

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“UK”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (“EUWA”); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the “FSMA”) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the “UK PRIIPs Regulation”) for offering or selling the Securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MIFID II product governance / Retail investors, professional investors and ECPs target market – Solely for the purposes of the manufacturer’s product approval process, the target market assessment in respect of the Securities has led to the conclusion that: (i) the target market for the Securities is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, “MiFID II”); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate, except for pure execution services for the latter; and (iii) the following channels for distribution of the Securities to retail clients are appropriate - investment advice, portfolio management and execution with appropriateness (no distribution via execution only), subject to the distributor’s suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Securities (a “distributor”) should take into consideration the manufacturer’s target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels, subject to the distributor’s suitability and appropriateness obligations under MiFID II, as applicable.

4. **INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER/LISTING**

Mediobanca is the Issuer of the Securities and acts also as Calculation Agent and liquidity provider for the Securities. In its capacity as Calculation Agent, Mediobanca is responsible, among the others, for determining the Remuneration Amount and the Automatic Early Settlement Amount. Mediobanca is required to carry out its duties as Calculation Agent in good faith and using its reasonable judgment.

The Issuer, Banca Monte dei Paschi di Siena S.p.A. and Banca Widiba S.p.A. are, with respect to the offering of the Certificates, in a position of conflict of interest with investors because they belong to the same banking group (the Montepaschi Banking Group), of which Banca Monte dei Paschi di Siena S.p.A. is the parent company, and they have economic interests in connection with the placement of the Certificates. The Distributors will receive from the Issuer, through the Lead Manager, the Placement Fee, as specified in Paragraph 12 (Terms and Conditions of the Offer - Offer Price) here below.

Banca Monte dei Paschi di Siena S.p.A. is also in a position of conflict of interest because it acts as Lead Manager and as the Issuer's hedging counterparty in relation to the issuance of the Certificates.

Investors should also consider that the Issuer of the Certificates and the Distributors, or other companies belonging to the same Montepaschi Banking Group may engage in transactions relating to the Underlying, issue or place other financial instruments with the same Underlying, or participate in transactions involving such Underlying, or obtain information relating to such Underlying which they will not be obliged to disclose or share with investors; the existence of such relationships could give rise to a conflict of interest with respect to investors, as they may affect the value of the Underlying and, consequently, the Securities.

Save as described above, and except for the Placement Fees paid by the Issuer to the Distributors as described in Paragraph 12 (Terms and Conditions of the Offer - Offer Price), so far as the Issuer is aware, no other person involved in the Offer of the Securities has an interest material to the Offer.

What are the key risks that are specific to the Issuer?

The Issuer and its subsidiaries are subject to the following key risks:

- Starting from 15 September 2025, Mediobanca and its subsidiaries are subject to the management and coordination of Banca Monte dei Paschi di Siena ("BMPS"), falling within the scope of its group (the "MPS Group"). As part of the integration process, an extraordinary general meeting was held on 1 December 2025, in the context of which the shareholders of Mediobanca approved the alignment of the financial year-end date of Mediobanca and its subsidiaries, i.e. 30 June, with that of the MPS Group, i.e. 31 December, starting from the current financial year (i.e. 1 January 2026 - 31 December 2026). Accordingly, on 5 March 2026, Mediobanca's Board of Directors approved the draft of individual financial statements and the consolidated financial statements for the period of six months as at 31 December 2025. It should be noted that the data reported in the consolidated financial statements as at 31 December 2025 refer to a six-month period from 1 July 2025 (the closing date of the latest approved financial statements being 30 June 2025) to 31 December 2025, with the profit and loss data at 31 December 2025 compared with the figures for the six-month period ended 31 December 2024 and balance sheet figures at 31 December 2025 compared with those at 30 June 2025. Investors should take into account the inevitable discontinuity and limitations in the comparability of the consolidated and individual financial statements after the integration into the MPS Group with the historical consolidated and individual financial statements. Furthermore, on 17 February 2026, Mediobanca's Board of Directors acknowledged the decisions taken by the Board of Directors of BMPS and resolved to initiate actions to achieve the merger of Mediobanca into Banca Monte dei Paschi di Siena and subsequent delisting. Subsequently, the Boards of Directors of BMPS and Mediobanca, meeting on 10 March 2026, approved the merger plan (the "Merger Plan") for the incorporation of Mediobanca into BMPS (the "Merger"), also determining the exchange ratio at 2.450 BMPS shares, with no par value, for each outstanding Mediobanca ordinary share, also with no par value. The entire integration process involves numerous typical risks inherent to the process itself. Therefore, as at the date of the Base Prospectus and in light of the above, the process of integrating Mediobanca and its subsidiaries into the MPS Group as a consequence of the Merger could have a negative impact on their economic, equity and financial position.
- Following Mediobanca's entry into the MPS banking group, the rating agencies downgraded Mediobanca's rating, aligning it with that of MPS: in October 2025, Moody's lowered its long-term rating by two notches from Baa1 to Baa3, while the outlook was upgraded from stable to positive, based on the expectation that the MPS group would continue its financial improvement by integrating

