application of the German Investment Tax Act in the case of foreign investment funds, an interest requires that between the holder and the legal entity owning the foreign fund assets a direct legal relationship exists which, however, must not be akin to a membership-like relationship. According to the tax decree a security being issued by a third party and only reflecting the economic results of a foreign investment fund or several foreign investment funds (e.g. a Note) will not be regarded as a unit in a foreign investment fund. In certain cases, e.g. if a security provides for a physical delivery of interests in funds, the Investment Tax Act may apply, in which case investors may be subject to tax on deemed profits. Furthermore, following the physical delivery of interests in entities which qualify as foreign investment funds the holder of such instruments would be subject to the provisions of the Investment Tax Act as well.

Due to an amendment to the German Investment Act as per 29 December 2007, which is relevant for the German Investment Tax Act as well, the definition "foreign investment fund interest" has been amended and is now basically confined to redeemable interests (i.e. the holder of the interest may demand the redemption of the interest against a *pro rata* share of the fund) of open-ended investment funds or closed-end funds, provided the latter are subjected to the supervision of a financial supervisory authority for collective investments. However, it is unclear at the date hereof how exactly the new "foreign investment fund interest" has to be interpreted and whether the provisions or, respectively, exceptions of the tax decree of the German tax administration dated 2 June 2005 can still be applied as described above.

Withholding Tax

If Notes are held in a custodial account which the relevant Noteholder maintains with a German branch of a German or non-German bank or financial services institution (the **Disbursing Agent**) a 30 per cent. withholding tax on interest payments (*Zinsabschlag*), plus 5.5 per cent. solidarity surcharge on such tax, will be levied, resulting in a total tax charge of 31.65 per cent. of the gross interest payment. Withholding tax on interest is also imposed on Accrued Interest. If Notes qualify as financial innovations, as explained above, and are kept in a custodial account which the Noteholder maintains with a Disbursing Agent such custodian will generally withhold tax at a rate of 30 per cent. (plus solidarity surcharge at a rate of 5.5 per cent. thereon) from the positive difference between the redemption amount or proceeds from the disposition or assignment and the issue or purchase price of such Notes if such Notes have been kept in a custodial account with such Disbursing Agent since the time of issuance or acquisition, respectively.

In computing the tax to be withheld the Disbursing Agent may deduct from the basis of the withholding tax any Accrued Interest paid by the relevant Noteholder to the Disbursing Agent during the same calendar year. In general, no withholding tax will be levied if the holder of an Instrument is an individual (i) whose Instrument does not form part of the property of a German trade or business nor gives rise to income from the letting and leasing of property; and (ii) who filed a withholding exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent but only to the extent the interest income derived from the relevant Note together with other investment income does not exceed the maximum exemption amount shown on the withholding exemption certificate. Similarly, no withholding tax will be deducted if the relevant Noteholder has submitted to the Disbursing Agent a certificate of non-assessment (*Nichtveranlagungsbescheinigung*) issued by the relevant local tax office.

If Notes are not kept in a custodial account with a Disbursing Agent, withholding tax will apply at a rate of 35 per cent. of the gross amount of interest paid by a Disbursing Agent upon presentation of a coupon (whether or not presented with the Note to which it appertains) to a holder of such coupon (other than a non-German bank or financial services institution). In this case proceeds from the disposition, assignment or redemption of a Coupon, and if the relevant Notes qualify as financial innovations, 30 per cent. of the

proceeds from the disposition, assignment or redemption of such Note, will also be subject to withholding tax at a rate of 35 per cent. Where the 35 per cent. withholding tax applies Accrued Interest paid cannot be taken into account in determining the withholding tax base.

At present, the Issuer (as issuer of Notes) is under no statutory obligation in the Federal Republic of Germany to withhold or deduct any taxes or other duties of any kind imposed on the principal of, and/or ongoing payments (if any) payable on, Notes and/or gains from the disposition, redemption or settlement of Notes (withholding tax).

Non-residents

Interest, including Accrued Interest, and capital gains are not subject to German taxation, unless (i) the relevant Notes form part of the business property of a permanent establishment, including a permanent representative, or a fixed base maintained in Germany by the relevant Noteholder; or (ii) the interest income otherwise constitutes German-source income. In the latter case a tax regime similar to that explained above under "*Tax Residents*" applies. Capital gains from the disposition of Notes, other than proceeds from their sale or redemption re-characterized as interest income for German tax purposes (as explained above under "*Tax Residents*"), are, however, only taxable in the case of (i) above.

Non-residents of Germany are, in general, exempt from German withholding tax on interest and the solidarity surcharge thereon. However, where the interest is subject to German taxation as set forth in the preceding paragraph, withholding tax is levied as explained above under "*Tax Residents*". The withholding tax may be refunded based upon an applicable tax treaty.

Special rules for Notes linked to the performance of an underlying

Tax Residents

Interest/Capital gains

Persons who are tax residents of Germany are taxed differently depending on whether Notes are held as a private asset (*Privatvermögen*) or as a business assets (*Betriebsvermögen*).

Taxation if Notes are held as a private asset

Income from capital investments (Einkünfte aus Kapitalvermögen)

According to Section 20 para 1 no. 7 of the German Income Tax Act income from capital investment is subject to income tax, if according to the terms of the respective financial instrument a repayment of the investment to the investor is promised or granted or interest payments are promised or granted, even if the amount of the interest owed to the investor depends upon an uncertain event.

According to a circular of the Federal Ministry of Finance dated 27 November, 2001 (BMF IV C 3 -S 2256 – 265/01) an investor investing in an index certificate (as defined therein), where the index consists of shares, is not subject to tax with his income derived from such an investment due to an increase of the underlying index, if any payments to the investor with regard to the investment depend entirely upon the (uncertain) movement of the underlying index.

However, according to the German tax administration such financial instruments generate taxable interest income according to Section 20 para 1 no. 7 German Income Tax Act, if without an explicit or implicit agreement the repayment of the invested capital or the payment of a consideration is ensured due to the economic terms of the financial instrument.

With regard to the repayment amount of an issue of Notes, a specific limit amount cannot be quantified. In fact, any guaranteed repayment is sufficient. In this case, payments under such Notes (**taxable notes**) would be subject to German income tax and solidarity surcharge and a German withholding tax would fall due at a rate of 30 per cent. (plus solidarity surcharge thereon at a rate of 5.5 per cent.).

However, the German Supreme Tax Court decided on 4 December 2007 (BFH VIII R 53/05) with respect to a disposal of a partial guaranteed index certificate that only the capital gain relating to the minimum guaranteed redemption amount has to be qualified as taxable income from a financial innovation. However, according to a circular of the Federal Ministry of Finance dated 17 June 2008 (BMF IV C 1 - S 2252 / 07 / 0002) the court decision, for reasons of simplification, shall not apply with respect to the levy of the withholding tax.

If Notes can be qualified as a financial innovation under German tax law, besides interest, capital gains also become subject to tax and the taxable capital gain may exceed the capital gain actually generated.

If Notes qualify as financial innovations and are sold before maturity or are redeemed at maturity, individuals are subject to tax on the part of sale proceeds or redemption amount which corresponds with the yield attributable to the holding period of the relevant holder of such Notes reduced by the interest, which has already been subject to income tax (plus solidarity surcharge). If there is no yield under such Notes or if the holder of such Notes is not able to bring evidence concerning such yield, the difference between the proceeds from sale, assignment or redemption and the issue or purchase price is subject to income tax (plus solidarity surcharge) in the year of sale, assignment or maturity of such Notes.

Application of the tax provisions of the German Investment Tax Act

With respect to the application of the Investment Tax Act the statements above with respect to Notes in general (please see above under "*Application of the tax provisions of the German Investment Tax Act*"), apply analogously to Notes linked to the performance of an underlying.

Private disposals, Sec. 23 German Income Tax Act

If the Investor sells a Note within one year after acquisition of such Note, capital gains therefrom will be subject to income tax (plus solidarity surcharge thereon). Investors holding Notes among their private assets will not be able to use capital losses from the sale or redemption of such Notes after a holding period of one year to set off taxable capital gains from other assets; capital losses suffered within the one-year-holding period may only be offset against gains from other private disposals within the meaning of sec. 23 German Income Tax Act.

Particular tax consequences may arise if a taxable note can be qualified as a financial innovation under German tax law. In this case, besides interest, capital gains also become subject to tax and the taxable capital gain may exceed the actually received capital gain.

Taxation if Notes are held as business assets

In case of tax resident corporations or individual investors holding Notes as business assets, capital gains from a disposal or redemption of Notes will be subject to corporate income tax or income tax, as the case may be, (each plus solidarity surcharge) and trade tax regardless of whether or not such Notes are sold or redeemed within one year after acquisition.

If instead of a cash-settlement at maturity of a Note, a physical delivery of bonds, shares or interests in funds takes place, such delivery would be regarded as a taxable sale of such Note and the according capital gain will be subject to corporate income tax or income tax, as the case may be, (each plus solidarity surcharge) and trade tax.

Withholding tax and solidarity surcharge thereon are credited as prepayments against the German personal income tax liability (or corporate income tax liability, as the case may be) and the solidarity surcharge.

With respect to the application of the Investment Tax Act please see section (a) (iii) above.

Tax treatment from 1 January 2009 onwards/ Introduction of a flat tax (Abgeltungsteuer) on Investment Income and Private Capital Gains

Tax Residents

Interest/ Capital Gains

In the course of the Company Tax Reform Act 2008 (*Unternehmensteuerreformgesetz 2008*), *inter alia*, a flat tax at a rate of 25 per cent. (plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax) on investment income (e.g. interest income with respect to Notes) and private capital gains has been introduced. The flat tax regime will take effect from 1 January 2009. The flat tax will, in principle, be levied as a withholding tax on the basis of the gross amount of investment income and private capital gains, i.e. expenses related to such income – except for a standard lump sum (*Sparer-Pauschbetrag*) of EUR801 (EUR1.602 for married couples) – will not be deductible. The flat tax will satisfy any income tax liability of the investor in respect of such investment income or private capital gains. However, a taxpayer will be able to apply for a tax assessment if his or her personal income tax rate is lower than the flat tax rate.

According to the flat tax regime losses from the sale or redemption of securities (such as Notes) can only be set-off against other investment income including capital gains. Special rules apply to losses from the sale of company shares which can only be set-off against capital gains from the sale of other company shares. If the set-off is not possible in the assessment period in which the losses have been realized, such losses can be carried forward into future assessment periods only and can be set-off against investment income and capital gains (in case of Notes) or capital gains (in case of shares) generated in these future assessment periods. Capital losses suffered prior to 1 January 2009 can only be set-off against capital gains under the new law until 31 December 2013.

The flat tax will apply to current investment income received on and after 1 January 2009 and to capital gains/losses from the disposal of securities held as non-business assets, irrespective of any holding period, PROVIDED THAT the gains/losses are generated after 31 December 2008. However, the flat tax will only be imposed on private capital gains/losses from assets acquired after 31 December 2008, unless the assets were to qualify as financial innovations. In this case the new tax regime will be applicable to private capital gains/losses from a disposal or redemption after 31 December 2008, even if the assets were acquired prior to 1 January 2009. According to the draft of the Annual Tax Act 2009 dated 28 April 2008, assets also have to be qualified as financial innovations if the redemption of the invested capital is partly guaranteed or if a separation of the levels of income and principal seems to be possible. The flat tax regime will also apply to private gains/losses regarding certain structured notes (such as certain Notes) if the structured notes are acquired directly by an individual prior to 1 January 2009 but after 14 March 2007, PROVIDED THAT the gains/losses are realized after 30 June 2009 and after a holding period of more than one year (otherwise the tax regime applicable until 31 December 2008 is authoritative).

Withholding

If Notes are held in custody with or are administrated by a German credit institution, financial services institution (including a German permanent establishment of such foreign institution), securities trading company or securities trading bank (the **Disbursing Agent** as amended by the Company Tax Reform Act 2008), the flat tax will be withheld by the Disbursing Agent upon interest payments, sale or redemption of such Notes. The withholding will be applied to investment income and capital gains from Notes held as private and Notes held as business assets. The term Disbursing Agent may also include the Issuer if acting as

Disbursing Agent. No gross-up for any German tax withheld will be available under Condition 7 of the General Conditions of the Notes.

However, an exemption from the withholding tax applies to corporations for certain capital investment income. The flat tax is imposed on the interest payments and the excess of the proceeds from the sale or redemption over the purchase price paid for the relevant Notes, the latter if the relevant Notes were held in custody by the Disbursing Agent since their acquisition. The Disbursing Agent will provide for the set-off of losses with current investment income and capital gains from other securities. As regards losses from the sale of company shares a set-off will only be effected with capital gains from the sale of other shares. A holder of Notes generally does not have to file a personal tax return in order to obtain such set-off.

If custody has changed since the acquisition and the acquisition data is not proved, the tax rate of 25 per cent. (plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax) will be imposed on an amount equal to 30 per cent. of the proceeds from the sale or redemption of the relevant Notes. In general, no flat tax will be levied if the holder of a Note filed a withholding exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent (in the maximum amount of the standard lump sum of EUR801 (EUR1,602 for married couples)) to the extent the income does not exceed the maximum exemption amount shown on the withholding exemption certificate.

Income not subject to the withholding flat tax (e.g. since there is no Disbursing Agent) will be subject to the flat tax rate of 25 per cent. (plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax) upon assessment.

Notes held as business assets

In case of tax resident corporations or individual investors holding Notes as business assets, the flat tax regime only apply to the extent described above under "*Tax treatment from 1 January 2009*", "*Withholding*". Apart from that, the tax treatment remains in principle as described above under "*Tax treatment until 31 December 2008*".

Non-residents

The taxation of non-resident holders of a Note remains – with exceptions with respect to the enlargement of the scope of investment income and capital gains – in principle unchanged in comparison to the tax regime applicable until 31 December 2008 (see "*Tax treatment until 31 December 2008*", "*Non-residents*" above).

Inheritance and Gift Tax

No inheritance or gift taxes with respect to any Note will arise under the laws of Germany, if, in the case of inheritance tax, neither the decedent nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Note is not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German expatriates.

Other Taxes

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of Notes. Currently, net assets tax is not levied in Germany.

European Directive on the Taxation of Savings Income

Germany has implemented the EU Council Directive (2003/48/EC) into national legislation by means of an Interest Information Regulation (*Zinsinformationsverordnung*, ZIV) in 2004. The German Regulation follows the wording of the Directive very closely. Because the German Government interpreted the term

"interest" broadly interest income also includes income from financial instruments, which qualify as interest income under German tax law. Additionally the total amount of the proceeds from sale and redemption of such financial instruments will be reported. Starting on 1 July 2005, Germany has therefore begun to communicate all payments of interest on Notes, including Notes which qualify as financial instruments, to the beneficial owners Member State of residence if the instruments have been kept in a custodial account with a Disbursing Agent.

GREEK TAXATION

The following summary describes the principal Greek taxation consequences of the subscription, holding, redemption and disposal of the Notes by tax residents in the Hellenic Republic (**Greece**) or investors otherwise subject to Greek taxation (due to a permanent establishment in Greece) (for the purposes of this summary, the **Greek Investors**), but does not purport to be a comprehensive description of all Greek taxation consideration thereof.

As a general remark, Greek tax laws are very volatile and may be amended or interpreted differently from their current interpretation and application anytime and more than once during the life of an issue of Notes. This summary is based on the tax legislation, published case law, ministerial decisions and other regulatory acts of the respective Greek authorities as in force at the date of this Base Prospectus and does not take into account any developments or amendments thereof after that date whether or not such developments or amendments have retroactive effect.

This summary does not constitute a complete analysis and therefore, potential investors should consult their own tax advisers as to the tax consequences of such purchase, ownership and disposal by reference to the particular characteristics of each investor. There may be special tax laws and rates applicable to specific categories of investors (such as mutual funds and insurance companies), which are not dealt with by this summary. In addition, no reference is made to any credit or exemption mechanisms applying in the context of international treaties for the avoidance of double taxation.

For the purposes of this section, it is assumed that the Issuer is not a resident of Greece for Greek taxation purposes.

Furthermore, it is noted that the Greek tax legislation does not provide for specific rules for the tax treatment of combined instruments in terms of Notes, the performance of which is linked to the performance of an underlying asset, financial index or basket of assets. Depending on the features of the product in scope the Greek tax authorities might take the view that the income deriving from such Notes qualifies as derivatives or interest income subject to the respective rules. Taking into account that such Notes do not expressly fit any of the derivatives or debt notes classification criteria which are stipulated by the relevant Greek legislation, there can be no certainty as to the final decision of the tax authorities on this matter.

Treatment of Notes as Debt Securities

According to Greek Income Tax Code (**ITC**), interest payments deriving from debt securities issued by foreign entities, such as Notes issued under the Programme, shall be treated as types of financial income that are subject to a so-called "special or stand-alone taxation" (Art. 12 ITC), irrespective of whether the interest income is re-invested abroad or repatriated in Greece. Pursuant to this pay-as-you-earn taxation model (applying also to Greek corporate and government bonds), coupon payments shall be subject to a 10 per cent. special tax rate. Greek individuals are not entitled to deduct taxes withheld abroad for income which has been subject to such 10 per cent. special tax. Therefore, the 10 per cent. special tax shall apply only to the net coupons paid by the issuer.