Mediobanca and refinancing maturing liabilities. In October 2025, Fitch downgraded Mediobanca's long-term issuer rating from BBB to BBB-, aligning it with that of MPS and assigning a stable outlook. Moody's and Fitch confirmed their rating assessments in December 2025 and February 2026, respectively. Finally, on 18 March 2026, S&P Global Ratings lowered the ratings on Mediobanca and its core subsidiary, MB Funding Lux S.A., to 'BBB' from 'BBB+'. A further downgrade by rating agencies may adversely affect Mediobanca's ability to access liquidity instruments on favourable terms and could lead to an increase in funding costs. Such circumstances may have negative repercussions on the earnings, capital and financial situation of the Issuer.

- The operations, earnings capacity and the stability of the sector of the Issuer may be influenced by the trends on global financial markets and the macroeconomic scenario (with particular reference to growth prospects) in Italy. With reference to financial markets, the solidity, resilience and growth prospects of the economies of the countries in which the Issuer operate in particular will be especially important. The macroeconomic scenario currently reflects significant areas of uncertainty in relation to: (a) the Russian-Ukrainian conflict; (b) the conflicts in the Middle East; (c) the launch of the United States and Israel's military intervention against Iran; (d) the structural reforms being undergone by China; and (e) the possible international political and economic impacts resulting from the decisions of the new US administration.
- The business activities of both Mediobanca and its subsidiaries and their earnings and financial solidity depend also on the credit standing of their respective clients and counterparties. Mediobanca is exposed to the risks traditionally associated with credit activity. Accordingly, breach by its customers of contracts entered into and their own obligations, or the possible failure to provide information or the provisions of incorrect information by them regarding their respective financial and credit situation, could impact negatively on the earnings, capital and/or financial situation of Mediobanca.
- With BMPS becoming the new parent company, the definition of objectives for Mediobanca and its subsidiaries now falls within the scope of the 2026-2030 Strategic Plan of the MPS Group (the "**MPS Group Strategic Plan**"). On 26 February 2026, the parent company BMPS approved the new MPS Group Strategic Plan, which also sets out the reference framework and sustainability and performance targets for the new consolidated perimeter. In light of these developments, significant implications arise for the 2025 Sustainability Reporting. The events occurring after the end of the reporting period result in the absence, for Mediobanca, of formally defined sustainability objectives for the period following the financial period ended on 31 December 2025. The change in ownership and governance structures and the approval of the Merger Plan make it impossible - as of the date of the Base Prospectus - to determine which of the MPS Group Strategic Plan objectives will eventually be pursued or modified. Furthermore, the Issuers' capability to implement the actions and to meet the relevant plan objectives depends on a number of circumstances, some of which are beyond the Issuers' control.
- The Issuer is subject to market risk, defined as the risk of the loss of value of the financial instruments, including sovereign debt securities, held by the Issuer as a result of movements in market variables (including, but not limited to, interest rates, stock market prices and/or exchange rates) or other factors that could trigger a deterioration in the capital solidity of the Issuer and/or Mediobanca's subsidiaries.

What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

General

- The Securities may not be a suitable investment for all investors. Investors should be aware that they may lose the value of their entire investment or part of it, as the case may be. An investment in the Securities, which are linked to the Underlying References, may entail significant risks not associated with investments in conventional securities such as debt or equity securities. Set out below is a description of the most common risks.

Risks related to the structure of a specific issue of Securities

- The Securities involve a high degree of risk, which may include, among others, interest rate, foreign exchange, time value and political risks. Investors should be prepared to sustain a partial or total loss of the subscription or purchase price of the Securities. Certain general risk factors related to the Securities referencing an Underlying Reference, including that the market price of the Securities may be volatile; that investors may receive no remuneration; that investors may lose all or a substantial portion of their principal in case of non-capital guaranteed Securities; that the Underlying References may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other securities or indices; that the timing of changes in an Underlying Reference may affect the actual yield to investors, even if the average level is consistent with their expectations;; and Securities are of limited maturity and, unlike direct investments in a share, investors are not able to hold Securities beyond the Settlement Date in the expectation of a recovery in the price of the underlying.
- The occurrence of an Administrator/Benchmark Event may lead to early settlement or adjustment of the Securities, which may include selecting one or more successor benchmarks and making related adjustments to the Securities, including, if applicable to reflect increased costs.
- The Securities include an automatic early settlement feature. The longer the time remaining until the scheduled settlement date of the Securities, the higher the probability that an automatic early settlement event will occur.

Considerations Associated with specific types of Securities

- Risks associated with Multiple Final Payout – Constant Percentage Securities - Investors receive a fixed return on the Securities. This payout provides investors with total capital protection.

Risks relating to Underlying Reference Asset(s)

- In addition, there are specific risks in relation to Securities which are linked to an Underlying Reference (including Hybrid Securities) and an investment in such Securities will entail significant risks not associated with an investment in a conventional debt security. Risk factors in relation to Underlying Reference linked Securities include exposure to one or more index, adjustment events and market disruption or failure to open of an exchange which may have an adverse effect on the value and liquidity of the Securities
- In case of remuneration payable on linked remuneration amount Certificates, investors should be aware that: the market price of such Securities may be volatile, they may receive no remuneration, Underlying Reference may be subject to significant fluctuations, the timing of changes in an Underlying Reference may affect the actual yield to investors, remuneration may only be payable and/or calculated in respect of certain specified days and/or periods on or during which the Underlying Reference or its value equals, exceeds and/or is less than certain specified thresholds.

Risks related to the market generally

- Issue price and the offer price of the Securities include placement fees. The placement fees shall be paid by the Issuer to the Distributors. Any such fees may not be taken into account for the purposes of determining the price of such Securities on the secondary market and could result in a difference between the original issue price, the theoretical value of the Securities, and/or the actual bid/offer price quoted by any intermediary in the secondary market.

Certain considerations associated with public offers of Securities

- The Issuer has the right under certain conditions to withdraw the offer in relation to the Securities, which in such circumstances will be deemed to be null and void. Investors who have already paid or delivered subscription monies for the relevant Securities will be entitled to reimbursement of such amounts, but will not receive any compensation that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of such amounts.

Description of the most material conflicts of interest pertaining to the offer or the admission to trading

The following constitute material interests with respect to the issue of Securities:

Mediobanca is the Issuer of the Securities and acts also as Calculation Agent and liquidity provider for the Securities. In its capacity as Calculation Agent, Mediobanca is responsible, among the others, for determining the Remuneration Amount and the Automatic Early Settlement Amount. Mediobanca is required to carry out its duties as Calculation Agent in good faith and using its reasonable judgment.

The Issuer, Banca Monte dei Paschi di Siena S.p.A. and Banca Widiba S.p.A. are, with respect to the offering of the Certificates, in a position of conflict of interest with investors because they belong to the same banking group (the Montepaschi Banking Group), of which Banca Monte dei Paschi di Siena S.p.A. is the parent company, and they have economic interests in connection with the placement of the Certificates. The Distributors will receive from the Issuer, through the Lead Manager, the Placement Fee, as specified above in Paragraph 12 (Terms and Conditions of the Offer - Offer Price) here below.

Banca Monte dei Paschi di Siena S.p.A. is also in a position of conflict of interest because it acts as Lead Manager and as the Issuer's hedging counterparty in relation to the issuance of the Certificates.

Investors should also consider that the Issuer of the Certificates and the Distributors, or other companies belonging to the same Montepaschi Banking Group may engage in transactions relating to the Underlying, issue or place other financial instruments with the same Underlying, or participate in transactions involving such Underlying, or obtain information relating to such Underlying which they will not be obliged to disclose or share with investors; the existence of such relationships could give rise to a conflict of interest with respect to investors, as they may affect the value of the Underlying and, consequently, the Securities.

Save as described above, and except for the Placement Fees paid by the Issuer to the Distributors as described in Paragraph 12 (Terms and Conditions of the Offer - Offer Price), so far as the Issuer is aware, no other person involved in the offer of the Securities has an interest material to the offer.