Furthermore, interest income received by Greek corporate investors, shall also be subject to a 10 per cent. special tax whereas such rate has to be calculated on the gross coupon payment. The 10 per cent. special tax

shall be levied by the paying agent in Greece (or the Investor itself) and submitted to the Greek Tax Authorities within the first 15 days of the month following the month of the actual interest payment (Art. 60 (2) ITC). Furthermore, according to Greek tax legislation, the gross interest payments qualify as "foreign bond interest income" which therefore shall be calculated within the gross annual income of the Greek corporate investors, as primary figure for the determination of the taxable net profits and the computation of the final income tax liability (see Art. 105 (1) (b) in conjunction with Art. 24 (1) (b) ITC). However, any amounts paid under the 10 per cent. special tax regime may be deducted from the final income tax liability. In case of credit institutions and insurance companies, further special rules shall apply.

Treatment of the Notes as Derivatives

As indicated above, Greek law does not provide for a specific definition of a derivative transaction. With respect to the products that qualify for Greek tax purposes as derivatives, Ministerial Decisions POL, 1014/1997 and POL, 1084/1997 have so far been issued. The Decisions set out a list of products, which are qualified by law 2396/1996 and by the Act of Governor of the Bank of Greece 2054/1992, as being derivative products for tax purposes. Such derivative products are the following:

- futures;
- forward rate agreements;
- interest rate swaps, foreign exchange swaps, equity swaps;
- currency options, interest rate options;
- over the counter traded derivative products such as single currency interest rate swaps, basis swaps, forward rate agreements, interest rate futures, options, cross currency interest rate swaps, forward foreign exchange contracts, currency futures and other similar contracts;
- off balance sheet equity swaps;
- other similar products; and
- any other derivative products that are classified as such through an Act of the Governor of the Bank of Greece.

In order to conclude on whether a financial product other than those explicitly included in the above Ministerial Decisions qualifies as a derivative transaction for tax purposes, it has to be determined whether it could be accommodated in the general product categories mentioned above. According to explicit guidance of the Greek tax authorities, every doubt in connection with the nature of a product as a derivative product shall be settled by the Bank of Greece. The above list of products (or product combinations) indicates that the Greek tax lawmaker is oriented to an extensive definition of the derivatives income covering both on-exchange and OTC derivatives transactions.

If Notes are treated as derivatives, a special income tax will be withheld at the rate of 15 per cent. upon payment received by Greek individuals whereas no further taxation shall apply. On the other hand, in case of Greek corporate investors, income deriving from the Notes shall be treated as "commercial income" and be fully taxable as part of the annual gross income of such entities at a 25 per cent. corporate tax rate.

Capital Gains Tax

Depending on the characteristics of the investor, Notes may be subject to capital gains tax.

Transfer Tax - Stamp duty

The transfer of Notes by or to Greek Investors will not be subject to Greek transfer tax or stamp duty.

Inheritance Tax

Inheritance tax is payable in Greece in respect of Notes on the basis of a progressive system which depends on the degree of relationship between the deceased and the beneficiary.

HUNGARIAN TAXATION

The following is a general discussion of certain Hungarian tax consequences relating to the acquisition and ownership of Notes. It does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. It is based on laws currently in force in Hungary and applicable on the date of this Base Prospectus, but subject to change, possibly with retrospective effect. The acquisition of Notes by non-Hungarian holders, or the payment of interest under Notes may trigger additional tax payments in the country of residence of the relevant holder, which is not covered by this summary, but where the provisions of the treaties on the avoidance of double taxation should be taken into consideration. Prospective purchasers of Notes are advised to consult their own tax advisers as to the tax consequences of the purchase, ownership and disposition of Notes, including the effect of any state or local taxes, under the tax laws of Hungary and each country of which they are residents.

Withholding tax (foreign resident individual holders)

The payments of interest on and capital gains realised upon the redemption or sale of publicly offered and traded Notes (**Interest Income**) is taxed at 20 per cent. Notes listed on a regulated market of an EEA member state are considered publicly offered and traded Notes.

The proceeds paid on privately placed Notes which are not listed on a regulated market of an EEA member state is considered as other income (**Other Income**) which is taxable progressively (the highest tax rate is 36 per cent. and may be subject to a health care contribution of 11 per cent., as well). The capital gains realised on the sale or redemption of such Notes is considered, as a general rule, capital gains income (**Capital Gains Income**). The tax rate applicable to Capital Gains Income is 25 per cent. While health care contribution of 14 per cent. (capped at 450,000 Hungarian Forint (**HUF**)) may also be payable on the basis of Capital Gains Income.

Foreign resident individual holders are subject to tax in Hungary only if they realise Interest Income from Hungarian sources or income that is otherwise taxable in Hungary if the intentional treaty or reciprocity so requires. Interest Income should be treated as having a Hungarian source where:

- (a) the Issuer is resident in Hungary for tax purposes;
- (b) the Issuer has a permanent establishment in Hungary and Interest Income realised on the basis of the Notes is paid by the Hungarian permanent establishment of the Issuer;
- (c) the foreign resident individual holder has a permanent establishment in Hungary to which the Interest Income is attributable.

The tax on payments of the Interest Income is to be withheld by the "Payor" (kifizeto) (as defined below).

Pursuant to Act XCII of 2003 on the Rules of Taxation (**ART**) a **Payor** means a Hungarian resident legal person, organization, or private entrepreneur who provides taxable income, irrespective of whether such payment is made directly or through an intermediary (post office, credit institution). In respect of interest,

Payor shall mean the borrower of a loan or, the issuer of a note, including, the investment service provider or credit institution providing the interest instead of it. In respect of revenues originating from a transaction concluded with the involvement of a licensed stockbroker, **Payor** shall mean such stockbroker. The Hungarian permanent establishment of a foreign resident entity is also considered as a **Payor**.

Interest, as defined by Schedule 7 of the ART (which implements the provisions of the Saving Directive), realised on Notes by citizens of any other Member State of the European Union is not subject to Hungarian tax where a paying agent based in Hungary provides data to the Hungarian state tax authority on the basis of Schedule 7 of the ART.

A foreign resident individual holder who does not have a permanent establishment in Hungary is not subject to tax in Hungary if he realises Other Income or Capital Gains Income from Hungary since such income is not considered as Hungarian source income.

Please note that the provisions of applicable double tax conventions, if any, should be considered when assessing the Hungarian tax liabilities of a foreign resident individual holder.

Withholding tax (foreign resident corporate holders)

Interest on Notes paid to foreign resident corporate holders, who do not have a permanent establishment in Hungary, by resident legal entities or other persons and any capital gains realised by such foreign resident holders on the sale of Notes is not subject to tax in Hungary.

The tax liability of a foreign resident corporate holder, which has a permanent establishment in Hungary is limited, in general, to the income from business activities realised through its Hungarian permanent establishment.

Taxation of Hungarian resident individual holders

The Act CXVII of 1995 on Personal Income Tax (the **Personal Income Tax Act**) applies to the tax liability of Hungarian and foreign private individuals. The tax liability of Hungarian resident private individuals covers the worldwide income of such persons.

According to the provisions of the Personal Income Tax Act, in the case of individual holders, Interest Income is the income paid as interest and the capital gains realised upon the redemption or the sale of publicly offered and publicly traded debt securities. Notes listed on a regulated market of an EEA member state are considered publicly offered and traded Notes. The withholding tax on Interest Income is currently 20 per cent.

The proceeds paid on privately placed Notes which are not listed on a regulated market of an EEA member state are considered as Other Income which is taxable progressively (the highest tax rate is 36 per cent. and is subject to a health care contribution of 11 per cent., as well). The capital gains realised on the sale or redemption of such Notes is considered, as a general rule, Capital Gains Income. The tax rate applicable to Capital Gains Income is 25 per cent. While the rate of health care contribution payable on the basis of Capital Gains Income is 14 per cent. (capped at HUF450,000).

The rules of the Personal Income Tax Act may in certain circumstances impose a requirement upon the "Payor" (kifizeto) (as defined below) to withhold tax on the interest payments to individual holders.

Pursuant to the ART the definition of a **Payor** covers a Hungarian resident legal person, other organisation, or private entrepreneur that (who) provides taxable income, irrespective of whether such payment is made directly or through an intermediary (post office, credit institution). In respect of interest, **Payor** shall mean the borrower of a loan or the issuer of a note including, the investment service provider or credit institution providing the interest instead of it. In respect of revenues originating from a transaction concluded with the

involvement of a licensed stockbroker, **Payor** shall mean such stockbroker. In respect of income that is earned in a foreign country and taxable in Hungary, **Payor** shall mean the "paying agent" (*megbízott*) (legal person, organization, or private entrepreneur) having tax residency in Hungary, except in cases where the role of a financial institution is limited to performing the bank transfer or payment.

Taxation of Hungarian resident corporate holders

Under Act LXXXI of 1996 on Corporate Tax and Dividend Tax (the **Corporation Tax Act**), Hungarian resident taxpayers have a full, all-inclusive tax liability. In general, resident entities are those established under the laws of Hungary (i.e. having a Hungarian registered seat). Foreign persons having their place of management in Hungary are also considered as Hungarian resident taxpayers.

In general, interest and capital gains realised by Hungarian resident corporate holders on Notes will be taxable in the same way as the regular income of the relevant holders. The general corporation tax rate in Hungary is 16 per cent. 50 per cent. tax deduction may be obtained under certain conditions, in respect of capital gains realised on a regulated market.

According to the provisions of Act LIX of 2006 on the Extra Tax and Tax Payable on Interest Subsidies Received from Budgetary Sources Aimed to Enhance the Balance of the State Budget (the **Solidarity Tax Act**), a new tax (**Solidarity Tax**) was introduced from 1 September 2006 of 4 per cent., calculated on the basis of the pre-tax profit. The Solidarity Tax applies in general to corporate entities as determined by the Solidarity Tax Act.

Financial institutions, financial enterprises, insurance companies and investment enterprises may be subject to local business tax and innovation tax on the basis of the proceeds realised on Notes.

ITALIAN TAXATION

The statements herein regarding taxation are based on the laws in force in Italy as at the date of this Base Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers of Notes are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of Notes.

Tax treatment of Notes

Legislative Decree No. 239 of 1 April 1996, as subsequently amended, (the **Decree No. 239**) provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from notes falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) issued, *inter alia*, by non-Italian resident issuers.

Where Notes have an original maturity of at least 18 months and an Italian resident Noteholder is (i) an individual not engaged in an entrepreneurial activity to which the relevant Notes are connected (unless he has opted for the application of the *"risparmio gestito"* regime – see **Capital Gains Tax** below), (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, interest, premium and other income relating to Notes, accrued during the relevant holding period, are subject to a withholding tax, referred to as *"imposta sostitutiva"*, levied at the rate of 12.50 per cent. In the event that Noteholders described under (i) and (iii) above are engaged in an entrepreneurial activity to which the relevant Notes are connected, the *imposta sostitutiva* applies as a provisional tax.

Where an Italian resident Noteholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which Notes are effectively connected and such Notes are deposited with an authorised intermediary, interest, premium and other income from such Notes will not be subject to *imposta sostitutiva*, but must be included in the relevant Noteholder's income tax return and are therefore subject to general Italian corporate taxation (and, in certain circumstances, depending on the "status" of the Noteholder, also to IRAP - the regional tax on productive activities).

Under the current regime provided by Law Decree No. 351 of 25 September 2001 converted into law with amendments by Law No. 410 of 23 November 2001, as clarified by the Italian Ministry of Economics and Finance through Circular No. 47/E of 8 August 2003, payments of interest in respect of Notes made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 are subject neither to substitute tax nor to any other income tax in the hands of a real estate investment fund. However, a 1 per cent. property tax has been introduced by the Law Decree No. 112 of 25 June 2008, applying on real estate investment funds' net value (i) where the number of the unitholders is less than ten, or (ii) to funds reserved for institutional investors and speculative funds, whose units have been more than two-thirds held by individuals not in connection with the business activity. Investors should note that the Law Decree No. 112 has been converted into law by the Parliament and, as at the date hereof, is in the process of being published in the Italian Official Gazette.

If an investor is resident in Italy and is an open-ended or closed-ended investment fund (the **Fund**) or a SICAV, and the relevant Notes are held by an authorized intermediary, interest, premium and other income accrued during the holding period on such Notes will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund accrued at the end of each tax period, subject to an ad hoc substitute tax applicable at a 12.50 per cent. rate.

Where an Italian resident Noteholder is a pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) and Notes are deposited with an authorised intermediary, interest, premium and other income relating to such Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 11.00 per cent. substitute tax.

Pursuant to Decree No. 239, *imposta sostitutiva* is applied by banks, SIMs, fiduciary companies, SGRs, stockbrokers and other entities identified by a decree of the Ministry of Economics and Finance (each an **Intermediary**).

An Intermediary must (i) be resident in Italy or be a permanent establishment in Italy of a non-Italian resident financial intermediary and (ii) intervene, in any way, in the collection of interest or in the transfer of Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes or in a change of the Intermediary with which such Notes are deposited.

Where Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a Noteholder.

If Notes are issued for an original maturity of less than 18 months, the *imposta sostitutiva* applies at the rate of 27 per cent. The 27 per cent. *imposta sostitutiva* is also applied to any payment of interest or premium relating to such Notes made to (i) Italian pension funds, (ii) Italian Funds and (iii) Italian SICAVs.

Early Redemption

Without prejudice to the above provisions, in the event that Notes having an original maturity of at least 18 months are redeemed, in full or in part, prior to 18 months from their issue date, Italian resident Noteholders

will be required to pay, by way of a withholding to be applied by the Italian intermediary responsible for payment of interest or the redemption of such Notes, an amount equal to 20 per cent. of the interest and other amounts accrued up to the time of the early redemption.

Atypical securities

Interest payments relating to Notes that are not deemed to fall within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) may be subject to a withholding tax, levied at the rate of 27 per cent. For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at redemption, an amount not lower than their nominal value.

The 27 per cent. withholding tax mentioned above does not apply to interest payments made to a non-Italian resident Noteholder and to an Italian resident Noteholder which is (i) a company or similar commercial entity (including the Italian permanent establishment of foreign entities), (ii) a commercial partnership, or (iii) a commercial private or public institution.

Non-Italian Resident Noteholders

No Italian *imposta sostitutiva* is applied on payments to a non-Italian resident Noteholder of interest or premium relating to Notes PROVIDED THAT, if Notes are held in Italy, the non-Italian resident Noteholder declares itself to be a non-Italian resident according to Italian tax regulations.

Payments made by a non resident Guarantor

With respect to payments made to Italian resident Noteholders by a non Italian resident guarantor, in accordance with one interpretation of Italian tax law, any such payment made by the Italian non resident guarantor could be treated, in certain circumstances, as a payment made by the relevant Issuer and would thus be subject to the tax regime described in the previous paragraphs of this section.

Capital Gains Tax

Any gain obtained from the sale or redemption of Notes would be treated as part of the taxable income (and, in certain circumstances, depending on the "status" of the Noteholder, also as part of the net value of production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the relevant Notes are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the relevant Notes are connected.

Where an Italian resident Noteholder is an individual not holding Notes in connection with an entrepreneurial activity and certain other persons, any capital gain realised by such Noteholder from the sale or redemption of such Notes would be subject to an *imposta sostitutiva*, levied at the current rate of 12.50 per cent. Noteholders may set off losses with gains.

In respect of the application of the *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below.

Under the "tax declaration" regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in entrepreneurial activity to which the relevant Notes are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individual Noteholder holding Notes not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the relevant Notes carried out during any given tax year. Italian resident individuals holding Notes not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance of income

tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident individual Noteholders holding Notes not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the relevant Notes (the "*risparmio amministrato*" regime). Such separate taxation of capital gains is allowed subject to (i) Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries; and (ii) an express election for the *risparmio amministrato* regime being punctually made in writing by the relevant Noteholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of Notes (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of Notes results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Noteholder is not required to declare the capital gains in its annual tax return.

Any capital gains realised by Italian resident individuals holding Notes not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including Notes, to an authorised intermediary and have opted for the so-called "*risparmio gestito*" regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 12.50 per cent. substitute tax, to be paid by the managing authorised intermediary. Under the *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the Noteholder is not required to declare the capital gains realised in its annual tax return.

Any capital gains realised by a Noteholder which is an Italian open ended or a closed-ended investment fund or a SICAV will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 12.50 per cent. substitute tax.

Any capital gains realised by a Noteholder which is an Italian pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 11 per cent. substitute tax.

Capital gains realised by non-Italian resident Noteholders from the sale or redemption of Notes are not subject to Italian taxation, PROVIDED THAT the relevant Notes are held outside Italy.

Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006, (Decree No. 262), converted into Law No. 286 of 24 November, 2006, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

- (a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding EUR1,000,000;
- (b) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree, are subject to an inheritance and gift tax applied at a rate of 6 per cent. on the entire value of the inheritance or

the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding €100,000; and

- (c) any other transfer is subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

Transfer Tax

Article 37 of Law Decree No 248 of 31 December 2007, converted into Law No. 31 of 28 February 2008, published on the Italian Official Gazette No. 51 of 29 February 2008, has abolished the Italian transfer tax, provided for by Royal Decree No. 3278 of 30 December 1923, as amended and supplemented by the Legislative Decree No. 435 of 21 November, 1997.

Following the repeal of the Italian transfer tax, as from 31 December 2007 contracts relating to the transfer of securities are subject to the registration tax as follows: (i) public deeds and notarized deeds are subject to fixed registration tax at rate of EUR168; (ii) private deeds are subject to registration tax only in case of use or voluntary registration.

Implementation in Italy of the EU Savings Directive

Italy has implemented the EU Savings Directive through Legislative Decree No. 84 of 18 April, 2005 (the **Decree No. 84**). Under Decree No. 84, subject to a number of important conditions being met, in the case of interest paid to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State, Italian qualified paying agents shall not apply the withholding tax and shall report to the Italian Tax Authorities details of the relevant payments and personal information on the individual beneficial owner. Such information is transmitted by the Italian Tax Authorities to the competent foreign tax authorities of the State of residence of the beneficial owner.

POLISH TAXATION

General Information

The following is a discussion of certain Polish tax considerations relevant to an investor resident in Poland or which is otherwise subject to Polish taxation. This statement should not be deemed to be tax advice. It is based on Polish tax laws and, as its interpretation refers to the position as at the date of this Base Prospectus, it may thus be subject to change. Any change may be enacted retroactively and may negatively affect the tax treatment, as described below. This description does not purport to be complete with respect to all tax information that may be relevant to investors due to their personal circumstances. Prospective purchasers of Notes are advised to consult their professional tax advisor regarding the tax consequences of the purchase, ownership, disposal, redemption or transfer without consideration of Notes.

Taxation of a Polish tax resident private investor (natural person)

- (a) Income from capital investments

Income other than interest derived by a Polish tax resident individual (i.e. a person based in Poland or who stays in Poland for longer than 183 days in a year) from financial instruments held as non-business assets, qualify as capital income according to Article 17 of the Polish Personal Income Tax Act. Such income does not cumulate with the general income subject to the progressive tax scale but is subject to a 19 per cent. flat rate tax. The costs of acquiring Notes are recognised at the time the revenue is achieved. In principle, this income should be settled by the taxpayer by 30 April of the year following the year in which the income was earned. However, if the individual is also a taxpayer as referred to in Arts. 31, 33, 34 and 35 of the PIT Act (which are mostly persons who obtain income from employment or pensions), under one of the possible interpretations of Art. 40 of the PIT Act he/she is obliged to pay 19 per cent. monthly instalments by the

twentieth day of the month following the month in which the income was earned. There are arguments as to whether this interpretation is incorrect, as it puts certain individuals in a worse financial position than they would otherwise have been in. Individuals are encouraged to seek professional advice in this respect.

(b) Withholding Tax on Interest Income

Interest income does not cumulate with the general income subject to the progressive tax rate but is subject to a 19 per cent. flat rate tax.

If Notes are kept in a securities account maintained with a Polish bank or a Polish brokerage house, such bank or brokerage house is generally required to withhold tax at a rate of 19 per cent. in respect of any interest or discount (i.e. the difference between the redemption price paid by the Issuer and the initial purchase price of Notes paid by the investor) paid to an investor.

If interest is paid by a foreign entity, in principle the entity would not be obliged to withhold Polish income tax and the tax should be settled by the individual. Potentially the foreign entity could make withholdings pursuant to the laws of other jurisdictions. Withholding tax incurred outside Poland (including countries which have not concluded a tax treaty with Poland), up to an amount equal to the tax paid abroad, but not higher than 19 per cent. tax on the interest amount, could be deducted from the Polish tax liability.

Taxation of a Polish tax resident corporate income taxpayer or a natural person holding Notes as a business asset

A Polish tax resident, a corporate income taxpayer or a natural person holding Notes as a business asset will be subject to income tax in respect of Notes (both on any capital gain and on interest/discount) following the same principles as those which apply to any other income received from business activity. As a rule, for Polish income tax purposes interest is recognised as revenue on a cash basis, i.e. when it is received and not when it has accrued. In respect of capital gains, the cost of acquiring Notes will be recognised at the time the revenue is achieved. In respect of natural persons holding Notes as a business asset, the tax authorities may require that the tax on the income derived from interest/discount is withheld under the same principles which apply to individual private investors.

The appropriate tax rate will be the same as the tax rate applicable to business activity, i.e. 19 per cent. for a corporation and, in the case of a natural person, either 19 per cent. or the progressive tax rate up to 40 per cent. (up to 32 per cent. from 2009), depending on the taxpayer's choice and whether other requirements are met.

Notes held by a non-Polish tax resident (natural person or corporation)

Non-Polish residents are subject to Polish income tax only with respect to their income earned in Poland. If Notes are issued by a foreign entity, in principle interest should not be considered as having been earned in Poland. Capital gains should also not be considered as arising in Poland unless Notes are sold at a stock exchange in Poland (the Warsaw Stock Exchange). If the latter is the case, however, most of the tax treaties concluded by Poland provide for Polish tax exemption with respect to capital gains derived from Poland by a foreign tax resident. The treaties also mitigate Polish domestic withholding tax of 20 per cent. on interest (down to 15 per cent., 10 per cent., 5 per cent. or 0 per cent. depending on the relevant treaty and occasionally on the status of the recipient of the interest) if Polish withholding tax is applicable (with respect to Notes issued by a Polish entity). In order to benefit from a tax treaty, a foreign investor should present a relevant certificate of its tax residency.

If a foreign recipient of income acts through a permanent establishment in Poland, as a matter of principle it should be treated in the same manner as a Polish tax resident.

PORTUGUESE TAXATION

The following is a summary of the current Portuguese withholding tax treatment at the date hereof in relation to certain aspects of the Portuguese taxation of payments of principal and income in respect of Notes. The statements do not deal with other Portuguese tax aspects regarding Notes and relate only to the position of persons who are absolute beneficial owners of Notes. The following is a general guide, does not constitute tax or legal advice and should be treated with appropriate caution. Noteholders who are in any doubt as to their tax position should consult their professional advisers.

The reference to "investment income" and "capital gains" in the paragraphs below means "investment income" and "capital gains" as understood in Portuguese tax law. The statements below do not take any account of any different definitions of "investment income" or "capital gains" which may prevail under any other law or which may be created by the Conditions of the Notes or any related documentation.

Noteholder's Income Tax

Income generated by the holding (distributions) and disposal of Notes is generally subject to the Portuguese tax regime for debt securities (*obrigações*).

Economic benefits derived from amortisation, reimbursement premiums and other types of remuneration arising from Notes are designated as investment income for Portuguese tax purposes.

Withholding tax

Under current Portuguese law, investment income payments in respect of Notes made to Portuguese tax resident companies are subject to corporate income tax at the current standard rate of 25 per cent., to which is added a municipal surcharge of up to 1.5 per cent. over the Portuguese corporate Noteholders taxable profits, where applicable.

As regards to investment income on Notes made to Portuguese tax resident individuals, they are subject to personal income tax which shall be withheld at the current final withholding rate of 20 per cent. if there is a Portuguese resident paying agent, unless the individual elects to include it in his taxable income, subject to tax at progressive rates of up to 42 per cent. In this case, the tax withheld is deemed to be a payment on account of the final tax due.

Interest payments due by non resident entities to Portuguese tax resident individuals are subject to an autonomous taxation at a rate of 20 per cent. whenever those payments are not subject to Portuguese withholding tax.

Payments of principal on Notes are not subject to Portuguese withholding tax. For these purposes, principal shall mean all payments carried out without any remuneration component.

Capital Gains

Under current Portuguese law, capital gains obtained by Portuguese tax resident entities on the disposal of Notes issued by non resident entities are subject to corporate income tax at the current standard rate of 25 per cent., to which is added a municipal surcharge of up to 1.5 per cent. over the Portuguese corporate Noteholders taxable profits, where applicable.

Capital gains obtained by individuals who are resident in Portugal for tax purposes on the disposal of Notes issued by non resident entities are not subject to taxation in Portugal.

EU Savings Directive

Portugal has implemented the EC Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income into the Portuguese law through Decree-Law no 62/2005, of 11 March, 2005, as amended by Law no 39-A/2005, of 29 July, 2005.

SPANISH TAXATION

The following is a summary of the main Spanish tax consequences deriving from the ownership, transfer, redemption or reimbursement of Notes referred to in this document by individuals or legal persons who are resident in Spain for tax purposes and by Non-Resident Income Tax taxpayers acting, with respect to Notes, through a permanent establishment in Spain.

This summary is based on Spanish Law in force as of the date of approval of this document and on administrative interpretations thereof, and therefore is subject to any changes in such laws and interpretations thereof occurring after that date, including changes having retroactive effect. In particular, this description is based on the provisions established in the Individual Income Tax Law (Law 35/2006, of 28 November 2006, as amended) and in the Consolidated Text of the Corporate Income Tax Law (Royal Legislative Decree 4/2004, of 5 March 2004, as amended) which may not apply to those individuals or legal persons subject to special tax regimes (such as financial entities, exempt entities, cooperatives or "look-through" entities). In addition, the following section does not cover those tax laws in force in the Spanish Basque provinces and Navarra as well as the particularities in force in the Spanish autonomous communities (*comunidades autónomas*).

Accordingly, prospective investors in Notes should consult their own tax advisors as to the applicable tax consequences of their purchase, ownership and disposition of Notes, including the effect of tax laws of any other jurisdiction, based on their particular circumstances.

For the purposes of our analysis, we have assumed that Citigroup Funding Inc. is a company resident for tax purposes in the United States and for the purposes of the Convention between the Kingdom of Spain and the United States for Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to taxes on Income signed on 22 February 1990 and that the investors in Notes are resident in Spain for tax purposes or non-Spanish residents acting, with respect to such Notes, through a permanent establishment in Spain.

Spanish resident individuals

(a) Individual Income Tax (**IIT**) (Impuesto sobre la Renta de las Personas Físicas)

The Spanish IIT is regulated by the IIT Law and supplemented by the IIT Regulations sanctioned by Royal Decree 439/2007, dated 30 March 2007.

Notes are deemed securities (*activos financieros*), in accordance with the definition set forth in Article 91 of the IIT Regulations and its interpretation by the Spanish tax authorities and hence the rules provided with regard to securities must be taken into consideration.

According to Article 25.2 of IIT Law and its interpretation by the Spanish tax authorities, the income in the form of interest obtained on the assignment to third parties of funds and any other form of compensation agreed as remuneration for such assignment, will be deemed income from movable property and therefore will be included in the investor's IIT savings taxable base and taxed at a flat tax rate of 18 per cent.

Holders of Notes shall compute the gross interest obtained in the taxable base of the tax period in which it is due, including amounts withheld, if any.

The net taxable income shall be determined by deducting the management and deposit expenses from the gross income, excluding those pertaining to discretionary or individual portfolio management.

According to Article 25.2 of the IIT Law and its interpretation by the Spanish tax authorities, income arising on the transfer, redemption or reimbursement of Notes obtained by individuals who are resident in Spain for tax purposes, interest will be deemed income from movable property, and therefore will be included in the investor's IIT savings taxable base and taxed at a flat tax rate of 18 per cent.

Income arising on the disposal, redemption or reimbursement of Notes will be calculated as the difference between (i) their disposal, redemption or reimbursement value and (ii) their acquisition or subscription value. Costs and expenses borne on the acquisition and transfer of Notes may be taken into account for calculating the relevant taxable income, PROVIDED THAT they can be duly justified.

Should a holder of Notes acquire homogeneous securities within the two-month period prior or subsequent to the transfer of Notes, losses that may derive from such transfer cannot not be offset until the homogeneous securities are transferred.

Additionally, tax credits for the avoidance of international double taxation may apply in respect of taxes paid abroad on income deriving from Notes, if any.

(b) Net Wealth Tax (NWT) (Impuesto sobre el Patrimonio)

The basic NWT law is currently contained in Law 19/1991, dated 6 June 1991 and supplemented by Royal Decree 1704/1999, dated 5 November 1999.

In the case of Spanish tax resident individuals, NWT is levied, on an annual basis, on the net worth of their worldwide assets and rights owned on 31 December each year.

General tax rates currently range between 0.2 per cent. and 2.5 per cent. although they may vary depending on the applicable legislation in the region (*Comunidad Autónoma*) of residence of the relevant Noteholder.

If Notes are not listed on a Spanish secondary market exchange, they will be taxed at their nominal value including redemption and amortisation premiums, if any.

As a general rule, Spanish residents are not obliged to file a NWT return if their net wealth is less than EUR108,182.18 and their gross wealth (before deduction of debts) is less than EUR601,012.10, without prejudice to the specific figures that may be set out in the regional law applicable in the region (*Comunidad Autónoma*) where the relevant Noteholder has his/her domicile.

Tax credits for the avoidance of international double taxation may apply in respect of similar taxes paid abroad in respect of Notes, if any.

Legal persons are not subject to NWT.

Finally, it should be noted that on 18 April 2008, the Spanish Government approved a group of measures to improve the business environment in Spain. One of these measures is the elimination of the tax currently payable under the NWT. The law that develops this measure has not been enacted yet. The NWT is therefore still in force, although future regulations may repeal the NWT even with effect as of the tax year 2008.

(c) **Inheritance and Gift Tax (IGT) (Impuesto sobre Sucesiones y Donaciones)**

The basic IGT law is currently contained in Law 29/1987, dated 18 December 1987 and supplemented by Royal Decree 1629/1991, dated 8 November 1991.

In the case of Spanish tax resident individuals, IGT is levied on their worldwide assets passing to them either by gift or upon death. Therefore, transfers of Notes upon death or by gift to Spanish resident individuals will be subject to the IGT, with the taxpayer being the transferee.

General tax rates, given all relevant factors, currently range from 7.65 per cent. to 81.6 per cent., although they may vary depending on the applicable legislation in the region (*Comunidad Autónoma*) of residence of the relevant Noteholder.

Legal persons are not subject to IGT. Income that they may obtain from this source will be subject to Corporate Income Tax on the market value of Notes received.

Tax credits for the avoidance of international double taxation may apply in respect of similar taxes paid abroad in respect of Notes, if any.

Spanish legal persons subject to Corporate Income Tax (CIT) (Impuesto sobre Sociedades)

Interest and income arising on the disposal, redemption or reimbursement of Notes obtained by limited liability companies that are resident for tax purposes in Spain shall be computed as taxable income of the tax period of its accrual, in accordance with rules contained in the CIT Law and supplemented by the CIT Regulations, sanctioned by Royal Decree 1777/2004, dated 30 July 2004.

The general tax rate for limited liability companies is currently 30 per cent. However, small companies can benefit from the reduced tax rate of 25 per cent on the first EUR120,202.41 of their taxable base.

Apart from the above, tax credits for the avoidance of international double taxation may apply in respect of taxes paid abroad on income deriving from Notes, if any.

Non-Resident entities acting through a permanent establishment in Spain subject to non-Resident Income Tax (NRIT) (Impuesto sobre la Renta de no Residentes)

Based on the fact that the Issuer is not resident in Spain for tax purposes, no Spanish tax should, in principle, be levied on investors that are not resident in Spain for tax purposes, unless they are acting with respect to Notes through a Spanish permanent establishment. According to the general principles of the Spanish taxation system, Spanish permanent establishments of non-Spanish resident persons are taxed under NRIT in a similar manner to Spanish CIT taxpayers, although some specific rules may apply. Due to the complexity of this matter, non-Spanish resident investors acting in Spain, with respect to Notes, through a permanent establishment are strongly urged to seek appropriate advice in respect of their own tax position in this regard.

Spanish withholding tax

Where a financial institution (either resident in Spain or acting through a permanent establishment in Spain) acts as depositary of Notes or intervenes as manager in the collection of any income under Notes, such financial institution will be responsible for making the relevant withholding on account of Spanish tax on any income deriving from the relevant Notes. The current withholding tax rate in Spain is 18 per cent. Amounts withheld in Spain, if any, can be credited against the final Spanish IIT CIT or NRIT liability, as applicable to the Noteholder. In addition, Noteholders who are CIT taxpayers can benefit from a withholding tax exemption when the relevant Notes are listed in an OECD official stock exchange.

Furthermore, such financial institution may become obliged to comply with the formalities set out in the Regulations on Spanish ITT and CIT when intervening in the transfer or reimbursement of Notes.

Other Spanish taxes

The acquisition and transfer of Notes will be exempt from indirect taxes in Spain, i.e. exempt from Transfer Tax and Stamp Duty, in accordance with the Consolidated Text of such tax approved by Royal Legislative Decree 1/1993 of 21 September and exempt from Value Added Tax, in accordance with Law 37/1992 of 28 December regulating such tax.

EU SAVINGS DIRECTIVE

On 3 June 2003, the EU Council of Economic and Finance Ministers adopted a new directive regarding the taxation of savings income (**EU Savings Directive**). The EU Savings Directive is, in principle, applied by Member States as from 1 July 2005 and has been implemented in Luxembourg by the Law of 21 June 2005. Under the directive, each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income within the meaning of the EU Savings Directive paid by a paying agent within the meaning of the EU Savings Directive, to an individual resident or certain types of entities called "residual entities", within the meaning of the EU Savings Directive (the **Residuals Entities**), established in that other Member State (or certain dependent or associated territories). For a transitional period, however, Austria, Belgium and Luxembourg are permitted to apply an optional information reporting system whereby if a beneficial owner, within the meaning of the EU Savings Directive, does not comply with one of two procedures for information reporting, the relevant Member State will levy a withholding tax on payments to such beneficial owner. The withholding tax system will apply for a transitional period during which the rate of the withholding will be 20% from 1 July 2008 to 30 June 2011 and 35% as from 1 July 2011. The transitional period is to terminate at the end of first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments. See "European Union Directive on the Taxation of Savings Income in the Form of Interest Payments" (Council Directive 2003/48/EC).

Also with effect from 1 July 2005, a number of non-EU countries (Switzerland, Andorra, Liechtenstein, Monaco and San Marino) have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a paying agent within its jurisdiction to, or collected by such a paying agent for, an individual resident or a Residual Entity established in a Member State. In addition, Luxembourg has entered into reciprocal provision of information or transitional withholding arrangements with certain of those dependent or associated territories (Jersey, Guernsey, Isle of Man, Montserrat, British Virgin Islands, Netherlands Antilles and Aruba) in relation to payments made by a paying agent in Luxembourg to, or collected by such a paying agent for, an individual resident or a Residual Entity established in one of those territories.

TAXATION OF CERTIFICATES

GENERAL

Purchasers of Certificates may be required to pay taxes (including stamp taxes) and other charges in accordance with the laws and practices of the country of purchase in addition to the issue price of each Certificate.

TRANSACTIONS INVOLVING CERTIFICATES MAY HAVE TAX CONSEQUENCES FOR POTENTIAL PURCHASERS WHICH MAY DEPEND, AMONGST OTHER THINGS, UPON THE STATUS OF THE POTENTIAL PURCHASER AND LAWS RELATING TO TRANSFER AND REGISTRATION TAXES. POTENTIAL PURCHASERS WHO ARE IN ANY DOUBT ABOUT THE TAX POSITION OF ANY ASPECT OF TRANSACTIONS INVOLVING CERTIFICATES SHOULD CONSULT THEIR OWN TAX ADVISERS.

UNITED KINGDOM TAXATION

The following applies only to persons who are the beneficial owners of Certificates and is a summary of the Issuer's understanding of current law and practice in the United Kingdom relating to certain aspects of United Kingdom taxation. Some aspects do not apply to certain classes of person (such as dealers) to whom special rules may apply. The United Kingdom tax treatment of prospective Certificateholders depends on their individual circumstances and may be subject to change in the future. Prospective Certificateholders who are in any doubt as to their tax position or who may be subject to tax in a jurisdiction other than the United Kingdom should seek their own professional advice.

Withholding Tax

No United Kingdom income tax will be required to be deducted or withheld from any payments made on the issue, exercise, sale or other disposition of Certificates.

Stamp Duty and Stamp Duty Reserve Tax (SDRT)

(i) Issue of a Global Certificate into Euroclear or Clearstream, Luxembourg

A Global Certificate may be subject to United Kingdom stamp duty on issue if a Global Certificate is executed in the United Kingdom or if it relates to any property situate, or to any matter or thing done or to be done, in the United Kingdom. In the context of retail covered warrants listed on the London Stock Exchange, HM Revenue and Customs (HMRC) has indicated that no charge to United Kingdom stamp duty will arise on the issue of such warrants. It is not clear whether HMRC would be prepared to take such a view in relation to a Global Certificate but we see no reason why HMRC should treat Global Certificates differently to retail covered warrants.

However, if a Global Certificate is subject to United Kingdom stamp duty, but the stamp duty is not paid, the Global Certificate cannot be used for any purpose in the United Kingdom; for example it will be inadmissible in evidence in civil proceedings in a United Kingdom court. If a Global Certificate is subject to United Kingdom stamp duty, and it becomes necessary to pay that stamp duty (for example because this is necessary in order to enforce the document in the United Kingdom), interest will be payable (in addition to the stamp duty) in respect of the period from 30 days after the date of execution of the Global Certificate to the date of payment of the stamp duty. Penalties may also be payable if a Global Certificate which was executed outside the United Kingdom is not stamped within 30 days of first being brought into the United Kingdom. If any United Kingdom stamp duty is required to be paid, it would be payable at a rate of 0.5 per cent. by reference to the amount of consideration given for the issue of the Certificates represented by that Global Certificate.

No SDRT is payable on the issue (into Euroclear or Clearstream, Luxembourg) of a Global Certificate.

(ii) Transfer within Euroclear or Clearstream, Luxembourg

No United Kingdom Stamp Duty or SDRT should be required to be paid on the transfer of any Certificates within Euroclear or Clearstream, Luxembourg provided no instrument is used to complete the transfer and no election has been made under which the alternative system of charge (as provided for in section 97A Finance Act 1986) applies to the Certificates.

(iii) Exercise

No Stamp Duty or SDRT should be payable on the exercise of Cash Settled Certificates.

Stamp Duty may be required to be paid following the exercise of a Physical Delivery Certificate in relation to the transfer of an asset (such as stock or marketable securities). SDRT may also be payable following the exercise of a Physical Delivery Certificate in respect of the agreement to transfer an asset. However, any such liability to SDRT will be cancelled (or, if already paid, will be repaid) if the instrument effecting the transfer is chargeable with stamp duty (or is otherwise required to be stamped) and has been duly stamped within six years of the agreement being made or, in the case of a conditional agreement, within six years of all conditions being satisfied.

UNITED STATES TAX CONSIDERATIONS

Any U.S. federal tax discussion in this Base Prospectus was not written and is not intended to be used and cannot be used by any taxpayer for purposes of avoiding United States federal income tax penalties that may be imposed on the taxpayer. Any such tax discussion was written to support the promotion or marketing of the Certificates to be issued pursuant to this Base Prospectus. Each taxpayer should seek advice based on the taxpayer's particular circumstances from an independent tax advisor.

General

The following is a general summary of certain anticipated principal U.S. federal tax consequences that may be relevant with respect to the acquisition, ownership and disposition of Certificates. This summary addresses only the U.S. federal tax considerations of holders that acquire Certificates at their original issuance and that are Non-U.S. Holders (as defined below). This discussion is a summary for general information only and does not purport to address all U.S. federal tax matters that may be relevant to the purchase, ownership, and disposition of any Certificates to a particular Certificateholder.

This summary is based on the U.S. Internal Revenue Code of 1986, as amended (the **Code**), U.S. Treasury Regulations and judicial and administrative interpretations thereof, in each case as in effect and available on the date hereof. All of the foregoing are subject to change, which change could apply retroactively and could affect the tax consequences described below. Further, this summary does not describe any tax consequences arising out of the tax laws of any state, local or foreign jurisdiction.

Prospective purchasers of the Certificates are urged to consult their own tax advisers concerning the U.S. federal, state, local and foreign tax consequences of owning Certificates in light of their own particular circumstances.

For the purposes of this summary, a **Non-U.S. Holder** is a beneficial owner of a Certificate that is, for U.S. federal income tax purposes: (i) a foreign corporation; (ii) a non-resident alien individual; (iii) a non-resident alien fiduciary of a foreign estate or trust; or (iv) a foreign partnership one or more members of which is a Non-U.S. Holder.

Taxation of Non-U.S. Holders of the Certificates

Under current United States federal income tax law, payment on a Certificate by the Issuer or any Paying Agent to a Non-U.S. Holder should not be subject to withholding of United States federal income tax, provided that, (1) the beneficial owner does not actually or constructively own 10 per cent. or more of the total combined voting power of all classes of stock of the Issuer entitled to vote, (2) the beneficial owner is not (i) a controlled foreign corporation for U.S. federal income tax purposes that is related to the Issuer through stock ownership or (ii) a bank extending credit pursuant to a loan agreement entered into in the ordinary course of its trade or business, (3) such payments are not effectively connected with the conduct of a trade or business of the beneficial owner within the United States (or, if an applicable treaty so requires, are not attributable to a permanent establishment in the United States maintained by such Non-U.S. Holder), (4) such payment is not contingent on the Issuer's profits, revenues or changes in the value of its property and is not otherwise excluded from the definition of "portfolio interest" by Section 871(h)(4) of the Code, and (5) the beneficial owner provides a statement signed under penalties of perjury that certifies that it is a Non-U.S. Holder in compliance with applicable requirements (or satisfies certain documentary evidence requirements for establishing that it is a Non-U.S. Holder). Further, a Certificate should not be subject to United States federal estate tax as a result of the death of a holder who is not a citizen or resident of the United States at the time of death, provided that (i) such holder did not at the time of death actually or constructively own 10 per cent. or more of the combined voting power of all classes of stock of the Issuer and (ii) at the time of such holder's death, payments on such Certificate would not have been effectively connected with the conduct by such holder of a trade or business in the United States.

Additionally, a holder of a Certificate that is a Non-U.S. Holder should not be subject to United States federal tax on gain realised on the sale, exchange or redemption of such Certificate unless (1) the gain is effectively connected with the conduct of a trade or business of the beneficial owner within the United States (or, if an applicable treaty so requires, is not attributable to a permanent establishment in the United States maintained by such Non-U.S. Holder), or (2) such beneficial owner is an individual who is present in the United States for 183 days or more during the taxable year and certain other requirements are met.

Information Reporting and Backup Withholding

United States information reporting requirements and backup withholding tax should not apply to any payment on a Certificate owned by a Non-U.S. Holder if the beneficial owner satisfies the requirements described under "Taxation of Non-U.S. Holders of the Certificates" above. Payment in respect of a Certificate by the United States office of a custodian, nominee or other agent of the beneficial owner of such Certificate may be subject to information reporting requirements and backup withholding tax unless the beneficial owner certifies its non-U.S. status under penalties of perjury or otherwise establishes an exemption.

Information reporting requirements and backup withholding tax should not apply to any payment of the proceeds of the sale of a Certificate effected outside the United States by a foreign office of a foreign "broker" (as defined in applicable Treasury Regulations), provided that such broker (i) derives less than 50 per cent. of its gross income for certain periods from the conduct of a trade or business in the United States, (ii) is not a controlled foreign corporation for United States federal income tax purposes and (iii) is not a foreign partnership that, at any time during its taxable year, is more than 50 per cent. (by income or capital interest) owned by United States persons or is engaged in the conduct of a U.S. trade or business. Payment of the proceeds of the sale of a Certificate effected outside the United States by a foreign office of any other broker should not be subject to backup withholding tax, but may be subject to information reporting requirements unless such broker has documentary evidence in its records that the beneficial owner is a Non-U.S. Holder and certain other conditions are met, or the beneficial owner otherwise establishes an exemption. Payment of the proceeds of a sale of a Certificate by the United States office of a broker may be subject to information reporting requirements and backup withholding tax unless the beneficial owner certifies its non-U.S. status under penalties of perjury or otherwise establishes an exemption.

Recent United States Tax Law Developments

The United States Internal Revenue Service (the **IRS**) and United States Treasury Department recently issued a notice (the **Notice**) that requests public comments on a comprehensive list of tax policy issues raised by certain securities that are not classified as debt for United States federal income tax purposes. In particular, the IRS and United States Treasury Department specifically question whether, and to what degree, payments (or deemed accruals) in respect of these securities should be subject to withholding. Accordingly, it is possible that future guidance could be issued as a result of the Notice requiring withholding on payments made to a Non-U.S. Holder on a Certificate.

THE U.S. FEDERAL TAX DISCUSSION SET FORTH ABOVE IS INCLUDED FOR GENERAL INFORMATION ONLY AND MAY NOT BE APPLICABLE DEPENDING UPON AN OWNER'S PARTICULAR SITUATION. HOLDERS SHOULD CONSULT THEIR OWN TAX ADVISORS WITH RESPECT TO THE TAX CONSEQUENCES TO THEM OF THE OWNERSHIP AND DISPOSITION OF THE CERTIFICATES, INCLUDING THE TAX CONSEQUENCES UNDER STATE, LOCAL, FOREIGN AND OTHER TAX LAWS AND THE POSSIBLE EFFECTS OF CHANGES IN FEDERAL OR OTHER TAX LAWS.

LUXEMBOURG TAXATION

The following summary is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Certificates should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Taxation of the holders of Certificates

Withholding Tax

(i) Non-resident holders of Certificates

Under Luxembourg general tax laws currently in force and subject to the laws of 21 June 2005 (the **Laws**) mentioned below, there is no withholding tax on payments made to non-residents holders of Certificates upon settlement of Certificates.

Under the Laws implementing the Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the **Territories**), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity, as defined by the Laws, which are resident of, or established in, an EU Member State (other than Luxembourg) or one of the Territories will be subject to a withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her/its country of residence or establishment, or, in the case of an individual beneficial owner, has provided a tax certificate issued by the fiscal authorities of his/her country of residence in the required format to the relevant paying agent. Where withholding tax is applied, it has been levied at a rate of 15 per cent. during the first three-year period starting 1 July 2005, it is currently levied at a rate of 20 per cent. and at a rate of 35 per cent. as of 1 July 2011. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments under Certificates coming within the scope of the Laws would at present be subject to withholding tax of 20 per cent.

(ii) Resident holders of Certificates

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005 (the **Law**) mentioned below, there is no withholding tax on payments made to Luxembourg resident holders of Certificates upon settlement of the Certificates.

Under the Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 10 per cent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent.

Payments under the Certificates coming within the scope of the Law would be subject to withholding tax of 10 per cent.

ITALIAN TAXATION

The following is a summary of current Italian law and practise relating to the taxation of the Certificates. The statements herein regarding taxation are based on the laws in force in Italy as at the date of this Base Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Certificates and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules.

Prospective investors are advised to consult their own tax advisers concerning the overall tax consequences of their interest in the Certificates.

Italian taxation of Certificates

Pursuant to Article 67 of Presidential Decree No. 917 of 22 December 1986 and Legislative Decree No. 461 of 21 November 1997, as subsequently amended, where the Italian resident Certificateholder is (i) an individual not engaged in an entrepreneurial activity to which the Certificates are connected, (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, capital gains accrued under the sale or the exercise of the Certificates are subject to a 12.5% substitute tax (*imposta sostitutiva*). The recipient may opt for three different taxation criteria:

- (1) Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in an entrepreneurial activity to which the Certificates are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individual holding the Certificates not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Certificates carried out during any given tax year. Italian resident individuals holding the Certificates not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.
- (2) As an alternative to the tax declaration regime, Italian resident individuals holding the Certificates not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Certificates (the "*risparmio amministrato*" regime). Such separate taxation of capital gains is allowed subject to (i) the Certificates being

deposited with Italian banks, SIMs or certain authorised financial intermediaries and (ii) an express election for the *risparmio amministrato* regime being timely made in writing by the relevant Certificateholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Certificates (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Certificateholder or using funds provided by the Certificateholder for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of the Certificates results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Certificateholder is not required to declare the capital gains in the annual tax return.

- (3) Any capital gains realised by the Italian resident individuals holding the Certificates not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Certificates, to an authorised intermediary and have opted for the so-called "*risparmio gestito*" regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 12.5 per cent. substitute tax, to be paid by the managing authorised intermediary. Under this *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the Certificateholder is not required to declare the capital gains realised in the annual tax return.

Where an Italian resident Certificateholder is a company or similar commercial entity, or the Italian permanent establishment of a foreign commercial entity to which the Certificates are effectively connected, capital gains arising from the Certificates will not be subject to *imposta sostitutiva*, but must be included in the relevant Certificateholder's income tax return and are therefore subject to Italian corporate tax.

Capital gains realised by non-Italian resident Certificateholders are not subject to Italian taxation, PROVIDED THAT the Certificates are held outside of Italy.

Atypical securities

In accordance with a different interpretation of current tax law, there is a remote possibility that the Certificates would be considered as 'atypical' securities pursuant to Article 8 of Law Decree No. 512 of 30 September 1983 as implemented by Law No. 649 of 25 November 1983. In this event, payments relating to Certificates may be subject to an Italian withholding tax, levied at the rate of 27 per cent.

The 27 per cent. withholding tax mentioned above does not apply to payments made to a non-Italian resident Certificateholder and to an Italian resident Certificateholder which is (i) a company or similar commercial entity (including the Italian permanent establishment of foreign entities), (ii) a commercial partnership, or (iii) a commercial private or public institution.

EU SAVINGS DIRECTIVE

Under EC Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State. However, for a transitional period, Belgium, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange

with certain other countries). A number of non-EU countries and territories including Switzerland have agreed to adopt similar measures (a withholding system in the case of Switzerland).

Implementation in Italy of the EU Savings Directive

Italy has implemented the EU Savings Directive through Legislative Decree No. 84 of 18 April 2005 (Decree No. 84). Under Decree No. 84, subject to a number of important conditions being met, in the case of interest paid to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State, Italian paying agents (ie banks, *societa di intermediazione mobiliare* (SIM), fiduciary companies, *societa di gestione del risparmio* (SGR) resident for tax purposes in Italy, Italian permanent establishments of non-Italian resident persons and any other Italian entity paying interest for professional or business reasons) shall not apply the withholding tax and shall report to the Italian Tax Authorities details of the relevant payments and personal information on the individual beneficial owner. Such information is transmitted by the Italian Tax Authorities to the competent foreign tax authorities of the State of residence of the beneficial owner.
